AI Se Mobile Par Apna Pehla Business

AI ki madad se, sirf mobile phone se — zero se apna pehla digital
business banane ki practical, step-by-step guide.

Sohail Dev

Pehla Edition · 2026 · Roman Hindi

Copyright aur Zaroori Soochna

© 2026 Sohail Dev. Sabhi adhikaar surakshit.

Is kitaab ka koi bhi hissa lekhak ki likhit anumati ke bina copy, dobara publish, bechna ya share karna mana hai. Aap apne personal use aur apne business ke liye prompts, templates aur checklists use kar sakte hain.

Pehla Edition: September 2026 • **Bhasha:** Roman Hindi • **Jaankari ki tarikh:** 21 September 2026

Zaroori soochna (Disclaimer)

- Kamaai ki koi guarantee nahi.** Ye kitaab hunar, tareeke aur system sikhati hai. Kitaab mein jahan bhi rupaye ki calculation hai, wo "Example calculation — ye sirf samajhne ke liye hai, guaranteed income nahi" ke roop mein hai.
- Tools aur daam badalte hain.** Apps, features, free/paid plans, fees aur niyam badal sakte hain. Kitaab mein "Last checked" tarikh di gayi hai; use karne se pehle official source par khud check kijiye.
- Ye kanooni, tax ya financial salah nahi hai.** GST, FSSAI, DPDP, copyright, IT Rules jaise vishayon par sirf basic samajh di gayi hai. Apni sthiti ke liye CA, vakeel ya official source se salah lijiye.
- Kahaniyan fictional hain.** Rahul, Priya, Imran bhai aur saare business naam (jaise Glow Salon, Chamak Car Wash) samjhaane ke liye banaye gaye hain. Kisi asli insaan ya business se milna sirf sanyog hai. Kahaniyon ke nateeje aur numbers bhi fictional hain.
- Trademarks:** Kitaab mein aaye apps aur companies ke naam (jaise Google, WhatsApp, Canva, Instagram, ChatGPT) unke maalikon ke trademark hain. Ye kitaab un companies se judi ya unke dwara prayojit nahi hai; naam sirf samjhaane ke liye hain, sifarish ke liye nahi.
- AI ka upyog:** Is kitaab ki research, likhne aur editing mein AI tools ki madad li gayi hai. Facts official ya bharosemand sources se check kiye gaye aur har chapter ke sources diye gaye hain.
- Aapki zimmedaari:** Kitaab ke tareeke apnaate waqt apne sheher ke niyam, platforms ki policies aur logon ki privacy ka dhyan rakhna aapki zimmedaari hai.

Galti ya purani jaankari dikhe to lekhak ko bataiye — agle edition mein sudhaar hoga.

Is Kitaab Ko Kaise Padhein

Ye kitaab un logon ke liye hai jinke paas **ek smartphone, internet aur seekhne ki ichha** hai — laptop, coding ya bada budget zaroori nahi. Isme **10 Parts, 50 chapters aur 8 projects** hain, jo ek kahani ki tarah ek-dosre se jude hain: AI ki samajh se shuru hokar, design, content, website, digital products, marketing, clients, pricing, automation aur safety tak.

Har chapter ka dhaancha

1 Is Chapter Mein Kya Seekhenge	2 Simple Explanation	3 Kahani	4 Important Concepts
5 Step-by-Step Mobile Process	6 AI Tool Recommendation	7 Copy-Paste Prompts	8 Prompt Ka Explanation
9 Practical Example	10 Practice Task	11 Common Mistakes	12 Quick Checklist
13 Chapter Summary	→ Next Step		

Kitaab ke nishaan (labels)

Fictional kahani / example Kahani aur numbers samjhaane ke liye hain, asli nahi.	Example calculation Sirf samajhne ke liye — guaranteed income nahi.
Last checked: [tarikh] Us din tak official source se check ki gayi jaankari.	Dhyan Dein / Kabhi nahi Galti, khatra ya niyam — inhe zaroor padhiye.
[Brackets] Prompts aur templates mein apni jaankari bhariye.	PROJECT 8 bade projects — aapke portfolio ke liye.

Padhne ke 3 raaste

AAP...	RAASTA
Bilkul naye ho	Chapter 1 se kram mein. Saath mein book ke aakhir ka 30-Day Action Plan.
Doosron ke liye kaam (service)	Part I-II → Part IV (design) → Part VI (website) → Part VIII-IX (clients, pricing) → Chapter 49-50.
Apna product banana hai	Part I-II → Part V (content) → Part VII (eBook, products) → Chapter 36, 42-43, 49-50.

Shuru karne se pehle

- Ek Android/iPhone, internet, aur ek Google account.
- Phone mein ek note "Meri AI Business Journey" (Chapter 1) — aur har Practice Task zaroor kijiye.

Kahani Ke Kirdaar

Is kitaab ki har seekh ek kahani se aati hai. Ye sab **fictional** kirdaar hain — asli log ya asli nateeje nahi.

Rahul

STUDENT • SERVICE RAASTA

19 saal, chhote sheher ka college student. Laptop nahi, sirf phone. Local businesses ke liye posters, websites aur Google profile ka kaam seekhta hai.

Priya

HOME TIFFIN • PRODUCT RAASTA

"Priya Ki Rasoi" chalati hai. Kam samay, calls se ghabrahat — isliye eBook aur planner jaise digital products ka raasta.

Imran bhai

MENTOR

Rahul ke college senior; chhote dukaanon ke liye kaam karte hain. Seedhi, imaandaar salah — "pehle likh, tere paas kya hai".

Neha ji

GLOW SALON

Salon owner. Google profile, campaign aur WhatsApp Business ki kahaniyon mein.

Gupta ji

SWAAD RASOI

Restaurant owner. Project 1 ka Weekend Thali poster aur Festival Pack.

Deepak

CHAMAK CAR WASH

Car wash owner. Project 3 ki website, handover aur chatbot ki kahani.

Sameer

KULHAD CORNER

Chai ki dukaan. Design aur content ke shuruaati examples.

Sharma ji

SHARMA GENERAL STORE

Kirana store. Website ki shuruaat aur festival template ki kahani.

Vikram

FITZONE GYM

Naya gym owner — portfolio aur referral ki kahani.

Karan ji

SPARKLE CAR SPA

Naya client — outreach, pricing aur delivery ki kahani.

Vishay-Suchi (Contents)

PART I	AI Ki Shuruaat	1
01	Rahul Ki Kahani: Sirf Ek Mobile Se Shuruaat	2
02	AI Kya Hai aur Kaise Kaam Karta Hai	10
03	AI Kya Kar Sakta Hai, Kya Nahi	18
04	Apna Pehla Chat AI: Mobile Par Setup	26
05	Fact-checking aur Responsible AI Use	34
PART II	Prompt Likhna Seekhein	42
06	Prompt Kya Hai: Simple vs Detailed Prompt	43
07	Prompt Ka Formula: Role, Context, Task, Goal	51
08	Examples, Format aur Tone Dena	59
09	Follow-up, Correction aur Research Prompts	67
10	Business aur Marketing Prompts	75
11	Apni Personal Prompt Library Banana	83
PART III	AI Tools Ki Duniya	91
12	AI Tools Ki Categories aur Sahi Tool Chunna	92
13	Core Mobile Toolkit Setup	101
PART IV	AI Se Design aur Poster	110
14	Design Ki Basic Samajh	111
15	Canva Mobile Workflow: Pehla Design	120
16	AI Se Image aur Visual Concept Banana	128
17	Project 1: Restaurant Offer Poster PROJECT	136
18	Social Creatives aur Branding Kit	145
PART V	AI Se Content Creation	153
19	Content Kya Hai aur Content Pillars	154

21	Reels aur YouTube Scripts	170
22	Project 2: 30-Day Instagram Content Plan PROJECT	179
23	WhatsApp, Email, Blog aur Product Descriptions	187
PART VI	AI Se Website aur Local Online Presence	195
24	Website Kya Hai: Domain, Hosting aur Landing Page	196
25	Website Planning: Structure aur Pages	204

26	No-Code AI Website Builder Se Website	213
27	AI-Assisted Coding Workflow (Optional Level)	221
28	Website Essentials: Buttons, SEO, Testing aur Publish	229
29	Google Business Profile aur Local Search	238
30	Project 3: Local Business Website PROJECT	247

PART VII AI Se eBook aur Digital Products

257

31	eBook Idea, Target Reader aur Outline	258
32	AI-Assisted Writing, Editing aur Fact-check	268
33	Cover, Page Layout aur PDF	277
34	Digital Products: Templates, Prompt Packs aur Checklists	285
35	Project 4: eBook / Digital Product Publish aur Sell PROJECT	294

PART VIII Marketing, Portfolio aur Clients

305

36	Marketing Ki Basic Samajh	306
37	WhatsApp Business Marketing aur Business AI	315
38	Project 5: Local Marketing Campaign PROJECT	325
39	Project 6: Portfolio Bina Client Ke PROJECT	334
40	Client Dhoondhna: Research aur Demo Project	344
41	Outreach, Follow-up aur Client Se Sahi Sawal	353

PART IX Business, Offer, Pricing aur Income

362

42	Apna Business Model Chunna	363
43	Realistic Income Models	373
44	Project 7: Offer Banana aur Pricing PROJECT	382
45	Delivery, Revisions, Payment aur Invoice	391
46	Repeat Clients, Maintenance aur Referrals	401

PART X Automation, Safety aur Aage Ka Raasta

410

47	Automation Kya Hai: Forms, Sheets aur Workflows	411
48	Chatbot, AI Agent aur API — Simple Samajh	420
49	Business Safety: Copyright, Privacy aur Scams	428
50	Project 8: Complete Mobile AI Business Workflow PROJECT	437

+ 30-Day Plan, Bonuses aur Reference

448

•	30-Day Action Plan	449
•	Bonus 1: 110 Copy-Paste AI Prompts	459
•	Bonus 2: 50 AI Business Ideas	464

▪ Bonus 3–5: Outreach Templates (WhatsApp, Instagram, Email)	467
▪ Bonus 6–7: Pricing aur Business Planning Worksheets	469
▪ Bonus 8–11: Checklists (+ Safety Checklist)	472
▪ Bonus 12: AI Tool Selection Cheat Sheet	475
▪ Bonus 13: 30-Day Action Sheet	477
▪ Tool Update Page	479
▪ Glossary (Shabdkosh)	481
▪ Conclusion aur Next Steps	486
▪ References / Sources	488
▪ Lekhak Ke Baare Mein	492

PART I

01

AI Ki Shuruaat

Zero se shuru karke AI ki simple samajh, uski limits, apna pehla AI app, aur har jawab ko check karne ki aadat.

Chapter 1 – 5

01

Rahul Ki Kahani: Sirf Ek Mobile Se Shuruat

Ek phone, thoda time aur seekhne ki ichha — yahin se aapka safar shuru hota hai.

1 Is Chapter Mein Kya Seekhenge

- 1 Ye book kaise kaam karegi aur isse zyada fayda kaise lein
- 2 Zero se apne pehle Business tak ka poora roadmap
- 3 "Sirf Mobile se" start karne ka asli matlab kya hai
- 4 Apna "Starting Point" note banana — aaj hi, apne phone par

2 Simple Explanation

Aapne shayad kahin suna hoga: "AI se sab kuch ho jaata hai." Ya phir: "AI seekhne ke liye laptop, coding aur bahut paisa chahiye." Sach in dono ke beech mein hai.

AI (Artificial Intelligence) aaj ek aisa **assistant** ban chuka hai jo aapke Mobile phone mein chalta hai. Ye aapke liye likh sakta hai, ideas de sakta hai, design mein help kar sakta hai aur kaam ko tez bana sakta hai. Lekin **faisle aap lenge, kaam ki quality aap check karenge, aur customers se rishta aap banayenge.**

Ye book aapko ek-ek kadam sikhayegi ki Mobile aur AI ki madad se useful digital kaam kaise banayein — poster, Content, Website, eBook — aur us kaam ko ek chhote, realistic Business mein kaise badlein.

IS BOOK KA TAREEKA

Padho → Karo → Check karo → Aage badho. Har chapter mein ek chhota kaam hai jo aap apne phone par karenge. Sirf padhne se skill nahi aati; karne se aati hai.

Aapka poora safar — ek nazar mein

1 Zero Knowledge	2 AI Samjho	3 Prompt Likhna
4 AI Tools	5 Design	6 Content
7 Website	8 eBook / Digital Product	9 Marketing
10 Portfolio	11 Clients	12 Offer + Pricing
13 Delivery + Payment	14 Repeat Clients	15 Automation
16 Safety	17 Business Workflow	18 Apna AI Business

Aap is list mein abhi Step 1 par hain — aur ye bilkul theek hai. Har expert kabhi yahin se shuru hua tha.

3 Kahani: Do Log, Ek Phone, Pehla Din

Note: Rahul aur Priya is book ke fictional characters hain. Inki kahani aapko samjhane ke liye hai — ye real log ya real results nahi hain.

RAHUL

Rahul 19 saal ka hai aur ek chhote sheher ke college mein padhta hai. Uske paas ek Android phone hai aur roz ka data pack. Laptop nahi hai.

Ek shaam woh Instagram par scroll kar raha tha. Ek video mein koi keh raha tha: "AI se ek mahine mein lakhon kamao!" Doosri video mein koi keh raha tha: "AI sab ki naukri kha jayega."

Rahul confuse ho gaya. Usne phone rakha aur socha:

"Mujhe na coding aati hai, na design, na Business ka koi idea. Kya main sach mein AI se kuch kar sakta hoon? Ya ye sab sirf video banane walon ki baatein hain?"

Agle din woh apne college ke ek senior, Imran bhai, se mila — jo chhote dukaanon ke liye posters aur social media ka kaam karte the. Imran bhai ne hans kar kaha:

"Lakhon wali video par bharosa mat kar, aur dar wali video par bhi nahi. Ek phone kaafi hai shuru karne ke liye. Lekin pehle ye likh ki tere paas kya hai — time, skill, paisa. Wahi tera starting point hai."

PRIYA

Priya 32 saal ki hai. Ghar sambhalti hai, do bachche school jaate hain, aur din mein uske paas kuch ghante khaali hote hain. Uske haath ka khaana mohalle mein mashhoor hai. Kai log keh chuke hain: "Tiffin service kyun nahi shuru karti?"

Priya ka dar alag tha:

"Customer kaise milenge? Menu ka poster kaun banayega? Order kaise sambhalungi? Aur ye AI-wAI mujhse nahi hoga."

Uski chhoti behen ne use ek AI app dikhaya. Priya ne voice se poochha: "Ghar se tiffin service shuru karne ke liye pehla kadam kya hai?" Jawab mein ek saaf, seedhi list aayi. Priya ko pehli baar laga — shayad ye mushkil nahi, bas naya hai.

Dono ka situation alag hai. Rahul doosron ke liye kaam karna chahta hai (Service). Priya apna khud ka kaam badhana chahti hai. Lekin dono ki shuruaat ek jaisi hai: **ek phone, thoda time, aur seekhne ki ichha.**

Is book mein aap dono ke saath challenge. Kabhi aap Rahul mein khud ko dekhenge, kabhi Priya mein.

4 Important Concept: Asli Formula

AI ek tool hai — jaise hathoda. Hathoda kharidne se ghar nahi banta. Ghar banta hai jab koi seekhe, roz thoda kaam kare, aur galtiyon se sudhre. Is book ka asli formula ye hai:

Dhyan dijiye — formula ka result **"Progress"** hai, "Guaranteed Income" nahi.

INCOME KE BAARE MEIN SEEDHI BAAT

Ye book aapko koi income, Client ya sale ki guarantee nahi deti. Income person ke skill, market, pricing, consistency, Client demand, competition aur kai doosre factors par depend karti hai. Jahan bhi book mein paison ki baat aayegi, wahan clearly likha hoga ki woh sirf samjhane ke liye example hai.

"Mobile-first" ka matlab kya hai?

Mobile-first ka matlab hai ki is book ka har zaroori kaam aap **phone se shuru** kar sakte hain. Laptop zaroori nahi hai.

Kuch kaam — jaise lambi Website editing — computer par thode aasaan hote hain. Jab aisa hoga, book aapko ek chhote box mein saaf bata degi: *Mobile se kya possible hai, computer kab useful hai, aur beginner ko kya karna chahiye*. Aapko kuch naya kharidne ke liye majboor nahi kiya jayega.

Is book mein aapko ye boxes milenge

TIP

Chhoti, kaam ki salah.

DHYAN DEIN

Wo baat jahan beginners aksar atakte hain.

COMMON MISTAKE

Galti, aur uska sahi tareeka.

CHECKLIST

Chapter ke end mein tick karne wali list — taaki pata chale aapne sach mein kiya.

5

Step-by-Step Mobile Process: Apna Starting Point Banao

Aaj ka kaam simple hai: apne phone mein ek note banana jo aapka "Starting Point" hoga. Ise aap book khatam hone par dobara dekhenge aur apni progress compare karenge.

1

Notes app kholiye

Har phone mein Notes ya Keep jaisa koi app hota hai. Koi bhi chalega. Naya note banaiye.

2

Title likhiye: "Meri AI Business Journey"

Neeche aaj ki date likhiye. Date isliye, taaki baad mein pata chale aap kahan se chale the.

3

Apni skills aur interests likhiye

Chhoti se chhoti cheez bhi. Achha khaana banana, logon se baat karna, WhatsApp chalana, drawing, hisaab-kitaab — sab skill hai.

4

Roz ka free time likhiye

Imaandaari se. Agar sirf 30 minute hain, to 30 hi likhiye. Kam time + roz ka kaam, zyada time + kabhi-kabhi ke kaam se behtar hai.

5 Budget likhiye

Kitna paisa lagane ke liye ready hain? Zero bhi ek sahi jawab hai — is book ka shuruaati hissa free tools se chalega.

6 30-din ka "skill goal" likhiye

Paise ka goal nahi, skill ka goal. Jaise: "30 din mein main ek business ke liye poster aur ek chhoti Website bana sakoon."

7 Note ko pin kar dijiye

Har Part khatam hone par is note mein ek line jodiye: "Aaj maine kya naya seekha."

DHYAN DEIN

Is note mein password, bank details, Aadhaar number ya OTP jaisi cheezein kabhi mat likhiye. Ye sirf aapki learning ka note hai.

6 AI Tool Recommendation

Aaj koi AI tool nahi. Ye jaan-boojh kar hai.

Is book ka ek rule hai: **ek concept → ek example → ek tool → ek kaam**. Pehle din 10 apps download karne se confusion badhta hai, skill nahi. Aapka pehla AI app Chapter 4 mein aayega, jab aap samajh chuke honge ki AI hai kya aur usse kya ummeed rakhni chahiye.

TIP

Agar aapke phone mein pehle se koi AI app hai, to use abhi delete karne ki zaroorat nahi. Bas Chapter 4 tak "kuch bhi try karne" ki jaldi mat kijiye.

7 Copy-Paste Prompts

Is chapter mein koi Prompt nahi hai. Prompt kya hota hai aur achha Prompt kaise likhte hain — ye aap Part II (Chapter 6 se 11) mein detail mein seekhenge. Wahan se har chapter mein ready-to-use Prompts milenge.

8 Prompt Ka Explanation

Prompt nahi hai, to explanation bhi chhota hai: **Prompt** wo sandesh hai jo aap AI ko likhte ya bolte ho. Jitna saaf sandesh, utna kaam ka jawab. Aaj ka "Starting Point" note hi aage aapke Prompts ka

kachcha maal banega — kyunki AI ko jitna zyada **aapke baare mein** pata hoga, utna sahi jawab dega.

9 Practical Example: Rahul aur Priya ke Notes

Dekhiye dono ne apna Starting Point kaise bhara. (Fictional example.)

Rahul		Priya	
STARTING POINT		STARTING POINT	
Skills	Logon se baat karna, Instagram chalana, thoda drawing	Skills	Khaana banana, ghar ka hisaab, WhatsApp
Interest	Design, local dukaanon ki help	Interest	Tiffin service, ghar se kaam
Roz ka time	1 ghanta (college ke baad)	Roz ka time	45 minute (dopahar mein)
Budget	Abhi zero	Budget	Thoda sa, lekin pehle free tools
30-din goal	Ek dukaan ke liye poster aur 1-page Website banana seekhna	30-din goal	Apne tiffin ka menu poster aur WhatsApp order system banana

Dhyan dijiye: dono ke goals chhote aur saaf hain. Kisi ne "ek mahine mein ₹50,000" nahi likha. Chhota, clear goal poora hota hai — aur poora hua goal agla kadam uthane ki himmat deta hai.

10 Practice Task: "Mera Starting Point"

Ab aapki baari. Neeche wali worksheet ko apne phone ke note mein copy kijiye aur bhariye. Isme 10 minute se zyada nahi lagne chahiye.

Mera Starting Point

DATE: _____

Meri 3 skills

Mujhe kis kaam mein
maza aata hai

Roz ka free time

Budget

Mere paas kya hai

Mera 30-din skill goal

Main ye kyun seekh
raha/rahi hoon

"Mere paas kya hai" mein likhiye: phone ka type, internet, koi dost/rishtedaar jiska business hai, koi jaan-pehchaan wali dukaan — ye sab aage kaam aayega.

11

Common Mistakes

GALTI	SAHI TAREEKA
Pehle hi din income ka bada target rakhna	Pehle 30 din ka skill goal rakhiye. Income baad ki baat hai aur guaranteed nahi hoti.
Ek saath 10 AI apps download karna	Book ke saath chaliye. Har tool tab aayega jab uski zaroorat hogi.
"Pehle laptop khareedunga, phir shuru karunga"	Phone se aaj shuru kijiye. Computer ki zaroorat kab aur kitni hai, book khud batayegi.
Sirf padhte rehna, task skip karna	Har chapter ka task kijiye — chahe chhota ho. Skill karne se aati hai.
Doosron se apni tulna karna	Apne Starting Point se tulna kijiye. Wahi aapki asli progress hai.

12 Quick Checklist

- ☐ Maine book ka roadmap dekh liya hai aur samajh gaya/gayi ki main Step 1 par hoon
- ☐ Maine apne phone mein "Meri AI Business Journey" note bana liya hai
- ☐ Maine apni skills, roz ka time aur budget imaandaari se likha hai
- ☐ Maine 30-din ka ek chhota **skill** goal likha hai
- ☐ Mujhe samajh aa gaya ki ye book income ki guarantee nahi deti
- ☐ Maine note ko pin kar diya hai

13 Chapter Summary

KEY TAKEAWAYS

- AI ek assistant hai — faisla, quality aur customer ka rishta aapke haath mein hai.
- Shuru karne ke liye ek Mobile phone, internet aur roz thoda time kaafi hai.
- Asli formula: Skill + Time + Consistency + AI = Progress (guaranteed income nahi).
- Har chapter mein ek task hai — padhna aur karna, dono zaroori hain.
- Aapka "Starting Point" note is poori journey ka pehla kadam hai.

Next Step — Chapter 2: AI Kya Hai aur Kaise Kaam Karta Hai

Agle chapter mein Rahul ko pata chalega ki uske phone ka keyboard aur ek Chat AI mein kya rishta hai — aur aap bina kisi technical shabd ke samjhenge ki AI andar se kaam kaise karta hai.

02

AI Kya Hai aur Kaise Kaam Karta Hai

Aapka phone keyboard aur ek Chat AI — dono mein kya rishta hai?

Chapter 1 mein aapne apna Starting Point likha — apni skills, time aur 30-din ka goal. Ab safar ka pehla asli kadam: samajhna ki jis AI ke saath aap kaam karne wale hain, woh hai kya.

1 Is Chapter Mein Kya Seekhenge

- 1 AI ka simple matlab — bina kisi technical shabd ke
- 2 AI, Generative AI aur Chat AI mein farq
- 3 Chat AI andar se jawab kaise banata hai (3 simple steps mein)
- 4 AI ke baare mein 4 common galatfehmiyan

2 Simple Explanation

AI ka poora naam hai **Artificial Intelligence**. "Artificial" matlab insaan ka banaya hua, aur "Intelligence" matlab samajh. To AI ka seedha matlab hai: **computer ko aisa kaam karna sikhana jo pehle sirf insaan kar pata tha** — jaise likhna, pehchanna, sujhaav dena.

Normal software ek fixed rule follow karta hai. Calculator ko "2 + 2" do, woh hamesha "4" dega. Usne kuch "seekha" nahi hai — use bas bataya gaya hai.

AI alag hai. Use hazaron-lakhon examples dikha kar **patterns** (baar-baar dikhne wale tareeke) seekhne diye jaate hain. Phir woh naye sawal par apne seekhe hue patterns se jawab banata hai.

EK LINE MEIN YAAD RAKHIYE

Normal software **rule** follow karta hai. AI **examples se seekhe patterns** follow karta hai.

Aap shayad roz AI use karte hain — bina jaane

Aapke phone mein kai cheezein aisi hain jinme aksar AI ya "machine learning" (examples se seekhne wala system) ka use hota hai:

- **Keyboard suggestions** — aap type karte ho, agla shabd pehle se dikh jaata hai.
- **YouTube / Instagram recommendations** — "aapko ye video pasand aa sakti hai".
- **Email ka spam folder** — faltu mail apne aap alag ho jaati hai.
- **Photo gallery search** — "dog" likho aur kutte ki photos saamne.

In sab mein ek baat common hai: system ne pehle bahut saare examples dekhe, aur ab woh andaaza laga raha hai.

3 Kahani: Rahul Ka Keyboard

Fictional kahani — Rahul, Imran bhai aur Priya is book ke characters hain.

RAHUL

Rahul apne dost ko WhatsApp par message likh raha tha. Usne type kiya: "Kal college mein" — aur keyboard ne upar teen shabd dikhaye: "milte", "aana", "kya".

Rahul ko ye roz dikhta tha, par aaj pehli baar usne socha: "Isko kaise pata ki main aage kya likhne wala hoon?"

Shaam ko usne Imran bhai se poochha. Imran bhai ne apna phone nikala aur ek chhota khel khilaya:

"Type kar 'Aaj main' — aur ab bas beech wala suggestion dabata ja. Dekh kya banta hai."

Rahul ne dabaya: "Aaj main ghar par hi rahunga aur kal subah jaldi uthna hai..." Ek poora sentence ban gaya — bina usne kuch socha.

"Bas yahi hai Chat AI ka dil," Imran bhai bole. "Tera keyboard sirf tere messages se agla shabd guess karta hai. Chat AI ne itna zyada text padha hai ki woh sirf agla shabd nahi — poora jawab, poori chitthi, poora poster idea guess kar leta hai. Aur bahut achhe se."

Rahul ne poochha: "To kya AI sochta hai?"

"Insaan ki tarah nahi. Woh patterns se sabse sahi lagne wala jawab banata hai. Isliye kabhi-kabhi woh bahut confident hokar galat bhi bol deta hai. Wo agle chapter mein samjhaunga."

4 Important Concepts

AI, Generative AI aur Chat AI — farq kya hai?

Ye teen shabd aap baar-baar sunenge. Inko ek parivaar ki tarah samjhiye:

AI

Bada parivaar — har woh system jo examples se seekh kar kaam karta hai. Jaise spam filter, recommendations.

GENERATIVE AI

AI ka woh hissa jo **naya content banata hai** — text, image, awaaz, video.

CHAT AI

Generative AI jisse aap **baat karke** kaam karwate ho. Jaise ChatGPT, Claude, Gemini.

TYPE	KYA KARTA HAI	BUSINESS MEIN KAAM
Text AI	Likhta hai — message, caption, script, article	WhatsApp message, Instagram caption
Image AI	Tasveer banata ya edit karta hai	Poster ka background, product visual
Voice AI	Text ko awaaz ya awaaz ko text mein badalta hai	Voice se note likhna, voiceover
Video AI	Chhote video clips banata/edit karta hai	Reel editing, captions

Is book mein sabse zyada kaam **Chat AI** se hoga, kyunki wahi aapka roz ka assistant banega. Baaki types tab aayenge jab unki zaroorat hogi.

Chat AI jawab kaise banata hai — 3 steps

1

Padhai (Training)

Banne se pehle AI ko bahut saara likha hua text dikhaya gaya — books, websites, articles jaisa content. Isse usne seekha ki shabd aur ideas aapas mein kaise judte hain.

2

Samajh (Patterns)

Usne yaad nahi kiya, balki patterns seekhe — sawal ke baad kaisa jawab aata hai, email kaise shuru hoti hai, poster headline kaisi hoti hai.

3

Jawab (Guess)

Aap sawal poochhte ho to woh ek-ek hissa jod kar sabse sahi lagne wala jawab banata hai — bilkul keyboard ki tarah, bas bahut bade level par.

ISSE EK ZAROORI BAAT NIKALTI HAI

Chat AI "sabse sahi lagne wala" jawab banata hai — hamesha "sach" jawab nahi. Zyadatar ye dono ek hi hote hain, lekin hamesha nahi. Isliye AI ke jawab ko check karna aapka kaam hai. Chapter 3 aur 5 mein ye detail mein seekhenge.

4 Common Galatfehmiyan

GALATFEHMI	SACH
"AI ko sab kuch pata hai."	AI ne jo padha usi se patterns banaye. Nayi, local ya bahut specific jaankari mein woh galti kar sakta hai.
"AI insaan ki tarah sochta aur samajhta hai."	AI patterns se jawab banata hai. Uske paas insaan jaisa anubhav, bhavna ya zimmedaari nahi hoti.
"AI use karne ke liye coding aani chahiye."	Chat AI se aap normal bolchaal ki language mein baat karte ho — Hindi, English ya dono mix.
"AI mera kaam poora kar dega, mujhe kuch nahi karna."	AI draft deta hai. Final kaam — check karna, sudhaarna, customer se baat — aap karte ho.

5

Step-by-Step Mobile Process: Keyboard Experiment

Ye experiment aapko 2 minute mein dikha dega ki Chat AI ka basic idea kya hai. Koi naya app nahi chahiye.

1

Koi bhi typing wala app kholiye

Notes app ya WhatsApp ka apna "Message Yourself" chat — kahin bhi jahan keyboard khule.

2 Type kijiye: "Aaj main"

Keyboard ke upar suggestions dikhenge. Agar suggestions band hain, to keyboard settings mein "next-word suggestions" ya "predictive text" on kijiye.

3 10 baar beech wala suggestion dabaiye

Khud kuch mat likhiye. Dekhiye kaunsa sentence banta hai.

4 Dost se bhi yahi karwaiye

Unka sentence alag hoga — kyunki unka keyboard unke messages se seekha hai. Yahi "patterns se seekhna" hai.

5 Apna result note mein likhiye

Apne "Meri AI Business Journey" note (Chapter 1) mein likhiye: "Aaj maine dekha ki AI patterns se guess karta hai."

ISSE KYA SEEKHA?

Aapka keyboard ek bahut chhota "AI" hai jo sirf agla shabd guess karta hai. Chat AI isi idea ka bahut bada aur zyada samajhdaar roop hai.

6 AI Tool Recommendation

Koi ek Chat AI — ChatGPT, Claude ya Gemini. Teeno ke free plans mobile app par chalte hain.

DHYAN DEIN

App ko sahi tareeke se install aur set karna hum **Chapter 4** mein step-by-step seekhenge — kaunsa app asli hai, kaunsa fake, aur kaise login karein. Agar aapke phone mein pehle se inme se koi official app hai, to neech wale Prompts abhi try kar sakte hain. Nahi hai, to Prompts save kar lijiye aur Chapter 4 ke baad chalaiye — isme koi nuksaan nahi.

7 Copy-Paste Prompts

PROMPT 1 — AI KA SIMPLE MATLAB

Mujhe AI ka matlab ek 10 saal ke bachche ki tarah samjhao. Simple Hindi mein, English letters mein likho (jaise "Aap kaise ho"). 5 short lines, aur ek daily life example ke saath.

PROMPT 2 — FARQ SAMJHO

Calculator jaise normal software aur Generative AI mein 3 main farq batao. Table format mein: Point | Normal Software | Generative AI. Simple language.

PROMPT 3 — BUSINESS KI NAZAR SE

Main ek beginner hoon aur sirf Mobile phone se chhota business shuru karna chahta hoon. Generative AI mere kin 5 kaamon mein help kar sakta hai? Har kaam ke saath ek line ka example do. Koi income promise mat karna.

8 Prompt Ka Explanation

PROMPT KA HISSA	YE KYUN LIKHA
"10 saal ke bachche ki tarah"	AI ko batata hai ki kitna simple likhna hai. Iske bina jawab technical ho sakta hai.
"English letters mein Hindi"	Jawab ki language aur script fix karta hai — warna AI Devanagari ya pure English mein likh sakta hai.
"5 short lines"	Length control. Chhota jawab mobile par padhna aasaan hai.
"Table format"	Output ka shape batata hai — comparison ke liye table sabse saaf rehti hai.
"Koi income promise mat karna"	AI ko limit (constraint) dena ki woh hawa-hawai dawe na kare.

Aapne dekha — har line AI ko ek chhota sa instruction de rahi hai. Yahi Prompt likhne ki shuruaat hai, jo Part II mein poori detail se seekhenge.

9 Practical Example: Rahul Ki 5 Lines

Keyboard experiment aur Prompt 1 ke baad Rahul ne apne note mein AI ko **apne shabdon mein** aise explain kiya (fictional example):

Rahul ke shabdon mein: AI kya hai

MERI SAMAJH

1. AI ek computer system hai jo bahut saare examples dekh kar patterns seekhta hai.
2. Generative AI naya content banata hai — text, photo, awaaz.
3. Chat AI se main normal language mein baat karke kaam karwa sakta hoon.
4. Ye mere keyboard jaisa hai, bas bahut bada — agla shabd nahi, poora jawab guess karta hai.
5. Isliye ye galat bhi ho sakta hai, final check mujhe karna hai.

Dhyan dijiye: Rahul ne AI ka jawab copy nahi kiya. Usne padha, samjha aur apne shabdon mein likha. Apne shabdon mein likh paana hi samajhne ka saboot hai.

10 Practice Task

Task 1 (sab ke liye): Keyboard experiment kijiye aur jo sentence bana use note mein save kijiye.

Task 2 (agar Chat AI app hai): Upar ke 3 Prompts chalaiye. Har jawab padhiye.

Task 3 (sab ke liye): AI ko apne shabdon mein 5 lines mein explain kijiye — bina kisi jawab ko copy kiye. Apne "Meri AI Business Journey" note mein save kijiye.

Bonus: Ghar mein kisi ko ye 5 lines sunaiye. Agar woh samajh gaye, to aap bhi sach mein samajh gaye.

11 Common Mistakes

GALTI	SAHI TAREEKA
AI ka jawab bina padhe copy-paste karna	Pehle padhiye, samajhiye, phir apne shabdon mein likhiye.
Technical definitions yaad karne ki koshish	Sirf idea samajhiye: AI examples se patterns seekhta hai. Itna kaafi hai.
AI ko insaan ya "sab jaanne wala" maan lena	AI ek assistant hai jo guess karta hai. Uska jawab check karna aapka kaam hai.
"Coding nahi aati, to AI mere liye nahi"	Chat AI normal bolchaal ki language samajhta hai. Coding zaroori nahi.

12 Quick Checklist

- ☐ Main AI ka matlab ek line mein bata sakta/sakti hoon
- ☐ Mujhe AI, Generative AI aur Chat AI ka farq samajh aa gaya
- ☐ Maine keyboard experiment kiya
- ☐ Mujhe pata hai ki Chat AI "sabse sahi lagne wala" jawab banata hai, hamesha sach nahi
- ☐ Maine AI ko apne shabdon mein 5 lines mein likh kar note mein save kiya

13 Chapter Summary

KEY TAKEAWAYS

- AI = computer jo examples se patterns seekh kar kaam karta hai. Normal software sirf fixed rules follow karta hai.
- Generative AI naya content banata hai; Chat AI usse baat karke kaam karwane ka tareeka hai.
- Chat AI ka kaam: Padhai (training) → Patterns → Jawab ka guess — keyboard suggestion ka bada roop.
- Isliye AI kabhi confident hokar galat bhi ho sakta hai — check karna aapka kaam hai.
- AI use karne ke liye coding nahi, saaf baat karna aana chahiye.

Next Step — Chapter 3: AI Kya Kar Sakta Hai, Kya Nahi

Priya AI se apne mohalle ki ek dukaan ka phone number poochhti hai — aur AI poore bharose se galat number de deta hai. Agle chapter mein samjhenge ki AI kahan kamaal karta hai, kahan galti karta hai, aur aap us galti ko kaise pakdein.

03

AI Kya Kar Sakta Hai, Kya Nahi

AI kahan kamaal karta hai, kahan galti — aur us galti ko kaise pakdein.

1 Is Chapter Mein Kya Seekhenge

- 1 AI kin kaamon mein sach mein kamaal karta hai
- 2 AI kahan galti karta hai — aur kyun
- 3 "Hallucination" kya hai aur use kaise pakdein
- 4 Traffic Light Rule: kab AI par bharosa, kab check, kab bilkul nahi

2 Simple Explanation

Pichhle chapter mein aapne dekha ki Chat AI patterns se "**sabse sahi lagne wala**" jawab banata hai. Is ek baat se do cheezein nikalti hain:

- Jahan kaam **likhne, sochne, sudhaarne** ka hai — wahan AI bahut tez aur kaafi achha hai.
- Jahan kaam **ek exact sach** ka hai — phone number, price, date, naam, latest khabar — wahan AI galti kar sakta hai, aur galti bhi poore bharose ke saath.

Isliye smart user woh nahi jo AI par andha bharosa kare, aur woh bhi nahi jo AI se darr kar door rahe. Smart user woh hai jo jaanta hai **kab bharosa karna hai aur kab check karna hai**.

EK LINE MEIN YAAD RAKHIYE

AI **likhne** mein strong hai, **sach batane** mein kabhi-kabhi kamzor. Draft AI se lo, facts khud check karo.

3 Kahani: Priya Aur Galat Phone Number

Fictional kahani — Priya aur Imran bhai is book ke characters hain.

PRIYA

Priya ko apne tiffin ke liye steel ke dabbe chahiye the. Usne apni behen ke phone mein Chat AI khola aur voice se poochha: "Mere area mein steel ke tiffin dabbe bechne wali dukaan ka naam aur phone number batao."

Jawab turant aaya — ek dukaan ka naam, poora address aur ek 10 digit ka number. Bilkul pakke tone mein.

Priya ne call kiya. Saamne se awaaz aayi: "Galat number hai, ye koi dukaan nahi." Address par gayi to wahan us naam ki koi dukaan thi hi nahi.

Priya pareshaan hui. Shaam ko usne Rahul ko ye baat batayi — aur Rahul ne Imran bhai se poochha. Imran bhai ne samjhaya:

"AI ne number dhoondha nahi, **banaya**. Use pata tha ki dukaan ke jawab mein naam, address aur number hota hai — to usne aisa jawab bana diya jo sahi lagta tha. Isko hallucination kehte hain."

Priya ne poochha: "To phir AI kis kaam ka?"

"Dukaan dhoondhne ke liye Google Maps use karo. Lekin jab dukaan mil jaaye aur tumhe unhe ek polite WhatsApp message likhna ho — tab AI se likhwao. Har kaam ka sahi auzaar hota hai."

4

Important Concepts

AI kin kaamon mein strong hai

Likhna aur draft banana

Message, caption, email, script, product description ka pehla draft.

Ideas dena

Offer ideas, poster concepts, content topics, business names.

Sudhaarna aur chhota karna

Lamba text chhota karna, tone badalna, galtiyan sudhaarna.

Format badalna

Paragraph ko list, table, steps ya script mein badalna.

Samjhana

Mushkil topic ko simple language mein explain karna.

Planning

Checklist, weekly plan, content calendar ka structure.

AI kahan kamzor hai

Latest jaankari

AI ki "padhai" ek date tak hoti hai. Uske baad ki khabar, naye offers, badle hue rules — ho sakta hai use na pata ho.

Local jaankari

Aapke mohalle ki dukaan, uska number, timing — ye AI aksar galat bata sakta hai.

Exact facts aur numbers

Price, date, statistics, naam — AI bana bhi sakta hai. Hamesha check kijiye.

Aapka business

AI ko aapke customers, prices, area ke baare mein kuch nahi pata — jab tak aap na batayein.

INTERNET SEARCH WALE AI KE BAARE MEIN

Kuch Chat AI apps ab internet par search karke bhi jawab dete hain aur source link dikhate hain. Isse galti kam hoti hai, lekin khatam nahi hoti. Source link khol kar dekhna phir bhi aapka kaam hai.

Hallucination kya hai?

Hallucination tab hota hai jab AI koi aisi baat bana deta hai jo sach nahi hai — aur use aise bolta hai jaise woh pakka sach ho. Isme AI jhooth nahi bol raha; use khud nahi pata ki woh galat hai. Woh bas "sahi lagne wala" pattern bana raha hai.

Hallucination ke common roop:

- Naqli phone number, address ya website link
- Aisi book, research ya news ka zikr jo exist hi nahi karti
- Galat price ya purana offer
- Kisi insaan ke naam par aisi baat jo usne kabhi kahi hi nahi

Do aur kamzoriyan: Purani info aur Bias

Purani info (Outdated): AI ko ho sakta hai kisi app ka purana price ya band ho chuka offer yaad ho. Isliye is book mein har tool ki jaankari ke saath "Last checked" date likhi hogi.

Bias (jhukaav): AI ne jo padha, usme agar kisi ek tarah ki soch zyada thi, to AI ke jawab bhi usi taraf jhuk sakte hain. Jaise business examples mein sirf bade shehron ki baat karna. Aap apni situation khud batayenge to jawab behtar honge.

Traffic Light Rule

Har AI jawab ko in teen rangon mein baantiye:

GREEN — Padh kar use karo

Drafts, ideas, captions, rewriting, format badalna. Galti ho bhi to nuksaan chhota; aap padh kar khud sudhaar sakte ho.

YELLOW — Pehle check karo

Facts, numbers, dates, naam, prices, tool features, rules. Kisi reliable source se confirm kiye bina aage mat bhejo.

RED — AI par depend mat karo

Phone number/address, legal, medical ya paision ke bade faisle, kisi ki safety. Official source ya expert se hi lo.

5

Step-by-Step Mobile Process: AI Ki Galti Pakdo

Ye experiment aapko khud dikhayega ki AI kahan sahi hai aur kahan nahi. Chat AI app chahiye — agar abhi nahi hai, to Chapter 4 ke baad ye experiment zaroor kijiye.

1

AI se 5 alag tarah ke sawal poochhiye

2 general (jaise "Diwali kyun manaate hain?"), 2 local (jaise "Mere area [area ka naam] mein best chai ki dukaan ka number?"), 1 latest (jaise "Is hafte ki badi khabar kya hai?").

2

Har jawab ke aage rang lagaiye

Traffic Light Rule se: Green, Yellow ya Red. Note app mein likhiye.

3

Yellow/Red wale 2 jawab Google par check kijiye

Google Search ya Google Maps kholiye aur dekhiye ki AI ka jawab match karta hai ya nahi.

4

AI ko uski galti batayiye

Neeche wala "Correction" Prompt use kijiye aur dekhiye AI kya kehta hai.

5

Apni "AI ko kya do / kya na do" list banaiye

Apne "Meri AI Business Journey" note mein save kijiye. Ye list aage har chapter mein kaam aayegi.

6 AI Tool Recommendation

TOOL	IS CHAPTER MEIN KAAM
Koi ek Chat AI	Sawal poochhna, galti pakadna, correction Prompt
Google Search	Facts verify karna
Google Maps	Local dukaan, address, phone number dhoondhna — AI se nahi

7 Copy-Paste Prompts

PROMPT 1 — "PATA NAHI" BOLNE KI PERMISSION

Mere sheher [sheher ka naam] ki 3 famous mithai ki dukaanon ke naam aur phone number batao. Agar tumhe kisi cheez ka pakka pata nahi hai, to saaf likho "pata nahi" — andaaze se kuch mat banana.

PROMPT 2 — CONFIDENCE CHECK

Tumhare pichhle jawab mein kaunsi baatein galat ho sakti hain? Har point ke saath confidence level likho: High / Medium / Low. Aur batao ki mujhe har point kahan verify karna chahiye.

PROMPT 3 — CORRECTION

Tumne [galat baat] likha tha, lekin sahi jaankari ye hai: [sahi baat]. Apna jawab is hisaab se update karo, aur batao ki is tarah ki galti se bachne ke liye main agli baar sawal kaise poochhun.

8 Prompt Ka Explanation

PROMPT KA HISSA	YE KYUN KAAM KARTA HAI
"Pakka pata nahi to 'pata nahi' likho"	AI ko andaaza lagane ke bajaye mana karne ki ijazat deta hai. Isse hallucination kam hota hai — poori tarah khatam nahi.
"Confidence level likho"	AI se khud apne jawab ke kamzor hisse dikhwata hai, taaki aap sirf wahi check karein.
"Kahan verify karna chahiye"	Aapko check karne ka raasta milta hai — jaise official website ya Google Maps.
Correction Prompt	Naya chat shuru karne ke bajaye usi chat mein galti sudhaarna — AI ko poora context yaad rehta hai.

DHYAN DEIN

Confidence level bhi AI ka ek andaaza hi hai. "High confidence" ka matlab "pakka sach" nahi. Yellow aur Red wali cheezein hamesha khud check kijiye.

9 Practical Example: Priya Ki List

Experiment ke baad Priya ne apne tiffin kaam ke liye ye list banayi (fictional example):

AI se karwaungi	GREEN	Khud check karungi	YELLOW / RED
- Customers ke liye WhatsApp messages - Menu ke naye naam aur description - Offer ideas (festival, weekly) - Instagram captions - Apne lambe message ko chhota karna		- Dukaanon ke number, address — Google Maps se - Sabzi aur saamaan ke rate — khud market se - FSSAI jaise rules — official website se - Kisi app ka price ya offer — us app mein - Paison ke faisle — ghar walon ke saath	

Priya ne AI ko chhoda nahi — bas use sahi jagah lagaya. Ab jab usse dukaan ka number chahiye hota hai, woh Google Maps kholti hai. Aur jab dukaan wale ko polite message bhejna hota hai, tab AI.

10 Practice Task

Task 1: AI se 5 sawal poochhiye (2 general, 2 local, 1 latest) aur har jawab ko Green / Yellow / Red mark kijiye.

Task 2: Unme se 2 jawab Google Search ya Google Maps par verify kijiye. Result likhiye: sahi nikla ya galat?

Task 3: Agar koi galti mili, to Correction Prompt use kijiye.

Task 4: Apni "AI se karwaunga / Khud check karunga" list banaiye — kam se kam 5-5 points.

Chat AI app abhi nahi hai? Task 4 abhi kar lijiye (Priya ki list dekh kar), aur Task 1-3 Chapter 4 ke baad.

11 Common Mistakes

GALTI	SAHI TAREEKA
AI ke bataye phone number ya address par bharosa	Local jaankari hamesha Google Maps ya official source se lijiye.
"AI ne itne bharose se bola, to sahi hoga"	AI ka tone uske sahi hone ka saboot nahi. Yellow/Red cheezein check kijiye.
Ek galti dekh kar AI use karna chhod dena	Galti AI ki kamzori hai, bekaar hone ka saboot nahi. Use Green kaamon mein lagaiye.
Client ko AI ka likha fact bina check bhej dena	Client tak jaane wali har jaankari aapki zimmedaari hai. Pehle verify.
Apni situation na batana	AI ko apna sheher, customer aur budget bataiye — jawab zyada kaam ka hoga.

12 Quick Checklist

- ☐ Main bata sakta/sakti hoon ki AI kin 5 kaamon mein strong hai
- ☐ Mujhe hallucination ka matlab aur uske common roop pata hain
- ☐ Mujhe Traffic Light Rule yaad hai: Green, Yellow, Red
- ☐ Maine ek AI jawab khud verify kiya (ya Chapter 4 ke baad karunga/karungi)
- ☐ Meri "AI se karwaunga / Khud check karunga" list note mein save hai

13 Chapter Summary

KEY TAKEAWAYS

- AI likhne, ideas dene, sudhaarne aur samjhane mein strong hai.
- Latest, local aur exact facts mein AI galti kar sakta hai — aur poore bharose se.
- Hallucination = AI ka banaya hua, sach jaisa dikhne wala galat jawab.
- Traffic Light Rule: Green (padh kar use karo), Yellow (check karo), Red (AI par depend mat karo).
- Sahi auzaar, sahi kaam: dukaan dhoondhne ke liye Maps, message likhne ke liye AI.

Next Step — Chapter 4: Apna Pehla Chat AI: Mobile Par Setup

Rahul Play Store kholta hai aur "AI" search karta hai — 20 apps, kuch naqli logo wale. Agle chapter mein aap asli app pehchanna, install karna, login karna aur pehli 5 chats karna seekhenge.

04

Apna Pehla Chat AI: Mobile Par Setup

Asli app pehchaniye, install kijiye, aur apna pehla AI assistant set kijiye.

1 Is Chapter Mein Kya Seekhenge

- 1 Teen bade Chat AI apps — aur beginner kaunsa chune
- 2 Asli app kaise pehchanein, naqli app se kaise bachein
- 3 Install, login aur zaroori settings — step-by-step
- 4 Pehli 5 chats, voice input, aur jawab save karna

2 Simple Explanation

Ab tak aapne samjha ki AI kya hai aur kahan galti karta hai. Ab time hai apne phone mein ek **Chat AI app** rakhne ka — jo is book mein aapka roz ka assistant banega.

Aaj teen bade Chat AI apps hain jinke free plans mobile par chalte hain: **ChatGPT**, **Claude** aur **Gemini**. Teeno achhe hain. Teeno likhne, ideas dene aur samjhane mein kaam aate hain. Farq kuch features, limits aur offers mein hai — jo waise bhi baar-baar badalte rehte hain.

SABSE ZAROORI SALAH

Abhi sirf ek app chuniye. Teeno ek saath install karke har sawal teeno se poochna shuruaat mein time aur dimaag dono kharab karta hai. Ek app ko achhe se seekhiye. Baad mein doosra try karna ek minute ka kaam hai.

3 Kahani: Rahul Aur 20 "AI" Apps

Fictional kahani — Rahul aur Imran bhai is book ke characters hain.

RAHUL

Rahul ne Play Store khola aur type kiya: "AI chat". Screen apps se bhar gayi — "AI Chat Pro", "Chat GPT 5 Free Unlimited", "Smart AI Assistant", aur kai aise logo jo bilkul asli jaise dikhte the.

Ek app ne install hote hi poochha: "Unlimited AI ke liye ₹499/week subscription lijiye." Doosre ne contacts aur gallery ki permission maangi. Rahul ruk gaya aur Imran bhai ko screenshot bheja.

"Naam mat dekh, **publisher** dekh," Imran bhai ne reply kiya. "ChatGPT OpenAI ka hai, Claude Anthropic ka, Gemini Google ka. App ke naam ke neeche jo company ka naam likha hota hai — wahi asli pehchaan hai. Baaki sab ya to copy hain ya bekaar mein paise maangne wale."

Rahul ne teeno official apps dekhe. Phir Imran bhai ki salah maani — "Abhi ek chun, usi mein haath saaf kar." Usne ek app install kiya, Google account se login kiya, aur pehla sawal voice se poochha. Pehli baar use laga ki uske phone mein sach mein ek assistant hai.

4

Important Concepts

Teen official Chat AI apps

APP	PUBLISHER	FREE PLAN MEIN (SEP 2026)	INDIA NOTE
ChatGPT	OpenAI	Free plan milta hai — chat, voice dictation aur chat history ke saath. Paid vikalp: ChatGPT Go.	Free aur Go plans par ads dikh sakte hain.
Claude	Anthropic	Free plan milta hai — chat, file upload, web search aur voice mode (beta) ke saath.	Paid plan rupees mein; website se paid ke liye card chahiye, UPI abhi nahi.
Gemini	Google	Free plan available — chat, Gemini Live (voice baat-cheet), image banana/edit karna (daily limit ke saath).	Eligible Jio users ke liye Google AI Pro ka offer chal raha hai (shartein Jio par check karein).

Last checked: 21 September 2026. Plans, features aur offers badalte rehte hain — install karte waqt app ke andar "Plan" ya "Upgrade" section mein current jaankari zaroor dekhiye.

Beginner kaunsa chune?

Seedha jawab: **koi bhi ek**. Is book ke Prompts teeno mein challenge. Phir bhi, agar decide nahi ho pa raha to ye soch kar chuniye:

Aapka phone Android hai aur Google account roz use karte ho

Gemini aksar pehle se install hota hai ya aasaani se mil jaata hai — shuruaat simple rahegi.

Aapko zyada likhne aur editing ka kaam karna hai

Claude lambe text, drafts aur editing ke liye kaafi logon ki pasand hai.

Aapke dost/family pehle se ChatGPT use karte hain

Jis app mein aapke aas-paas ke log madad kar sakein, wo shuruaat mein kaam aata hai.

Aap Jio ke eligible plan par ho

Gemini ka Pro offer check kar lijiye — lekin free plan bhi shuruaat ke liye kaafi hai.

Asli app kaise pehchanein — 4 checks

- ☐ **Publisher naam:** app ke naam ke neeche OpenAI / Anthropic / Google likha ho
- ☐ **Downloads aur reviews:** official apps ke downloads bahut zyada hote hain
- ☐ **Permissions:** chat app ko shuruaat mein contacts, SMS ya call logs ki zaroorat nahi
- ☐ **Paise:** install hote hi weekly subscription maange to ruk jaiye — official apps ka free plan hota hai

NAQLI AI APPS KE KHATRE

Kuch "AI" apps sirf official AI ka copy hote hain jo mehenge subscription, ads ya aapka data lene ke liye bane hote hain. Kabhi bhi WhatsApp/Telegram par aaye link se AI app ki APK file download mat kijiye. Hamesha Play Store ya App Store se, publisher check karke.

Kuch shabd jo app mein dikhenge

SHABD	MATLAB
New chat	Naya, khaali conversation. Naya topic ho to naya chat kholiye.
Chat history	Pichhli saari conversations ki list — sidebar ya menu mein.
Voice input / Mic	Bol kar sawal likhwana. Type karne ki zaroorat nahi.
Voice mode / Live	AI se phone call jaisi bol kar baat-cheet.
Copy	Jawab ko copy karke WhatsApp ya Notes mein paste karna.
Free plan limit	Free plan mein roz/kuch ghanton mein kitna use kar sakte ho, uski seema. Limit aane par thoda intezaar ya paid plan.

5 Step-by-Step Mobile Process: Setup

1 Play Store / App Store kholiye

App ka naam search kijiye: "ChatGPT", "Claude" ya "Gemini".

2 Publisher check kijiye

Naam ke neeche OpenAI / Anthropic / Google dekhiye. Match na kare to install mat kijiye.

3 Install aur open kijiye

Storage kam hai to pehle koi purana, bekaar app hata dijiye.

4 Google account se login kijiye

"Continue with Google" sabse aasaan hai. Wahi account chuniye jo aap roz use karte ho — aage Google Drive, Docs aur Sheets bhi isi se challenge.

5 Settings mein ek nazar daaliye

Profile / Settings mein "Data" ya "Privacy" section dekhiye — wahan chat history aur aapke data ke use se jude options hote hain. Padh kar jo theek lage wo chuniye.

6 Pehla message likhiye

Neeche wala Prompt 1 paste kijiye — AI ko apna parichay dijiye.

7 Mic button se ek sawal bol kar poochhiye

Hindi, English ya mix — jaise aap normally bolte ho.

8 Jawab copy karke save kijiye

Jawab par long-press ya copy icon dabaiye, aur "Meri AI Business Journey" note mein paste kijiye.

MOBILE SE KYA POSSIBLE HAI, COMPUTER KAB USEFUL HAI

Mobile: is chapter ka sab kuch — install, chat, voice, copy-save. **Computer:** sirf tab useful jab bahut lamba text likhna ya bade documents dekhne hon. **Beginner kya kare:** phone hi kaafi hai. Wahi account baad mein computer browser mein bhi khul jayega.

AI CHAT MEIN YE KABHI MAT LIKHIYE

Password, OTP, bank/card number, Aadhaar/PAN number, ya kisi client ki private jaankari. Chapter 5 mein iske baare mein aur detail aayegi.

6 AI Tool Recommendation

ChatGPT, Claude ya Gemini — koi ek official app. Is book ke har Prompt ko koi bhi app chala sakta hai. Jahan kisi ek app ka khaas feature zaroori hoga (jaise Chapter 16 mein Gemini se image), wahan book alag se batayegi.

7 Copy-Paste Prompts

PROMPT 1 — APNA PARICHAY

Namaste! Main [naam] hoon, [sheher] se. Main AI bilkul shuru se seekh raha/rahi hoon aur sirf Mobile se ek chhota business shuru karna chahta/chahti hoon. Mere paas roz [time] hai. Aage se mujhe simple Hindi mein, English letters mein, chhote paragraphs mein jawab dena. Samjhe to "Haan, samajh gaya" likho aur mujhse 3 sawal poochho jo mere goal ko samajhne mein help karein.

PROMPT 2 — APP KO SAMJHO

Main is app mein beginner hoon. Mujhe iske 5 sabse useful features batao jo Mobile par ek beginner ke kaam aayein. Har feature ke saath ek line mein batao ki use kaise karte hain.

PROMPT 3 — VOICE SE (BOL KAR POOCHHIYE)

Mere sheher mein chhote dukaandaar online kaunsi 3 sabse badi mushkilon ka saamna karte hain? Simple list mein batao.

8 Prompt Ka Explanation

PROMPT KA HISSA	YE KYUN KAAM KARTA HAI
Naam, sheher, time	AI ko aapka context milta hai. Isi chat mein aage ke jawab aapki situation ke hisaab se aayenge.
"Aage se... jawab dena"	Poori chat ke liye language aur style set ho jaata hai — baar-baar bolne ki zaroorat nahi.
"Mujhse 3 sawal poochho"	AI ko aapko samajhne ka mauka milta hai. Achhe jawab achhe context se aate hain.
Prompt 3 (voice)	Voice input practice ke liye chhota, saaf sawal. Iska jawab Traffic Light Rule mein "Yellow" hai — ye AI ka andaaza hai, pakka data nahi.

TIP

Prompt 1 wala chat alag rakhiye aur usi mein book ke shuruaati sawal poochhiye. Kuch apps mein "Memory" ya "Personal context" jaisa feature bhi hota hai jo aapki jaankari yaad rakhta hai — settings mein dekh sakte hain, zaroori nahi.

9 Practical Example: Rahul Ki Pehli 5 Chats

Rahul ne pehle din ye 5 chats kiye (fictional example):

Rahul ka Day 1

5 CHATS

Chat 1	Apna parichay (Prompt 1) — AI ne 3 sawal poochhe, Rahul ne jawab diye
Chat 2	App ke 5 features (Prompt 2)
Chat 3	Voice se dukaandaaron ki mushkilein (Prompt 3)
Chat 4	"Chai ki dukaan ke liye 5 Instagram caption ideas" — pehla asli kaam
Chat 5	Chapter 3 wala experiment: 5 sawal + Traffic Light marking

Rahul ne har achha jawab copy karke apne note mein save kiya. Chat 4 ka ek caption usne apne dost ki chai ki dukaan ko bhi bheja — dost ko pasand aaya.

10 Practice Task

Task 1: Ek official Chat AI app install kijiye aur publisher check kijiye.

Task 2: Google account se login kijiye aur Settings ka Data/Privacy section ek baar padhiye.

Task 3: 5 chats kijiye — Prompt 1, 2, 3 + apne 2 sawal. Kam se kam ek voice se.

Task 4: Sabse useful jawab copy karke "Meri AI Business Journey" note mein save kijiye.

Task 5: Chapter 2 aur 3 ke jo Prompts pending the, ab chala lijiye.

11 Common Mistakes

GALTI	SAHI TAREEKA
Naam dekh kar app install karna	Publisher naam check kijiye — OpenAI, Anthropic ya Google.
Link se APK download karna	Sirf Play Store / App Store se install kijiye.
Pehle din paid plan le lena	Free plan se shuru kijiye. Paid tabhi socho jab limit roz kaam rok rahi ho.
Har sawal ke liye naya app	Ek app, ek account — pehle ise achhe se seekhiye.
Chat mein password/OTP/Aadhaar likhna	Private jaankari kabhi AI chat mein mat daaliye.

12 Quick Checklist

- ☐ Maine ek official Chat AI app install kiya aur publisher check kiya
- ☐ Main Google account se login ho gaya/gayi
- ☐ Maine Settings ka Data/Privacy section dekha
- ☐ Maine 5 chats ki — kam se kam ek voice se
- ☐ Maine ek jawab copy karke note mein save kiya

13 Chapter Summary

KEY TAKEAWAYS

- ChatGPT (OpenAI), Claude (Anthropic) aur Gemini (Google) — teeno ke free plans mobile par chalte hain.
- Abhi sirf ek app chuniye; is book ke Prompts teeno mein chalte hain.
- Asli app ki pehchaan publisher naam se — link se APK kabhi nahi.
- Pehla Prompt apna parichay ho: naam, goal, time, aur jawab ki language.
- Plans aur offers badalte hain — hamesha app ke andar current jaankari dekhiye.

IS CHAPTER KE SOURCES (LAST CHECKED: 21 SEPTEMBER 2026)

Next Step — Chapter 5: Fact-checking aur Responsible AI Use

Rahul AI ke jawab ke saath dikhe ek "sponsored" suggestion ko AI ki salah samajh leta hai. Agle chapter mein aap seekhenge 4-step AI Answer Check — aur ye bhi ki AI mein kya share karna hai, kya nahi.

05

Fact-checking aur Responsible AI Use

Har jawab ko ek minute mein parakhne ki aadat — aur AI ka imaandaar use.

1 Is Chapter Mein Kya Seekhenge

- 1 4-step "AI Answer Check" — har jawab ko 1 minute mein parakhna
- 2 Primary aur secondary source ka farq
- 3 AI ke jawab aur "Sponsored" ad mein farq
- 4 AI mein kya share karein, kya nahi — aur AI ka imaandaar use

2 Simple Explanation

Pichhle chapter mein aapne apna Chat AI set kar liya aur pehli chats bhi kar li. Chapter 3 mein aapne ye bhi dekha tha ki AI kabhi-kabhi poore bharose se galat jawab deta hai. Ab sawal ye hai: **har jawab ko check kaise karein — bina ghanton lagaye?**

Iska jawab hai ek chhoti si aadat, jise hum **AI Answer Check** kahenge. Chaar sawal, ek minute. Jaise sadak paar karne se pehle aap dono taraf dekhte ho — bina soche, aadat se — waise hi AI ka jawab aage bhejne se pehle ye chaar sawal.

Is chapter mein do aur zaroori baatein hain. Pehli: aajkal kuch AI apps mein **ads** bhi dikhne lage hain, aur beginner aksar ad ko AI ki salah samajh leta hai. Doosri: AI ke saath **kya share karna safe hai**, aur AI ka use imaandaari se kaise karein.

3 Kahani: Rahul Aur "Sabse Sasta" Website Builder

Fictional kahani — Rahul aur Imran bhai is book ke characters hain.

RAHUL

Rahul ke dost ki chai ki dukaan ko ek chhoti Website chahiye thi. Rahul ne apne Chat AI se poochha: *"India mein sabse sasta website builder kaunsa hai aur uska price kya hai?"*

Jawab mein kuch naam aaye, ek price bhi likha tha. Neeche ek alag dibba dikha jisme ek website builder ka bada offer tha — chhote se "Sponsored" label ke saath. Rahul ne jaldi mein socha ki AI yahi recommend kar raha hai.

Usne dost ko bol diya: "Itne ka padega." Jab dono ne us company ki official website kholi, to price alag nikla — aur offer sirf pehle saal ke liye tha.

Rahul thoda sharminda hua. Imran bhai ne kaha:

"Do galtiyan huin. Pehli — price jaisi cheez AI se li aur official jagah check nahi ki. Doosri — 'Sponsored' ko AI ki salah samajh liya. Ad ad hota hai, chahe kisi bhi app mein dikhe. Ab se har jawab par chaar sawal poochhna: Source kya hai? Kab ki baat hai? Kisi aur jagah bhi yahi likha hai? Aur kya ye common sense se theek lagta hai?"

Rahul ne ye chaar sawal apne phone ke note mein likh liye. Agle din se, dost ko kuch bhi bhejne se pehle, woh ek minute ruk kar ye check karta tha.

4

Important Concepts

4-Step AI Answer Check

1

Source?

Ye jaankari kahan se aayi? AI ne koi link ya naam diya? Nahi diya to poochhiye.

2

Date?

Ye kab ki baat hai? Price, offer, rules purane ho sakte hain.

3

Cross-check?

Kisi doosri reliable jagah bhi yahi likha hai? Kam se kam ek jagah se milaiye.

4

Common sense?

Kya ye baat aapko sahi lagti hai? "Bahut achha lag raha hai" wali baat par zyada shak kijiye.

Har jawab par chaaron steps ki zaroorat nahi. Chapter 3 ka **Traffic Light Rule** yaad kijiye: **Green** kaam (caption, idea, draft) mein bas padh kar sudhaar lijiye. **Yellow** aur **Red** kaam (facts, price, rules, number) mein ye 4-step check zaroori hai.

Primary source aur secondary source

TYPE	MATLAB	EXAMPLE
Primary source	Jaankari seedha us jagah se jiski wo baat hai. Sabse bharosemand.	App ka apna pricing page, sarkari website, company ka official announcement
Secondary source	Kisi aur ne primary source padh kar likha. Kaam ka, lekin purana ya galat ho sakta hai.	News article, blog, YouTube video, review site
Sirf AI ka jawab	Source hi nahi. Shuruaat ke liye theek, final faisla ke liye nahi.	Bina link ka Chat AI jawab

RULE OF THUMB

Price, offer, rule ya kisi app ka feature — **hamesha primary source** par final check kijiye. News aur blog se idea lijiye, faisla official page se.

AI ka jawab vs Ad

Kuch AI apps ab apne free plans mein ads dikhane lage hain — India mein bhi. Ad aur AI ka jawab do alag cheezein hain:

AI ka jawab

Aapke sawal par AI ka likha text. Galti ho sakti hai, isliye check karna hai.

Ad / Sponsored

Kisi company ne paise dekar dikhaya hai. Aksar "Sponsored" ya "Ad" label ke saath. Ye AI ki salah nahi hai.

Ad dekhna galat nahi — kabhi kaam ka offer bhi hota hai. Bas use **ad samajh kar** dekhiye, aur kharidne se pehle wahi 4-step check.

AI mein kya share karein, kya nahi

Share kar sakte ho

Apna business type, sheher ka naam, general goals, customer ke type, apna likha draft, public jaankari.

Kabhi share mat karo

Password, OTP, bank/card number, Aadhaar/PAN number, kisi client ka phone number, address ya private details, kisi aur ki personal photos.

CLIENT KI JAANKARI

Jab aap aage clients ke saath kaam karenge, unka data aapki zimmedaari hoga. AI se kisi client ka message likhwana ho to naam aur number hata kar likhiye — jaise "[Client ka naam]". Chapter 49 mein client data ke baare mein detail aayegi.

Responsible AI use — 4 imaandaar aadatein

- **AI ka likha check kar ke hi bhejo.** Client ya customer tak jo jaata hai, uski zimmedaari aapki hai, AI ki nahi.
- **Jhooth mat banwao.** Naqli reviews, naqli testimonials, "guaranteed income" jaise dawae — AI likh dega, lekin ye galat hai aur aapka naam kharab karega.
- **Doosron ka kaam copy mat karo.** Kisi aur ka poster, logo ya article AI se "thoda badal kar" apna mat banao.
- **Jahan zaroori ho, bataiye.** Kuch platforms poochhte hain ki content AI se bana hai ya nahi — wahan sach bataiye. Is par aage Chapter 35 (KDP disclosure) aur Chapter 49 (AI content label) mein aur baat hogi.

5 Step-by-Step Mobile Process: Ek Jawab Ko Verify Karo

Aaj aap ek asli jawab ko shuru se aakhir tak check karenge.

1 Apne Chat AI se ek factual sawal poochhiye

Jaise: "Canva ka free plan kya-kya deta hai?" ya "Mere state mein chhoti food business ke liye kaunsa registration chahiye?"

2 Source poochhiye

Neeche wala Prompt 1 use kijiye. Dekhiye AI source deta hai, ya maanta hai ki use pakka nahi pata.

3 Perplexity mein wahi sawal poochhiye

Perplexity ek research-focused AI app hai jo jawab ke saath source links dikhata hai (official app: publisher Perplexity AI). Links dekhiye — official hain ya blog?

4 Official website par final check kijiye

Browser mein seedha company ya sarkari website kholiye. Wahan jo likha hai, wahi final.

5 Result likhiye

Note mein: "AI ne kya kaha / official page par kya tha / match hua ya nahi / date."

PERPLEXITY ZAROORI NAHI

Agar aap naya app install nahi karna chahte, to step 3 mein Google Search use kijiye. Point ye hai ki jawab ko **kam se kam ek aur jagah** se milaya jaaye.

6 AI Tool Recommendation

TOOL	IS CHAPTER MEIN KAAM
Aapka Chat AI	Jawab lena, source poochhna, claims ki list banwana
Perplexity (optional)	Source links ke saath research — free plan mobile app par (Last checked: 21 September 2026)
Browser / Google Search	Official website par final check

7 Copy-Paste Prompts

PROMPT 1 — SOURCE MAANGO

Is jawab ke liye 3 reliable sources batao — ho sake to official websites. Har source ke saath ye bhi batao ki wo primary source hai ya secondary. Agar tumhare paas latest jaankari nahi hai, to saaf likho.

PROMPT 2 — KYA CHECK KARUN?

Neeche diye text mein kaunsi baatein facts hain jo mujhe verify karni chahiye? Unki list banao aur har ek ke saath likho ki kahan check karun.
Text: [yahan text paste karo]

PROMPT 3 — PRIVATE DATA HATAO

Is message ko client ko bhejne layak banao, lekin naam, phone number aur address ki jagah [Client ka naam], [Number], [Address] likh do:
[yahan message paste karo]

8 Prompt Ka Explanation

PROMPT	YE KYUN KAAM KARTA HAI
Prompt 1	AI se sources maangne par aapko check karne ki jagah milti hai. "Primary ya secondary" poochhne se pata chalta hai kaunsa source zyada bharosemand hai. Dhyani rahe — AI kabhi naqli link bhi bana sakta hai, isliye link khol kar dekhiye.
Prompt 2	Lambe text mein se sirf "check karne layak" baatein alag ho jaati hain. Aapka time bachta hai.
Prompt 3	Placeholders [] use karke aap AI se kaam karwate ho bina kisi ki private jaankari share kiye. Ye aadat aage client work mein bahut kaam aayegi.

9 Practical Example: Rahul Ka AI Answer Check

Rahul ne website builder wala sawal dobara check kiya (fictional example):

AI Answer Check		RAHUL · DAY 5
Sawal	Chhoti dukaan ke liye website builder ka price?	
AI ne kaha	Kuch builders ke naam aur ek andaazan price	
1. Source?	AI ne pehle nahi diya; Prompt 1 ke baad 2 links diye	
2. Date?	AI ka price kab ka hai, pata nahi — isliye Yellow	
3. Cross-check	Official pricing page par price alag tha; offer sirf pehle saal ka	
4. Common sense	"Hamesha ke liye itna sasta" — shak hona chahiye tha	
Final	Dost ko official page ka screenshot bheja, date ke saath	

Ab Rahul dost ko sirf "itne ka padega" nahi bolta. Woh bolta hai: *"Aaj ki date mein official page par ye price hai, aur ye offer pehle saal ka hai."* Isi ko professional kaam kehte hain — aur isi se log aap par bharosa karte hain.

10 Practice Task

Task 1: 4-step AI Answer Check ko apne "Meri AI Business Journey" note mein likh lijiye.

Task 2: Apne Chat AI se ek Yellow category ka sawal poochhiye aur Rahul ki tarah poora 4-step check kijiye.

Task 3: Prompt 3 se ek message ki private details hata kar placeholders lagwaiye.

Task 4: Agli baar koi ad dikhe, to use pehchaaniye — "Sponsored" ya "Ad" label kahan likha hai?

11 Common Mistakes

GALTI	SAHI TAREEKA
AI ka bataya price seedha customer ko bolna	Official page par check kijiye aur date ke saath bataiye.
Ad ko AI ki salah samajhna	"Sponsored"/"Ad" label dekhiye. Ad bhi check karna hai.
AI ke diye link ko bina khole sach maanna	Link kholiye — AI kabhi naqli link bhi bana deta hai.
Client ka naam-number AI chat mein daalna	Placeholders [] use kijiye.
AI se naqli reviews ya bade dawwe likhwana	Sirf sach likhiye. Bharosa hi aapka sabse bada asset hai.

12 Quick Checklist

- ☐ Mujhe 4-step AI Answer Check yaad hai: Source, Date, Cross-check, Common sense
- ☐ Mujhe primary aur secondary source ka farq pata hai
- ☐ Main ad aur AI ke jawab mein farq pehchaan sakta/sakti hoon
- ☐ Mujhe pata hai AI mein kya share nahi karna
- ☐ Maine ek jawab poore 4-step se verify kiya

13 Chapter Summary

KEY TAKEAWAYS

- 4-step AI Answer Check: Source? Date? Cross-check? Common sense?
- Price, offer, rules aur features ka final check hamesha primary (official) source par.
- Ad aur AI ka jawab alag hain — "Sponsored" label dekhiye.
- Password, OTP, bank details, ID numbers aur client ki private jaankari AI mein kabhi nahi.
- Imaandaar AI use: check karke bhejo, jhooth mat banwao, copy mat karo, zaroorat ho to batao.

IS CHAPTER KE SOURCES (LAST CHECKED: 21 SEPTEMBER 2026)

TechCrunch (27 Aug 2026) — OpenAI to show ads on ChatGPT Free and Go tiers in India • Perplexity official app / help center

PART I COMPLETE

AI Ki Shuruaat — aapne kya haasil kiya

Ch 1

Apna Starting Point likha

Ch 2

AI ko apne shabdon mein samjha

Ch 3

AI ki galti pakadna seekha

Ch 4

Apna Chat AI set kiya

Ch 5

Har jawab check karna seekha

Apne "Meri AI Business Journey" note mein ek line jodiye: *"Part I khatam — aaj maine seekha ki..."*

Next Step — Part II, Chapter 6: Prompt Kya Hai: Simple vs Detailed Prompt

Ab aapke paas AI hai aur use parakhne ki samajh bhi. Agla kadam hai AI se *behtar* kaam karwana. Rahul likhta hai "poster idea do" aur bekaar ideas milte hain — phir woh sirf do line jodta hai aur jawab badal jaata hai. Part II mein aap Prompt likhne ki kala seekhenge.

PART II

02

Prompt Likhna Seekhein

AI se kaam karwane ki sabse zaroori skill — sahi Prompt likhna, use
sudhaarna, aur apni Prompt Library banana.

Chapter 6 – 11

06

Prompt Kya Hai: Simple vs Detailed Prompt

Wahi AI, alag Prompt — aur jawab bilkul badal jaata hai.

Part I mein aapne AI ko samjha, apna Chat AI set kiya, aur har jawab ko check karna seekha. Ab Part II mein wo skill aati hai jo is poori book ki neev hai: AI se **sahi tareeke se kaam karwana**. Iski shuruaat hoti hai ek chhote se shabd se — Prompt.

1 Is Chapter Mein Kya Seekhenge

- 1 Prompt kya hota hai — ek simple example se
- 2 Simple Prompt aur Detailed Prompt mein farq
- 3 Kisi bhi Prompt ko behtar banane ke 3 sawal
- 4 Apne hi Prompts ka "before-after" test karna

2 Simple Explanation

Prompt woh message hai jo aap AI ko likhte ya bolte ho — aapka sawal, instruction ya request. Chapter 4 mein aapne jo "apna parichay" wala message bheja tha, woh bhi ek Prompt tha.

AI ka jawab kitna achha hoga, ye bahut had tak **aapke Prompt par depend karta hai**. Kyunki AI aapke dimaag ke andar nahi dekh sakta. Aap jo likhte ho, bas wahi use pata hai. Aapne kam likha, to AI baaki khaali jagah apne andaaze se bharta hai — aur uska andaaza aksar "general" hota hai, aapke kaam ka nahi.

DARZI WALA EXAMPLE

Aap darzi ke paas jaakar bolo "ek shirt bana do" — woh koi bhi size, koi bhi design bana dega. Aap bolo "mere naap ki, half sleeve, cotton, office ke liye, Sunday tak" — ab shirt aapke kaam ki banegi. **AI bhi darzi jaisa hai: naap doge, to fitting milegi.**

3 Kahani: "Poster Idea Do"

Fictional kahani — Rahul, Imran bhai aur "Kulhad Corner" is book ke fictional examples hain.

RAHUL

Rahul ke dost Sameer ki ek chhoti chai ki dukaan hai — "Kulhad Corner", college ke paas. Baarish ka mausam aa raha tha aur Sameer ne kaha: "Yaar, ek poster bana de, kuch offer daal ke."

Rahul ne apna Chat AI khola aur likha: *"poster idea do"*.

Jawab aaya — "Summer Sale", "Grand Opening", "New Collection" jaise ideas. Kisi ka chai se lena-dena nahi tha. Rahul ne socha, "AI to kuch khaas nahi."

Imran bhai ne uska phone dekha aur hanse:

"AI ko pata hi nahi ki poster kiska hai, kiske liye hai, aur kya chahiye. Tune use ek khaali kaagaz diya aur keh diya 'kuch bana'. Ab ye likh — dukaan kaisi hai, customer kaun hain, mausam kaunsa hai, aur tujhe kitne ideas chahiye."

Rahul ne dobara likha: *"Mere dost ki chai ki dukaan 'Kulhad Corner' ke liye monsoon offer poster ke 3 ideas do. Audience: college students. Har idea mein headline, offer aur visual description ho."*

Is baar teeno ideas baarish, garam chai aur college students ke baare mein the. Ek idea Sameer ko itna pasand aaya ki usne kaha, "Bas, yahi banega."

"Dekha?" Imran bhai bole. "AI wahi tha. Farq tere Prompt ka tha."

4

Important Concepts

Simple Prompt vs Detailed Prompt

SIMPLE PROMPT

poster idea do

Kya milta hai: general ideas, kisi bhi business ke liye. Aapko khud chhaant-chhaant kar kaam ka nikalna padta hai.

DETAILED PROMPT

Mere dost ki chai ki dukaan "Kulhad Corner" ke liye monsoon offer poster ke 3 ideas do. Audience: college students. Har idea mein headline, offer aur visual description ho.

Kya milta hai: aapke business, mausam aur customer ke hisaab se ideas — seedhe kaam ke.

Detailed Prompt ka matlab lamba-chauda essay nahi. Rahul ka detailed Prompt sirf **2 lines** ka tha. Farq lambai ka nahi, **zaroori jaankari** ka hai.

Kisi bhi Prompt ko behtar banane ke 3 sawal

Prompt likhne ke baad bhejne se pehle khud se ye 3 sawal poochhiye:

1

Kiske liye?

Business kaunsa hai? Customer kaun hai? Jaise: "chai ki dukaan, college students ke liye".

2

Kya chahiye?

Exact kaam kya hai, aur kitna? Jaise: "3 poster ideas", "5 captions", "1 WhatsApp message".

3

Kaisa chahiye?

Shape, tone, length, language? Jaise: "har idea mein headline aur offer", "friendly tone", "max 50 words".

Bas itne se aapke 80% Prompts kaafi behtar ho jayenge. Agle chapter mein hum inhe ek poore **7-hisson wale formula** mein badlenge — lekin shuruaat ke liye ye 3 sawal kaafi hain.

"AI mera dimaag nahi padh sakta" — 4 cheezein jo aksar chhoot jaati hain

CHHOOTI HUI CHEEZ	KYA HOTA HAI	KYA JODNA HAI
Business ka naam/type	AI kisi bhi business ka soch leta hai	"Meri salon ke liye", "tiffin service ke liye"
Customer kaun hai	Jawab sab ke liye, kisi ke liye nahi	"College students", "office jaane wale log"
Kitna chahiye	Ya bahut zyada, ya bahut kam	"3 ideas", "5 lines"
Language	Pure English ya Devanagari mein jawab	"Roman Hindi mein", "simple English mein"

DHYAN DEIN

Behtar Prompt se behtar **draft** milta hai — lekin check karna phir bhi aapka kaam hai. Chapter 5 ka AI Answer Check yahan bhi lagu hai, khaaskar jab jawab mein price, date ya koi fact ho.

5 Step-by-Step Mobile Process: Before-After Test

Aaj aap khud dekhenge ki Prompt badalne se jawab kaise badalta hai.

1 Ek kaam chuniye

Koi asli kaam — kisi jaan-pehchaan wali dukaan ke liye poster idea, caption ya WhatsApp message. Ya Rahul wala chai ka example le lijiye.

2 Pehle simple Prompt bhejiye

Ek naya chat kholiye aur 2-4 words mein likhiye. Jaise: "caption likho".

3 Jawab copy karke save kijiye

"Meri AI Business Journey" note mein "BEFORE" heading ke neeche paste kijiye.

4 3 sawal se Prompt sudhaariye

Kiske liye? Kya chahiye? Kaisa chahiye? — teeno ke jawab Prompt mein jodiye.

5 Naye chat mein detailed Prompt bhejiye

Naya chat isliye, taaki pichhla context beech mein na aaye aur farq saaf dikhe.

6 Dono jawab compare kijiye

"AFTER" heading ke neeche paste kijiye aur 3 points mein farq likhiye.

MOBILE TIP

Lamba Prompt phone par type karna mushkil lage to **voice input** use kijiye (Chapter 4). Bol kar likhwaiye, phir ek baar padh kar chhoti galtiyan theek kar lijiye.

6 AI Tool Recommendation

Aapka Chat AI — wahi jo Chapter 4 mein set kiya. Part II ke saare chapters isi ek app mein honge. Koi naya tool nahi.

7 Copy-Paste Prompts

Har pair mein pehle simple Prompt chalaiye, phir detailed — aur farq dekhiye.

PAIR 1 — POSTER IDEA

Simple: poster idea do

Detailed: Mere dost ki chai ki dukaan "Kulhad Corner" ke liye monsoon offer poster ke 3 ideas do. Audience: college students. Har idea mein headline (max 6 words), offer aur visual description ho. Roman Hindi mein likho.

PAIR 2 — WHATSAPP MESSAGE

Simple: customer ko message likho

Detailed: Meri ghar se chalne wali tiffin service hai. Ek purane customer ko, jo 2 hafte se order nahi kar raha, ek polite WhatsApp message likho jo is hafte ka naya menu bataye. Max 40 words, friendly tone, Roman Hindi. Discount ka zikr mat karna.

PAIR 3 — INSTAGRAM CAPTION

Simple: caption likho

Detailed: Ek ladies salon ke Instagram post ke liye 5 captions likho. Post mein naye hair spa ki photo hai. Audience: 25-40 saal ki working women. Har caption max 20 words, ek emoji, aur end mein "Booking ke liye DM karein". Roman Hindi.

8 Prompt Ka Explanation

Pair 2 ka detailed Prompt tod kar dekhte hain — har hissa 3 sawalon mein se kisi ek ka jawab hai:

PROMPT KA HISSA	KAUNSA SAWAL	KYA FAYDA
"ghar se chalne wali tiffin service"	Kiske liye?	AI ko business ka type pata chala
"purane customer ko, jo 2 hafte se order nahi kar raha"	Kiske liye?	Message ka tone apne aap "wapas bulane" wala banega
"polite WhatsApp message... naya menu bataye"	Kya chahiye?	Exact kaam aur uska maqsad clear
"Max 40 words, friendly tone, Roman Hindi"	Kaisa chahiye?	Length, tone aur language fix
"Discount ka zikr mat karna"	Kaisa chahiye?	Ek limit — AI apni taraf se offer nahi banayega

"KYA NAHI CHAHIYE" BHI BATAIYE

Aakhri line dekhiye: "Discount ka zikr mat karna." Kabhi-kabhi AI ko ye batana ki **kya nahi karna**, utna hi kaam ka hota hai jitna ye batana ki kya karna hai.

9 Practical Example: Priya Ka Before-After

Priya ne ye test apne tiffin ke liye kiya (fictional example; AI ke jawab sirf samjhane ke liye hain — aapke app ka jawab alag hoga):

BEFORE		SIMPLE		AFTER		DETAILED	
Prompt	"menu ka message likho"			Prompt	Pair 2 wala detailed Prompt		
Jawab jaisa	"Dear Customer, check out our exciting new menu with delicious dishes! Order now!"			Jawab jaisa	"Namaste! Kaafi din ho gaye aapse baat hue 😊 Is hafte menu mein rajma-chawal aur aloo-methi hai. Order ke liye bas reply kijiye!"		
Dikkat	English, general, kisi bhi restaurant ka lag raha hai			Fayda	Apni language, apna tone, seedha bhejne layak		

Priya ne AFTER wala message ek baar padha, ek shabd badla, aur bhej diya. **Achhe Prompt ka asli fayda yahi hai — edit karne ka kaam kam ho jaata hai.**

10 Practice Task

Task 1: Upar ke 3 pairs mein se kam se kam 2 chalaiye — pehle simple, phir detailed (naye chat mein).

Task 2: Apne ek asli kaam ke liye before-after test kijiye (Step-by-Step wala process).

Task 3: Note mein 3 points likhiye: detailed Prompt se jawab mein kya badla?

Task 4: Apne 3 purane chats kholiye (Chapter 4 wale) — un Prompts ko 3 sawalon se dobara likhiye. Abhi chalana zaroori nahi, bas likhna.

11 Common Mistakes

GALTI	SAHI TAREEKA
Google search jaisa 2-3 words likhna	AI se baat kijiye jaise kisi insaan ko kaam samjha rahe ho.
Kharab jawab par AI ko dosh dena	Pehle apna Prompt dekhiye — kiske liye, kya, kaisa — kya chhoot gaya?
Detailed ka matlab bahut lamba samajhna	2-4 lines kaafi hain agar zaroori jaankari hai.
Kitna chahiye, ye na batana	"3 ideas", "5 captions", "max 40 words" — number dijiye.
Language na batana	"Roman Hindi mein" ya "simple English mein" likhiye.

12 Quick Checklist

- ☐ Main apne shabdon mein bata sakta/sakti hoon ki Prompt kya hai
- ☐ Mujhe Prompt behtar karne ke 3 sawal yaad hain: Kiske liye? Kya chahiye? Kaisa chahiye?
- ☐ Maine kam se kam ek before-after test kiya
- ☐ Maine note mein farq ke 3 points likhe
- ☐ Maine ek Prompt mein "kya nahi chahiye" bhi likha

13 Chapter Summary

KEY TAKEAWAYS

- Prompt = AI ko diya gaya aapka sawal ya instruction.
- AI aapka dimaag nahi padh sakta — jo nahi likha, woh andaaze se bharega.
- Detailed Prompt lamba nahi, **zaroori jaankari wala** hota hai — 2-4 lines kaafi.
- 3 sawal: Kiske liye? Kya chahiye? Kaisa chahiye? — aur kabhi-kabhi "kya nahi chahiye".
- Achha Prompt = kam editing, zyada kaam ka jawab.

Next Step — Chapter 7: Prompt Ka Formula: Role, Context, Task, Goal

3 sawal kaafi kaam ke hain — lekin kuch kaamon mein aur control chahiye. Agle chapter mein Priya ek 7-hisson wala formula seekhti hai, jisse uske tiffin ka WhatsApp welcome message 2 minute mein ban jaata hai — aur har baar achha.

07

Prompt Ka Formula: Role, Context, Task, Goal

7 chhote hisse — aur har baar kaam ka jawab.

Pichhle chapter mein aapne 3 sawal seekhe — Kiske liye? Kya chahiye? Kaisa chahiye? — aur dekha ki sirf 2 line jodne se jawab kaise badal jaata hai. Ab in 3 sawalon ko thoda aur khol kar ek poora formula banate hain, jo har tarah ke kaam mein kaam aayega.

1 Is Chapter Mein Kya Seekhenge

- 1 7-hisson wala Prompt Formula: R-C-T-G-A-F-C
- 2 Har hissa kya karta hai — aur na ho to kya hota hai
- 3 Kab poora formula, kab chhota version
- 4 Apna reusable Prompt Template banana

2 Simple Explanation

3 sawal roz ke chhote kaamon ke liye kaafi hain. Lekin jab kaam thoda bada ho — jaise customer ko pehla message, website ka text, ya kisi client ka offer — tab AI ko thodi aur saaf jaankari chahiye hoti hai.

Iske liye hum ek **7-hisson wala formula** use karenge. Isko yaad rakhna aasaan hai, aur ye asal mein wahi 3 sawal hain — bas tukdon mein baante hue, plus ek naya hissa: **Role**.

FORMULA EK CHECKLIST HAI, ZANJEER NAHI

Har Prompt mein saaton hisse likhna zaroori nahi. Formula ek checklist ki tarah hai: Prompt likhne ke baad dekh lijiye ki koi zaroori hissa chhoot to nahi gaya. Chhote kaam mein 3-4 hisse kaafi hain.

3

Kahani: Priya Ka Welcome Message

Fictional kahani — Priya, Rahul aur "Priya Ki Rasoi" is book ke fictional examples hain.

PRIYA

Priya ne apni tiffin service ka naam rakh diya tha: **"Priya Ki Rasoi"**. Mohalle ki ek office jaane wali ladki ne uska number liya aur WhatsApp par "Hi" bheja. Priya chahti thi ki har naye customer ko ek achha sa welcome message jaaye.

Pehli baar usne AI se likha: *"tiffin service ka welcome message likho"*. Message lamba tha, English mein, aur usme "premium gourmet experience" jaise shabd the. Priya hans padi — "Ye mera dhaba nahi, kisi 5-star hotel ka message lag raha hai."

Doosri baar usne 3 sawal use kiye. Message behtar tha, lekin usme apne aap ₹99 ka offer aa gaya — jo Priya ne kabhi socha hi nahi tha.

Shaam ko Rahul ne use Imran bhai wala formula dikhaya — 7 chhote hisse. Priya ne notebook mein likha:

Role: friendly customer-service writer. Context: ghar se tiffin service. Task: welcome message.

Goal: customer menu dekh kar order kare. Audience: office jaane wale log. Format: 5-6 lines.

Constraints: Roman Hindi, price mat likhna.

Teesri baar message bilkul waisa aaya jaisa Priya khud bolti — garam, chhota, aur bina kisi naqli offer ke. Usne use WhatsApp Business ke greeting message mein save kar liya. Ab har naye customer ko wahi jaata hai.

4

Important Concept: R-C-T-G-A-F-C Formula

R
Role

AI kaun bane?

C
Context

Background kya hai?

T
Task

Kaam kya hai?

G
Goal

Kyun chahiye?

A
Audience

Kiske liye?

F
Format

Kis shape mein?

C
Constraints

Kya limits hain?

Yaad rakhne ka tareeka: **"Rahul Chai Tabhi Garam Aur Fresh Chahta"** — har shabd ka pehla akshar ek hissa.

Har hissa detail mein

HISSA	KYA LIKHNA HAI	EXAMPLE (TIFFIN)
Role	AI ko ek kirdaar dijiye — isse uska tone aur soch us expert jaisi ho jaati hai.	"Tum ek friendly customer-service writer ho."
Context	Business aur situation ki background — jo AI ko pata hona chahiye.	"Meri ghar se chalne wali tiffin service hai, 'Priya Ki Rasoi'."
Task	Exact kaam — ek clear action ke saath.	"Naye customer ke liye WhatsApp welcome message likho."
Goal	Is kaam se kya hona chahiye — result kya chahiye.	"Customer menu dekh kar order kare."
Audience	Padhne wala kaun hai — umar, kaam, zaroorat.	"Office jaane wale log, jinke paas time kam hai."
Format	Output ka shape — length, list, table, lines.	"5-6 short lines, 2 emoji tak."
Constraints	Limits — language, kya nahi likhna, tone.	"Roman Hindi. Price mat likhna. Koi jhootha dawa nahi."

3 sawal aur 7 hisse — rishta

Kiske liye? Context + Audience	Kya chahiye? Task + Goal	Kaisa chahiye? Format + Constraints	Naya hissa Role
--	------------------------------------	---	---------------------------

Role kyun kaam karta hai?

Jab aap likhte ho "Tum ek local restaurant ke marketing expert ho", to AI apne "patterns" mein se wo hissa zyada use karta hai jo marketing se juda hai — shabd, tone, sochne ka tareeka. Role se AI expert nahi ban jaata, lekin jawab ka **andaaz** kaam ke hisaab se ho jaata hai.

DHYAN DEIN

"Tum ek doctor ho" ya "Tum ek lawyer ho" likhne se AI ki salah doctor ya lawyer ki salah nahi ban jaati. Health, legal aur paison ke faisle Chapter 3 ke Traffic Light Rule mein **Red** hain — wahan asli expert se hi baat kijiye.

Kab poora formula, kab chhota?

Chhota version (3-4 hisse)

Roz ke chhote kaam: caption, ek line ka idea, text chhota karna. **Task + Context + Format** kaafi.

Poora formula (7 hisse)

Customer ya client tak jaane wala kaam: welcome message, website text, offer, proposal, eBook ka chapter.

5

Step-by-Step Mobile Process: Apna Pehla Formula Prompt

1

Ek asli kaam chuniye

Jo customer tak jayega — jaise welcome message, offer message, ya "About Us" ki 3 lines.

2

Template copy kijiye

Neeche wala Prompt 1 (Template) apne note mein paste kijiye.

3

Har line ek-ek karke bhariye

Har hisse mein sirf ek line. Soch nahi aa raha to Chapter 6 ke 3 sawal yaad kijiye.

4

Poora Prompt copy karke Chat AI mein bhejiye

Jawab padhiye aur Chapter 5 ka check lagaiye — koi fact, price ya dawa to nahi aa gaya?

5

"Ek hissa hatao" experiment

Naye chat mein wahi Prompt bhejiye lekin **Constraints** hata kar. Dekhiye kya badla. Phir **Audience** hata kar try kijiye.

6

Template save kijiye

Bhara hua version apne note mein "Mera Formula Template" naam se rakhiye — Chapter 11 mein ye Prompt Library ka pehla hissa banega.

MOBILE TIP

Template mein har hissa alag line par rakhiye (Role: ..., Context: ...). Phone par padhna aur badalna aasaan rehta hai, aur AI bhi har hissa saaf samajhta hai.

6 AI Tool Recommendation

Aapka Chat AI + Notes app (template save karne ke liye). Agar aapne Chapter 4 mein koi "Memory" ya "Personal context" feature on kiya hai, to kuch Context apne aap yaad reh sakta hai — lekin important kaam mein Context dobara likhna safe rehta hai.

7 Copy-Paste Prompts

PROMPT 1 — KHAALI TEMPLATE

Role: Tum ek [kaunsa expert] ho.
Context: [Mera business / situation]
Task: [Kya kaam karna hai]
Goal: [Isse kya hona chahiye]
Audience: [Kiske liye]
Format: [Length / shape]
Constraints: [Language, kya nahi likhna, tone]

PROMPT 2 — PRIYA KA WELCOME MESSAGE

Role: Tum ek friendly customer-service writer ho.
Context: Meri ghar se chalne wali tiffin service hai, "Priya Ki Rasoi". Roz ghar jaisa lunch banta hai.
Task: Naye customer ke liye WhatsApp welcome message likho.
Goal: Customer aaj ka menu dekhe aur order kare.
Audience: Office jaane wale log, jinke paas time kam hai.
Format: 5-6 short lines, 2 emoji tak.
Constraints: Roman Hindi. Price mat likhna. Koi jhootha dawa nahi.

PROMPT 3 — RAHUL KA OFFER (CHHOTA VERSION)

Context: "Kulhad Corner" chai ki dukaan, college ke paas.
Task: Monsoon offer ke liye 3 Instagram captions likho.
Format: Har caption max 20 words, ek emoji.
Constraints: Roman Hindi, offer: "2 chai par 1 samosa free, shaam 4-7".

8 Prompt Ka Explanation

LINE	AGAR NA LIKHEIN TO KYA HOGA
Role	Tone general ho sakta hai — kabhi bahut formal, kabhi bahut "marketing" jaisa.
Context: "Priya Ki Rasoi"	AI kisi bhi restaurant ka message likhega; naam bhi nahi hoga.
Goal: "menu dekhe aur order kare"	Message sirf "welcome" bol kar khatam ho sakta hai — koi agla kadam nahi.
Audience: "time kam hai"	Message lamba ho sakta hai. Is line se AI chhota aur seedha likhta hai.
Constraints: "Price mat likhna"	AI apne aap koi price ya offer bana sakta hai — jaise Priya ke saath ₹99 wala hua.

Prompt 3 dekhiye — usme Role, Goal aur Audience nahi hain, phir bhi kaam chal jaata hai. Kyunki kaam chhota hai aur offer ki exact details (Constraints mein) di gayi hain. **Jo detail AI ko nahi pata aur galat ho sakti hai, wo khud likhiye** — jaise offer aur timing.

9 Practical Example: "Ek Hissa Hatao" Experiment

Priya ne Prompt 2 ke saath experiment kiya (fictional example; jawab sirf samjhane ke liye — aapke app ka jawab alag hoga):

PROMPT	JAWAB MEIN KYA DIKHA
Poora formula	"Namaste! 🙏 Priya Ki Rasoi mein aapka swagat hai. Roz ghar jaisa garam lunch... Aaj ka menu dekhne ke liye 'MENU' likhiye." — chhota, apna, kaam ka.
Constraints ke bina	English mein aaya, aur "special launch price" ki ek line apne aap jud gayi.
Audience ke bina	Message 10 lines ka ho gaya — ghar ki kahani, recipes ki baat... office wale log itna nahi padhenge.
Goal ke bina	Achha welcome, lekin order kaise karein — ye hi nahi likha tha.

Priya ne note mein likha: *"Constraints aur Goal mere liye sabse zaroori hain."* Har kaam mein alag hissa zyada zaroori ho sakta hai — ye experiment aapko khud dikhayega ki **aapke** kaam mein kaunsa.

10 Practice Task

Task 1: Formula template (Prompt 1) apne note mein save kijiye.

Task 2: 3 alag kaamon ke liye formula se Prompts likhiye — ek WhatsApp message, ek caption, ek "About Us" (apne ya kisi jaan-pehchaan ke business ka).

Task 3: Ek Prompt ke saath "ek hissa hatao" experiment kijiye aur likhiye kaunsa hissa sabse zaroori nikla.

Task 4: Formula yaad karne ki line likhiye: "Rahul Chai Tabhi Garam Aur Fresh Chahta" — aur bina dekhe 7 hisse bol kar dekhiye.

11 Common Mistakes

GALTI	SAHI TAREEKA
Har chhote kaam mein poora formula	Chhote kaam mein 3-4 hisse kaafi. Formula checklist hai.
Role ko asli expert maan lena	Role sirf andaaz badalta hai. Health, legal, paisa — asli expert.
Offer, price, timing AI par chhod dena	Aisi details khud Constraints ya Context mein likhiye.
Task mein do-teen kaam ek saath	Ek Prompt, ek main kaam. Bada kaam ho to tukdon mein.
Goal na likhna	Batayiye ki padhne wala aakhir mein kya kare — order, call, DM.

12 Quick Checklist

- ☐ Mujhe 7 hisse yaad hain: Role, Context, Task, Goal, Audience, Format, Constraints
- ☐ Mujhe pata hai kab poora formula aur kab chhota version
- ☐ Maine 3 kaamon ke liye formula Prompts likhe
- ☐ Maine "ek hissa hatao" experiment kiya
- ☐ Mera formula template note mein save hai

13 Chapter Summary

KEY TAKEAWAYS

- Formula: **Role, Context, Task, Goal, Audience, Format, Constraints.**
- Ye Chapter 6 ke 3 sawal hi hain — plus Role.
- Customer tak jaane wale kaam mein poora formula; roz ke chhote kaam mein 3-4 hisse.
- Jo detail galat nahi honi chahiye (price, offer, timing), wo khud likhiye.
- Role andaaz badalta hai, AI ko asli expert nahi banata.

Next Step — Chapter 8: Examples, Format aur Tone Dena

Kabhi आपको पता होता है कि आपको *kaisa* ज़ाब चाहिये — बस शब्दों में समझा नहीं पाते. Agle chapter में Rahul AI को एक पसंदीदा caption दिखता है, और AI उसी style में 10 नये caption बना देता है.

08

Examples, Format aur Tone Dena

Ek example sau shabdon se zyada samjhata hai.

Chapter 7 mein aapne formula seekha — aur usme ek hissa tha **Format**, ek tha **Constraints**. Is chapter mein hum inhi ko aur gehraai se dekhenge, aur ek nayi taakat jodenge: AI ko **example dikhana**. Kabhi-kabhi ek example sau shabdon se zyada samjha deta hai.

1 Is Chapter Mein Kya Seekhenge

- 1 AI ko example dekar apna "style" samjhana
- 2 Output ka Format chunna: list, table, script, steps
- 3 Tone set karna: friendly, formal, mazedaar
- 4 Length control — chhota, saaf, mobile par padhne layak

2 Simple Explanation

Kai baar aapko pata hota hai ki aapko **kaisa** jawab chahiye — bas use shabdon mein samjhana mushkil hota hai. "Thoda casual, par zyada nahi. Chhota, par sukha nahi." AI ke liye aisi baatein samajhna mushkil hai.

Iska seedha hal: **ek example dikha do**. Jaise aap darzi ko purani pasandida shirt dikha kar kehte ho "aisi hi banao" — waise hi AI ko apna ek achha kaam dikha kar kaho "is style mein aur banao".

Iske saath do aur cheezein output ko control karti hain: **Format** (jawab ka shape) aur **Tone** (jawab ka andaaz). Teeno milkar decide karte hain ki AI ka jawab seedha use karne layak hoga ya aapko aadha dobara likhna padega.

3 Kahani: Rahul Ka Pasandida Caption

Fictional kahani — Rahul, Sameer aur "Kulhad Corner" is book ke fictional examples hain.

RAHUL

Monsoon offer ke baad Sameer ki dukaan ka Instagram thoda chalne laga tha. Ek caption jo Rahul ne khud likha tha, logon ko khaas pasand aaya:

"Baarish, dost aur kulhad wali chai — isse better combo abhi tak bana nahi ☕🌧️"

Ab Sameer chahta tha ki poore hafte aise hi captions jaayein. Rahul ne AI se kaha: "Chai ki dukaan ke liye 10 fun captions likho." Captions aaye — lekin ek "Chai lovers, rejoice!" jaisa angrezi tha, ek bahut lamba tha, ek mein 6 emoji the. Kisi mein wo baat nahi thi.

Imran bhai ne kaha:

"Jo caption chala, wahi AI ko dikha de. Bol — is style mein 10 aur. Aur table mein maang, taaki compare karna aasaan ho."

Rahul ne apna caption example ke roop mein diya aur format ek table rakha. Is baar 10 mein se 7 captions seedhe post karne layak the — wahi chhota andaaz, wahi dosti wali feeling, ek-do emoji. Rahul ne 3 ko thoda badla aur poore hafte ka content ready tha.

4 Important Concepts

1. Example dena

Prompt mein ek achha sample daal dijiye aur saaf likhiye ki AI ko usme se **kya copy karna hai** — style, length, tone — aur **kya nahi** — exact shabd.

Achha example kya hota hai

Aapka apna likha hua, jo pehle kaam kar chuka ho.
Ya aapka banaya ek sample jo aap chahte ho.

Kya example nahi dena

Kisi doosre business ka caption ya post copy karke "aisa hi" bolna. Doosron ka kaam apna banana galat hai (Chapter 5).

EXAMPLE NAHI HAI?

Koi baat nahi. Style ko shabdon mein describe kijiye: "chhota, dosti wala, 1 emoji, ek sawal se shuru". Ya AI se pehle 5 alag styles mangwaiye, jo pasand aaye use example bana lijiye.

2. Format — jawab ka shape

FORMAT	KAB USE KAREIN	PROMPT MEIN KAISE LIKHEIN
List	Ideas, points, checklist	"5 points ki list mein"
Table	Compare karna, planning, calendar	"Table format: Day Topic Caption"
Steps	Kaise karna hai — process	"Numbered steps mein, har step ek line"
Script	Reel, video, call	"Time Screen par kya Kya bolna"
Message	WhatsApp, DM	"WhatsApp message, max 40 words"
Email	Formal baat-cheet	"Subject line ke saath email"

MOBILE PAR TABLE

Phone par badi table padhna mushkil ho sakta hai. 3-4 columns tak rakhiye. Zyada columns chahiye to table ko Google Sheets mein paste kijiye (Chapter 22 mein seekhenge).

3. Tone — jawab ka andaaz

Formal

"Aapka swagat hai. Kripya apna order bhejein."

Bank, office, proposal

Friendly

"Namaste! Aaj ka lunch ready hai 😊"

Tiffin, salon, local dukaan

Mazedaar

"Chai nahi pi? Din adhoora hai bhai ☕"

Chai, snacks, youth brand

Samjhdaar / Seedha

"Service ke 3 fayde, 1 minute mein."

Tips, info posts

Tone business aur customer ke hisaab se chuniye, apni pasand se nahi. Priya ke customers ko friendly tone pasand hai; ek CA office ko formal tone chahiye.

4. Length control

"Chhota likho" AI ke liye saaf nahi hai. **Number dijiye:** "max 20 words", "3 lines", "100 words ke andar". Mobile par log lamba nahi padhte — isliye jo customer tak jaana hai, use chhota hi rakhiye.

5 Step-by-Step Mobile Process: Apne Style Mein Content

1 Apna ek achha sample chuniye

Koi caption, message ya line jo aapne likhi ho aur pasand aayi ho. Nahi hai to ek sample khud likhiye — 1-2 line kaafi.

2 Batayiye kya copy karna hai

"Is style, length aur tone mein likho — lekin shabd naye hon."

3 Format chuniye

Captions ke liye table: Caption | Kis din | Emoji count. Aasaan compare.

4 Prompt bhejiye aur best 3 chuniye

Har caption ko "kya main khud aisa bolta/bolti?" test se dekhiye.

5 Tone badal kar dekhiye

Follow-up: "Inme se 3 ko formal tone mein likho." Farq dekhiye.

6 Final ko save kijiye

Note mein, ya seedha Instagram/WhatsApp ke draft mein.

6 AI Tool Recommendation

Aapka Chat AI. Table wale jawab ko copy karke Google Sheets ya Notes mein paste kar sakte hain — kai apps mein table copy karne ka button bhi hota hai.

7 Copy-Paste Prompts

PROMPT 1 — EXAMPLE SE STYLE

Ye mera ek caption hai jo customers ko pasand aaya:
"[apna caption yahan]"

Isi style, length aur tone mein [business] ke liye 10 naye captions likho. Shabd aur idea naye hon, copy nahi.

Format: Table — Caption | Topic | Emoji count

Constraints: Roman Hindi, har caption max 20 words.

PROMPT 2 — STYLE DESCRIBE KARKE (EXAMPLE NAHI HAI TO)

Ek ladies salon ke liye 5 Instagram captions likho. Style: chhote, dosti wale, ek sawal se shuru, 1 emoji, end mein "DM karein". Tone: friendly lekin respectful. Roman Hindi. Numbered list.

PROMPT 3 — TONE BADLO

Upar ke captions mein se pehle 3 ko 3 alag tone mein likho: Formal, Friendly, Mazedaar. Table format: Original | Formal | Friendly | Mazedaar.

PROMPT 4 — SCRIPT FORMAT

Tiffin service ke liye 20 second ki Reel script likho, topic: "Aaj ka lunch". Format: Table — Time | Screen par kya dikhe | Kya bolna hai. Pehle 3 second mein hook. Roman Hindi.

8 Prompt Ka Explanation

PROMPT KA HISSA	YE KYUN KAAM KARTA HAI
"Isi style, length aur tone mein"	AI ko saaf pata chalta hai ki example se kya lena hai.
"Shabd aur idea naye hon, copy nahi"	Bina iske AI kabhi-kabhi example ke hi shabd ghuma-phira kar de deta hai.
"Table — Caption Topic Emoji count"	10 captions ek nazar mein compare ho jaate hain; emoji zyada ho to turant dikhta hai.
Prompt 2 ka style description	Example ke bina bhi 4-5 saaf style rules se kaafi achha andaaz milta hai.
Prompt 3 — tone table	Ek hi baat alag tone mein dekh kar aap khud tay kar paate ho ki aapke customer ke liye kaunsa theek hai.

9 Practical Example: Priya Ka Tone Test

Priya ne apne menu message ko 3 tone mein banwaya (fictional example; jawab sirf samjhane ke liye — aapke app ka jawab alag hoga):

tone	message	Priya ka Faisla
Formal	"Priya Ki Rasoi ki taraf se namaskar. Aaj ke menu mein rajma-chawal uplabdh hai. Order ke liye sampark karein."	Bahut sukha — jaise sarkari notice
Friendly	"Namaste! 😊 Aaj garm-garam rajma-chawal bana hai. Order ke liye bas 'HAAN' likhiye!"	Yahi chunega — mere customers ke liye sahi
Mazedaar	"Rajma-chawal ka naam suna aur mooh mein paani? 😋 Jaldi order karo, warna khatam!"	Achha hai, lekin "warna khatam" jhooti jaldi — hata diya

Dekhiye, mazedaar version mein AI ne apne aap "warna khatam" jod diya — ek naqli jaldbaazi. Priya ne use pakda aur hataya. **Tone badalne par bhi imaandari wala rule nahi badalta.**

10 Practice Task

Task 1: Apna ek sample (caption ya message) likhiye ya chuniye. Prompt 1 se 10 naye banwaiye — table format mein.

Task 2: Best 3 chuniye aur "kya main khud aisa bolta/bolti?" test se ek-ek shabd theek kijiye.

Task 3: Prompt 3 se tone test kijiye aur likhiye ki aapke business ke liye kaunsa tone sahi hai — aur kyun.

Task 4: Prompt 4 se ek Reel script table mein banwaiye aur use phone ke Notes mein save kijiye (Chapter 21 mein ise shoot karenge).

11 Common Mistakes

GALTI	SAHI TAREEKA
Doosre business ka caption example bana dena	Apna sample dijiye, ya style shabdon mein describe kijiye.
"Chhota likho" bolna	Number dijiye: "max 20 words", "3 lines".
Phone par 7-8 column ki table	3-4 columns tak; zyada ho to Sheets mein.
Tone apni pasand se chunna	Customer aur business ke hisaab se chuniye.
Mazedaar tone mein naqli jaldbaazi chhod dena	"Warna khatam", "sirf aaj" jaise jhoothe dawe hata dijiye.

12 Quick Checklist

- ☐ Maine apne sample se AI ko style samjhaya aur 10 naye captions banwaye
- ☐ Mujhe pata hai kab list, table, steps ya script format chunna hai
- ☐ Maine ek hi message 3 tone mein dekha aur apna tone chuna
- ☐ Main length number mein likhta/likhti hoon
- ☐ Maine Reel script table format mein save ki

13 Chapter Summary

KEY TAKEAWAYS

- Ek achha example sau shabdon se zyada samjhata hai — lekin example apna ho.
- Batayiye example se kya lena hai (style, length, tone) aur kya nahi (exact shabd).
- Format se jawab ka shape tay hota hai: list, table, steps, script, message, email.
- Tone customer ke hisaab se: formal, friendly, mazedaar, seedha.
- Length hamesha number mein; mobile ke liye chhota behtar.

Next Step — Chapter 9: Follow-up, Correction aur Research Prompts

Pehla jawab kabhi-kabhi perfect nahi aata — aur zyadatar log wahin haar maan kar naya chat khol lete hain. Agle chapter mein Priya sirf 3 follow-up Prompts se ek lamba, boring draft ko chhota aur saaf bana deti hai.

09

Follow-up, Correction aur Research Prompts

Pehla jawab sirf shuruaat hai — asli kaam uske baad hota hai.

Ab tak aapne achha Prompt likhna seekha — 3 sawal, 7-hisson wala formula, example, format aur tone. Lekin sach ye hai: achhe se achhe Prompt ka pehla jawab bhi aksar "lagbhag theek" hota hai, perfect nahi. Asli kaam uske baad shuru hota hai — AI se **baat aage badhana**.

1 Is Chapter Mein Kya Seekhenge

- 1 Follow-up Prompt: pehle draft ko step-by-step behtar banana
- 2 Correction Prompt: AI ki galti ko usi chat mein sudhaarna
- 3 Research Prompt: sources aur date ke saath jaankari lena
- 4 Kab usi chat mein rukna hai, kab naya chat kholna hai

2 Simple Explanation

Zyadatar beginners AI ke saath aise kaam karte hain: ek Prompt bheja, jawab pasand nahi aaya, chat band — "AI se nahi hoga." Ye aise hai jaise darzi ne pehli fitting di aur aap bina kuch bole kapda chhod kar chale gaye.

Chat AI ki sabse badi khoobi ye hai ki woh **usi chat mein pichhli baatein yaad rakhta hai**. Aapko sab kuch dobara likhne ki zaroorat nahi. Bas batao kya badalna hai: "chhota karo", "meri baat jodo", "tone thoda formal karo". Har follow-up ke saath jawab aapke kaam ke kareeb aata jaata hai.

EK LINE MEIN YAAD RAKHIYE

Pehla jawab = pehla draft. Final version aksar 2-4 follow-up ke baad aata hai.

3 Kahani: Priya Ka "About Us"

Fictional kahani — Priya aur "Priya Ki Rasoi" is book ke fictional examples hain.

PRIYA

Priya apne WhatsApp Business profile ke "About" mein aur ek chhote poster par apne baare mein kuch lines likhna chahti thi. Usne Chapter 7 wala formula use kiya aur AI se "About Us" likhwaya.

Jawab 12 lines ka tha. Usme "passion for culinary excellence" aur "authentic flavours of India" jaise bhaari shabd the. Priya ka pehla man hua — "chhodo, main khud likh lungi."

Phir use Rahul ki baat yaad aayi: "Chat band mat karna, AI ko batao kya badalna hai." Usne teen chhote follow-up bheje:

1. *"Isko aadha karo aur bhaari angrezi shabd hatao."*
2. *"Isme ye jodo: main 12 saal se ghar ka khaana bana rahi hoon aur roz subah taaza sabzi laati hoon."*
3. *"Aakhri line mein likho ki order WhatsApp par hota hai."*

Teesre follow-up ke baad 4 lines bachi — saaf, sachhi, aur bilkul Priya jaisi. Usne ek shabd badla aur profile mein laga diya. Poore kaam mein 5 minute lage.

4 Important Concepts

1. Follow-up Prompt

Follow-up woh chhota message hai jo aap pichhle jawab ke baad usi chat mein bhejte ho. Isme poora context dobara nahi likhna — bas **badlaav** batana hai.

Draft 1

AI ka pehla jawab

Draft 2

"Chhota karo"

Draft 3

"Meri detail jodo"

Final

"CTA jodo" + aapka edit

10 ready follow-up lines

LENGTH "Isko aadha karo." • "Max 40 words mein."	LANGUAGE "Bhaari shabd hatao, simple Roman Hindi."
TONE "Thoda aur friendly karo." • "Formal banao."	DETAIL JODO "Isme ye jodo: [aapki baat]."
HATAO "[X] wali line hata do."	SHURUAAT "Pehli line aur interesting banao."
ANT "End mein saaf CTA do: [kya karna hai]."	OPTIONS "Iske 3 alag versions do."
SHAPE "Isko bullet points mein badlo."	SIRF EK HISSA "Baaki same rakho, sirf doosri line badlo."

SABSE KAAM KI LINE

"**Baaki same rakho, sirf ... badlo.**" Iske bina AI kabhi-kabhi poora text dobara likh deta hai aur achhi lines bhi badal jaati hain.

2. Correction Prompt

Chapter 3 mein aapne AI ki galti pakadna seekha tha. Ab us galti ko **usi chat mein** sudhaarna seekhiye. Correction Prompt ke 3 hisse hote hain:

1 Galti batao "Tumne [X] likha hai..."	2 Sahi jaankari do "...lekin sahi ye hai: [Y]."	3 Kya update karna hai "Poora text isi hisaab se theek karo."
--	---	---

DHYAN DEIN

Sahi jaankari **aap** dijiye. Sirf "ye galat hai, theek karo" likhne par AI ek nayi galti bhi bana sakta hai — kyunki use abhi bhi sahi baat nahi pata.

3. Research Prompt

Kabhi aapko AI se likhwana nahi, **jaankari dhoondhni** hoti hai — jaise kisi app ka feature, kisi registration ka process, ya kisi topic ki basic samajh. Iske liye Research Prompt mein 3 cheezein zaroor maangiye:

- **Source** — link ya naam, ho sake to official
- **Date** — jaankari kab ki hai

- **Imaandaari** — "pakka nahi pata to saaf bolo"

Phir Chapter 5 ka **AI Answer Check** lagaiye aur final baat primary (official) source par check kijiye. Research Prompt aapka kaam aasaan karta hai — official source ki jagah nahi leta.

4. Usi chat mein rahein ya naya kholein?

Usi chat mein rahiye jab

Same kaam chal raha hai • Pichhli baatein kaam ki hain • Aap draft ko sudhaar rahe hain.

Naya chat kholiye jab

Topic badal gaya • Chat bahut lamba ho gaya aur AI purani baatein mix kar raha hai • AI baar-baar ek hi galti dohra raha hai.

Naya chat kholte waqt zaroori context (business, audience, language) ek baar phir likh dijiye — ya Chapter 11 ki Prompt Library se paste kijiye.

5 Step-by-Step Mobile Process: Draft Se Final Tak

1 Ek draft banwaiye

Formula se ek kaam ka Prompt bhejiye — jaise apna ya kisi dukaan ka "About Us".

2 Jawab padh kar 3 kami likhiye

Lamba hai? Bhaari shabd? Kuch zaroori missing? Note mein 3 points.

3 Har kami ke liye ek follow-up bhejiye

Ek baar mein ek badlaav — taaki pata chale kis follow-up ne kya kiya.

4 Apni asli detail jodiye

Wo baat jo sirf aapko pata hai: kitne saal se, kya khaas hai, kahan ho. Yahi text ko "aapka" banati hai.

5 Final khud padhiye aur ek-do shabd theek kijiye

Bol kar padhiye — atakta hai to wahan badlaav kijiye.

6 Research practice

Ek alag, naye chat mein Research Prompt (neeche Prompt 3) chalaiye aur ek source official website par kholkar dekhiye.

6 AI Tool Recommendation

TOOL	KAAM
Aapka Chat AI	Draft, follow-ups, correction
Perplexity (optional)	Research — jawab ke saath source links (Chapter 5)
Browser	Official website par final check

7 Copy-Paste Prompts

PROMPT 1 — FOLLOW-UP SET (ek-ek karke bhejiye)

- 1) Isko aadha karo aur bhaari angrezi shabd hatao.
- 2) Isme ye jodo: [aapki asli detail].
- 3) Baaki same rakho, sirf aakhri line mein CTA do: [customer kya kare].

PROMPT 2 — CORRECTION

Tumne [galat baat] likha hai, lekin sahi jaankari ye hai: [sahi baat]. Poora text isi hisaab se update karo. Baaki sab same rakho.

PROMPT 3 — RESEARCH

Mujhe [topic] ke baare mein basic jaankari chahiye, India ke liye. 5 main points do. Har point ke saath source ka naam/link aur jaankari kab ki hai, wo likho. Ho sake to official websites use karo. Jo pakka nahi pata, wahan saaf "verify karein" likho.

PROMPT 4 — RESEARCH SE SUMMARY

Upar ki jaankari ko ek beginner ke liye 5 simple lines mein samjhao. Aur ek list do: mujhe kaunsi 3 baatein official website par khud check karni chahiye?

8 Prompt Ka Explanation

PROMPT KA HISSA	YE KYUN KAAM KARTA HAI
Ek follow-up, ek badlaav	Pata chalta hai kaunsa badlaav kaam aaya. Sab ek saath bolne par AI kuch bhool bhi sakta hai.
"Baaki same rakho"	Achha likha hua hissa bach jaata hai.
Correction mein sahi jaankari dena	AI ko andaaza lagane ki zaroorat nahi padti — nayi galti ka chance kam.
Research mein "source + date"	Aapko check karne ki jagah milti hai, aur purani jaankari pehchaan mein aati hai.
"Kaunsi 3 baatein khud check karun?"	AI khud batata hai ki uske jawab ke kaunse hisse Yellow/Red hain — aapka check fast hota hai.

9 Practical Example: Priya Ki Research

"About Us" ke baad Priya ne ek aur sawal socha: *"Ghar se khaana bech rahi hoon — kya mujhe koi registration chahiye?"* Usne ye kiya (fictional example):

Priya ki research		STEP BY STEP
Step 1	Naye chat mein Research Prompt (Prompt 3), topic: "ghar se tiffin business ke liye food registration"	
Step 2	AI ne kuch points diye aur FSSAI ka naam liya; kuch baaton par "verify karein" likha	
Step 3	Prompt 4 se simple summary + "khud check karne wali 3 baatein" li	
Step 4	Browser mein FSSAI ki official website kholi aur wahi 3 baatein wahan padhi	
Step 5	Samajh nahi aaya to apne sheher ke ek jaankar se poochha	

Priya ne AI se **raasta** liya — kya poochhna hai, kahan dekhna hai. Lekin **faisla** official website aur jaankar insaan ki baat par liya. Registration, tax aur legal cheezein Traffic Light mein **Red** hain — ye book bhi inke rules nahi batati, sirf ye sikhati hai ki sahi jaankari kahan milegi.

10 Practice Task

Task 1: Ek "About Us" (apna ya kisi dukaan ka) banwaiye aur 3 follow-ups se final tak le jaiye. Har draft note mein save kijiye — Draft 1, 2, 3, Final.

Task 2: Kisi jawab mein jaan-boojh kar ek galti dhoondhiye (ya Chapter 3 wali) aur Correction Prompt use kijiye.

Task 3: Apne kaam se juda ek topic chuniye aur Prompt 3 + 4 se research kijiye. Ek source official website par khud kholiye.

Task 4: 10 follow-up lines ki list apne note mein copy kijiye.

11 Common Mistakes

GALTI	SAHI TAREEKA
Pehla jawab pasand na aaye to chat band	2-4 follow-up dijiye. Pehla jawab sirf draft hai.
Har follow-up ke liye naya chat	Same kaam ke liye usi chat mein rahiye — context yaad rehta hai.
Ek message mein 6 badlaav	Ek follow-up, ek badlaav.
"Galat hai, theek karo" — bina sahi baat bataye	Correction mein sahi jaankari khud dijiye.
Research ke jawab ko final maan lena	Official website par check; legal/registration mein jaankar se poochhiye.

12 Quick Checklist

- ☐ Maine ek draft ko 3 follow-ups se final tak pahunchaya
- ☐ Mujhe "Baaki same rakho, sirf ... badlo" wali line yaad hai
- ☐ Maine ek Correction Prompt use kiya jisme sahi jaankari khud di
- ☐ Maine ek Research Prompt chalaya aur ek source official website par check kiya
- ☐ Mujhe pata hai kab usi chat mein rehna hai aur kab naya kholna hai

13 Chapter Summary

KEY TAKEAWAYS

- Pehla jawab = pehla draft. Follow-ups se use apne kaam ka banaiye.
- Ek follow-up, ek badlaav — aur "baaki same rakho".
- Correction mein galti + sahi jaankari + kya update karna hai.
- Research Prompt mein source, date aur imaandaari maangiye; final check official source par.
- Same kaam = same chat. Naya topic ya atka hua AI = naya chat.

Next Step — Chapter 10: Business aur Marketing Prompts

Ab tak aapne Prompts ko chhote kaamon par seekha. Agle chapter mein Rahul "Act as a local Business Marketing expert" wala Prompt use karta hai aur ek fictional salon ke liye customer problems, offers aur WhatsApp messages — sab ek flow mein banata hai.

10

Business aur Marketing Prompts

Pehle customer ki problem, phir offer, phir message.

Pichhle chaar chapters mein aapne Prompt likhne ke saare auzaar jod liye — 3 sawal, formula, example-format-tone, aur follow-up. Ab in auzaaron ko ek asli kaam par lagate hain: **business ka kaam**. Yahan AI sirf caption nahi likhta — woh aapko customer ki nazar se sochne mein madad karta hai.

1 Is Chapter Mein Kya Seekhenge

- 1 4 Business Prompt patterns: Idea, Problem, Offer, Message
- 2 Customer ki nazar se sochna — AI ki madad se
- 3 Problem → Offer → Message ka poora flow
- 4 Imaandaar marketing: bina naqli jaldbaazi aur jhoothe dawon ke

2 Simple Explanation

Zyadatar log marketing ko "post daalna" samajhte hain. Lekin achhi marketing ek sawal se shuru hoti hai: **customer ko kya pareshaani hai, aur hum use kaise hal karte hain?**

AI yahan ek achha "sochne ka saathi" hai. Woh aapko customer ki common pareshaniyan, unke hisaab se offer ideas, aur un offers ke messages — sab kuch minutes mein de sakta hai. Lekin ek baat yaad rakhiye:

AI OPTIONS DETA HAI, FAISLA AAP LETE HO

AI ko business ki asli haalat nahi pata — asli price, asli customers, owner kya afford kar sakta hai. AI ke ideas **shuruaat** hain. Business owner aur asli customers se baat karke hi final faisla hota hai.

3 Kahani: Rahul Aur Glow Salon

Fictional kahani — Rahul, Neha ji aur "Glow Salon" is book ke fictional examples hain; ye real business nahi hai.

RAHUL

Kulhad Corner ke posters dekh kar mohalle ki **"Glow Salon"** ki owner, Neha ji, ne Rahul ko bulaya. "Shaadi ka season aa raha hai, lekin naye customers nahi aa rahe. Kuch offer-woffer bana do."

Rahul ka pehla man hua seedha "50% OFF" ka poster banane ka. Phir use Imran bhai ki baat yaad aayi: *"Pehle problem, phir offer."*

Ghar aakar usne AI se likha: *"Act as a local Business Marketing expert. Glow Salon ek chhote sheher ka ladies salon hai. Iske customers ki 5 common problems batao..."*

AI ne jo list di, usme ek point Rahul ko khaas laga: *"Shaadi mein jaane wali mahilaon ko ek hi din mein kai services chahiye hoti hain, aur alag-alag booking mein time jaata hai."*

Agle din Rahul ne ye baat Neha ji ko dikhayi. Unhone kaha: "Haan! Log yahi poochhte hain — sab ek saath ho jayega kya?" Is ek baat se offer nikla: **"Wedding Season Package"** — ek booking mein zaroori services, ek fixed time slot.

Price Neha ji ne khud tay kiya. Rahul ne AI se sirf message aur poster ka text likhwaya. Pehli baar Rahul ko laga — ye sirf design ka kaam nahi, ye *business* ka kaam hai.

4 Important Concepts

4 Business Prompt Patterns

1 IDEA

Naye ideas chahiye — business, service, content, naam.

"[Situation] ke liye 10 ideas do..."

2 PROBLEM

Customer ki pareshaani samajhni hai.

"[Business] ke customers ki 5 common problems..."

3 OFFER

Problem ke hisaab se offer banana hai.

"Har problem ke liye ek offer idea..."

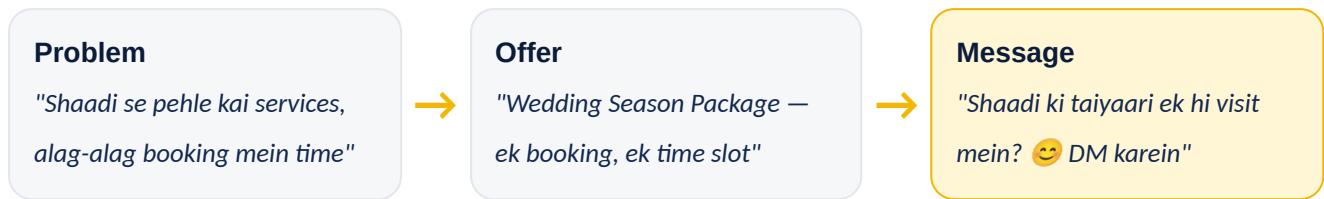

4 MESSAGE

Offer ko customer tak pahunchana hai.

"Is offer ke liye 3 WhatsApp messages..."

Problem → Offer → Message

Ye teen patterns ek flow mein chalte hain — aur isi order mein:

Jab offer kisi asli problem se nikalta hai, to message likhna aasaan ho jaata hai — aur customer ko "sale" nahi, **hal** dikhta hai.

Customer ki nazar se sochna

AI se ye sawal poochhna bahut kaam ka hai: "Agar tum is business ke customer hote, to kya sochte?" Isse aapko wo baatein dikhti hain jo business owner roz dekh kar bhool jaata hai — jaise parking ki dikkat, timing, bharosa.

Imaandaar marketing ke 4 rules

MAT KIJIYE	KYUN
"Sirf aaj!", "Aakhri mauka!" — jab sach nahi	Naqli jaldbaazi bharosa todhti hai. Customer agle hafte wahi offer dekhega.
"Sheher ka No.1", "100% guarantee "	Bina saboot ke dawae misleading hain.
AI se naqli reviews ya testimonials	Ye jhooth hai aur platforms bhi iske khilaf hain.
Price ya discount AI par chhod dena	Price owner tay karega — AI ko asli cost nahi pata.

India mein ASCI (Advertising Standards Council of India) jaisi sanstha misleading advertising ke khilaf guidelines banati hai. Detail Chapter 43 aur 49 mein aayegi.

5 Step-by-Step Mobile Process: Ek Business Ka Offer Banao

1 Ek business chuniye

Koi jaan-pehchaan wali dukaan, ghar ka business, ya fictional example. Uski 3-4 line ki jaankari note mein likhiye: kya bechte hain, kahan hain, customer kaun hain.

2 Problem Prompt chalaiye

Prompt 1 — customers ki 5 problems. Best 2 par tick kijiye.

3 Customer ki nazar se dekhiye

Prompt 2 — "agar tum customer hote". Koi nayi baat mili to jodiye.

4 Offer ideas lijiye

Prompt 3 — har problem ke liye offer. Price mat maangiye.

5 Owner / 2-3 customers se poochhiye

"Inme se kaunsa kaam ka lagta hai?" Asli logon ka jawab AI ke andaaze se zyada keemti hai.

6 Message aur poster text banwaiye

Prompt 4 — chuna hua offer, asli details ke saath. Chapter 9 ke follow-ups se final kijiye.

7 Sab Prompts save kijiye

Jo Prompts kaam aaye, note mein copy kijiye — agle chapter mein ye aapki Prompt Library banenge.

MOBILE TIP

Step 5 ke liye AI ki list ka screenshot lekar owner ko WhatsApp par bhej sakte hain: "Inme se kaunsa sahi lagta hai?" Voice note mein jawab lena aur bhi aasaan.

6 AI Tool Recommendation

Aapka Chat AI + WhatsApp (owner/customers se feedback ke liye). Poster ka design Part IV mein aayega — abhi sirf text.

7 Copy-Paste Prompts

PROMPT 1 — PROBLEM

Act as a local Business Marketing expert. "[Business ka naam]" ek [sheher/area] ka [business type] hai. Iske customers mostly [customer type] hain. Is business ke customers ki 5 common problems ya pareshaniyan batao. Table format: Problem | Customer kya sochta hai. Roman Hindi.

PROMPT 2 — CUSTOMER KI NAZAR SE

Agar tum is business ke ek customer hote, to yahan aane se pehle kya sochte? Kaunsi 3 baatein tumhe rok sakti hain, aur kaunsi 3 baatein bharosa dilayengi? Short list.

PROMPT 3 — OFFER IDEAS

Upar ki har problem ke liye ek offer ya service idea do. Price ya discount percentage mat likhna – sirf offer ka idea aur ye customer ki kaunsi problem hal karta hai. Table format.

PROMPT 4 — MESSAGE + POSTER TEXT

Offer: [chuna hua offer, asli details ke saath – timing, kya shaamil hai].

Is offer ke liye:

(1) 3 WhatsApp messages, har ek max 40 words

(2) Poster ke liye 1 headline (max 6 words) aur 1 sub-line

Tone: friendly, respectful. Roman Hindi. Koi naqli jaldbaazi ya "No.1" jaisa dawa nahi.

PROMPT 5 — IDEA (NAYA BUSINESS)

Mere paas ye skills hain: [skills]. Mere area mein [area ki 2-3 baatein]. Sirf Mobile aur kam budget se shuru ho sakne wale 10 chhote business ideas do. Har idea: kya hai, kiske liye, pehla kadam. Koi income number mat likhna.

8 Prompt Ka Explanation

PROMPT KA HISSA	YE KYUN KAAM KARTA HAI
"Act as a local Business Marketing expert"	Role — jawab ka andaaz chhote, local business ke hisaab se hota hai, badi company jaisa nahi.
"Problem Customer kya sochta hai"	Customer ke shabdon mein soch milti hai — wahi shabd baad mein message mein kaam aate hain.
"Price mat likhna"	AI ki banayi price owner ki asli cost se match nahi karegi. Price hamesha insaan tay kare.
Prompt 4 mein "asli details"	Timing, services — jo sach hai wahi likhwao. AI ko details khud banane ka mauka mat do.
"Koi income number mat likhna"	AI ke bataye income andaaze aksar hawa-hawai hote hain. Is book ka rule: koi guaranteed income nahi.

9 Practical Example: Glow Salon Ka Poora Flow

Rahul ka kaam ek nazar mein (fictional example; AI ke jawab sirf samjhane ke liye):

Glow Salon — Problem se Message tak		RAHUL
Problem (AI)	Shaadi se pehle kai services; alag booking mein time; "sahi time par hoga ya nahi" ka dar	
Customer ki nazar	Bharosa: saaf-safai, pehle ke kaam ki photos. Rok: waiting time	
Offer (AI idea)	Ek booking mein package, fixed time slot	
Owner ka faisla	Neha ji ne package ki services aur price khud tay kiye	
Message (final)	"Shaadi ki taiyaari ek hi visit mein? 😊 Glow Salon ka Wedding Season Package — aapka time slot pehle se fix. Details ke liye reply karein."	
Poster headline	"Shaadi Ki Taiyaari, Ek Hi Visit Mein"	

Dhyan dijiye: message mein koi "sirf aaj" ya "No.1" nahi hai. Phir bhi woh saaf batata hai ki customer ko kya milega. **Achhi marketing chillati nahi — samjhati hai.**

10 Practice Task

Task 1: Ek local business chuniye aur Prompt 1-3 se 5 problems aur 5 offer ideas nikaaliye.

Task 2: Kam se kam ek asli insaan (owner, customer, ghar ka koi) se poochhiye kaunsa offer sabse kaam ka lagta hai.

Task 3: Chune hue offer ke liye Prompt 4 se 3 WhatsApp messages aur poster text banwaiye. Chapter 9 ke follow-ups se final kijiye.

Task 4: Apne liye Prompt 5 chalaiye aur 10 mein se 2 ideas note mein save kijiye — Part IX mein kaam aayenge.

11 Common Mistakes

GALTI	SAHI TAREEKA
Seedha "50% OFF" poster	Pehle problem, phir offer, phir message.
AI ke offer ko final maan lena	Owner aur asli customers se poochhiye.
AI se price tay karwana	Price owner tay kare — cost aur market use pata hai.
Naqli jaldbaazi, "No.1", naqli reviews	Sirf sach likhiye. Bharosa hi asli marketing hai.
Har business ke liye same Prompt, bina context	Business, area aur customer type har baar likhiye.

12 Quick Checklist

- ☐ Mujhe 4 patterns yaad hain: Idea, Problem, Offer, Message
- ☐ Maine ek business ke liye Problem → Offer → Message flow kiya
- ☐ Maine kam se kam ek asli insaan se offer par raay li
- ☐ Mere messages mein koi naqli jaldbaazi ya jhootha dawa nahi hai
- ☐ Kaam aane wale Prompts maine note mein save kiye

13 Chapter Summary

KEY TAKEAWAYS

- 4 Business Prompt patterns: Idea, Problem, Offer, Message.
- Order yaad rakhiye: Problem → Offer → Message.
- "Agar tum customer hote" — AI se customer ki nazar se sochwaiye.
- AI options deta hai; price aur final faisla owner aur asli customers ke saath.
- Imaandaar marketing: na naqli jaldbaazi, na "No.1", na naqli reviews.

Next Step — Chapter 11: Apni Personal Prompt Library Banana

Rahul ke phone mein ab 200 chats hain — aur achha Prompt dhoondhne mein 10 minute lag jaate hain. Part II ke aakhri chapter mein aap apne saare kaam ke Prompts ek jagah, categories aur [placeholders] ke saath organize karenge.

11

Apni Personal Prompt Library Banana

Achha Prompt ek baar banta hai, baar-baar kaam aata hai.

Part II mein aapne Prompt likhne ke kai tareeke seekhe, aur har chapter mein kuch Prompts save bhi kiye. Lekin wo ab bikhre hue hain — kuch Notes mein, kuch chats mein, kuch yaad mein. Part II ka ye aakhri chapter sab ko ek jagah jodta hai: **aapki apni Prompt Library**.

1 Is Chapter Mein Kya Seekhenge

- 1 Prompt Library kya hai aur kyun zaroori hai
- 2 5 categories mein Prompts organize karna
- 3 [Placeholders] se Prompt ko reusable template banana
- 4 Library ko phone par aasaani se use aur update karna

2 Simple Explanation

Prompt Library ek document hai jisme aapke kaam ke, tested Prompts ek jagah rakhe hote hain — categories mein, ready-to-use. Jaise ek achhe darzi ke paas har customer ka naap likha hota hai, aur use har baar dobara naapna nahi padta.

Library ka asli fayda: **time** aur **quality**. Time isliye, kyunki har baar zero se Prompt nahi likhna. Quality isliye, kyunki library mein sirf wo Prompts jaate hain jo pehle achha kaam kar chuke hain.

AAGE KYA HOGA

Is book ke har aane wale chapter mein naye Prompts milenge — design, content, website, client. Sab isi library mein judenge. Book khatam hote-hote aapki library aapke business ka sabse kaam ka auzaar ban jayegi.

3 Kahani: Rahul Ke 200 Chats

Fictional kahani — Rahul, Neha ji aur "Glow Salon" is book ke fictional examples hain.

RAHUL

Neha ji ka phone aaya: "Rahul, wo Wedding Package wale jaise message ab Diwali ke liye bhi bana do."

Rahul ne apna Chat AI khola. Chat history mein 200 se zyada chats the. Salon wala Prompt kis chat mein tha? "Glow Salon" search kiya — 12 chats nikle. Ek-ek kholte-kholte 10 minute nikal gaye. Jo Prompt mila, usme Wedding Package ki details bhari hui thi; Diwali ke liye use pehle saaf karna pada.

Us raat Rahul ne Imran bhai ko pareshaani batayi. Unhone apna phone dikhaya — ek Google Doc, naam: "Meri Prompt Library". Andar headings: Design, Content, Business, Client, Check. Har Prompt mein badalne wali jagah **[brackets]** mein.

"Achha Prompt ek baar banta hai, baar-baar kaam aata hai," Imran bhai bole. "Bas use sahi jagah rakhna aana chahiye."

Agle din Rahul ne apni library banayi. Jab Neha ji ka agla message aaya — "Karva Chauth ke liye bhi" — Rahul ne library khol kar Offer Message Prompt copy kiya, [Offer] ki jagah naya offer likha, aur 2 minute mein kaam shuru.

4 Important Concepts

1. 5 categories

DESIGN

Poster ideas, image Prompts, branding

CONTENT

Captions, hooks, Reel scripts, content plan

BUSINESS

Problem, offer, message, ideas

CLIENT

Outreach, follow-up, proposal, feedback

CHECK

Fact-check, source, correction, private data hatao

Shuruaat mein har category mein 2-3 Prompts kaafi hain. Book ke saath ye apne aap badhegi. Chahe to category ka naam apne kaam ke hisaab se badaliye — ye aapki library hai.

2. Placeholders — [brackets]

Placeholder woh jagah hai jo har baar badalti hai. Use **[square brackets]** mein likhiye. Isse ek hi Prompt har business, har offer par chal jaata hai.

EK BAAR KA PROMPT

Glow Salon ke Wedding Season Package ke liye 3 WhatsApp messages likho...

Sirf ek kaam ke liye. Agli baar edit karna padega.

REUSABLE TEMPLATE

[Business ka naam] ke [Offer] ke liye 3 WhatsApp messages likho...

Har business, har offer — bas brackets bharo.

3. Har Prompt ke saath 3 chhoti lines

LINE	KYUN	EXAMPLE
Naam	Search karke turant milega	"Offer Message — WhatsApp"
Kab use karein	Pata rahe kis kaam ka hai	"Kisi bhi offer ka pehla message"
Note	Pichhli baar ki seekh	"Follow-up: 'price mat likhna' zaroor jodo"

4. Library mein kya jaaye, kya nahi

Daaliye

Wo Prompts jo kam se kam ek baar achha kaam kar chuke hain. Formula template. Achhe follow-up lines.

Mat daaliye

Client ke naam, number, address — sirf [placeholders]. Password ya koi private jaankari (Chapter 5).

5 Step-by-Step Mobile Process: Library Banao

1 Google Docs app kholiye (ya Notes)

Naya document: "Meri Prompt Library". Google Docs isliye achha hai kyunki wahi account phone aur computer dono par khulta hai. Docs nahi hai to Notes app bhi chalega.

2 5 headings banaiye

DESIGN, CONTENT, BUSINESS, CLIENT, CHECK. Google Docs mein text select karke "Heading" style lagaiye.

3 Purane Prompts ikattha kijiye

"Meri AI Business Journey" note aur Chapter 6-10 ke chats se jo Prompts kaam aaye, sahi heading ke neeche paste kijiye.

4 Placeholders lagaiye

Neeche wala Prompt 1 use kijiye — AI khud bata dega kaunsi jagah [brackets] mein jaani chahiye.

5 Har Prompt par Naam + Kab use karein + Note

3 chhoti lines. Bas.

6 Home screen par shortcut

Document ko star/favourite kijiye, ya home screen par shortcut banaiye — ek tap mein khule.

7 Use karne ka tareeka

Library kholo → Prompt copy → Chat AI mein paste → [brackets] bharo → bhejo.

MOBILE SE KYA POSSIBLE HAI, COMPUTER KAB USEFUL HAI

Mobile: library banana, copy-paste, update — sab. **Computer:** jab library bahut badi ho jaaye aur reorganize karna ho, tab screen badi hone se aasaani. **Beginner kya kare:** phone par shuru kijiye; Google Docs baad mein computer par bhi wahi khulega.

6 AI Tool Recommendation

TOOL	KAAM
Google Docs (ya Notes)	Library rakhna — headings, search, share
Apka Chat AI	Prompt ko template banana, library ko organize karna

Kuch Chat AI apps mein bhi saved instructions ya "Projects" jaise features hote hain. Wo kaam ke hain, lekin apni library ek alag document mein rakhna safe hai — app badle to bhi library aapke paas rahegi.

7 Copy-Paste Prompts

PROMPT 1 — PROMPT KO TEMPLATE BANA O

Mere is Prompt ko reusable template mein badlo. Jo hisse har baar badlenge (business ka naam, offer, sheher, customer, etc.) unhe [square brackets] mein rakho. Baaki sab same rakho. Upar ek chhota naam aur ek line "Kab use karein" bhi likho.

Prompt: [apna Prompt yahan paste karo]

PROMPT 2 — CATEGORY BATAO

Neeche mere kuch Prompts hain. Har ek ko in 5 categories mein se ek mein daalo: Design, Content, Business, Client, Check. Table format: Prompt ka naam | Category | Kab use karein.

[Prompts paste karo]

PROMPT 3 — LIBRARY STARTER

Main ek beginner hoon jo Mobile se local businesses ke liye design aur content ka kaam seekh raha hoon. Meri Prompt Library ke liye har category (Design, Content, Business, Client, Check) mein 2 starter Prompt templates do, [placeholders] ke saath. Har Prompt Roman Hindi mein, 3-4 lines ka. Koi price ya income number nahi.

8 Prompt Ka Explanation

PROMPT KA HISSA	YE KYUN KAAM KARTA HAI
"Jo hisse har baar badlenge"	AI ko saaf pata chalta hai kya placeholder banana hai aur kya fix rakhna hai.
"Baaki sab same rakho"	Aapka tested Prompt bigadta nahi — sirf reusable banta hai.
Prompt 2 ki table	Bikhre Prompts ek nazar mein sort ho jaate hain.
Prompt 3 — starter	Library khaali ho to shuruaat mil jaati hai. Lekin inhe ek baar chala kar test kijiye — sirf test hone ke baad hi "tested" maaniye.

9 Practical Example: Rahul Ki Library Ka Ek Page

Rahul ki library ka BUSINESS section kuch aisa dikhta hai (fictional example):

BUSINESS

Offer Message — WhatsApp

Kab use karein: kisi bhi offer ka pehla message

[Business ka naam] ke "[Offer]" ke liye 3 WhatsApp messages likho. Details: [timing, kya shaamil hai]. Har message max 40 words. Tone: friendly, respectful. Roman Hindi. Price mat likhna, naqli jaldbaazi nahi.

Note: Owner se price confirm karke khud jodna. (Chapter 10)

Customer Problems

Kab use karein: naye client ke saath pehli baat se pehle

Act as a local Business Marketing expert. "[Business ka naam]" [area] ka [business type] hai. Customers: [customer type]. 5 common problems batao. Table: Problem | Customer kya sochta hai.

Note: Result owner ko screenshot karke bhejo. (Chapter 10)

Jab Neha ji ne Karva Chauth ke liye kaha, Rahul ne pehla Prompt copy kiya, [Business ka naam] = Glow Salon, [Offer] = Karva Chauth Special likha — aur kaam 2 minute mein shuru.

10 Practice Task

Task 1: "Meri Prompt Library" document banaiye, 5 headings ke saath.

Task 2: Part II ke apne best Prompts ikattha kijiye — kam se kam 15. Formula template (Chapter 7) aur 10 follow-up lines (Chapter 9) zaroor daaliye.

Task 3: Prompt 1 se har Prompt ko template banaiye aur Naam + Kab use karein + Note likhiye.

Task 4: Library se ek Prompt copy karke kisi naye business ke liye use kijiye — dekhiye kitna time bacha.

11 Common Mistakes

GALTI	SAHI TAREEKA
Library sirf chat history mein	Alag document mein rakhiye — search aur use aasaan.
Bina test kiye Prompts bhar dena	Sirf wo daaliye jo ek baar achha kaam kar chuke hain.
Client ke naam-number template mein	Sirf [placeholders]. Private jaankari kabhi nahi.
Library bana kar bhool jaana	Har naye kaam ke baad ek line: naya Prompt ya note jodiye.
Bahut saari categories	5 kaafi hain. Zaroorat ho tabhi nayi.

12 Quick Checklist

- ☐ Maine "Meri Prompt Library" document banaya, 5 headings ke saath
- ☐ Library mein kam se kam 15 tested Prompts hain
- ☐ Prompts mein badalne wali jagah [brackets] mein hai
- ☐ Har Prompt par Naam, Kab use karein aur Note hai
- ☐ Library ek tap mein khulti hai (star/shortcut)

13 Chapter Summary

KEY TAKEAWAYS

- Prompt Library = aapke tested Prompts, ek jagah, categories mein.
- 5 categories: Design, Content, Business, Client, Check.
- [Placeholders] se ek Prompt har business par chal jaata hai.
- Har Prompt par Naam + Kab use karein + Note.
- Library alag document mein; private jaankari kabhi nahi; har naye kaam ke baad update.

PART II COMPLETE

Prompt Likhna Seekhein — aapne kya haasil kiya

Ch 6

Simple vs
Detailed, 3
sawal

Ch 7

R-C-T-G-A-F-C
formula

Ch 8

Example,
format, tone

Ch 9

Follow-up,
correction,
research

Ch 10

Problem →
Offer →
Message

Ch 11

Apni Prompt
Library

Apne "Meri AI Business Journey" note mein likhiye: *"Part II khatam — ab main AI se apne kaam ka jawab nikaal sakta/sakti hoon."*

Next Step — Part III, Chapter 12: AI Tools Ki Categories aur Sahi Tool Chunna

Ab aapke paas ek Chat AI hai aur use chalane ki skill bhi. Lekin poster ke liye image chahiye, video ke liye editing, website ke liye builder. Part III mein aap AI tools ki duniya ko samjhenge — bina 100 apps ke jaal mein phanse. Rahul ko ek group mein "FREE Pro AI 1 saal" ka screenshot milta hai... aur wahin se kahani shuru hoti hai.

PART III

03

AI Tools Ki Duniya

AI tools ka naksha samjhiye aur ek chhota, free-first Mobile toolkit banaiye — 100 tools ki list nahi.

Chapter 12 - 13

12

AI Tools Ki Categories aur Sahi Tool Chunna

Tool se nahi, kaam se shuru kijiye.

Part II mein aapne ek Chat AI se kaam karwana seekh liya — aur aapki Prompt Library bhi ban gayi. Lekin business mein sirf likhna nahi hota. Poster ke liye image chahiye, Reel ke liye video editing, customer ke liye WhatsApp, dukaan ke liye website. Part III mein hum AI tools ki poori duniya ko ek nakshe ki tarah dekhenge — taaki aap sahi kaam ke liye sahi tool chunein, aur 100 apps ke jaal mein na phansein.

1 Is Chapter Mein Kya Seekhenge

- 1 AI tools ki 14 categories — har ek ek line mein
- 2 "Kaam → Category → Tool" ka simple tareeka
- 3 Free vs Paid: kab paisa lagana samajhdaari hai
- 4 Naqli offers aur purani jaankari se bachna

2 Simple Explanation

Aaj "AI tools" ki lists mein hazaron naam hain. Har hafte koi naya app viral hota hai. Beginner ka sabse bada nuksaan yahi hai: **seekhne ki jagah naye-naye tools install karte rehna**.

Iska ilaaj simple hai. Tool se shuru mat kijiye — **kaam se shuru kijiye**. Pehle socho mujhe kya karna hai (poster? caption? website?). Phir dekho wo kaam kis **category** ka hai. Phir us category ka ek achha, bharosemand tool chuno. Bas.

BOOK KA RULE YAAD HAI?

Ek concept → ek example → ek tool → ek kaam. Is chapter mein aap tools ka naksha dekhenge. Lekin har tool ko seekhenge usi chapter mein jahan uski zaroorat hai — pehle se nahi.

3

Kahani: "FREE Pro AI — 1 Saal!"

Fictional kahani — Rahul aur Imran bhai is book ke characters hain.

RAHUL

College ke WhatsApp group mein ek screenshot aaya: "🔥 *FREE Pro AI — 1 saal bilkul free! Jaldi karo, offer khatam hone wala hai!*" Neeche ek link tha. Group ke aadhe log link khol chuke the.

Rahul bhi kholne wala tha, phir ruk gaya. Chapter 5 wala sawal yaad aaya: "*Date? Ye kab ki baat hai?*" Screenshot mein koi date nahi thi.

Usne link nahi khola. Seedha us company ka official app khola aur "Plan" section dekha. Wahan aisa koi free offer nahi tha. Baad mein pata chala ki waisa ek offer pehle kabhi chala tha — aur kab ka khatam ho chuka tha.

Imran bhai ne kaha:

"Offers aate-jaate rehte hain, screenshots saalon ghoomte rehte hain. Aur kuch links to seedha dhokha hote hain. Rule simple hai: offer sirf official app ya official website par check kar. Aur ek baat — tool ke peeche mat bhaag. Pehle soch tujhe karna kya hai."

Us din Rahul ne apne note mein ek chhoti table banayi: *Kaam | Category | Tool | Free/Paid | Last checked*. Wahi table is chapter ka dil hai.

4

Important Concepts

AI tools ki 14 categories

Neeche har category ek line mein hai, saath mein example tool aur wo chapter jahan aap use seekhenge. Abhi kuch install mat kijiye — bas naksha samjhiye.

#	CATEGORY	KYA KARTA HAI	EXAMPLE TOOL	CHAPTER
1	Chat AI	Baat karke likhwana, sochna, samjhna	ChatGPT, Claude, Gemini	4 – 11
2	Research AI	Sources ke saath jaankari dhoondhna	Perplexity, Chat AI ka web search	5, 9
3	Writing AI	Captions, messages, articles, eBook drafts	Aapka Chat AI	19 – 23, 32
4	Image AI	Tasveer banana ya edit karna	Gemini app	16
5	Design AI	Poster, post, menu, visiting card	Canva	14 – 18
6	Video AI	Reel editing, captions, cuts	Edits (Meta)	21
7	Voice AI	Bol kar likhwana, AI se bol kar baat	Chat AI ka voice mode, phone ki voice typing	4
8	Presentation AI	Slides, portfolio PDF	Canva	33, 39
9	Website AI	Describe karke website banana	AI website builder (jaise Hostinger)	26
10	Coding AI	Bina coding app/page banana (optional)	Lovable	27
11	Automation	Repeat kaam apne aap chalana	Google Forms + Sheets	47
12	Chatbot	Customer ke sawalon ka auto-reply	WhatsApp Business app (Business AI)	37, 48
13	AI Agent	Kai steps khud karne wala AI	Concept — abhi sirf samajh	48
14	Productivity	Documents, sheets, files organize karna	Google Docs, Sheets, Drive	11, 13, 22

Tool names sirf examples hain, "best" ki list nahi. Har category mein aur bhi tools hain.

ACHHI KHABAR

14 categories dekh kar ghabraiye mat. Is book ka zyadatar kaam sirf **5 apps** se hoga — agle chapter mein aap yahi "Core Mobile Toolkit" set karenge.

Free vs Paid — kab paisa lagayein?

Zyadatar AI tools ka **free plan** hota hai jisme limit hoti hai. Jaise September 2026 mein Canva ke free plan mein AI tools ke mahine mein **20 tak uses** milte hain, paid plans mein zyada. Meta ka Edits app free hai; Meta ne ek paid "Edits Plus" tier par kaam shuru kiya hai.

Paid plan tab sochiye jab **teeno** baatein sach hon:

1

Limit roz atka rahi hai

Free limit ki wajah se aapka kaam baar-baar ruk raha hai — kabhi-kabhi nahi, roz.

2

Tool se kaam aa raha hai

Aap us tool se asli kaam (client, apna business) kar rahe ho — sirf try nahi.

3

Monthly se shuru

Pehle ek mahina. Saal bhar ka plan tab, jab pakka ho ki roz use hoga.

Last checked: 21 September 2026 — Canva Help Center (AI usage), Social Media Today (Edits Plus). Plans badalte rehte hain; hamesha app ke andar current plan dekhiye.

Naqli offer pehchanne ke 5 signs

- ☐ Screenshot mein **date nahi** hai, ya bahut purani hai
- ☐ Offer **WhatsApp/Telegram link** se aa raha hai, official app se nahi
- ☐ "Jaldi karo", "sirf aaj" jaisi **jaldabaazi**
- ☐ Login ke liye **OTP, password ya card details** maange
- ☐ App ka **publisher** asli company nahi (Chapter 4)

EK BHI SIGN DIKHE TO

Link mat kholiye. Official app ya official website kholiye aur wahan "Plan"/"Offers" section dekhiye. Kisi ne OTP ya paise maange hon to ye dhokha ho sakta hai — cyber fraud ki shikayat ke liye national helpline **1930** aur **cybercrime.gov.in** hai (Chapter 49 mein detail).

"Last checked" ki aadat

Tools ki jaankari — price, free limit, feature — mahino mein badal jaati hai. Isliye is book mein har tool info ke saath **"Last checked" date** hai. Aap bhi apne notes mein yahi kijiye: kisi tool ke baare mein kuch likho to saath mein date likho. Teen mahine baad dobara check.

5 Step-by-Step Mobile Process: Apni Tool Cheat Sheet

1 Apne 3 planned kaam likhiye

Agle mahine aap AI se kya karna chahte ho? Jaise: "dukaan ka poster", "Instagram captions", "tiffin ka order system".

2 Har kaam ki category pehchaniye

Upar ki 14 categories wali table se.

3 Har category ke liye ek tool

Table ka example tool, ya jo aapke paas pehle se hai. Ek hi — do nahi.

4 Free/Paid aur Last checked likhiye

Tool ka official app/website kholkar free plan dekhiye. Aaj ki date likhiye.

5 Cheat Sheet save kijiye

Google Sheets ya Notes mein table: Kaam | Category | Tool | Free/Paid | Last checked. Prompt Library ke saath rakhiye.

6 AI Tool Recommendation

Is chapter mein koi naya tool install nahi karna. **Aapka Chat AI** (options samajhne ke liye) aur **Google Sheets ya Notes** (cheat sheet ke liye) kaafi hain.

7 Copy-Paste Prompts

PROMPT 1 — KAAM SE CATEGORY

Mujhe ye kaam karne hain, sirf Mobile se aur free tools ke saath: [kaam 1], [kaam 2], [kaam 3]. Har kaam ke liye batao kaunsi AI tool category kaam aayegi, aur beginner ko kin 2 baaton ka dhyan rakhna chahiye. Kisi tool ka price mat batana. Table format.

PROMPT 2 — OFFER CHECK

Mujhe ye message mila hai: "[message/screenshot ka text]". Isme naqli offer ya scam ke kaunse signs hain? Aur mujhe ye offer kahan check karna chahiye? Simple list.

PROMPT 3 — FREE VS PAID SOCH

Main [tool] ka free plan use kar raha hoon kaam [kaam] ke liye. Paid plan lene se pehle mujhe khud se kaunse 5 sawal poochhne chahiye? Current price mat batana – wo main official page par dekhunga.

8 Prompt Ka Explanation

PROMPT KA HISSA	YE KYUN KAAM KARTA HAI
"Kisi tool ka price mat batana"	AI ke paas purani price ho sakti hai (Chapter 3). Price hamesha official page se.
Kaam se shuru (Prompt 1)	AI aapko category deta hai, viral tools ki list nahi.
Prompt 2 — "kahan check karun"	Scam pehchanne ke saath-saath sahi raasta bhi milta hai.
Prompt 3 — 5 sawal	Paise ka faisla aap soch-samajh kar lete ho, jaldbaazi mein nahi.

9 Practical Example: Priya Ki Cheat Sheet

Priya ne apne tiffin business ke liye ye table banayi (fictional example; tool status 21 September 2026 ke hisaab se):

KAAM	CATEGORY	TOOL	FREE/PAID	LAST CHECKED
Menu message, captions	Chat / Writing	Uska Chat AI	Free	21 Sep 2026
Menu poster	Design	Canva	Free (AI uses limited)	21 Sep 2026
Khaane ki photo sudhaarna	Image	Gemini app	Free (daily limit)	21 Sep 2026
"Aaj ka lunch" Reel	Video	Edits	Free	21 Sep 2026
Customer replies	Chatbot	WhatsApp Business app	Free app	21 Sep 2026

5 kaam, 5 tools — aur sab free se shuru. Priya ne tay kiya ki paid plan ke baare mein tab sochegi jab koi limit roz kaam rokne lage.

10 Practice Task

Task 1: Apne 3 planned kaam likhiye aur Prompt 1 se unki categories pehchaniye.

Task 2: Apni Tool Cheat Sheet banaiye — Kaam | Category | Tool | Free/Paid | Last checked.

Task 3: Kisi group mein aaya koi "free offer" message dhoondhiye (ya yaad kijiye) aur 5 signs se check kijiye.

Task 4: Apne phone mein aise AI apps dekhiye jo aapne install kiye par use nahi karte. Unhe hata dijiye — agle chapter mein jagah chahiye hogi.

11 Common Mistakes

GALTI	SAHI TAREEKA
Har viral AI app install karna	Kaam → Category → Tool. Ek category, ek tool.
Purane screenshot par bharosa	Offer sirf official app/website par check kijiye.
Pehle hi din saal bhar ka paid plan	Free se shuru; paid tab jab limit roz rok rahi ho — pehle monthly.
Link par OTP ya card details dena	Kabhi nahi. Dhokha lage to 1930 / cybercrime.gov.in.
Tool info bina date ke note karna	Har info ke saath "Last checked" date.

12 Quick Checklist

- ☐ Mujhe "Kaam → Category → Tool" ka tareeka samajh aa gaya
- ☐ Maine 14 categories ki table dekhi aur apne kaam ki categories pehchani
- ☐ Meri Tool Cheat Sheet ban gayi, "Last checked" date ke saath
- ☐ Mujhe naqli offer ke 5 signs yaad hain
- ☐ Mujhe pata hai paid plan kab sochna hai

13 Chapter Summary

KEY TAKEAWAYS

- Tool se nahi, kaam se shuru: Kaam → Category → Tool.
- 14 categories hain, lekin is book ka zyadatar kaam 5 apps se hoga.
- Free se shuru; paid tab jab limit roz atkaye, tool se asli kaam ho, aur pehle monthly.
- Offers sirf official app/website par check; OTP/card kabhi link par nahi.
- Har tool info ke saath "Last checked" date.

Next Step — Chapter 13: Core Mobile Toolkit Setup

Priya ke phone mein sirf 2 GB jagah bachi hai — aur use 5 apps chahiye. Agle chapter mein aap apna "Core Mobile Stack" set karenge: 5 apps, ek Google account, aur ek saaf folder system jahan har design, har file ek jagah milegi.

IS CHAPTER KE SOURCES (LAST CHECKED: 21 SEPTEMBER 2026)

Canva Help Center — Understanding your AI usage · Social Media Today — Meta announces Edits Plus paid subscription tier · Perplexity Help Center — Airtel promo (ended 16 Jan 2026) · cybercrime.gov.in

13

Core Mobile Toolkit Setup

5 apps, ek account, aur har file ki ek tay jagah.

Pichhle chapter mein aapne AI tools ka naksha dekha aur apni Tool Cheat Sheet banayi. Ab us naksha ko phone par utaarne ka waqt hai. Is chapter ke baad aapke phone mein wo sab hoga jo Part IV se aage ke har kaam ke liye chahiye — na zyada, na kam.

1 Is Chapter Mein Kya Seekhenge

- 1 Core Mobile Stack: 5 apps jo is book ka 80% kaam karenge
- 2 Ek Google account se sab kuch jodna
- 3 Google Drive mein saaf folder system
- 4 Kam storage wale phone mein jagah banana

2 Simple Explanation

Ek achhe karigar ke paas bahut saare auzaar nahi, **sahi** auzaar hote hain — aur wo har auzaar ki jagah jaanta hai. Aapka phone aapka auzaar-dabba hai. Is chapter mein hum usme 5 zaroori auzaar rakhenge aur ek aisa system banayenge jisme har file ki ek tay jagah ho.

Ye kaam shayad "boring" lage, lekin iska fayda har agle chapter mein milega. Jab client kahe "wo pichhle hafte wala poster bhejo", aap 10 second mein bhej paayenge — gallery mein 2,000 photos mein dhoondhne ki jagah.

3 Kahani: Priya Ka 2 GB Wala Phone

Fictional kahani — Priya, Rahul aur "Priya Ki Rasoi" is book ke fictional examples hain.

PRIYA

Priya Canva install karne gayi to phone ne bola: "Storage almost full." Sirf 2 GB jagah bachi thi. Phone mein 3 game the jo bachche kabhi-kabhi khelte the, 2 photo editing apps jo ek baar use hue, aur WhatsApp mein hazaron "Good Morning" images.

Upar se, uske posters kahin Downloads mein the, kuch WhatsApp mein, kuch Canva mein. Ek customer ne pichhle hafte ka menu maanga to Priya 15 minute tak dhoondhti rahi.

Rahul ne ek shaam uske saath baith kar teen kaam kiye:

1. *Faltu apps aur WhatsApp ki purani forward images hatayi — 3 GB khaali.*
2. *Sirf 5 zaroori apps rakhe, sab mein ek hi Google account.*
3. *Google Drive mein ek folder: "Priya Ki Rasoi" — andar Designs, Menu, Customers, Prompts.*

Agli baar customer ne purana menu maanga to Priya ne Drive khola, "Menu" folder, file — aur 10 second mein bhej diya. Usne hans kar kaha, "Ab lagta hai main sach mein business chala rahi hoon."

4

Important Concepts

1. Core Mobile Stack — 5 apps

1 Chat AI Likhna, sochna, planning <i>Chapter 4 mein set ho chuka</i>	2 Canva Poster, post, menu, PDF <i>Part IV mein seekhenge</i>	3 Gemini app Image banana/edit karna <i>Chapter 16</i>	4 WhatsApp Business Customer se baat, catalog <i>Chapter 37</i>	5 Google Drive + Docs, Sheets — files ka ghar <i>Aaj se</i>
---	---	--	---	---

AGAR AAPKA CHAT AI GEMINI HAI

To app 1 aur app 3 ek hi hain — aapko 4 apps hi chahiye. Agar ChatGPT ya Claude hai, to image ke liye Gemini app alag se rakhiye (bahut se Android phones mein ye pehle se hota hai). Google Docs aur Sheets bhi aksar pehle se hote hain; na hon to Play Store se.

2. Ek Google account — sab ki chaabi

Sab apps mein **ek hi Google account** se login kijiye. Isse: Canva ke designs Drive mein seedhe save honge, Docs/Sheets har jagah khulenge, aur phone kho jaaye ya badle to naye phone par sab wapas mil jayega.

IS ACCOUNT KO SURAKSHIT RAKHIYE

Ye ek account ab aapke business ki chaabi hai. Google account mein **2-Step Verification** on kijiye (Google account settings → Security). Detail Chapter 49 mein.

3. WhatsApp Business — ek zaroori baat

WhatsApp Business ek alag free app hai, normal WhatsApp jaisa, lekin business ke features ke saath. Iske liye number ka faisla pehle kijiye:

Behtar: alag number

Dual SIM phone mein doosra number business ke liye. Personal aur business chats alag rahenge.

Ek hi number ho to

Us number ko WhatsApp Business mein register karne se wo business account ban jaata hai. Pehle chat backup lijiye aur WhatsApp ki official help padh lijiye.

Aaj sirf install aur business ka naam. Poora setup — profile, catalog, quick replies — Chapter 37 mein.

4. Folder system

Google Drive mein ek main folder aur uske andar 6 folders — har kaam ki ek jagah:

📁 AI Business

- 📁 01 Designs — poster, post, menu
- 📁 02 Content — captions, scripts, calendar
- 📁 03 Clients — har client ka ek sub-folder
- 📁 04 Portfolio — best kaam, dikhane ke liye
- 📁 05 Prompts — Prompt Library, Tool Cheat Sheet
- 📁 06 Business Docs — price list, proposal, invoice

Folder ke aage number (01, 02...) isliye, taaki wo hamesha isi order mein dikhein.

FILE KA NAAM BHI SOCH KAR

"IMG_20260921" ki jagah: "**GlowSalon_Diwali_Post_Oct2026**" — kiska, kya, kab. Search mein turant milega.

5. Storage — jagah kaise banayein

KYA KAREIN	KITNA FAYDA
Jo apps mahine bhar se nahi khule, hata dijiye	Aksar sabse zyada jagah yahin se
WhatsApp: Settings → Storage and data → Manage storage	Badi files aur forward images ek jagah dikhti hain, hata sakte hain
Photos/videos cloud par backup, phir phone se hatao	Google Photos/Drive mein; lekin free cloud storage bhi limited hai (Gmail, Drive, Photos milakar)
Design download karke Drive mein rakho, gallery mein duplicate mat rakho	Ek file, ek jagah

5 Step-by-Step Mobile Process: Toolkit Setup

1 Pehle jagah banaiye

Faltu apps aur WhatsApp ki badi/purani files hataiye (upar ki table). Kam se kam 2-3 GB khaali karne ki koshish kijiye.

2 Apps install ya update kijiye

Canva, Gemini app (agar Chat AI Gemini nahi hai), WhatsApp Business, Google Drive, Docs, Sheets. Publisher check kijiye (Chapter 4).

3 Sab mein ek Google account se login

Canva mein "Continue with Google". Google apps mein wahi account.

4 Google account mein 2-Step Verification on

Account settings → Security. 5 minute ka kaam, bade nuksaan se bachata hai.

5 WhatsApp Business install, number tay

Business ka naam daaliye. Baaki setup Chapter 37 mein.

6 Drive mein folder system banaiye

Drive → + → Folder. "AI Business" aur andar 6 folders. Chapter 11 ki Prompt Library ko "05 Prompts" mein move kijiye.

7 Home screen ek jagah

5 apps ko ek home screen folder "AI Business" mein rakhiye. Ek swipe, sab saamne.

8 Test kijiye

Canva mein koi bhi template kholkar download kijiye → Drive ke "01 Designs" mein save → Drive se WhatsApp par khud ko bhejiye. Poora raasta chal gaya? Setup complete.

MOBILE SE KYA POSSIBLE HAI, COMPUTER KAB USEFUL HAI

Mobile: is chapter ka sab kuch. **Computer:** jab bahut saari files ek saath move/rename karni hon. **Beginner kya kare:** phone se hi kijiye; Drive computer browser mein bhi wahi dikhega.

6 AI Tool Recommendation

APP	PUBLISHER	PLAN (21 SEP 2026)
Canva	Canva	Free plan; AI tools ke mahine mein 20 tak uses
Gemini	Google	Free plan; image banane ki daily limit
WhatsApp Business	WhatsApp (Meta)	Free app
Google Drive, Docs, Sheets	Google	Free; cloud storage Gmail/Drive/Photos milakar limited

Plans aur limits badalte rehte hain — install karte waqt app mein check kijiye.

7 Copy-Paste Prompts

PROMPT 1 — MERA FOLDER SYSTEM

Main [business/kaam ka type] ke liye Google Drive mein folder system bana raha hoon. Mera kaam: [3-4 kaam]. Mere liye max 7 folders ka simple structure suggest karo, har folder ke saath ek line mein kya rakhna hai. Folder names English mein, numbering ke saath.

PROMPT 2 — FILE NAMING RULE

Mere design aur documents ke liye ek simple file naming rule banao jisme client/business ka naam, kaam ka type aur mahina aaye. 5 examples do. Spaces ki jagah underscore.

PROMPT 3 — STORAGE HELP

Mere Android phone mein storage kam hai. Bina zaroori data khoye jagah banane ke 7 safe tareeke batao, simple steps mein. Koi cleaner app install karne ki salah mat dena.

8 Prompt Ka Explanation

PROMPT KA HISSA	YE KYUN KAAM KARTA HAI
"Max 7 folders"	Zyada folders bhi utne hi uljhe hote hain jitni ek gadbad gallery.
"Numbering ke saath"	Folders hamesha ek hi order mein dikhenge.
Naming rule ke 5 examples	Example se rule turant samajh aata hai (Chapter 8).
"Cleaner app ki salah mat dena"	Kai "cleaner" apps khud jagah aur data lete hain. Phone ki apni settings kaafi hain.

9 Practical Example: Rahul Ka Setup

Rahul ka Chat AI ChatGPT hai, isliye usne Gemini alag rakha. Uska setup (fictional example):

Rahul ka Core Mobile Stack

SETUP DONE

Home folder	"AI Business": ChatGPT, Canva, Gemini, WhatsApp Business, Drive
Account	Ek Google account, 2-Step Verification on
WhatsApp	Doosre SIM par WhatsApp Business: "Rahul Designs"
Drive	AI Business → 01 Designs ... 06 Business Docs; "03 Clients" mein: KulhadCorner, GlowSalon
File example	GlowSalon_WeddingPackage_Post_Oct2026.png
Jagah bani	4 purane games aur WhatsApp ki forward videos hatayi

Ab Neha ji kuch bhi maangti hain — Rahul Drive → 03 Clients → GlowSalon kholta hai, aur file turant.

10 Practice Task

Task 1: Phone mein jagah banaiye aur Core Mobile Stack ke saare apps install/update kijiye.

Task 2: Sab apps mein ek Google account se login, aur 2-Step Verification on.

Task 3: Drive mein "AI Business" folder system banaiye aur Prompt Library + Tool Cheat Sheet "05 Prompts" mein rakhiye.

Task 4: Step 8 wala test kijiye: Canva → Drive → WhatsApp. Chal gaya to Part III complete!

11 Common Mistakes

GALTI	SAHI TAREEKA
Har app mein alag email/account	Ek Google account, sab jagah.
Business account par koi security nahi	2-Step Verification on kijiye.
Bina backup personal number WhatsApp Business mein	Pehle backup, official help padhiye; ho sake to alag number.
Files gallery/Downloads mein bikhri	Har file Drive ke sahi folder mein, sahi naam se.
"Phone cleaner" apps install karna	Phone ki apni storage settings use kijiye.

12 Quick Checklist

- ☐ Mere phone mein Core Mobile Stack ke saare apps hain
- ☐ Sab mein ek Google account hai, 2-Step Verification on hai
- ☐ WhatsApp Business install hai aur number tay hai
- ☐ Drive mein "AI Business" folder system bana hai
- ☐ Canva → Drive → WhatsApp test chal gaya

13 Chapter Summary

KEY TAKEAWAYS

- Core Mobile Stack: Chat AI, Canva, Gemini, WhatsApp Business, Google Drive (+ Docs/Sheets).
- Ek Google account sab jagah — aur uspar 2-Step Verification.
- WhatsApp Business ke liye alag number behtar; ek hi ho to pehle backup.
- Drive mein numbered folders aur samajhdaar file names — har file 10 second mein.
- Jagah phone ki settings se banaiye, "cleaner" apps se nahi.

PART III COMPLETE

AI Tools Ki Duniya — aapne kya haasil kiya

Ch 12

Kaam → Category → Tool; Tool Cheat Sheet; naqli offers se bachaav

Ch 13

Core Mobile Stack ready; ek account; saaf folder system

Apne "Meri AI Business Journey" note mein likhiye: *"Part III khatam — mera phone ab mera office hai."*

Next Step — Part IV, Chapter 14: Design Ki Basic Samajh

Auzaar ready hain. Ab banana shuru karte hain. Part IV mein aap AI aur Canva se poster, post aur branding banana seekhenge — lekin pehle ek sawal: *achha design hota kya hai?* Rahul do posters compare karta hai — ek mein 8 fonts aur 10 colors, doosre mein bas ek saaf offer. Customer 3 second mein kaunsa samjhega?

IS CHAPTER KE SOURCES (LAST CHECKED: 21 SEPTEMBER 2026)

Canva Help Center — Understanding your AI usage · Gemini free plan overview (Sep 2026) · WhatsApp Business app — official help (number aur backup) · Google Account Help — 2-Step Verification

PART IV

04

AI Se Design aur Poster

Design ki basic samajh se lekar AI + Canva workflow tak — poster, social creatives aur branding kit.

Chapter 14 – 18

14

Design Ki Basic Samajh

Achha design sundar se pehle saaf hota hai — 3 second mein.

Part III mein aapka phone ek chhota office ban gaya — Canva, Gemini, Drive sab ready. Part IV se hum **banana** shuru karte hain. Lekin Canva kholne se pehle ek chhoti si samajh zaroori hai, jiske bina AI bhi achha poster nahi bana sakta: **achha design hota kya hai?**

1 Is Chapter Mein Kya Seekhenge

- 1 3-Second Rule — achhe design ka sabse simple test
- 2 Hierarchy: sabse zaroori baat sabse badi
- 3 Colors, fonts aur khaali jagah ke simple rules
- 4 Kisi bhi poster ki 3 galtiyan pehchanna

2 Simple Explanation

Design ka matlab sirf "sundar dikhna" nahi hai. Design ka asli kaam hai **baat pahunchana** — jaldi aur saaf. Ek poster, post ya menu tab achha hai jab dekhne wala bina mehnat ke samajh jaaye: kya hai, kiske liye hai, aur ab kya karna hai.

Log sadak par chalte hue ya phone scroll karte hue kisi poster ko bas **2-3 second** dete hain. Us waqt mein baat samajh nahi aayi, to wo aage badh jaate hain. Isliye design ka pehla rule hai:

3-SECOND RULE

Poster ko 3 second dekhiye, phir aankh band kijiye. Kya aap bata sakte ho: **kya offer hai** aur **kaise contact karna hai?** Haan — to design kaam kar raha hai. Nahi — to kuch zyada hai, ya kuch galat jagah hai.

Achhi baat ye hai ki achhe design ke liye "artist" hona zaroori nahi. Kuch simple rules hain — aur AI aur Canva baaki kaam aasaan kar dete hain.

3 Kahani: Do Posters, Teen Second

Fictional kahani — Rahul, Imran bhai aur dono posters is book ke fictional examples hain.

RAHUL

Glow Salon ka kaam milne ke baad Rahul utsaahit tha. Usne apne area ki dukaanon ke posters ki photos li — "research" ke liye. Imran bhai ne do photos chuni aur kaha: "Dono ko sirf 3 second dekh, phir phone ulta kar de."

Pehla poster ek mobile shop ka tha. Usme 8 alag fonts, lal-peela-hara-neela sab rang, 12 offers, 3 phone numbers, aur beech mein chamakta hua "MEGA SALE". Rahul ne phone ulta kiya. "Sale hai... kuch phones pe... number yaad nahi."

Doosra poster ek bakery ka tha. Upar bada sa "Fresh Bread Har Subah 7 Baje", beech mein ek bread ki photo, neeche chhota sa WhatsApp number. Bas. Rahul ne phone ulta kiya. "Subah 7 baje taaza bread. WhatsApp pe order."

*"Pehle wale ne sab kuch bolne ki koshish ki, isliye kuch nahi bola," Imran bhai bole. "Doosre ne ek baat boli — aur wo yaad reh gayi. Design mein **kam hi zyada hai.**"*

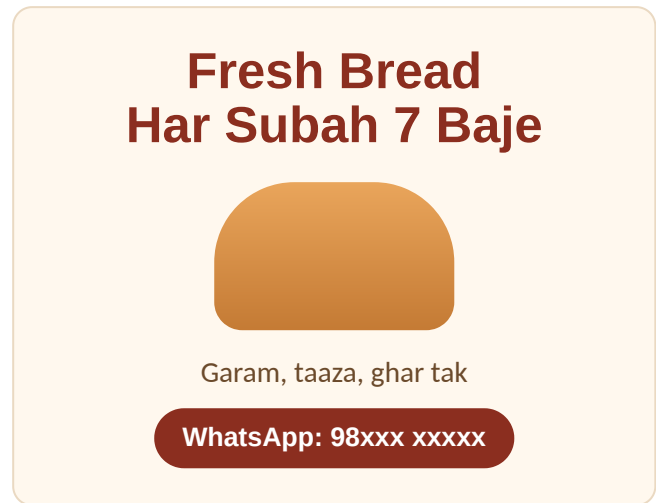

Us din Rahul ne tay kiya: Glow Salon ka poster doosre wale jaisa banega — ek offer, ek photo, ek contact.

4 Important Concepts

Ek nazar mein: kharab vs achha

8 fonts, 6 colors, 12 baatein — 3 second mein kuch yaad nahi

1 headline, 1 visual, 1 contact — turant samajh

Dono posters is book ke liye banaye gaye fictional examples hain.

1. Hierarchy — sabse zaroori baat sabse badi

Hierarchy ka matlab hai cheezon ka "order of importance". Poster par har baat barabar badi ho, to aankh ko samajh nahi aata kahan dekhe. Isliye 3 level rakhiye:

Level 1 — Headline

Sabse badi. Ek hi. Wo baat jo 3 second mein pahunchni chahiye.

Level 2 — Detail

Madhyam size. Offer ki detail, timing, kya shaamil hai.

Level 3 — Contact / CTA

Chhota lekin saaf. Number, address, "WhatsApp karein".

2. Colors — 1 + 1 + neutral

Zyada rang = zyada shor. Ek simple formula:

 1 main + 1 accent + 1 neutral Main rang zyada jagah, accent sirf zaroori cheez par (offer, button), neutral background.	 Khaane ke liye garam rang Laal-bhoora, narangi, cream — bhookh aur garmahat ka ehsaas.	 Salon/beauty ke liye soft rang Mauve, halka gulabi, safed — naram aur saaf ehsaas.
---	--	--

CONTRAST ZAROORI HAI

Text aur background mein saaf farq ho — gehre background par halka text, halke par gehra. Peele background par safed text, ya laal par hara — padhne mein mushkil. Phone ki chhoti screen par ye aur zaroori hai.

3. Fonts — max 2

RULE	KYUN
Max 2 fonts	Ek headline ke liye (bold), ek baaki text ke liye (simple). Zyada fonts = bikhra hua design.
Padhne layak font	Bahut "stylish" ya likhawat jaisa font sirf headline mein, wo bhi tab jab saaf padha jaaye.
Size mein farq	Headline, detail, contact — teeno ka size saaf alag ho (hierarchy).
ALL CAPS kam	Sirf chhoti headline mein. Poora paragraph caps mein chilla kar bolne jaisa lagta hai.

4. Khaali jagah (White space)

Poster ke har kone ko bhar dena zaroori nahi. Cheezon ke beech **khaali jagah** aankh ko aaraam deti hai aur zaroori cheez ko ubhaarti hai. Ek achha test: agar poster "bhara-bhara" lage, to ek cheez hataiye — design behtar hi hoga.

5. Alignment — sab ek line mein

Text aur cheezein ek seedh mein hon — ya sab beech mein (center), ya sab left. Idhar-udhar bikhre text se design kachcha lagta hai. Canva mein cheez khiskate waqt jo patli guide lines dikhti hain, wo isi mein madad karti hain.

Poster ke 5 zaroori hisse

1 Headline	2 Offer / Detail	3 Visual	4 CTA	5 Brand + Contact
---------------	---------------------	-------------	----------	----------------------

Inke alawa jo bhi hai, khud se poochhiye: "Kya iske bina kaam chalega?" Zyadatar jawab "haan" hoga.

5 Step-by-Step Mobile Process: Poster Audit

1 3 posters ki photo lijiye

Aas-paas ki dukaanon ke posters, ya WhatsApp/Instagram par aaye offers ke screenshots. Drive ke "01 Designs" mein "Research" naam ka sub-folder bana kar rakhiye.

2 Har ek par 3-Second Rule

3 second dekhiye, phir likhiye: offer kya tha, contact kya tha — yaad raha ya nahi?

3 5 points par 1-5 score

Hierarchy, Colors, Fonts, Khaali jagah, Alignment. Neeche wale scorecard se.

4 AI se doosri raay

Agar aapka Chat AI photo upload leta hai (zyadatar lete hain), poster ki photo bhej kar Prompt 1 chalaiye. Nahi to poster ko shabdon mein describe kijiye (Prompt 2).

5 Apni aur AI ki raay milaiye

Jahan dono ek hi galti bata rahe hain, wo pakki galti hai.

6 3 learnings likhiye

Note mein: "Mere posters mein main ye 3 cheezein hamesha dhyan rakhunga/rakhungi."

Poster Scorecard

1 = kharab · 5 = bahut achha

3-Second Rule

Hierarchy

Colors + Contrast

Fonts (max 2)

Khaali jagah

Alignment

6 AI Tool Recommendation

TOOL	IS CHAPTER MEIN KAAM
Phone camera	Posters ki photos
Aapka Chat AI	Design par feedback (photo upload ya description se)
Canva (sirf dekhna)	Templates browse karke dekhiye achhe design kaise dikhte hain — banana agle chapter mein

7 Copy-Paste Prompts

PROMPT 1 — PHOTO SE FEEDBACK

Ye ek dukaan ke poster ki photo hai. Ek graphic design teacher ki tarah isko 6 points par 1-5 score do: 3-second clarity, hierarchy, colors aur contrast, fonts, khaali jagah, alignment. Har score ke saath ek line ka reason. Phir 3 sabse zaroori sudhaar batao. Simple Roman Hindi.

PROMPT 2 — DESCRIPTION SE FEEDBACK

Main ek poster describe kar raha hoon: [poster mein kya-kya hai – headline, kitne colors, kitne fonts, kitne offers, contact kahan hai]. Iske design ko hierarchy, color, font aur khaali jagah par judge karo aur 3 sudhaar batao.

PROMPT 3 — COLOR IDEAS

[Business type] ke poster ke liye 3 color combinations suggest karo. Har combination mein 1 main, 1 accent aur 1 neutral color ho, hex code ke saath, aur ek line mein kyun ye is business par jachta hai.

8 Prompt Ka Explanation

PROMPT KA HISSA	YE KYUN KAAM KARTA HAI
"Graphic design teacher ki tarah"	Role — feedback samjhane wala hoga, sirf "achha/bura" nahi.
6 points par score	AI wahi cheezein dekhta hai jo aapne is chapter mein seekhi — aapka scorecard aur AI ka ek jaisa.
"3 sabse zaroori sudhaar"	20 sudhaar ki list kaam ki nahi; top 3 par kaam ho sakta hai.
"Hex code ke saath" (Prompt 3)	Hex code (jaise #0B1B3A) rang ka exact number hai — Canva mein paste karke wahi rang milta hai.

DHYAN DEIN

Design mein "sahi-galat" se zyada "kaam karta hai ya nahi" hota hai. AI ki raay ek raay hai. Final test hamesha 3-Second Rule aur asli customer ki pratikriya hai.

9 Practical Example: Rahul Ka Audit

Rahul ne mobile shop wale poster ka audit kiya (fictional example):

Mobile Shop Poster — Audit		RAHUL
3-Second Rule	1 — sirf "SALE" yaad raha, number nahi	
Hierarchy	1 — "MEGA SALE", "50% OFF", "Best Price" teeno barabar bade	
Colors	2 — 6 rang, peelee par safed text	
Fonts	1 — 8 alag fonts	
Khaali jagah	1 — ek inch bhi khaali nahi	
Top 3 sudhaar	(1) Ek hi headline (2) Ek number (3) 6 cheezon ki jagah sirf ek offer	

AI ne bhi lagbhag yahi 3 sudhaar bataye. Rahul ne note kiya: **"Kam baatein, ek headline, ek contact."**

10 Practice Task

Task 1: 3 local posters ki photos lijiye aur Drive ke "01 Designs/Research" mein rakhiye.

Task 2: Har poster par 3-Second Rule aur scorecard lagaiye.

Task 3: Ek poster par AI se feedback lijiye (Prompt 1 ya 2) aur apni raay se milaiye.

Task 4: Apne business ya kisi jaan-pehchaan ke business ke liye Prompt 3 se color combinations lijiye aur ek chuniye — agle chapter mein kaam aayega.

11 Common Mistakes

GALTI	SAHI TAREEKA
Har baat poster par daalna	Ek main offer. Baaki WhatsApp message mein.
Sab kuch bada aur bold	3 level hierarchy: headline, detail, contact.
5-6 rang aur 5-6 fonts	1 main + 1 accent + neutral; max 2 fonts.
Kam contrast (peelee par safed)	Gehra-halka ka saaf farq.
Har kona bhar dena	Khaali jagah chhodiye — zaroori cheez ubhregi.

12 Quick Checklist

- ☐ Mujhe 3-Second Rule yaad hai
- ☐ Main hierarchy ke 3 level bata sakta/sakti hoon
- ☐ Mujhe color (1+1+neutral) aur font (max 2) ke rules pata hain
- ☐ Maine 3 posters ka audit kiya
- ☐ Maine apne business ke liye ek color combination chuna

13 Chapter Summary

KEY TAKEAWAYS

- Design ka kaam baat pahunchana hai — 3 second mein.
- Hierarchy: Headline → Detail → Contact.
- Colors: 1 main + 1 accent + neutral; contrast saaf. Fonts: max 2.
- Khaali jagah aur alignment design ko saaf banate hain.
- Poster ke 5 hisse: Headline, Offer, Visual, CTA, Brand + Contact. Baaki sab — shayad zaroori nahi.

Next Step — Chapter 15: Canva Mobile Workflow: Pehla Design

Ab rules pata hain — ab haath chalane ka waqt. Agle chapter mein Priya Canva app kholti hai, ek template chunti hai, apne 2 rang aur apna menu daalti hai — aur 15 minute mein uska pehla "Menu Today" post ready.

15

Canva Mobile Workflow: Pehla Design

Template ki layout, aapka content — 15 minute mein pehla design.

Chapter 14 mein aapne design ke rules seekhe — 3-Second Rule, hierarchy, 1+1+neutral colors, max 2 fonts. Ab in rules ko Canva mein asli design par lagate hain. Is chapter mein AI nahi, sirf aap aur Canva — kyunki AI se design karwane se pehle khud design edit karna aana chahiye.

1 Is Chapter Mein Kya Seekhenge

- 1 Canva app ke 5 zaroori hisse
- 2 Sahi size chunna: Post, Story, Poster
- 3 Template ko apna banana — text, rang, photo
- 4 Download karke sahi folder mein save karna

2 Simple Explanation

Canva ek free design app hai jisme hazaron ready-made **templates** hain. Template matlab pehle se bana hua design, jisme aap sirf apna text, rang aur photo badal kar use apna bana lete ho — jaise ek naap ka ready kurta, jisme sirf button aur rang aap chunte ho.

Beginner ke liye sabse achha tareeka hai: **khaali page se shuru mat kijiye**. Ek achha template chuniye, aur Chapter 14 ke rules se use apne business ke hisaab se badliye. Khaali page se shuru karna baad ki baat hai.

AAJ KA GOAL

Ek simple design, 15-20 minute mein, jo 3-Second Rule pass kare — aur Drive ke sahi folder mein save ho.

Fictional kahani — Priya aur "Priya Ki Rasoi" is book ke fictional examples hain.

PRIYA

Priya roz subah customers ko WhatsApp par typed menu bhejti thi: "Aaj: rajma, chawal, roti, salad." Kuch log padhte, kuch nahi. Rahul ne kaha: "Didi, ek chhota sa design bana lo — roz sirf khaana badalna."

Priya ne Canva khola aur ghabra gayi — itne saare templates, itne buttons. Rahul ne sirf teen baatein boli:

"Upar search mein likho 'food menu'. Wo template chuno jisme kam cheezein hon. Aur apne 2 rang daalo — bas."

Priya ne ek saaf sa template chuna. Heading mein "Aaj Ka Lunch" likha, neeche 4 dishes, sabse neeche WhatsApp number. Template ke 5 rang hata kar apne 2 rang lagaye — laal-bhoora aur cream, jo Chapter 14 mein chune the. Ek apni rajma ki photo daali.

15 minute mein design ready tha. Download kiya, Drive ke "01 Designs" mein save kiya, WhatsApp status par lagaya. Us din 3 customers ne status dekh kar khud order kiya — bina Priya ke message bheje.

Agle din Priya ko design dobara banane ki zaroorat nahi padi. Usne wahi design khola, **copy** banayi, sirf khaana badla — 3 minute.

4 Important Concepts

1. Canva app ke 5 zaroori hisse

HISSA	KYA KARTA HAI
Search bar	Template dhoondhna — "food menu", "salon offer", "diwali post".
+ (Create) button	Naya design, sahi size ke saath.
Editor ke neeche wala toolbar	Text, Elements (shapes, icons), Uploads (apni photos), Design (templates) jodna.
Kisi cheez par tap	Us text/photo ke options — font, rang, size, position, delete.
Share → Download	Design ko phone mein file ki tarah save karna.

App ka interface samay ke saath badalta hai — button ki jagah thodi alag dikhe to naam se dhoondhiye. Last checked: 21 September 2026.

2. Sahi size — pehle hi

KAHAN LAGANA HAI	SIZE (PIXELS)	CANVA MEIN NAAM
Instagram post	1080 × 1080 (square) ya 1080 × 1350 (lamba)	Instagram Post
Story / WhatsApp status / Reel cover	1080 × 1920 (khada)	Instagram Story
Print poster	A4 / A3	Poster

DHYAN DEIN

Square post ko Story mein lagane se upar-neeche khaali patti aati hai, aur Story ko post mein lagane se kinare kat jaate hain. Jahan lagana hai, **usi size mein banaiye**. Canva ka "Resize" (Magic Switch) feature Canva ki help ke mutabik paid plans (jaise Pro) mein milta hai; free mein naya design us size mein bana kar elements copy-paste kar sakte hain.

3. Template ko apna banane ke 5 kadam

- 1 Kam cheezon wala template chuniye
- 2 Text badliye — apni headline, detail, contact
- 3 Rang badliye — apne 1+1+neutral
- 4 Photo badliye — apni asli photo
- 5 Faltu cheezein hataiye

Template ka original text ("Your Text Here", naqli phone number, "Lorem ipsum") poora hataiye. Ek bhi bacha to design kachcha lagega.

4. Free vs Pro elements — crown ka nishaan

Canva mein kuch templates, photos aur elements par ek chhota **crown (taj)** ka nishaan hota hai — ye Pro (paid) content hai. Free plan mein aap ise design mein laga sakte ho, lekin download karte waqt ya to licence khareedna padega, ya watermark wala draft milega. Canva ki official help ke mutabik free users ke liye yahi options hain.

SIMPLE RULE

Free plan par ho to template chunte waqt aur photo lagate waqt **crown wali cheez chhod dijiye**. Canva mein free templates aur photos bhi bahut hain.

5. Brand colors yaad rakhna

Canva ka "Brand Kit" feature (colors, fonts, logo ek jagah) September 2026 tak paid plans mein hai. Free plan mein aasaan tareeka: apne 2-3 rangon ke **hex codes** (jaise #8B2E1F) apni Prompt Library ya Notes mein likh lijiye. Canva mein rang badalte waqt "+" se naya rang chuniye aur hex code paste kijiye.

5 Step-by-Step Mobile Process: Pehla Design

- 1 **Canva kholiye, search mein template dhoondhiye**
Apne kaam ke hisaab se likhiye: "food menu", "salon offer", "tea shop post". Size check kijiye — Instagram Post.
- 2 **Kam cheezon wala, bina crown ka template chuniye**
3-Second Rule se dekhiye — template khud saaf hai?
- 3 **Headline badliye**
Text par double-tap → apni headline. Chhoti rakhiye — 3-6 shabd.

4 Detail aur contact badliye

Offer/menu ki detail, aur neeche WhatsApp number. Number do baar padh kar check kijiye.

5 Rang badliye

Background ya text par tap → Color → apna hex code. Poore design mein max 3 rang.

6 Apni photo lagaiye

Neeche "Uploads" → phone se photo → template ki photo par kheench kar chhodiye (replace ho jaati hai).

7 Faltu hataiye, alignment dekhiye

Jo zaroori nahi, tap → delete. Cheezein khiskate waqt guide lines se seedh mein rakhiye.

8 Naam dijiye aur download kijiye

Upar design ka naam badliye (jaise "PriyaKiRasoi_MenuToday"). Share → Download → PNG. Phir Drive ke "01 Designs" mein save kijiye.

AGLE DIN KE LIYE

Canva ke "Projects"/home mein pichhla design kholiye → teen dots → **Make a copy** (copy banaiye) → sirf naya text. Roz ka design 3 minute mein.

MOBILE SE KYA POSSIBLE HAI, COMPUTER KAB USEFUL HAI

Mobile: template edit, photo, rang, download — sab. **Computer:** bahut saari chhoti cheezein ek saath align karni hon ya lamba document (eBook) banana ho. **Beginner kya kare:** posts aur posters phone se hi; eBook ke waqt (Part VII) dekhenge.

6 AI Tool Recommendation

Canva (free plan) — aaj ka main tool. **Aapka Chat AI** sirf headline aur text ke liye (Prompt 1). Canva ke andar bhi AI features hain (free mein mahine ke limited uses) — unhe Chapter 17 mein poster project ke saath dekhenge. Aaj haath se edit karna seekhiye.

7 Copy-Paste Prompts

PROMPT 1 — DESIGN KA TEXT

Mere [business] ke Instagram post ke liye text chahiye.

Topic: [menu / offer / announcement]

Mujhe do: 3 headline options (max 5 words), 1 detail line (max 12 words), 1 CTA (max 4 words).

Tone: [friendly/formal]. Roman Hindi.

PROMPT 2 — TEMPLATE SEARCH WORDS

Mujhe Canva mein [business] ke liye [post/story/poster] ka template dhoondhna hai. Search ke liye 8 English keywords do jo simple aur saaf templates dikhayein.

PROMPT 3 — DESIGN CHECK

[Design ki photo attach karke] Ye mera pehla Canva design hai. Chapter wale 6 points par check karo: 3-second clarity, hierarchy, colors, fonts, khaali jagah, alignment. Sirf 2 sabse zaroori sudhaar batao.

8 Prompt Ka Explanation

PROMPT KA HISSA	YE KYUN KAAM KARTA HAI
Words ki limit (max 5, max 12)	Poster par jagah kam hai — text pehle se design ke size ka milega.
3 headline options	Aap design mein laga kar dekh sakte ho kaunsi jachti hai.
English keywords (Prompt 2)	Canva ke zyadatar templates English naamon se milte hain.
"Sirf 2 sudhaar"	Pehle design par 10 galtiyan sun kar himmat toot sakti hai. 2 sudhaar — kaafi.

9 Practical Example: Template Se Priya Ka Design

TEMPLATE (ORIGINAL)

- Heading: "DELICIOUS FOOD"
- 5 rang: laal, peela, hara, kala, safed
- Stock photo: pizza
- "www.yourwebsite.com", naqli number

PRIYA KA VERSION

- Heading: "Aaj Ka Lunch"
- 2 rang + cream: #8B2E1F, #F2A541, #FFF8EE
- Apni rajma-chawal ki photo
- Sirf WhatsApp number

- 3 alag fonts

- 2 fonts

Fictional example.

Priya ne template ki **layout** rakhi (kaun cheez kahan hai) lekin **content** poora apna kiya. Yahi template use karne ka sahi tareeka hai.

10 Practice Task

Task 1: Prompt 1 se apne (ya kisi jaan-pehchaan ke) business ke post ka text banwaiye.

Task 2: Canva mein bina crown ka template chun kar 8 steps se apna pehla design banaiye.

Task 3: 3-Second Rule aur Prompt 3 se check kijiye; 2 sudhaar kijiye.

Task 4: Download karke Drive ke "01 Designs" mein sahi naam se save kijiye. Phir "Make a copy" se ek doosra version (naya text) banaiye.

11 Common Mistakes

GALTI	SAHI TAREEKA
Khaali page se shuru karna	Achhe, simple template se shuru kijiye.
Template ka purana text/number chhod dena	Har placeholder text hataiye; number do baar check.
Crown wali cheez laga kar download par atakna	Free plan par bina crown ke elements chuniye.
Galat size (post ko story mein)	Jahan lagana hai, usi size mein banaiye.
Har din naya design	Pichhle design ki copy banaiye, sirf text badliye.

12 Quick Checklist

- ☐ Maine Canva mein template se apna pehla design banaya
- ☐ Mere design mein max 3 rang aur max 2 fonts hain
- ☐ Template ka koi purana text ya naqli number nahi bacha
- ☐ Design 3-Second Rule pass karta hai
- ☐ Design Drive ke "01 Designs" mein sahi naam se save hai

13 Chapter Summary

KEY TAKEAWAYS

- Template se shuru kijiye — layout uska, content aapka.
- Size pehle tay kijiye: Post, Story ya Poster.
- 5 kadam: template chuno, text, rang, photo, faltu hatao.
- Free plan par crown wale Pro elements se bachiye.
- Download → Drive → sahi naam. Agle din "Make a copy".

Next Step — Chapter 16: AI Se Image aur Visual Concept Banana

Priya ke paas apni rajma ki photo thi. Lekin Rahul ke paas Swaad Rasoi ki thali ki koi achhi photo nahi hai. Agle chapter mein wo Gemini se ek visual banata hai — aur ek mazedaar galti se seekhta hai ki AI image mein text kyun nahi likhwana chahiye.

IS CHAPTER KE SOURCES (LAST CHECKED: 21 SEPTEMBER 2026)

Canva Help Center — Download or save designs to your device (Share → Download; free users aur Pro content) •
Canva Help Center — Create a personal Brand Kit (paid plans) • Canva Help Center — Understanding your AI usage •
Canva Help Center — Resize designs (Magic Switch: paid plans)

16

AI Se Image aur Visual Concept Banana

AI tasveer ka kalakaar hai, akshar ka nahi.

Chapter 15 mein Priya ne apni asli rajma ki photo se design banaya. Lekin har baar achhi photo haath mein nahi hoti — kabhi light kharab, kabhi dish abhi bani nahi, kabhi sirf ek "feel" chahiye. Yahan **Image AI** kaam aata hai. Is chapter mein aap AI se tasveer banana seekhenge — aur ye bhi ki kahan nahi banani chahiye.

1 Is Chapter Mein Kya Seekhenge

- | | |
|--|---|
| 1 Image Prompt ka 6-hisson wala formula | 2 AI se image banana aur edit karna — Gemini app mein |
| 3 Text AI image mein nahi, Canva mein kyun | 4 Watermark, copyright aur imaandaari ke rules |

2 Simple Explanation

Image AI woh AI hai jo aapke likhe shabdon se tasveer banata hai, ya aapki di hui photo ko badal deta hai — background badalna, light theek karna, kuch jodna-hatana. Isse aap poster ka background, ek "mood" wali photo, ya ek idea ka visual minutes mein bana sakte ho.

Lekin Image AI ke saath do baatein hamesha yaad rakhni hain:

- **AI image mein text aksar bigad jaata hai.** Spelling galat, ajeeb akshar. Isliye text hamesha Canva mein.
- **AI image asli nahi hai.** Customer ko "ye hamari dish hai" bol kar AI ki banayi dish dikhana dhokha hai. AI image sirf **mood, background ya idea** ke liye.

3 Kahani: "50% OFFF"

Fictional kahani — Rahul, Imran bhai aur "Swaad Rasoi" is book ke fictional examples hain.

RAHUL

Mohalle ke family restaurant "**Swaad Rasoi**" ke owner ne Rahul se weekend offer ka poster maanga. Problem: restaurant ke paas thali ki koi achhi photo nahi thi.

Rahul ne Gemini app khola aur likha: "*Ek thali ki photo banao jisme upar '50% OFF Weekend Thali' likha ho.*" Photo sundar aayi — garam thali, achhi light. Lekin upar likha tha: "**50% OFFF WEEKEND THALLI**".

Rahul ne teen baar dobara banwaya — har baar spelling kuch alag galat. Imran bhai ne dekha aur hanse:

"Image AI tasveer ka kalakaar hai, akshar ka nahi. Usse sirf tasveer banwa — upar khaali jagah chhudwa. Text Canva mein daal, wahan tu spelling ka maalik hai."

Rahul ne naya Prompt likha — thali, top view, garam light, "*image mein koi text nahi, upar khaali jagah*". Is baar ekdum saaf visual aaya. Canva mein daal kar upar headline likhi.

Owner ne poster dekh kar kaha: "Wah! Ye hamari thali hai?" Rahul ne imaandaari se bataya: "Nahi ji, ye AI se bani hai — mood ke liye. Agar aap chahein to agli baar aapki asli thali ki photo le leta hoon." Owner ko baat pasand aayi. Agle hafte Rahul ne asli thali ki photo li, aur AI ka use sirf background ke liye kiya.

4 Important Concepts

1. Image Prompt formula — 6 hisse

1 Subject Kya dikhna hai <i>garam thali</i>	2 Setting Kahan / background <i>lakdi ki table</i>	3 Style Photo, illustration, flat <i>realistic photo</i>	4 Light Roshni kaisi <i>soft morning light</i>	5 Angle Kahan se dekha <i>top view</i>	6 Colors + Space Rang, khaali jagah <i>warm, upar khaali</i>
--	--	--	---	---	---

Aur hamesha ek line: "**Image mein koi text nahi.**"

2. Banana (Generate) vs Badalna (Edit)

Generate — shabdon se nayi image

Jab aapke paas koi photo nahi: background, mood, idea visual.

Edit — apni photo ko behtar banana

Apni asli photo upload karke: "background saaf karo", "light thodi garam karo". Dish asli rehti hai — ye zyada imaandaar tareeka hai.

BUSINESS KE LIYE BEHTAR RAASTA

Jahan ho sake, **asli photo + AI edit** use kijiye. Customer ko wahi dikhe jo use milega. Pure AI images sirf background, festival mood, ya concept ke liye.

3. Watermark — do tarah ka

WATERMARK	KYA HAI
Visible (dikhne wala)	Gemini ki images par ek chhota Gemini nishaan (sparkle) hota hai. Google ki official help ke mutabik India mein ise band karne ka setting sirf AI Ultra (sabse mehenge) plan wale users ko milta hai.
Invisible — SynthID	Har Gemini-generated ya edited image mein ek chhupa hua digital nishaan hota hai jo dikhta nahi, aur band nahi hota. Isse pata chal sakta hai ki image AI se bani hai.

CLIENT WORK KE LIYE

Client ko pehle bataiye ki image AI se bani hai aur usme chhota watermark ho sakta hai. Watermark "hatane" wale tools use mat kijiye — ye imaandaari aur platform rules, dono ke khilaf ja sakta hai. Behtar hai visual ko design ka chhota hissa rakhiye, ya asli photo use kijiye.

4. Copyright aur imaandaari — 5 rules

MAT KIIYE	KYUN
Kisi brand ka logo ya famous character banwana	Wo kisi aur ki property hai.
Kisi asli insaan (celebrity, customer, padosi) ki naqli photo	Ye deepfake jaisa hai — galat aur kai jagah gair-kanooni bhi.
AI dish ko "hamari dish" bol kar bechna	Customer ko dhokha.
Kisi aur ki photo upload karke "apna" banana	Doosre ka kaam copy karna.
Platform poochhe to AI content chhupana	India mein 2026 ke IT Rules platforms ko AI content label karne ko kehte hain; platform poochhe to sach bataiye.

5. Free plan ki limit

Gemini ke free plan mein image banane aur edit karne ki **roz ki limit** hoti hai, jo samay ke saath badalti rehti hai. Limit aa jaaye to agle din tak rukiye. Isliye har Prompt soch kar likhiye — 20 random images se 3 soch-samajh ke Prompts behtar hain. (Last checked: 21 September 2026.)

5 Step-by-Step Mobile Process: Pehla AI Visual

1 Gemini app kholiye

Naye chat mein image banane ka option chuniye (ya seedha likhiye "ek image banao...").

2 6-hisson wala Prompt likhiye

Subject, Setting, Style, Light, Angle, Colors + khaali jagah. Aakhir mein: "Image mein koi text nahi."

3 Jawab dekhiye, ek hissa badliye

Follow-up (Chapter 9): "Light thodi garam karo", "upar aur khaali jagah". Ek baar mein ek badlaav.

4 Best image download kijiye

Image par tap → download/save. Drive ke "01 Designs" mein, naam ke saath.

5 Canva mein laga kar text jodiye

Canva design → Uploads → image. Upar khaali jagah mein headline (Chapter 14 ke rules).

6 Edit wala tareeka bhi try kijiye

Apni asli photo upload karke Prompt 3 chalaiye — dish asli, sirf background ya light behtar.

6 AI Tool Recommendation

TOOL	KAAM	PLAN (21 SEP 2026)
Gemini app (Google)	Image banana aur edit karna	Free — roz ki limit; visible watermark
Canva	Image ke upar text, final design	Free
Aapka Chat AI	Image Prompt likhne mein madad (Prompt 4)	Free

Kuch doosre Chat AI apps bhi image banate hain; is book mein example ke liye Gemini liya hai kyunki uska free plan image generation deta hai aur Android mein aksar pehle se hota hai.

7 Copy-Paste Prompts

PROMPT 1 — POSTER BACKGROUND

Ek garam Indian thali ki top-view photo, lakdi ki table par, soft morning light, warm colors, realistic style. Image mein koi text nahi. Upar ki taraf 30% khaali jagah chhodo heading ke liye. Square size.

PROMPT 2 — FESTIVAL MOOD (BINA PRODUCT)

Diwali ka festive background: diye aur halki roshni, golden aur deep maroon rang, soft blur, beech mein khaali jagah text ke liye. Koi insaan nahi, koi text nahi, koi logo nahi. Vertical story size.

PROMPT 3 — APNI PHOTO EDIT (photo attach karke)

Is photo mein dish ko bilkul waisa hi rakho. Sirf background ko saaf, halka cream rang ka karo aur light thodi garam karo. Dish mein kuch mat jodo ya badlo.

PROMPT 4 — CHAT AI SE IMAGE PROMPT LIKHWAO

Mujhe [business] ke [post/poster] ke liye AI image chahiye. Mood: [mood]. Ek image Prompt likho jisme Subject, Setting, Style, Light, Angle aur Colors hon, aur end mein "image mein koi text nahi" ho. 3 alag versions do.

8 Prompt Ka Explanation

PROMPT KA HISSA	YE KYUN KAAM KARTA HAI
"Image mein koi text nahi"	Galat spelling wale akshar nahi aate; text Canva mein aapke control mein.
"30% khaali jagah"	Headline ke liye jagah pehle se bani milti hai — design aasaan.
"Koi insaan nahi, koi logo nahi"	Naqli chehre aur kisi brand ke logo ka khatra khatam.
Prompt 3: "dish ko bilkul waisa hi rakho"	AI kabhi-kabhi edit karte waqt khaana bhi badal deta hai. Saaf mana karna zaroori.
Prompt 4 ke 3 versions	Limit bachti hai — Gemini mein sirf best Prompt chalaiye.

9 Practical Example: Rahul Ke 3 Prompts

Rahul ne Swaad Rasoi ke visual ke liye ye safar tay kiya (fictional example):

TRY	PROMPT	NATEEJA
1	"Thali ki photo jisme '50% OFF Weekend Thali' likha ho"	Sundar photo, lekin "50% OFFF WEEKNED"
2	Prompt 1 (formula + "koi text nahi" + khaali jagah)	Saaf visual, upar jagah — Canva mein headline
3	Agle hafte: restaurant ki asli thali ki photo + Prompt 3	Sabse achha — asli dish, behtar light

Rahul ki seekh: **AI visual achhi shuruaat hai; asli photo + AI edit sabse imaandaar aur sabse asardaar.**

10 Practice Task

Task 1: Prompt 4 se apne business ke liye 3 image Prompts likhwaaye; best ek Gemini mein chalaiye.

Task 2: Follow-up se ek badlaav kijiye aur best image Drive mein save kijiye.

Task 3: Image ko Canva mein laga kar headline aur contact jodiye (Chapter 15 ke steps).

Task 4: Apni ek asli photo par Prompt 3 try kijiye aur before-after compare kijiye.

11 Common Mistakes

GALTI	SAHI TAREEKA
AI image mein text likhwana	"Koi text nahi" + khaali jagah; text Canva mein.
AI dish ko asli bata kar dikhana	Asli photo + AI edit; ya saaf batayiye ki image AI se hai.
Asli logon ya brands ki images banwana	Koi insaan nahi, koi logo nahi.
Watermark hatane wale tools	Client ko bataiye; asli photo ya chhota visual use kijiye.
Bina soche 20 images — limit khatam	Pehle Prompt soch kar likhiye (Prompt 4), phir chalaiye.

12 Quick Checklist

- ☐ Mujhe Image Prompt ke 6 hisse yaad hain
- ☐ Maine ek AI visual banaya jisme koi text nahi tha
- ☐ Maine us visual par Canva mein headline lagayi
- ☐ Maine apni asli photo ko AI se edit karke dekha
- ☐ Mujhe watermark aur copyright ke rules pata hain

13 Chapter Summary

KEY TAKEAWAYS

- Image Prompt: Subject, Setting, Style, Light, Angle, Colors + khaali jagah — aur "koi text nahi".
- Text hamesha Canva mein.
- Business ke liye best: asli photo + AI edit. Pure AI image sirf mood/background ke liye.
- Gemini images par visible watermark aur invisible SynthID hota hai — client ko bataiye.
- Na logo, na asli insaan, na naqli dish.

Next Step — Chapter 17: Project 1 — Restaurant Offer Poster

Ab aapke paas sab hai: design ke rules, Canva, AI text aur AI visual. Agle chapter mein sab ko jod kar Rahul Swaad Rasoi ka "Weekend Thali Offer" poster shuru se aakhir tak banata hai — aapka pehla portfolio project.

IS CHAPTER KE SOURCES (LAST CHECKED: 21 SEPTEMBER 2026)

Gemini Apps Help — Manage watermark settings (India mein AI Ultra; SynthID sab par) • Google Blog — Nano Banana Pro (watermark policy) • Gemini free plan overview (Sep 2026) • MeitY IT Amendment Rules 2026 (AI content labelling)

17

Project 1: Restaurant Offer Poster

Brief se final tak — aapka pehla portfolio project.

PROJECT 1 Is chapter mein aap book ka pehla poora project banayenge — shuru se aakhir tak, portfolio mein rakhne layak.

Pichhle teen chapters mein aapne teen alag hunar seekhe: design ke rules (Chapter 14), Canva mein edit karna (Chapter 15), aur AI se visual banana (Chapter 16). Saath mein Part II ki Prompt skills pehle se hain. Ab in sab ko ek jagah jodne ka waqt hai — ek asli kaam mein.

1 Is Chapter Mein Kya Seekhenge

- 1 Design Brief — kaam shuru karne se pehle ke 8 sawal
- 2 6-step poster workflow: Idea se Final tak
- 3 Poster Review Checklist — bhejne se pehle
- 4 Alag sizes mein export aur portfolio mein save

2 Simple Explanation

Ek professional aur ek beginner mein sabse bada farq tools ka nahi, **process** ka hota hai. Beginner seedha Canva kholta hai aur "kuch achha" banane lagta hai. Professional pehle poochhta hai: kiske liye, kya offer, kab tak, kahan lagega? Phir ek tay raaste par chalta hai.

Is chapter mein aap wahi tay raasta seekhenge — ek **6-step workflow** — jo har poster, post ya flyer par kaam karega:

3

Kahani: Swaad Rasoi Ka Weekend Poster

Fictional kahani — Rahul, Imran bhai aur "Swaad Rasoi" is book ke fictional examples hain; ye real restaurant nahi hai.

RAHUL

Chapter 16 wale visual ke baad Swaad Rasoi ke owner, Gupta ji, ne Rahul ko poora kaam de diya: "Weekend Thali ka poster chahiye — Instagram ke liye bhi, WhatsApp status ke liye bhi, aur ek counter par lagane ke liye print bhi."

Pichhli baar Rahul ne jaldi mein design shuru kiya tha aur 3 baar badalna pada tha. Is baar Imran bhai ne kaha:

*"Pehle 10 minute Gupta ji se baat kar. 8 sawal poochh aur likh le — kya offer, kab, kiske liye, kitne ka, kahan lagega. Isko **brief** kehte hain. Brief pakka, to kaam aadha."*

Rahul ne sawal poochhe. Pata chala: offer sirf Saturday-Sunday dopahar 12 se 3 baje hai, price Gupta ji khud tay karenge, aur restaurant ke rang pehle se tay hain — maroon aur peela, jo unke board par hain.

Phir Rahul 6 steps mein chala. AI se 3 ideas, ek chuna, Gemini se visual, Canva mein layout, restaurant ke rang aur naam, aur aakhir mein ek checklist se jaanch. Checklist mein ek galti pakdi gayi: phone number ka ek ank galat tha.

Gupta ji ne poster dekha aur pehli baar mein haan kar di. Rahul ne teen sizes export kiye aur ek copy apne portfolio folder mein rakhi — "Project 1".

4

Important Concepts

1. Design Brief — 8 sawal

Brief ek chhota note hai jisme kaam ki saari zaroori jaankari hoti hai. Isse galat samajh aur baar-baar badlaav se bachte hain.

Design Brief

KAAM SHURU KARNE SE PEHLE

1. Business

2. Offer / message

3. Kab se kab tak

4. Kiske liye (customer)

5. Price / detail (owner se)

6. Brand rang / logo

7. Kahan lagega (sizes)

8. Contact + deadline

PRICE AUR OFFER KI SHARTEIN

Price, discount, timing — ye sab **owner se likhit mein** (WhatsApp par) confirm kijiye. Poster par galat price chhap gaya to nuksaan business ka hoga aur bharosa aapka jayega.

2. 6-Step Workflow detail mein

STEP	KYA KARNA HAI	TOOL
1. Idea	Brief se AI ko 3 poster concepts maangiye; ek chuniye	Chat AI (Chapter 7, 10)
2. Prompt	Chune concept ke liye image Prompt aur poster text	Chat AI (Chapter 16)
3. AI Output	Visual banaiye; text-free, khaali jagah ke saath	Gemini ya asli photo + edit
4. Editing	Canva mein layout, hierarchy, text	Canva (Chapter 14-15)
5. Branding	Business ke rang, naam/logo, fonts	Canva + hex codes
6. Final	Checklist, owner approval, sizes export, save	Canva + Drive

3. Poster Review Checklist

- ☐ **3-Second Rule:** offer aur contact 3 second mein samajh aate hain
- ☐ **Spelling:** har shabd do baar padha (business ka naam khaas kar)
- ☐ **Number/contact:** har ank check kiya — ek baar dial karke bhi
- ☐ **Price/timing:** owner ke likhit confirmation se match karta hai
- ☐ **Hierarchy:** headline sabse badi, detail beech mein, contact chhota lekin saaf
- ☐ **Rang/fonts:** max 3 rang, max 2 fonts, contrast saaf
- ☐ **Imaandaari:** koi naqli jaldbaazi, "No.1" ya jhootha dawa nahi
- ☐ **AI image:** agar AI visual hai, owner ko bataya; koi naqli dish nahi

4. Sizes — ek design, teen jagah

KAHAN	SIZE	TIP
Instagram post	1080 × 1350 ya 1080 × 1080	PNG download
WhatsApp status / Story	1080 × 1920	Text upar-neeche ke kinaron se thoda door
Counter print	A4	PDF Print download; print se pehle ek test print

Free plan mein alag size ke liye naya design us size mein banaiye aur elements copy-paste kijiye (Chapter 15).

5

Step-by-Step Mobile Process: Poster Shuru Se Aakhir Tak

1

Brief bhariye

Owner se 8 sawal — WhatsApp par ya milkar. Note mein save; price/timing ka likhit confirmation.

2

Idea: 3 concepts

Prompt 1 chalaiye. Ek concept chuniye (ya owner se chunwaiye).

3 Prompt: visual + text

Prompt 2 se image Prompt aur poster ka text ek saath.

4 AI Output: visual banaiye

Gemini mein image Prompt — ya asli photo lekar AI edit (Chapter 16). Best visual Drive mein.

5 Editing: Canva layout

Instagram Post size, bina crown ka simple template ya khaali page. Visual lagaiye, upar headline, beech detail, neeche contact.

6 Branding

Business ke hex code rang, naam bada aur saaf, max 2 fonts.

7 Review Checklist

8 points. Prompt 3 se AI se bhi ek baar check karwaiye.

8 Owner approval

Draft WhatsApp par bhejiye: "Ye draft hai, koi badlaav?" Max 2 round badlaav pehle se tay kijiye.

9 Final export

Post (PNG), Story (PNG), Print (PDF). Naam: "SwaadRasoi_WeekendThali_Post_Oct2026".

10 Save aur portfolio

Drive → 03 Clients → [business] mein sab files. Ek copy 04 Portfolio mein, naam "Project1_...".

6 AI Tool Recommendation

Poora Core Mobile Stack: **Chat AI** (ideas, text, check), **Gemini** (visual), **Canva** (design), **WhatsApp** (brief aur approval), **Drive** (save). Canva ke andar ke AI features (free mein limited uses) bhi try kar sakte hain — jaise text likhvana — lekin is project ka workflow unke bina bhi poora hota hai.

7 Copy-Paste Prompts

PROMPT 1 — 3 POSTER CONCEPTS

Role: Tum ek restaurant marketing designer ho.

Context: "[Business]" ek [area] ka family restaurant hai. Offer: [offer], [din aur time].

Task: Is offer ke poster ke 3 alag concepts do.

Audience: [customer type].

Format: Har concept mein – Headline (max 6 words), Sub-line (max 10 words), Visual idea, CTA.

Constraints: Roman Hindi. Price mat likhna. Naqli jaldbaazi ya "No.1" nahi.

PROMPT 2 — VISUAL + TEXT EK SAATH

Concept [number] chuna hai. Iske liye do cheezein do:

(1) Gemini ke liye ek image Prompt – Subject, Setting, Style, Light, Angle, Colors ([brand rang]), upar 30% khaali jagah, image mein koi text nahi, koi insaan nahi.

(2) Poster ka final text: Headline, Detail line (timing: [time]), CTA, Contact line.

PROMPT 3 — FINAL CHECK (poster ki photo attach karke)

Ye final poster hai. Check karo: (1) 3 second mein offer aur contact samajh aata hai? (2) koi spelling galti? (3) hierarchy, rang, fonts theek? (4) koi aisi line jo misleading lage? Sirf problems batao, har ek ke saath sudhaar.

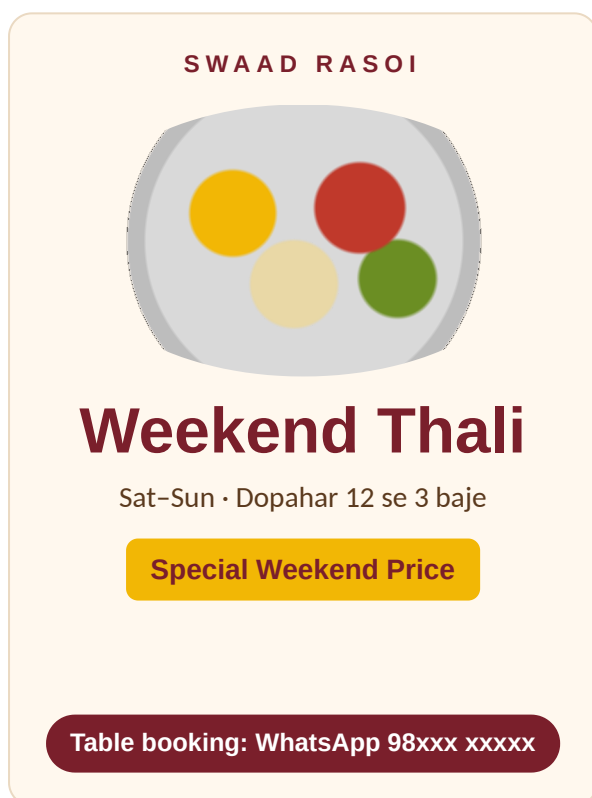

PROMPT 4 — OWNER KO DRAFT BHEJNE KA MESSAGE

Client ko poster ka draft bhejne ke liye ek polite WhatsApp message likho: draft attach hai, 2 round tak badlaav ho sakte hain, price aur timing ek baar confirm kar dein. Max 40 words, Roman Hindi.

8 Prompt Ka Explanation

PROMPT KA HISSA	YE KYUN KAAM KARTA HAI
Prompt 1 poora formula mein	Client ka kaam hai — Chapter 7 ka rule: customer tak jaane wale kaam mein poora formula.
Prompt 2 — visual aur text ek saath	Dono ek hi concept se bante hain, isliye aapas mein match karte hain.
Prompt 3 — "misleading lage"	AI aapki imaandaari wali checklist ka doosra pehredaar ban jaata hai.
Prompt 4 — "2 round badlaav"	Shuru mein hi saaf ho jaata hai — anant badlaav se bachaav (Chapter 45 mein detail).

9 Practical Example: Rahul Ka Final Poster

Rahul ke decisions

- **Headline:** 2 shabd — sabse bade
- **Detail:** din aur time — brief se, owner ne confirm kiya
- **Price:** owner ne final kiya (yahan placeholder)
- **Rang:** restaurant board wale maroon + peela, cream background
- **Visual:** AI concept — owner ko bataya; agli baar asli photo
- **Pakdi gayi galti:** number ka ek ank — checklist se

Fictional example — "Swaad Rasoi" real business nahi hai. Poster is book ke liye banaya gaya illustration hai.

10 Practice Task — Project 1

Task 1: Ek business chuniye. Asli business ho to owner ki permission lijiye; nahi to fictional business banaiye (aur saaf "fictional" likhiye).

Task 2: Design Brief ke 8 sawal bhariye.

Task 3: 10 steps se poster banaiye — Idea se Final tak.

Task 4: Review Checklist ke saare 8 points tick kijiye.

Task 5: Post + Story size export kijiye, aur ek copy Drive ke "04 Portfolio" mein "Project1" naam se rakhiye. Ye aapka pehla portfolio piece hai.

11 Common Mistakes

GALTI	SAHI TAREEKA
Bina brief seedha design shuru	Pehle 8 sawal — 10 minute bachate hain 2 ghante.
Price/timing khud andaaze se likhna	Owner se likhit confirmation.
Bina checklist bhej dena	8 points — khaas kar number aur spelling.
Anant badlaav maan lena	Shuru mein "2 round tak" tay kijiye.
Portfolio mein save karna bhool jaana	Har project ki ek copy "04 Portfolio" mein.

12 Quick Checklist

- ☐ Maine Design Brief ke 8 sawal bhare
- ☐ Maine 6-step workflow se poster banaya
- ☐ Poster ne Review Checklist ke 8 points pass kiye
- ☐ Maine kam se kam 2 sizes export kiye
- ☐ Project 1 mere Drive ke "04 Portfolio" mein hai

13 Chapter Summary

KEY TAKEAWAYS

- Professional ka farq process hai: pehle brief, phir design.
- 6 steps: Idea → Prompt → AI Output → Editing → Branding → Final.
- Price aur timing owner se likhit mein; badlaav ke round pehle se tay.
- Bhejne se pehle 8-point Review Checklist.
- Har project ki ek copy portfolio mein — ye Chapter 39 mein kaam aayegi.

Next Step — Chapter 18: Social Creatives aur Branding Kit

Ek poster ban gaya. Lekin business ko story, festival post, menu card, visiting card aur flyer bhi chahiye — aur sab ek parivaar jaise dikhne chahiye. Agle chapter mein Priya "Priya Ki Rasoi" ka poora branding kit banati hai.

18

Social Creatives aur Branding Kit

Har design ek hi parivaar ka lage — yahi branding hai.

*Project 1 mein aapne ek poster shuru se aakhir tak banaya. Lekin ek business ko sirf ek poster nahi chahiye — use roz posts, festival wishes, menu card, visiting card, flyer chahiye. Agar har design alag rang aur alag andaaz mein ho, to customer ko lagega ye alag-alag dukaanein hain. Is chapter mein aap ek **Branding Kit** banayenge — taaki har design ek hi parivaar ka lage.*

1 Is Chapter Mein Kya Seekhenge

- 1 Branding kya hai — logo se zyada
- 2 Branding Kit ke 5 hisse: logo, rang, font, tone, photo style
- 3 8 zaroori formats aur unke size
- 4 Ek page ka Brand Kit banana (free plan par bhi)

2 Simple Explanation

Branding woh pehchaan hai jisse log aapke business ko turant pehchaan lein — bina naam padhe. Jaise door se kisi dost ki chaal dekh kar aap pehchaan lete ho. Ye pehchaan **baar-baar ek jaisa dikhne** se banti hai: wahi rang, wahi font, wahi andaaz.

Branding sirf logo nahi hai. Logo branding ka ek chhota hissa hai. Asli branding hai **consistency** — har post, har card, har message ek hi parivaar ka lage.

CHHOTE BUSINESS KE LIYE ACHHI KHABAR

Branding ke liye bada budget ya designer zaroori nahi. 2 rang, 2 font, ek simple logo aur thoda anushasan — bas itna kaafi hai shuruaat ke liye.

3

Kahani: "Ye Kaunsi Dukaan Hai?"

Fictional kahani — Priya, Rahul aur "Priya Ki Rasoi" is book ke fictional examples hain.

PRIYA

Ek mahine mein Priya ne kaafi designs banaye — menu, Diwali wish, ek offer post. Ek din ek purani customer ne WhatsApp kiya: *"Didi, ye Diwali wala post aapka tha? Laga kisi aur ka hai."*

Priya ne apne saare designs ek saath dekhe. Menu laal-bhoora tha, Diwali post neela-sunehra, offer post hara. Teeno mein alag fonts. Kahin naam upar, kahin neeche, kahin tha hi nahi.

Rahul ne ek shaam uske saath baith kar ek page banaya — **"Priya Ki Rasoi — Brand Kit"**:

Logo: naam ek garam font mein, ek chhota kadhui ka nishaan. Rang: laal-bhoora #8B2E1F, narangi #F2A541, cream #FFF8EE. Font: headline ke liye ek bold, baaki ke liye ek simple.

Tone: "ghar jaisa, garam, apnapan". Photo: asli khaana, upar se, din ki roshni.

Us din ke baad Priya ne har design isi page ko dekh kar banaya — menu, Holi wish, visiting card, flyer. Do hafte baad wahi customer ka message aaya: *"Didi, aapka post door se hi pehchaan mein aa jaata hai."*

4

Important Concepts

1. Branding Kit ke 5 hisse

HISSA	KYA TAY KARNA HAI	PRIYA KA EXAMPLE
Logo	Simple naam + chhota nishaan; chhote size mein bhi padha jaaye	"Priya Ki Rasoi" + kadhui icon
Rang	1 main + 1 accent + 1 neutral (Chapter 14), hex codes ke saath	#8B2E1F, #F2A541, #FFF8EE
Font	2 fonts — headline aur body	Ek bold headline font + ek simple body font
Tone	Business kaise "bolta" hai (Chapter 8)	Ghar jaisa, garam, apnapan
Photo style	Photos kaisi dikhein	Asli khaana, top view, din ki roshni

2. Logo — simple rakhiye

Achha chhota-business logo

Business ka naam saaf font mein, ek chhota simple nishaan, 1-2 rang. Visiting card par chhota ho kar bhi padha jaaye.

Bachiye

Bahut detail wala design, 4-5 rang, kisi famous brand jaisa dikhne wala logo, AI image mein bana logo jisme akshar bigde hon.

LOGO AUR COPYRIGHT

Kisi mashhoor brand ke logo jaisa logo mat banaiye — ye doosre ki pehchaan ki nakal hai aur legal pareshaani de sakta hai. Canva mein text + simple shape se banaya logo shuruaat ke liye sabse safe hai. Logo ka legal registration (trademark) ek alag vishay hai — business bada ho to jaankar se salah lijiye.

3. 8 zaroori formats

FORMAT	KAHAN KAAM AATA HAI	SIZE (APPROX.)
Instagram post	Feed, offers, tips	1080 × 1350 / 1080 × 1080 px
Story / WhatsApp status	Roz ka update	1080 × 1920 px
Festival post	Diwali, Eid, Holi, Christmas wishes	Post ya story size
Ad creative	Paid promotion (baad mein)	Post/story size; kam text
YouTube thumbnail	Video ka cover	1280 × 720 px
Menu / price card	Counter, WhatsApp	A4 ya post size
Visiting card	Haath mein dene ke liye	Lagbhag 3.5 × 2 inch
Flyer	Baantne ke liye, dukaan par	A5 ya A4

Platform sizes badal sakte hain — upload se pehle platform ki help page ya Canva ka ready template size dekhiye. Print ke liye printer se size aur file type ek baar confirm kijiye. Last checked: 21 September 2026.

4. Consistency ke 4 rules

1 Har design mein logo/naam ek hi jagah

2 Sirf kit ke rang — koi naya rang nahi

3 Sirf kit ke 2 fonts

4 Festival post mein bhi apne rang, festival ka touch halka

FESTIVAL POSTS KA RULE

Diwali par sab log sunehra-laal post daalte hain. Aap apne brand rangon mein diye ya rangoli ka chhota touch daaliye — post festive bhi lagega aur **aapka** bhi.

5. Free plan par Brand Kit kaise rakhein

Canva ka "Brand Kit" feature paid plans mein hai (Chapter 15). Free plan mein iska aasaan jugaad:

- Canva mein ek design banaiye: "[Business] — Brand Kit" — usme logo, rang ke gole hex codes ke saath, dono fonts ke naam, aur 2 example posts.
- Isi design ko Drive ke "01 Designs" aur client ke folder mein PNG bana kar rakhiye.
- Naya design banate waqt pehle ye page kholiye, phir shuru kijiye.

5 Step-by-Step Mobile Process: Mini Branding Kit

1 Naam aur tagline

Naam pehle se hai to theek. Tagline ke liye Prompt 1 — 5 options, ek chuniye (ya bina tagline bhi chalega).

2 Rang tay kijiye

Chapter 14 ka Prompt 3 ya Prompt 2 (neeche). 3 hex codes note kijiye.

3 2 fonts chuniye

Canva mein ek bold headline font aur ek simple body font. Dono ke naam note kijiye.

4 Simple logo

Canva → "logo" template (bina crown) → apna naam, apne rang, ek simple icon. Chhota karke dekhiye — padha ja raha hai?

5 Brand Kit page

Ek design: logo, 3 rang ke gole + hex codes, fonts ke naam, tone ki ek line, photo style ki ek line.

6 5 designs isi kit se

Menu card, visiting card, festival post, story, flyer — har ek mein wahi rang, wahi fonts, logo ek hi jagah.

7

Sab ek saath rakh kar dekhiye

Paanchon ka screenshot ek saath — kya ek parivaar lagte hain? Jo alag lage, use theek kijiye.

6

AI Tool Recommendation

Canva (logo, kit page, saare formats), **Chat AI** (tagline, rang ideas, tone line, text), **Gemini** (sirf background/mood visuals — logo nahi). Drive mein sab save.

7

Copy-Paste Prompts**PROMPT 1 — TAGLINE**

Mere [business type] "[Business ka naam]" ke liye 5 simple tagline options do (max 6 words). Feel: [ghar jaisa / premium / fast / friendly]. Roman Hindi. Koi "No.1" ya "Best in city" jaisa dawa nahi.

PROMPT 2 — BRAND RANG

[Business type] ke liye 2 brand color combinations suggest karo. Har ek mein main, accent aur neutral — hex code ke saath. Batao har combination kaisa ehsaas deta hai aur chhote phone screen par text readable rahega ya nahi.

PROMPT 3 — BRAND TONE LINE

Mera business: [detail]. Customers: [kaun]. Mere brand ka "tone of voice" 1 line mein likho, aur 3 example sentences do — ek greeting, ek offer, ek thank you — isi tone mein. Roman Hindi.

PROMPT 4 — FORMAT TEXTS EK SAATH

"[Business ka naam]" ke liye in formats ka text do, sab ek hi tone mein ([tone]):
 (1) Visiting card: naam, 1 line kaam, contact
 (2) Flyer: headline + 3 bullet + CTA
 (3) [Festival] wish post: 1 line wish + 1 line business
 (4) Menu card heading + chhoti tagline
 Roman Hindi. Contact ki jagah [Contact] placeholder.

8 Prompt Ka Explanation

PROMPT KA HISSA	YE KYUN KAAM KARTA HAI
"Phone screen par readable"	Rang sirf sundar nahi, padhne layak bhi hone chahiye — contrast check apne aap ho jaata hai.
Tone line + 3 examples	Tone ek definition se nahi, examples se samajh aata hai (Chapter 8).
Prompt 4 — sab formats ek saath	Saare texts ek hi baar mein, ek hi tone mein — consistency pehle se.
[Contact] placeholder	Asli number aap khud daalenge — AI koi naqli number nahi banayega (Chapter 3).

9 Practical Example: "Priya Ki Rasoi" Brand Kit

Priya Ki Rasoi

Ghar ka swaad, roz

BRAND KIT

RANG

- Main • #8B2E1F
- Accent • #F2A541
- Neutral • #FFF8EE

FONT

Headline Bold

Body text simple aur saaf

tone

Ghar jaisa, garam, apnapan

PHOTO STYLE

Asli khaana • top view • din ki roshni

RULES

Logo hamesha upar-baayen • koi naya rang nahi

Aaj Ka Lunch
Menu post

Priya Ki Rasoi
Visiting card

Shubh Diwali
Festival post

Ghar Ka Tiffin
Flyer

Fictional example — ye book ke liye banaya gaya illustration hai.

10 Practice Task

Task 1: Ek business (apna, jaan-pehchaan ka, ya fictional) ke liye 5 hisse tay kijiye: logo, rang, font, tone, photo style.

Task 2: Canva mein simple logo aur ek "Brand Kit" page banaiye.

Task 3: Isi kit se 5 designs banaiye: menu/price card, visiting card, festival post, story, flyer.

Task 4: Paanchon ko ek saath rakh kar consistency check kijiye, aur Brand Kit + 5 designs Drive ke "04 Portfolio" mein rakhiye.

11 Common Mistakes

GALTI	SAHI TAREEKA
Har design mein naya rang/font	Sirf kit ke rang aur 2 fonts.
Bahut detailed ya famous brand jaisa logo	Simple naam + chhota nishaan; apna original.
AI image se logo banwana	Canva mein text + shape se.
Festival post mein brand gayab	Apne rangon mein festival ka halka touch.
Galat size mein print	Printer se size/file type confirm; ek test print.

12 Quick Checklist

- ☐ Mere business ke 5 brand hisse tay hain
- ☐ Maine simple logo aur Brand Kit page banaya
- ☐ Maine kit se 5 alag formats banaye
- ☐ Paanchon designs ek parivaar jaise lagte hain
- ☐ Brand Kit aur designs portfolio folder mein hain

13 Chapter Summary

KEY TAKEAWAYS

- Branding = pehchaan, jo consistency se banti hai — logo sirf ek hissa.
- Kit ke 5 hisse: logo, rang, font, tone, photo style.
- 8 formats, har ek sahi size mein — print se pehle confirm.
- Logo simple aur original; famous brand jaisa nahi.
- Free plan par ek "Brand Kit" design page — har naye design se pehle kholiye.

PART IV COMPLETE

AI Se Design aur Poster — aapne kya haasil kiya

Ch 14

3-Second Rule, hierarchy, rang, font

Ch 15

Canva mein pehla design

Ch 16

AI visual — bina text, imaandaari se

Ch 17

Project 1: poora poster

Ch 18

Branding Kit + 5 formats

Aapke portfolio mein ab kam se kam 2 cheezein hain: Project 1 poster aur ek Branding Kit.

Note mein likhiye: "Part IV khatam — ab main business ke liye design bana sakta/sakti hoon."

Next Step — Part V, Chapter 19: Content Kya Hai aur Content Pillars

Ab design aata hai. Lekin roz kya post karein? Fictional gym "FitZone" roz sirf "Join Now 20% OFF" post karta tha — aur koi dhyan nahi deta tha. Part V mein aap content ki soch seekhenge: kya post karein, kyun, aur AI ki madad se roz ka content kaise banayein.

PART V

05

AI Se Content Creation

AI ko assistant bana kar content plan, hooks, captions, scripts aur messages — insaani samajh ke saath.

Chapter 19 - 23

19

Content Kya Hai aur Content Pillars

Pehle do, phir maango — content ka pehla rule.

Part IV mein aapne design banana seekha — poster, post, branding kit. Ab aapke paas kaise dikhana hai, uska jawab hai. Part V ka sawal hai: **kya dikhana hai?** Roz kya post karein, kyun karein, aur AI ki madad se content ki kami kabhi na ho — iski shuruaat hoti hai ek simple idea se: **Content Pillars**.

1 Is Chapter Mein Kya Seekhenge

- 1 Content kya hai — aur sirf offers post karna kyun kaam nahi karta
- 2 Audience ko samajhna: unke sawal, dar aur zaroorat
- 3 3–5 Content Pillars chunna
- 4 Ek hi baar mein 20 post ideas banana

2 Simple Explanation

Content woh sab hai jo aap logon ko dikhate ya sunate ho — post, Reel, story, WhatsApp status, blog. Achha content ek kaam karta hai: log aapko **jaanne, pasand karne aur aap par bharosa** karne lagte hain. Bharosa hone ke baad hi log khareedte hain.

Zyadatar chhote business sirf ek cheez post karte hain: offer. "20% OFF", "Sale", "Join Now". Sochiye — agar ek dost aapse roz sirf udhaar maange, to kya aap uska phone uthayenge? Sirf offers wala content wahi dost hai.

80/20 RULE

Lagbhag **80% content value** de — tips, jaankari, kahaniyan, peeche ki jhalak. Sirf **20% content bechne** ki baat kare — offers, packages. Ye koi pakka ganit nahi, ek soch hai: pehle do, phir maango.

3 Kahani: FitZone Ka "Join Now"

Fictional kahani — Rahul, Vikram aur "FitZone" is book ke fictional examples hain; ye real gym nahi hai.

RAHUL

Glow Salon ke kaam ki baat mohalle mein phaili. Ek din **FitZone** gym ke owner, Vikram, ne Rahul ko bulaya. "Mera Instagram dekho. Roz post karta hoon, par koi like nahi, koi message nahi."

Rahul ne dekha. Pichhle 30 posts mein se 28 lagbhag ek jaise the: gym ki photo aur "JOIN NOW — 20% OFF". Do post festival wishes the.

Rahul ne Imran bhai wala sawal poochha: "Vikram bhai, jo log gym join nahi karte — wo kyun nahi karte?" Vikram hans pade: "Sabke bahane hain. 'Time nahi hai', 'sharm aati hai, main fit nahi hoon', 'pata nahi kya karna hai', 'chot lag jayegi'..."

"Bas yahi aapka content hai," Rahul bola. "Har bahane ka jawab ek post. Offer mahine mein 3-4 baar — baaki din unki mushkil ka hal."

Dono ne milkar 4 pillars banaye: **Beginner Tips**, **Gym Ke Andar** (peeche ki jhalak), **Members Ki Kahani** (sirf permission ke saath), aur **Offers**. AI se har pillar ke 5 ideas nikaale — 20 posts ka stock ek ghante mein.

Teen hafte baad Vikram ka message aaya: "Ek ladki ne DM kiya — 'aapka beginner wala post dekha, mujhe bhi sharm aati thi. Kab aaun?'" Sirf offer wale posts ne kabhi aisa message nahi laaya tha.

4 Important Concepts

1. Audience — kiske liye bol rahe ho?

Audience woh log hain jinke liye aap content banate ho — aapke asli ya hone wale customers. Achha content unke 3 sawalon ka jawab deta hai:

1

Unki mushkil kya hai?

"Time nahi", "pata nahi kahan se shuru karun".

2

Unka dar kya hai?

"Log hasenge", "paise barbaad honge", "chot lagegi".

3

Unhe kya chahiye?

"Thoda fit rehna", "shaadi se pehle achha dikhna", "doctor ne kaha hai".

In sawalon ke jawab ke 2 source: **business owner** (jo roz customers se milta hai) aur **AI** (jo general patterns jaanta hai). Dono milaiye — owner ki baat zyada bharosemand.

2. Content Pillars — 3 se 5 khambe

Content Pillars woh 3-5 bade vishay hain jin par aapka saara content khada hota hai — jaise ghar ke khambe. Pillars tay ho jaayein to "aaj kya post karun?" ka sawal khatam.

Sikhana

Tips, how-to, galtiyan

Peeche ki jhalak

Kaam kaise hota hai, team, taiyaari

Saboot / Kahani

Asli customer anubhav — permission ke saath

Community / Mazaa

Festival, sawal-jawab, local baatein

Offer

Package, naya service — 20%

Ye 5 common pillars hain. Aapke business ke hisaab se naam aur mix badal sakte hain.

3. Business ke hisaab se pillars

BUSINESS	PILLAR IDEAS
Tiffin / food	Aaj ka menu • Kitchen ki safai aur taiyaari • Ghar ke nuskhe/recipes • Customer feedback (permission) • Weekly offer
Salon	Hair/skin care tips • Before-after (permission) • Naye styles • Hygiene aur products • Packages
Gym	Beginner tips • Gym ke andar • Member journeys (permission) • Myths vs facts • Offers
Local dukaan	Naya stock • Product kaise chunein • Dukaan ki kahani • Festival • Offers

4. Content ki imaandaari — 3 rules

KHAAS DHYAN

- **Asli logon ki kahani ya photo sirf permission se.** Customer ka chehra, naam ya before-after — pehle poochhiye, likhit mein (WhatsApp) haan lijiye.
- **Health, paisa, result ke guarantee wale dawe nahi.** "30 din mein 10 kg kam — guaranteed" jaisi baatein misleading hain aur khatarnak bhi. Tips general rakhiye; medical baat ke liye "doctor se salah lijiye".
- **AI tips ko check kijiye.** Fitness, khaana, skin — AI ki di hui tip Yellow/Red ho sakti hai (Chapter 3). Business owner ya jaankar se confirm kijiye.

5 Step-by-Step Mobile Process: Pillars Aur 20 Ideas

1 Business aur audience likhiye

3-4 line: kya bechte hain, kahan, customer kaun (umar, kaam, zaroorat).

2 Owner se 3 sawal

"Customer sabse zyada kya poochhte hain? Kis baat se darte hain? Kyun nahi aate?" Voice note mein jawab bhi chalega.

3 AI se 15 sawal aur dar

Prompt 1. Owner ke jawab se milaiye; jo match karein unpar tick.

4 4 pillars tay kijiye

Prompt 2. 3 value pillars + 1 offer pillar ek achha shuruaati mix hai.

5 Har pillar ke 5 ideas

Prompt 3 — 20 ideas table mein. Google Sheets mein paste kijiye.

6 Ideas ko chhaantiye

Jo idea business ke liye sach nahi, ya permission chahiye jo nahi mili, use hataiye. Jo khaas pasand aaye, star lagaiye.

7 Sheet save kijiye

Drive → 02 Content → "[Business]_Content_Ideas". Chapter 22 mein ye 30-din ka calendar banegi.

6 AI Tool Recommendation

Aapka Chat AI (audience ke sawal, pillars, ideas) + **Google Sheets** (ideas ki list) + **WhatsApp** (owner se sawal). Koi naya app nahi.

7 Copy-Paste Prompts

PROMPT 1 — AUDIENCE KE SAWAL AUR DAR

"[Business ka naam]" ek [area] ka [business type] hai. Target customers: [umar, kaam, zaroorat]. Is business ke hone wale customers ke 15 common sawal, dar aur bahane list karo. Table: Sawal/Dar | Type (sawal/dar/bahana). Roman Hindi.

PROMPT 2 — CONTENT PILLARS

In sawalon aur dar ke basis par is business ke liye 4 Content Pillars suggest karo – 3 value dene wale aur 1 offer wala. Har pillar ka naam (2-3 words) aur ek line mein kya post hoga. Table format.

PROMPT 3 — 20 POST IDEAS

Har pillar ke 5 post ideas do. Table: Pillar | Idea (1 line) | Format (post/reel/story/carousel). Constraints: koi health/result guarantee nahi, customer ki kahani wale ideas ke aage "(permission chahiye)" likho. Roman Hindi.

PROMPT 4 — IDEA CHECK

In ideas mein se kaunse aise hain jinme koi claim ya tip ho jise mujhe expert/owner se confirm karna chahiye? Unki list do aur har ek ke saath kya confirm karna hai.

8 Prompt Ka Explanation

PROMPT KA HISSA	YE KYUN KAAM KARTA HAI
"Sawal, dar aur bahane"	Content customer ki soch se shuru hota hai, business ki nahi — isliye log judte hain.
"3 value + 1 offer"	80/20 rule pehle se Prompt mein.
"(permission chahiye)"	Jin ideas mein asli log hain, wo alag dikhte hain — aap bhoolte nahi.
Prompt 4 — idea check	AI khud batata hai ki kaunsi tips Yellow/Red hain (Chapter 3, 5).

9 Practical Example: FitZone Ke 4 Pillars

Rahul aur Vikram ki Sheet ka ek hissa (fictional example):

PILLAR	IDEA	FORMAT
Beginner Tips	"Pehle din gym mein kya karein — 5 simple kaam"	Carousel
Beginner Tips	"Sharm aati hai? Aap akele nahi ho" — pehle din ka dar	Reel
Gym Ke Andar	Subah 6 baje ki taiyaari — machines ki safai	Story
Gym Ke Andar	Trainer se milo — 3 sawal, 3 jawab	Reel
Members Ki Kahani	Ek member ki 6 mahine ki journey (permission chahiye; koi "guaranteed" dawa nahi)	Post
Offers	Naye saal ka "Beginner Month" — timing aur shartein saaf	Post + Story

Vikram ne ek idea hataya: AI ne "7 din mein pet kam" likha tha — Prompt 4 ne use pakda, aur Vikram ne kaha, "Aisa hum wada nahi karte." **Jo business wada nahi karta, wo content mein bhi nahi.**

10 Practice Task

Task 1: Ek business chuniye (apna, jaan-pehchaan ka, ya fictional) aur uski audience 3-4 line mein likhiye.

Task 2: Owner (ya khud) se 3 sawal ka jawab lijiye, aur Prompt 1 se 15 sawal/dar nikaaliye.

Task 3: Prompt 2 aur 3 se 4 pillars aur 20 ideas banaiye; Prompt 4 se check kijiye.

Task 4: Ideas ko Google Sheet mein "02 Content" folder mein save kijiye.

11 Common Mistakes

GALTI	SAHI TAREEKA
Sirf offers post karna	80% value, 20% offer.
Business ke baare mein bolna, customer ke baare mein nahi	Customer ke sawal, dar aur zaroorat se shuru.
10-12 pillars	3-5 kaafi; 4 se shuru kijiye.
Customer photo/kahani bina permission	Pehle poochhiye, likhit haan lijiye.
AI ki health/result tips seedhe post	Expert/owner se confirm; koi guarantee nahi.

12 Quick Checklist

- ☐ Mujhe 80/20 (value/offer) ka idea samajh aa gaya
- ☐ Maine audience ke sawal, dar aur zaroorat likhe
- ☐ Maine 4 Content Pillars tay kiye
- ☐ Mere paas 20 post ideas ki Sheet hai
- ☐ Jin ideas mein permission ya expert check chahiye, wo marked hain

13 Chapter Summary

KEY TAKEAWAYS

- Content ka kaam: log jaanein, pasand karein, bharosa karein — phir khareedein.
- 80% value, 20% offer.
- Audience ke sawal, dar aur zaroorat — owner aur AI dono se.
- 3-5 Content Pillars = "aaj kya post karun?" ka ant.
- Permission ke bina asli log nahi; guarantee wale dawae nahi.

Next Step — Chapter 20: Hooks, Captions aur CTAs

Ab pata hai kya post karna hai. Lekin log pehli line padh kar hi tay kar lete hain ki aage padhein ya scroll karein. Agle chapter mein Rahul ka caption "Visit our shop" se badal kar aisa banta hai jise log rukkk kar padhte hain.

20

Hooks, Captions aur CTAs

Pehli line rokhti hai, aakhri line raasta dikhati hai.

Chapter 19 mein aapne tay kiya ki kya post karna hai — pillars aur 20 ideas. Ab sawal hai: us post ko log **padhein** kaise? Phone par log bahut tez scroll karte hain. Pehli line mein unhe rok liya to baat aage badhegi, nahi to post chahe kitna achha ho, dekha hi nahi jayega.

1 Is Chapter Mein Kya Seekhenge

- 1 Hook — pehli line ki taakat, aur 5 tarah ke hooks
- 2 Caption ka structure: Hook → Value → CTA
- 3 CTA — log aakhir mein kya karein
- 4 AI ke caption ko "insaani" banana

2 Simple Explanation

Caption woh text hai jo post ke saath likha hota hai. Uski **pehli line** sabse zaroori hai — isse **Hook** kehte hain. Hook ka kaam ek hi hai: scroll karte angootho ko rokna.

Hook ke baad caption mein kuch **kaam ki baat (Value)** ho, aur aakhir mein ek saaf **CTA (Call-to-Action)** — yaani padhne wala ab kya kare: DM kare, WhatsApp kare, save kare, dukaan aaye.

HOOK SACH HONA CHAHIYE

Hook ka matlab "clickbait" nahi. Jo pehli line mein wada kiya, post mein wahi mile. Jhootha hook ek baar click dilata hai, lekin bharosa hamesha ke liye todta hai.

Fictional kahani — Rahul, Sameer, Imran bhai aur "Kulhad Corner" is book ke fictional examples hain.

RAHUL

Kulhad Corner ke posters achhe lagne lage the, lekin Sameer shikayat karta tha: "Log photo dekh kar aage badh jaate hain. Caption koi padhta hi nahi."

Rahul ne pichhle caption dekhe. Zyadatar ek hi line: *"Visit our shop today! Best tea in town."*

Imran bhai ne kaha: "Tu khud aisa caption padhega? Pehli line mein kuch hai jo tujhe roke?"

Rahul ne sar hilaya — nahi.

Unhone ek baar mein ek post par kaam kiya. Naya caption:

"Baarish mein kulhad wali chai ka mazaa alag kyun lagta hai? ☕"

Mitti ka kulhad chai ko garam rakhta hai, aur uski saundhi khushboo baarish ke mausam se mil jaati hai.

Aaj shaam 4 se 7 — 2 chai par 1 samosa free.

College gate ke saamne, Kulhad Corner. Dost ko tag karo jiske saath jaana hai! 📌"

Pehli line ek sawal thi (hook). Beech mein ek chhoti si jaankari (value). Aakhir mein saaf offer, jagah aur ek kaam — "dost ko tag karo" (CTA).

Us post par pehli baar comments aaye — log doston ko tag kar rahe the. Sameer ne kaha, "Yaar, ab lagta hai log padh rahe hain."

4

Important Concepts

1. 5 tarah ke Hooks

HOOK TYPE	KAISE KAAM KARTA HAI	EXAMPLE
Sawal	Dimaag jawab dhoondhne lagta hai	"Salon se aakar baal 2 din mein kyun bigad jaate hain?"
Number	Saaf, chhoti, पूरी होने वाली बात	"Gym के पहले दिन की 3 गलतियाँ"
Problem	Padhne wala khud ko pehchaanta hai	"Roz lunch mein kya banayein, soch-soch kar thak gaye?"
Kahani	Insaan kahani sunna pasand karta hai	"12 saal pehle maine pehli baar rajma banaya tha..."
Ulti baat / Myth	Jo log maante hain, uske ulta	"Zyada shampoo = zyada saaf baal? Aisa zaroori nahi."

2. Achhe hook ke 3 test

☐ **Chhota:** max 10-12 shabd — phone par ek nazar mein

☐ **Customer ke baare mein:** "hum" nahi, "aap" ki mushkil ya fayda

☐ **Sach:** post wahi deta hai jo hook ने कहा

3. Value — beech ka hissa

Value woh chhoti si cheez hai jo padhne wale ko kuch deti hai — ek tip, ek jaankari, ek kahani ka hissa, ya offer ki saaf detail. 2-4 chhoti lines kaafi hain. Lambi baat ho to carousel ya Reel (Chapter 21) behtar hai.

4. CTA — ek hi, saaf

CTA	KAB
"DM karein" / "WhatsApp karein"	Booking, order, sawal
"Save kar lijiye"	Tips, list, recipe — baad mein kaam aane wali
"Dost ko tag/share karein"	Mazedaar ya kaam ki baat jo doosron ke liye bhi ho
"Aaj shaam aaiye"	Local dukaan, time-bound offer (asli time ke saath)
"Comment mein batayein"	Sawal-jawab, raay

EK POST, EK CTA

"DM karo, call karo, save karo, share karo, visit karo" — itne raaste diye to log koi nahi chunenge. Ek post ka ek hi kaam.

5. AI caption ko insaani banana

AI ke captions aksar pehchaan mein aa jaate hain — bhaari shabd, bahut saare emoji, "Elevate your experience!" jaisi lines. Isliye har AI caption par ye test:

"KYA MAIN AISA BOLTA/BOLTI?" TEST

Caption ko zor se padhiye. Jo shabd aap asli zindagi mein kabhi nahi bolte, use badliye. Jahan ho sake, apni asli jaankari jodiye — mahina, jagah, aapka anubhav. Yahi caption ko **aapka** banata hai.

5 Step-by-Step Mobile Process: Ek Post Ka Caption

1 Chapter 19 ki Sheet se ek idea chuniye

Aur ek line mein likhiye: is post ka goal kya hai — jaankari dena, booking, ya bharosa?

2 10 hooks banwaiye

Prompt 1 — 5 types mein, har type ke 2.

3 3 test se best 3 chuniye

Chhota, customer ke baare mein, sach.

4 Poora caption banwaiye

Prompt 2 — Hook → Value → CTA, ek hi CTA ke saath.

5 "Kya main aisa bolta?" test

Zor se padhiye, bhaari shabd badaliye, asli detail jodiye. Emoji 1-2.

6 Final check

Offer/time/number sahi? Koi guarantee ya jhootha dawa nahi? (Chapter 5, 19)

7 Save kijiye

Content Sheet mein idea ke saamne "Hook" aur "Caption" column mein paste. Best hooks Prompt Library mein bhi.

6 AI Tool Recommendation

Aapka Chat AI (hooks aur captions) + **Google Sheets** (Content Sheet). Instagram ya Edits ke andar bhi AI caption suggestions aa sakte hain — unpar bhi yahi "Kya main aisa bolta?" test lagaiye.

7 Copy-Paste Prompts

PROMPT 1 — 10 HOOKS

Post ka topic: [idea]. Business: [business]. Audience: [kaun].

Is post ke liye 10 hooks do — 5 types mein, har type ke 2: Sawal, Number, Problem, Kahani, Myth. Har hook max 12 words. Koi jhootha wada ya clickbait nahi. Table: Type | Hook. Roman Hindi.

PROMPT 2 — POORA CAPTION

Hook: "[chuna hua hook]"

Is hook se ek Instagram caption likho — structure: Hook → Value (2-4 short lines, [jo sach jaankari/offer hai]) → ek CTA: [DM / save / tag / visit].

Tone: [tone]. Max 60 words. 1-2 emoji. Roman Hindi. Price/time sirf wahi jo maine diya.

PROMPT 3 — INSAANI BANA O

Is caption ko aisa banao jaise [dukaan wala / Priya / trainer] khud WhatsApp par bol raha ho — simple shabd, koi "elevate/experience/premium" jaise bhaari shabd nahi, max 2 emoji. Meaning same rakho.

Caption: [paste]

PROMPT 4 — CTA OPTIONS

Is caption ke liye 5 alag CTA options do, har ek max 6 words, aur batao har CTA kis goal ke liye best hai (booking / save / share / visit).

8 Prompt Ka Explanation

PROMPT KA HISSA	YE KYUN KAAM KARTA HAI
5 types × 2 hooks	Ek hi tarah ke 10 hook nahi — asli choice milti hai.
"Koi clickbait nahi"	Hook sach rahe — bharosa bache.
"Price/time sirf wahi jo maine diya"	AI apni taraf se offer nahi banayega (Chapter 7, 10).
Prompt 3 ka "jaise ____ khud bol raha ho"	AI ki "brochure" wali bhasha, baat-cheet ki bhasha ban jaati hai.

9 Practical Example: Priya Ka Before-After Caption

BEFORE

"Delicious homemade food available. Order now.
#food #tiffin #homemade #delicious #yummy
#foodie #lunch #healthy"

Koi hook nahi • koi value nahi • CTA adhoora • bahut
hashtags

AFTER

"Office mein roz bahar ka khaana kha kar pet thak
gaya? 🍲
Aaj Priya Ki Rasoi mein: rajma-chawal, aloo-methi,
2 roti, salad — sab subah ki taazi sabzi se.
Kal ka lunch book karne ke liye bas 'HAAN'
WhatsApp karein."

Problem hook • asli menu (value) • ek saaf CTA

Fictional example.

Hashtags ka kya? Kuch relevant hashtags (jaise area ka naam aur business type) theek hain, lekin hashtags caption ki jagah nahi le sakte. **Log caption padhte hain, hashtags nahi.**

10 Practice Task

Task 1: Chapter 19 ki Sheet se 3 ideas chuniye aur har ek ke liye Prompt 1 se 10 hooks banwaiye.

Task 2: Har idea ka best hook chun kar Prompt 2 se poora caption banaiye.

Task 3: Teeno par "Kya main aisa bolta?" test lagaiye aur Prompt 3 ya khud edit kijiye.

Task 4: Apne best 5 hooks Prompt Library ke CONTENT section mein save kijiye.

11 Common Mistakes

GALTI	SAHI TAREEKA
Pehli line mein business ka naam ya "Hello everyone"	Pehli line = hook: sawal, number, problem, kahani ya myth.
Clickbait hook	Jo wada, wahi post mein.
Paanch CTA ek saath	Ek post, ek CTA.
AI caption seedha copy-paste	"Kya main aisa bolta?" test + asli detail.
Caption ki jagah 20 hashtags	Achha caption + kuch relevant hashtags.

12 Quick Checklist

- ☐ Mujhe 5 hook types yaad hain
- ☐ Mere captions Hook → Value → CTA structure mein hain
- ☐ Har caption mein sirf ek CTA hai
- ☐ Maine AI captions par "Kya main aisa bolta?" test lagaya
- ☐ Best hooks Prompt Library mein save hain

13 Chapter Summary

KEY TAKEAWAYS

- Pehli line (Hook) scroll rokhti hai — sawal, number, problem, kahani, myth.
- Caption = Hook → Value → CTA.
- Ek post, ek saaf CTA.
- Hook sach ho; offer/time sirf asli.
- AI caption ko "Kya main aisa bolta?" test se insaani banaiye.

Next Step — Chapter 21: Reels aur YouTube Scripts

Caption likhna aa gaya. Ab camera ki baari. Priya ko video banane se dar lagta hai — "main kya bolungi?" Agle chapter mein wo sirf phone se ek 30-second "Aaj ka lunch" Reel banati hai: script AI se, shoot khud, captions Edits app mein.

21

Reels aur YouTube Scripts

Sirf phone, thodi roshni, aur ek achhi script.

Chapter 20 mein aapne likha hua content pakda — hook, value, CTA. Short video mein bhi yahi teen hisse hote hain, bas ab wo **dikhte aur sunaai** dete hain. Is chapter mein aap sirf phone se ek chhoti Reel banayenge — script se lekar post tak. Na studio, na mehenga camera.

1 Is Chapter Mein Kya Seekhenge

- 1 Short video ka structure: pehle 3 second ka hook
- 2 AI se script aur shot list banana
- 3 Phone se achha shoot: roshni, awaaz, haath sthir
- 4 Edits app mein cut, captions aur music

2 Simple Explanation

Reel (Instagram) aur Shorts (YouTube) chhote, khade (vertical) videos hain — aksar 15 se 60 second. Inka structure caption jaisa hi hai:

Script woh kaagaz hai jisme likha ho ki har second kya dikhega aur kya bolna hai. Script pehle likhi ho to shoot 10 minute ka kaam hai; bina script ke ek ghanta bhi kam padta hai.

CHEHRA DIKHANA ZAROORI NAHI

Kai achhi business Reels mein koi chehra nahi hota — sirf haath, khaana, kaam, aur awaaz ya text. Camera ke saamne sharm aati hai to yahin se shuru kijiye.

3 Kahani: Priya Ki Pehli Reel

Fictional kahani — Priya, Rahul aur "Priya Ki Rasoi" is book ke fictional examples hain.

PRIYA

Rahul ne kaha, "Didi, ek Reel banao." Priya ghabra gayi. "Main camera ke saamne kya bolungi? Meri awaaz, mera chehra... nahi baba."

Rahul ne kaha: "Chehra zaroori nahi. Sirf haath aur khaana. Bolna bhi nahi — text screen par aayega." Chapter 8 mein bani ek Reel script unke note mein pehle se thi.

Agli subah, khidki ki roshni mein, Priya ne 5 chhote clips liye — dal mein tadka, garam roti phoolti hui, dabbe mein khaana bharna, dabba band, aur dabba ek customer ko dete hue (sirf haath). Har clip 3-5 second.

Edits app mein clips jode, har clip par ek chhoti line: "Subah 9 baje...", "Ghar ka tadka...", "Garam roti...", "Aapka lunch ready!" Aakhir mein: "Kal ke liye WhatsApp: HAAN." App ke andar ka ek halka sa music. Kul 22 second.

Poora kaam 40 minute mein hua. Reel par kuch purane customers ke comment aaye — ek ne likha, "Roti phoolti dekh kar bhookh lag gayi 😊". Priya hansi. "Ab lagta hai video itna mushkil nahi."

1. Script ka format — 3 column

TIME	SCREEN PAR KYA DIKHE	KYA BOLNA / LIKHNA HAI
0-3 s	Dal mein tadka (close-up)	Text: "Subah 9 baje, Priya Ki Rasoi mein..."
3-8 s	Roti phoolti hui	Text: "Garam roti, ghar ka ghee"
8-14 s	Dabbe mein khaana bharna	Text: "Aaj: rajma, chawal, sabzi, salad"
14-19 s	Dabba band, customer ko dete haath	Text: "Aapka lunch, time par"
19-22 s	Logo / business naam	Text: "Kal ke liye WhatsApp: HAAN"

2. Shot list

Shot list script ka hi chhota roop hai — sirf "kya record karna hai", taaki shoot ke time kuch chhoote nahi. Har shot 3-5 second; zaroorat se 1-2 shot zyada le lijiye.

3. Phone se achha shoot — 5 rules

Roshni

Din ki roshni, khidki ke paas. Roshni saamne se aaye, peeche se nahi.

Khada video

Phone seedha pakdiye (vertical) — Reels/Shorts khade hote hain.

Haath sthir

Kohani body se lagaiye ya phone kisi cheez par tikaiye.

Lens saaf

Shoot se pehle kapde se lens ponchiye — dhundhla video isi se aata hai.

Awaaz

Bolna hai to shaant jagah, phone mooh ke paas. Nahi to text + music.

4. Edit — 4 kaam

KAAM	KYA KARNA HAI
Cut	Har clip ka shuru aur aakhir ka faltu hissa kaatiye. Chhota = behtar.
Text / Captions	Bahut log bina awaaz ke dekhte hain — screen par text zaroor. Bola hai to auto-captions use karke spelling check kijiye.
Music	Sirf app ke andar ka music ya royalty-free audio. Business account par music library chhoti ho sakti hai.
Cover	Ek saaf frame chuniye ya Canva mein cover banaiye (Chapter 18 ke brand rangon mein).

MUSIC AUR COPYRIGHT

Bahar se download kiya film ka gaana video mein daalna copyright ke khilaf hai — video mute ho sakta hai ya hat sakta hai. Hamesha app ke andar diya gaya audio, ya aisa audio jiska use karne ki ijazat saaf likhi ho.

5. Edits app ke baare mein

Edits Meta (Instagram) ka free video editing app hai. Isme clips jodna, kaatna, text, auto-captions aur audio jaise tools hain, aur June 2026 mein Meta ne isme ek AI assistant bhi announce kiya jo content ideas aur insights mein madad karta hai. Meta ek paid "Edits Plus" tier par bhi kaam kar raha hai. Features device aur region ke hisaab se alag dikh sakte hain. (Last checked: 21 September 2026.)

Edits nahi chahiye? Instagram ke andar ka editor ya YouTube ka Shorts editor bhi basic kaam kar deta hai. Is chapter ke steps kisi bhi editor mein challenge.

6. YouTube ke liye

Wahi khada video YouTube **Shorts** par bhi daal sakte hain. Lambe (horizontal) YouTube videos ka script bhi isi tarah banta hai — bas hook ke baad value zyada lambi aur kai hisson mein hoti hai. Thumbnail ke liye Chapter 18 ka size (1280 × 720) aur brand kit.

5

Step-by-Step Mobile Process: Pehli Reel

1

Content Sheet se ek idea chuniye

Chapter 19 ki Sheet mein "Reel" format wala idea — ya "aaj ka kaam/khaana" jaisa simple topic.

2 Script + shot list banwaiye

Prompt 1. 20-30 second, 4-6 shots.

3 Shoot ki taiyaari

Jagah saaf, roshni wali. Lens saaf. Phone ka storage check.

4 Shots lijiye

Har shot 5-6 second, khada video. Har shot 2 baar.

5 Edits (ya koi editor) mein jodiye

Naya project → clips order mein → har clip kaatiye.

6 Text aur captions

Script ki lines screen par. Pehle 3 second mein hook text bada.

7 Music aur cover

App ka audio, halki volume. Cover frame chuniye.

8 Export, caption, post

Video save kijiye (Drive → 02 Content). Chapter 20 wala caption. Post ke baad 1 ghante comments ka jawab.

MOBILE SE KYA POSSIBLE HAI, COMPUTER KAB USEFUL HAI

Mobile: short videos ka poora kaam — shoot, edit, post. **Computer:** lambe YouTube videos, kai camera angles, bhaari editing. **Beginner kya kare:** 15-30 second ki Reels phone se hi; lambe video baad mein.

6 AI Tool Recommendation

TOOL	KAAM	PLAN (21 SEP 2026)
Aapka Chat AI	Script, shot list, hooks, caption	Free
Edits (Meta)	Cut, text, captions, audio	Free (paid tier development mein)
Phone camera	Shoot	—
Canva	Cover / thumbnail	Free

7 Copy-Paste Prompts

PROMPT 1 — REEL SCRIPT + SHOT LIST

[Business] ke liye 25 second ki Instagram Reel script likho. Topic: [topic]. Mera chehra nahi dikhega – sirf haath, product, kaam. Bolna nahi, sirf screen text. Format: Table – Time | Screen par kya dikhe | Screen text (max 6 words). Pehle 3 second mein strong hook. Aakhir mein CTA: [CTA]. Phir alag se ek shot list do (sirf kya record karna hai). Roman Hindi.

PROMPT 2 — BOLNE WALI SCRIPT

Isi topic par 30 second ki script do jo main camera ke saamne ya voiceover mein bolunga. Simple, baat-cheet wali Roman Hindi, chhote sentences. Pehli line hook. Max 70 words. Aakhir mein CTA.

PROMPT 3 — 10 REEL IDEAS BINA CHEHRE KE

[Business] ke liye 10 Reel ideas do jisme chehra dikhane ki zaroorat na ho. Har idea: 1 line + kaunse 3-4 shots chahiye. Koi guarantee ya jhootha dawa nahi.

PROMPT 4 — YOUTUBE VIDEO OUTLINE

[Topic] par 4-5 minute ke YouTube video ka outline do: Hook (15 sec), 3 main points (har ek mein kya dikhana hai), CTA. Aur 3 thumbnail text options (max 4 words).

8 Prompt Ka Explanation

PROMPT KA HISSA	YE KYUN KAAM KARTA HAI
"Chehra nahi, bolna nahi"	AI aisi script deta hai jo aap sach mein shoot kar sako — koi "camera mein dekh kar muskurao" nahi.
Screen text max 6 words	Chhoti screen par jaldi padha jaaye.
Alag shot list	Shoot ke time sirf list dekhiye — kuch chhoota nahi.
Prompt 2 — max 70 words	30 second mein aaraam se bolne layak.

9 Practical Example: FitZone Ki Reel

Rahul ne Vikram ke gym ke liye "Pehle din ka dar" Reel banayi (fictional example):

TIME	SHOT	SCREEN TEXT
0–3 s	Gym ka darwaaza khulta hua	"Pehli baar gym? Dar lag raha hai?"
3–9 s	Trainer ek beginner ko machine samjhata (permission ke saath, peeche se)	"Trainer har step samjhata hai"
9–15 s	Halke weights, dheere exercise	"Pehle din sirf basics"
15–20 s	Paani ki bottle, muskurata trainer	"Koi judge nahi karta"
20–24 s	FitZone logo	"Free trial ke liye DM karein"

"Free trial" Vikram ne khud confirm kiya tha. Jis member ki jhalak thi, usse pehle poochha gaya. Reel mein koi "30 din mein body" jaisa dawa nahi.

10 Practice Task

Task 1: Prompt 3 se 10 ideas banwaiye aur ek chuniye.

Task 2: Prompt 1 se script aur shot list banaiye.

Task 3: 5 rules ke saath shoot kijiye aur Edits (ya koi editor) mein 20-30 second ki Reel banaiye.

Task 4: Reel Drive ke "02 Content" mein save kijiye; post karein to Chapter 20 wala caption use kijiye.

11 Common Mistakes

GALTI	SAHI TAREEKA
Bina script shoot	Pehle script + shot list.
Pehle 3 second mein logo ya "Hello friends"	Pehle 3 second = hook.
Andhera, dhundhla, hilti video	Khidki ki roshni, lens saaf, haath sthir.
Bina text ka video	Screen text / captions zaroor.
Film ka gaana download karke daalna	Sirf app ka ya royalty-free audio.

12 Quick Checklist

- ☐ Mujhe short video ka structure yaad hai: Hook → Value → CTA
- ☐ Maine AI se script aur shot list banayi
- ☐ Maine 5 shooting rules ke saath shoot kiya
- ☐ Meri Reel mein screen text aur sahi audio hai
- ☐ Reel Drive mein save hai

13 Chapter Summary

KEY TAKEAWAYS

- Short video: pehle 3 second hook, beech mein value, aakhir mein CTA.
- Script (Time | Dikhe | Bolna) aur shot list pehle — shoot aasaan.
- Chehra zaroori nahi: haath, kaam, product + screen text.
- Roshni, khada video, haath sthir, lens saaf, shaant awaaz.
- Music sirf app ka ya royalty-free; permission ke bina kisi ki jhalak nahi.

Next Step — Chapter 22: Project 2 — 30-Day Instagram Content Plan

Pillars, ideas, hooks, captions, Reels — sab alag-alag seekh liye. Agle chapter mein Rahul ek baar baith kar Glow Salon ke poore mahine ka content ek Google Sheet mein plan karta hai — taaki roz sochna nahi, sirf karna pade.

IS CHAPTER KE SOURCES (LAST CHECKED: 21 SEPTEMBER 2026)

22

Project 2: 30-Day Instagram Content Plan

Sochna ek din, karna poora mahina.

PROJECT 2 Is chapter mein aap ek business ka poore mahine ka content plan banayenge — ek Google Sheet mein, portfolio mein rakhne layak.

Part V mein ab tak aapne alag-alag hisse seekhe: pillars aur ideas (Chapter 19), hooks aur captions (Chapter 20), Reel scripts (Chapter 21). Lekin roz subah uth kar "aaj kya post karun?" sochna thaka deta hai — aur 2 hafte mein posting band ho jaati hai. Iska ilaaj hai ek **Content Calendar**.

1 Is Chapter Mein Kya Seekhenge

- 1 Content Calendar kya hai aur kyun kaam karta hai
- 2 Google Sheet mein 30-day plan ka structure
- 3 Realistic posting aur "batching" ka tareeka
- 4 Har hafte simple review — kya chala, kya nahi

2 Simple Explanation

Content Calendar ek table hai jisme likha hota hai ki kis din, kya, kis format mein post hoga — pehle se. Isse sochne ka kaam ek din mein ho jaata hai, aur baaki mahine sirf karna padta hai.

Calendar ki do sabse badi taakat hain: **consistency** (roz sochna nahi, isliye posting rukti nahi) aur **balance** (ek nazar mein dikhta hai ki kahin sirf offers to nahi ho gaye — Chapter 19 ka 80/20).

BATCHING

Batching ka matlab hai ek jaise kaam ek saath karna. Hafte mein ek din baith kar 4-5 posts ke design aur captions ek saath bana lo. Roz 30 minute se, hafte mein ek baar 2 ghante — zyada aasaan aur tez.

3 Kahani: Glow Salon Ka Mahina

Fictional kahani — Rahul, Neha ji aur "Glow Salon" is book ke fictional examples hain.

RAHUL

Wedding Package campaign ke baad Neha ji ne Rahul se kaha: "Roz kuch na kuch daalna hai Instagram par. Par roz tumhe phone karke poochna — kya daalein — ye mujhse nahi hoga."

Rahul ne ek Sunday ko 2 ghante nikaale. Pehle Neha ji se 15 minute baat ki: agle mahine kaunse festival hain, kaunsi nayi service aa rahi hai, kaunse din salon mein bheed kam hoti hai. Phir Google Sheet kholi.

Chapter 19 wale pillars liye — Hair & Skin Tips, Salon Ke Andar, Before-After (permission ke saath), aur Offers. AI se 30 din ka draft banwaya. Phir draft ko sach ke hisaab se theek kiya: hafte mein 4 post aur 2 Reel — kyunki Neha ji ke paas shoot ke liye itna hi time tha. Festivals ki dates official calendar se check ki.

Sheet mein har row ke aage ek "Status" column: Idea → Design ready → Posted. Rahul ne pehle hafte ke 4 designs usi din bana diye.

Mahine ke end mein Neha ji ne kaha: "Is mahine ek din bhi nahi chhoota. Aur pehli baar lag raha hai ki humara Instagram kuch *kehta* hai."

4 Important Concepts

1. Sheet ka structure — 8 columns

COLUMN	KYA LIKHNA HAI	EXAMPLE
Date	Posting ka din	Mon, Week 1
Pillar	Chapter 19 ka pillar	Hair & Skin Tips
Format	Post / Reel / Story / Carousel	Carousel
Topic	1 line idea	Monsoon mein frizzy baal ke 3 tips
Hook	Chapter 20	"Baarish aate hi baal jhaadu jaise?"
Caption	Poora caption (baad mein bhi bhar sakte hain)	—
CTA	Ek hi	Save kar lijiye
Status	Idea → Design ready → Posted	Design ready

2. Realistic frequency

Kitna post karein? Iska koi ek jawab nahi. Rule simple hai: **utna hi plan kijiye jitna aap sach mein har hafte kar sakte ho**. Roz post ka plan banakar 10 din mein thak jaane se behtar hai hafte mein 3-4 post aur 1-2 Reel — lagataar.

DHYAN DEIN

Internet par "roz 3 post karo tabhi grow hoga" jaise dawe milte hain. Aisi koi pakki guarantee nahi hai — reach kai cheezon par depend karti hai. Lagataar, achha aur imaandaar content hi aapke haath mein hai.

3. Mahine ka mix

Tips / Sikhana	Andar ki jhalak	Kahani / Saboot	Festival	Offer
----------------	-----------------	-----------------	----------	-------

Example mix — har business ka alag hoga. Offer lagbhag 20%.

4. Festivals aur local events

Mahine ke festivals, local mele, school/college ki chhuttiyaan, shaadi ka season — ye content ke achhe mauke hain. Lekin **dates hamesha official calendar se check kijiye**, AI se nahi (Chapter 3) — kai

festivals ki tarikh har saal badalti hai.

5. Weekly review — 10 minute

Har Sunday 10 minute: pichhle hafte kaunsi post par sabse zyada **saves, shares, DMs** aaye? Instagram ke professional (creator/business) account mein har post ke "Insights" dikhte hain. Jo chala, uske jaisa agle hafte ek aur. Jo nahi chala, use chhota karke ya naye hook se dobara try.

LIKES SE ZYADA

Likes achhe lagte hain, lekin business ke liye **DM, WhatsApp message aur save** zyada maayne rakhte hain — ye dikhte hain ki kisi ko sach mein zaroorat hai.

5 Step-by-Step Mobile Process: 30-Day Calendar

1 Owner se 15 minute

Agle mahine: festivals/events, nayi service ya offer, shoot ke liye kitna time, kaunse din khaas. Note mein likhiye.

2 Frequency tay kijiye

Hafte mein kitne post, kitni Reel — jo sach mein ho sake.

3 Google Sheet banaiye

Drive → 02 Content → nayi Sheet "[Business]_Content_[Mahina]". 8 column headings.

4 AI se 30-day draft

Prompt 1 — Chapter 19 ke pillars aur Step 1-2 ki jaankari ke saath. Table copy karke Sheet mein paste.

5 Draft ko sach ke hisaab se theek kijiye

Festival dates official calendar se. Offers owner ke confirm kiye hue. Permission wale posts marked. Mix check (80/20).

6 Hooks bhariye

Prompt 2 se har topic ka hook. Captions pehle hafte ke abhi, baaki har hafte ke batching din.

7 Pehle hafte ka batching

Pehle hafte ke saare designs (Canva) aur 1 Reel ek hi din banaiye. Status: "Design ready".

8 Owner ke saath share

Sheet ka link "view" ya "comment" access ke saath bhejiye. Approval ke baad posting shuru.

MOBILE SE KYA POSSIBLE HAI, COMPUTER KAB USEFUL HAI

Mobile: Google Sheets app mein banana, bharna, share karna — sab. **Computer:** jab 30 rows ek saath dekhni aur rearrange karni hon, badi screen aaraam deti hai. **Beginner kya kare:** phone par banaiye; Sheet ko landscape (phone tircha) karke dekhne se zyada columns dikhte hain.

6 AI Tool Recommendation

Aapka Chat AI (draft, hooks, captions) + **Google Sheets** (calendar) + **Canva** aur **Edits** (batching) + **Instagram Insights** (weekly review). Sab pehle se aapke Core Mobile Stack mein.

7 Copy-Paste Prompts

PROMPT 1 — 30-DAY DRAFT

Role: Tum ek social media planner ho.

Context: "[Business]" — [business type], [area]. Content Pillars: [pillar 1, 2, 3, 4]. Is mahine: [festivals/events — dates main khud check karunga], [nayi service/offer].

Task: 30-day Instagram content calendar banao.

Constraints: Hafte mein [X] posts aur [Y] Reels. Offer posts max 20%. Customer ki kahani/photo wale posts ke aage "(permission)" likho. Koi guarantee ya jhootha dawa nahi.

Format: Table — Day | Pillar | Format | Topic (1 line) | CTA.

PROMPT 2 — HOOKS EK SAATH

Neeche calendar ke topics hain. Har topic ke liye ek hook do (max 12 words, 5 types mein mix: sawal, number, problem, kahani, myth). Table: Topic | Hook. Roman Hindi.

[Topics paste karo]

PROMPT 3 — HAFTE KA BATCH

Ye is hafte ke 4 posts hain: [Topic + Hook list]. Har ek ka caption likho (Hook → Value → CTA, max 60 words) aur Canva design ke liye 1 line visual idea. Tone: [tone].

PROMPT 4 — WEEKLY REVIEW

Pichhle hafte ke posts aur unke numbers: [Post | Saves | Shares | DMs]. Kaunse type ke post ne sabse achha kaam kiya, aur agle hafte ke liye 3 suggestions do. Numbers ke bahar kuch assume mat karna.

8 Prompt Ka Explanation

PROMPT KA HISSA	YE KYUN KAAM KARTA HAI
"Dates main khud check karunga"	AI ko festival dates par bharosa nahi karna — aap official calendar se bharenge.
"Offer posts max 20%"	80/20 balance Prompt mein hi.
Hafte ka X aur Y	Calendar aapki asli capacity ke hisaab se banta hai.
Prompt 4 — "assume mat karna"	AI sirf aapke diye numbers par baat kare, apni kahani na banaye.

9 Practical Example: Glow Salon — Mahine Ka Naksha

Mon	Tue	Wed	Thu	Fri	Sat	Sun
Tip Carousel	Andar Story	Before-After* Reel		Tip Post	Offer Post	Review
Tip Reel	Andar Post		Kahani* Post	Festival Post	Tip Story	Review
Tip Carousel		Andar Reel	Tip Post	Offer Post	Before-After* Post	Review
Tip Reel	Andar Story	Tip Post		Kahani* Reel	Offer Post	Review
Tips	Salon ke andar	Kahani / Before-After (*permission)		Festival	Offer	

Fictional example — 4 hafte ka naksha. Asli dates aur festival owner aur official calendar se.

10 Practice Task — Project 2

Task 1: Chapter 19 wala business lijiye (permission ke saath asli, ya fictional).

Task 2: 8 steps se 30-day Content Calendar Google Sheet mein banaiye.

Task 3: Pehle hafte ke saare designs aur captions batching se ek din mein banaiye.

Task 4: Sheet aur pehle hafte ke designs ki ek copy Drive ke "04 Portfolio" mein "Project2" naam se rakhiye.

Task 5 (bonus): Agar posting kar rahe hain, to pehle Sunday Prompt 4 se review kijiye.

11 Common Mistakes

GALTI	SAHI TAREEKA
Roz 3 post ka plan, 10 din mein band	Utna plan jitna har hafte ho sake.
AI ki festival dates par bharosa	Official calendar se check.
Aadha calendar offers se bhara	Mix dekhiye — offer lagbhag 20%.
Roz subah design banana	Hafte mein ek din batching.
Sirf likes dekhna	Saves, shares, DMs dekhiye; har Sunday review.

12 Quick Checklist

- ☐ Maine owner se agle mahine ki jaankari li
- ☐ Meri 30-day Sheet mein 8 columns hain
- ☐ Festival dates official calendar se check ki hain
- ☐ Mix balanced hai — offer lagbhag 20%
- ☐ Pehle hafte ka batching ho gaya; Project 2 portfolio mein hai

13 Chapter Summary

KEY TAKEAWAYS

- Content Calendar = sochna ek din, karna poora mahina.
- 8 columns: Date, Pillar, Format, Topic, Hook, Caption, CTA, Status.
- Frequency utni jitni sach mein ho sake; lagataar hona zaroori.
- Hafte mein ek din batching; har Sunday 10 minute review.
- Dates official calendar se, offers owner se, kahaniyan permission se.

Next Step — Chapter 23: WhatsApp, Email, Blog aur Product Descriptions

Instagram ka plan ready hai. Lekin customer sirf Instagram par nahi — WhatsApp par hai, email par hai, website par hai. Agle chapter mein ek hi Diwali offer 4 alag jagahon ke liye 4 alag andaaz mein likhna seekhenge.

23

WhatsApp, Email, Blog aur Product Descriptions

Ek baat, alag jagah, alag andaaz.

Chapter 22 mein Instagram ka poora mahina plan ho gaya. Lekin aapke customer sirf Instagram par nahi rehte. Bahut se log WhatsApp par hain, kuch email padhte hain, kuch Google par search karke website ya blog tak aate hain, kuch online product dekh kar kharidte hain. Part V ka ye aakhri chapter sikhata hai: **ek hi baat, alag jagah, alag andaaz**.

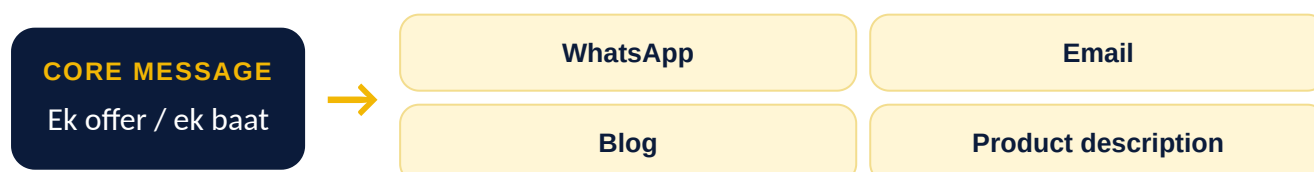

1 Is Chapter Mein Kya Seekhenge

- 1 Har platform ki apni bhasha aur lambai
- 2 WhatsApp: status, broadcast aur 1-to-1 — aur spam se bachna
- 3 Simple email aur chhota blog kaise likhein
- 4 Product description: feature se benefit tak

2 Simple Explanation

Aap dost se WhatsApp par jaise baat karte ho, waise bank manager ko email nahi likhte. Waise hi har platform ki apni **bhasha, lambai aur tareeka** hota hai. Ek hi text har jagah chipka dena aasaan lagta hai, lekin kahin wo bahut lamba lagta hai, kahin bahut chhota, kahin bahut casual.

Achhi baat ye hai ki AI yahan bahut kaam ka hai. Aap ek baar **core message** (asli baat) likhiye, aur AI se use 4 alag roop mein badalwaiye — phir har ek ko thoda apna banaiye.

3 Kahani: Sharma Ji Ka Diwali Offer

Fictional kahani — Rahul aur "Sharma General Store" is book ke fictional examples hain; ye real dukaan nahi hai.

RAHUL

Mohalle ki purani dukaan **Sharma General Store** ke Sharma ji ne Rahul ko bulaya. "Diwali par dry fruit gift box la rahe hain. Sab jagah batana hai — WhatsApp par, mere bete ke email wale office customers ko, aur beta kehta hai website par bhi likho."

Rahul ne pehle Sharma ji se sab asli baatein likh li: gift box mein kya hai, kitne size mein, kab tak milega, home delivery hai ya nahi, price kya hai. Yahi uska **core message** tha.

Phir AI se ek hi baar mein 4 versions banwaye:

WhatsApp: chhota, 3-4 line, ek emoji, "reply karein".

Email: subject line ke saath, thoda formal, office gifting ke liye.

Blog: "Diwali par gift chunne ke 5 tips" — aakhir mein gift box ka zikr.

Product description: box mein kya hai, size, kaise pack hota hai.

Sharma ji ne WhatsApp wala version padha aur bole, "Ye to bilkul meri tarah bol raha hai." Email wala padh kar bete ne kaha, "Office wale isse samjhenge." Ek hi baat — 4 darwaze.

4 Important Concepts

1. Platform ke hisaab se andaaz

PLATFORM	LAMBAI	TONE	ZAROORI BAAT
WhatsApp	30-60 words	Apnapan, seedha	Ek CTA — "reply karein", "HAAN likhein"
Email	80-150 words	Thoda formal, saaf	Subject line sabse zaroori
Blog	300-600 words	Sikhane wala, madadgaar	Pehle value, business baad mein
Product description	50-120 words	Saaf, sach	Kya hai, kiske liye, kya fayda, detail

Ye lambai sirf shuruaati andaaza hai, koi rule nahi.

2. WhatsApp — 3 tareeke

Status

24 ghante dikhta hai; jin logon ke paas aapka number save hai unhe. Roz ke update, menu, offer.

Broadcast

Ek message kai logon ko, alag-alag chat mein. Sirf unhi tak pahunchta hai jinhone aapka number save kiya hai.

1-to-1

Seedhi baat — sawal, order, follow-up. Sabse zyada asar, sabse zyada izzat.

SPAM MAT KIJIYE

Sirf unhe message bhejiye jo aapke customer hain ya jinhone khud jaankari maangi hai. Roz-roz offers bhejna, anjaan logon ko message, ya bina poochhe groups mein jodna — log block karte hain, report karte hain, aur WhatsApp account par rok bhi lag sakti hai. Har broadcast mein ek line: *"Aise messages nahi chahiye to 'STOP' likh dijiye."* — aur jo STOP likhe, use list se hata dijiye. WhatsApp Business ke poore rules Chapter 37 mein.

3. Simple email ka structure

Subject	Chhota aur saaf: "Diwali gifting — dry fruit boxes, office delivery"
Greeting	"Namaste [Naam] ji,"
Pehli line	Kyun likh rahe ho — ek line mein
Detail	2-3 chhote paragraph ya bullets
CTA	Ek kaam: "Reply karein" / "Is number par call karein"
Sign-off	Naam, business, contact

4. Chhota blog — 5 hisse

HISSA	KYA
Title	Customer ka sawal ya fayda: "Diwali par gift chunne ke 5 aasaan tips"
Intro	2-3 line: problem ki baat
Main points	3-5 subheadings, har ek ke neeche 2-4 line
Business ka zikr	Aakhir mein, naturally — "hamare paas ye option hai"
CTA	WhatsApp / call / visit

Blog website par hota hai (Part VI mein website banayenge). Tab tak blog ka text Google Docs mein ready rakhiye — ise Instagram carousel ya WhatsApp message mein bhi tod kar use kar sakte hain.

5. Product description — feature se benefit

Feature matlab product mein kya hai. **Benefit** matlab customer ko usse kya milta hai. Achhi description dono batati hai:

FEATURE (KYA HAI)	BENEFIT (KYA MILEGA)
Airtight tin box	Dry fruits lambe samay taaza rehte hain
4 khaane wala box	Ek gift mein 4 alag cheezein — kaju, badaam, kishmish, akhrot
Box par naam likhne ki jagah	Gift personal lagta hai

PRODUCT DESCRIPTION MEIN IMAANDAARI

Weight, size, material, delivery time — sirf sach aur exact. "Best quality", "100% pure" jaisi baatein tabhi, jab aap saboot de sako. Galat description = return, shikayat aur bharosa khatam.

5 Step-by-Step Mobile Process: Ek Baat, 4 Roop

1 Core message likhiye

Owner se asli details: kya, kiske liye, kab tak, kaise milega, price (owner ka), contact. Note mein 5-6 line.

2 4 versions banwaiye

Prompt 1 — ek hi baar mein.

3 Har version check kijiye

Details core message se match karti hain? AI ne kuch naya to nahi jod diya (price, "sirf aaj", "100%")?

4 Apna banaiye

WhatsApp wala zor se padh kar "Kya main aisa bolta?" test (Chapter 20). Email ka subject 2-3 options se chuniye.

5 Sahi jagah save

Google Docs: "[Business]_[Offer]_4Versions" → Drive "02 Content". WhatsApp aur email wale templates Prompt Library ke CLIENT/BUSINESS section mein bhi.

6 Imaandaari se bhejiye

WhatsApp sirf customers/interested logon ko, STOP option ke saath. Email sirf unhe jinka email unhone khud diya ho.

6 AI Tool Recommendation

Aapka Chat AI (4 versions) + Google Docs (save, blog draft) + WhatsApp Business (bhejna) + Gmail (email). Koi naya tool nahi.

7 Copy-Paste Prompts

PROMPT 1 — EK BAAT, 4 ROOP

Core message: [5-6 line asli details – kya, kiske liye, kab tak, kaise milega, contact]. Price: [owner ka price ya "price mat likhna"].

Is ek baat ke 4 versions likho:

(1) WhatsApp broadcast – max 50 words, 1 emoji, end mein "reply karein" + "Aise messages nahi chahiye to STOP likhein"

(2) Email – 3 subject line options + 120 words body, thoda formal

(3) Blog – title + 350 words, pehle 4 kaam ki tips, aakhir mein offer ka zikr

(4) Product description – 80 words, feature + benefit, exact details

Roman Hindi. Jo detail maine nahi di, wo mat banana. Koi "sirf aaj", "100%", "No.1" nahi.

PROMPT 2 — FEATURE SE BENEFIT

Mere product ke features: [list]. Har feature ka customer ke liye benefit ek line mein likho. Table: Feature | Benefit. Koi naya feature mat jodna.

PROMPT 3 — BLOG KE TUKDE

Is blog ko 3 cheezon mein badlo: (1) 5 slides ka Instagram carousel text (har slide max 15 words), (2) ek WhatsApp message (max 50 words), (3) ek Reel ke liye 3 hooks.

Blog: [paste]

8 Prompt Ka Explanation

PROMPT KA HISSA	YE KYUN KAAM KARTA HAI
Core message pehle	Chaaron versions ek hi sach par bante hain — kahin alag details nahi.
WhatsApp mein "STOP" line	Spam se bachaav aur customer ki izzat — Prompt mein hi.
3 subject line options	Email ka sabse zaroori hissa — choice ho to behtar.
"Jo detail nahi di, mat banana"	AI naqli weight, delivery time ya offer nahi banayega.
Prompt 3 — blog todna	Ek baar ki mehnat se 3-4 posts. Content ka dobara use.

9 Practical Example: Sharma General Store — 2 Versions

WHATSAPP

"Namaste! 🍌 Is Diwali Sharma General Store mein dry fruit gift box aa gaye hain — kaju, badaam, kishmish, akhrot, airtight tin mein. Mohalle mein home delivery. Order ke liye bas reply karein. Aise messages nahi chahiye to STOP likh dijiye."

EMAIL

Subject: Diwali gifting — dry fruit boxes, office delivery
"Namaste [Naam] ji,
Is Diwali apni team ya clients ke liye gift chun rahe hain to hamare dry fruit gift boxes dekhiye — 4 cheezein, airtight tin, naam likhne ki jagah ke saath. [Kitne box se] zyada par office delivery. Details aur price ke liye is email ka reply karein ya [number] par call karein.
— [Naam], Sharma General Store"

Fictional example. [Brackets] wali jagah asli details owner se.

10 Practice Task

Task 1: Ek business ka ek offer ya khabar chuniye aur owner se core message ki asli details lijiye.

Task 2: Prompt 1 se 4 versions banwaiye aur har ek ko check karke apna banaiye.

Task 3: Prompt 2 se ek product ki feature-benefit table banaiye.

Task 4: Blog version ko Prompt 3 se carousel + WhatsApp + hooks mein todiye. Sab Google Docs mein "02 Content" mein save kijiye.

11 Common Mistakes

GALTI	SAHI TAREEKA
Ek hi text har jagah	Core message ek, roop 4.
Anjaan logon ko WhatsApp broadcast	Sirf customers/interested; STOP option.
Email bina subject ya "Hi" subject	Chhota, saaf subject jo kaam bataye.
Blog mein pehli line se hi bechna	Pehle value (tips), business aakhir mein.
Product mein galat weight/size/claim	Sirf exact aur sach details.

12 Quick Checklist

- ☐ Maine ek core message ke 4 versions banaye
- ☐ Har version ki details core message se match karti hain
- ☐ WhatsApp version mein STOP option hai
- ☐ Email ka subject saaf hai; blog mein pehle value hai
- ☐ Maine ek product ki feature-benefit table banayi

13 Chapter Summary

KEY TAKEAWAYS

- Ek core message, alag platform, alag andaaz.
- WhatsApp: status, broadcast, 1-to-1 — spam nahi, STOP option zaroor.
- Email: subject sabse zaroori; ek CTA.
- Blog: pehle kaam ki baat, business baad mein; ek blog se kai posts.
- Product description: feature + benefit, sirf sach details.

PART V COMPLETE

AI Se Content Creation — aapne kya haasil kiya

Ch 19

Pillars + 20 ideas,
80/20

Ch 20

Hook → Value →
CTA

Ch 21

Reel script, shoot,
edit

Ch 22

Project 2: 30-day
calendar

Ch 23

Ek baat, 4
platform

Aapke portfolio mein ab Project 1 (poster), Branding Kit aur Project 2 (content plan) hain. Note mein likhiye: *"Part V khatam — ab main business ke liye roz ka content plan aur bana sakta/sakti hoon."*

Next Step — Part VI, Chapter 24: Website Kya Hai — Domain, Hosting aur Landing Page

Sharma ji ke bete ne kaha tha, "website par bhi likho." Lekin Sharma General Store ki website hai hi nahi. Part VI mein aap website ki duniya mein aayenge — shuru mein bina kisi technical shabd ke, ek dukaan ki kahani se: dukaan ka pata, dukaan ki jagah, aur dukaan ka board.

PART VI

06

AI Se Website aur Local Online Presence

Website ki simple samajh se lekar publish tak — no-code aur AI-assisted raaste, aur Google Business Profile.

Chapter 24 – 30

24

Website Kya Hai: Domain, Hosting aur Landing Page

Dukaan ka pata, dukaan ki zameen, dukaan ka andar.

Part V ke end mein Sharma ji ke bete ne kaha tha — "website par bhi likho." Aur tab pata chala ki dukaan ki website hai hi nahi. Part VI mein hum website ki duniya mein challenge. Lekin pehle ek zaroori kaam: **website, domain aur hosting jaise shabdon ka darr khatam karna**. Iske liye ek dukaan ki kahani kaafi hai.

1 Is Chapter Mein Kya Seekhenge

- 1 Website, Domain, Hosting aur Landing Page — dukaan ki kahani se
- 2 Business ko website kyun chahiye (aur kab nahi)
- 3 Website ke types: business, portfolio, landing page
- 4 Kis business ko kya chahiye — ek simple decision tree

2 Simple Explanation

Website internet par aapke business ka apna ghar hai — jahan koi bhi, kabhi bhi, aa kar dekh sakta hai ki aap kya karte ho, kahan ho, aur aapse kaise judein. Instagram aur WhatsApp achhe hain, lekin wo kisi aur ki zameen par aapki dukaan hain. Website aapki apni zameen hai.

Website ke saath chaar shabd aate hain. Inhe ek dukaan se samjhiye:

Domain

= Dukaan ka pata

Jaise "sharmastore.in".
Log ye likh kar aap tak pahunchte hain.

Hosting

= Dukaan ki zameen

Internet par wo jagah jahan website ki files rakhi hoti hain. Iska kiraya lagta hai.

Website

= Dukaan ka andar

Pages — Home, Services, Contact. Customer andar aa kar jo dekhta hai.

Landing Page

= Offer ka stall

Ek hi page, ek hi kaam — jaise Diwali box ka order. Chhota, seedha.

EK AUR SIGNBOARD

Google Business Profile (Chapter 29) sadak par laga board aur Google Maps par pin hai. Kai chhote business ke liye pehla kadam wahi hai — website uske baad.

3

Kahani: Chamak Car Wash

Fictional kahani — Rahul, Imran bhai, Deepak aur "Chamak Car Wash" is book ke fictional examples hain; ye real business nahi hai.

RAHUL

Rahul ki gaadi ki service ke dauraan uski mulaqat **Deepak** se hui — highway ke paas uski chhoti si car wash dukaan thi, "**Chamak Car Wash**". Kaam achha tha, lekin Deepak pareshaan tha.

"Log Google par 'car wash near me' search karte hain aur doosri dukaan chale jaate hain. Kai log phone karke poochhte hain — kitne ka hai, kab khula hai. Din bhar phone uthata rehta hoon."

Rahul ne Imran bhai se poochha: "Kya Deepak ko website chahiye?" Imran bhai ne ulta sawal kiya:

"Pehle bata — Google Maps par uski dukaan dikhti hai? Uske paas services ki list hai? Log uska number kahan se dhoondhte hain? Website ek auzaar hai. Pehle samajh ki problem kya hai — phir tay kar ki auzaar kaunsa."

Rahul ne dekha: Google Maps par Chamak Car Wash tha hi nahi. Na services likhi thi, na timing. Pehla kadam saaf tha — Google par dikhna. Doosra — ek chhoti si website jahan services, rate aur WhatsApp button ho, taaki Deepak ko din bhar ek hi sawal ka jawab na dena pade.

Us din Rahul ko samajh aaya: **website "banana" kaam nahi hai. Customer ki problem hal karna kaam hai — website usme madad karti hai.**

4

Important Concepts

1. Business ko website kyun chahiye?

Bharosa
 Website wala business zyada "asli" aur professional lagta hai.

24 ghante jaankari
 Services, timing, rate, location — raat 11 baje bhi, bina phone uthaye.

Google par milna
 Log search karte hain; website aur Google profile dono milkar aapko dikhate hain.

Apni zameen
 Social media ke rules badal sakte hain; website par control aapka.

2. Website ke types

TYPE	KISKE LIYE	EXAMPLE
Business website	Dukaan/service ki पूरी जानकारी — 3 se 6 pages	Salon, car wash, restaurant, clinic
One-page website	Sab kuch ek hi लम्बे page पर — छोटे business के लिये अक्सर काफी	Tiffin service, local dukaan
Landing page	Ek offer/event के लिये एक page	Diwali gift box, wedding package
Portfolio website	आपका काम दिखाने के लिये	Rahul का अपना design काम (Chapter 39)
Online store	Website पर ही order aur payment	Bade product catalog — बाद की बात

3. Domain — थोड़ा और

- Naam:** छोटा, बोलने-लिखने में आसान, business से जुड़ा: "chamakcarwash.in" अच्छा; "best-car-wash-highway-no1-shop.com" नहीं.
- Ending:** ".in" India के लिये, ".com" सबसे common. Dono चलते हैं.
- Kharcha:** domain हर साल के हिसाब से खरीदा जाता है और हर साल **renew** करना होता है. Pehle साल का offer price aur renewal price अक्सर अलग होते हैं — खरीदने से पहले dono देखिये (Chapter 5 का rule).
- Kiske naam par:** client का domain client के नाम aur account पर हो. आप सिर्फ मदद करिये.

4. Hosting aur "https" ka taala

Kai website builders (Chapter 26) mein hosting pehle se shaamil hoti hai — alag se sochna nahi padta. Website ke address ke aage **https** aur browser mein chhota sa **taala (lock)** dikhna chahiye — iska matlab connection surakshit hai. Achhe builders ye apne aap dete hain.

5. Kis business ko kya chahiye?

Kya business Google Maps par dikhta hai, sahi jaankari ke saath?

NAHI → Pehle Google Business Profile (Chapter 29).
Ye sabse zaroori pehla kadam.

HAAN ↓

Kya customers baar-baar ek hi sawal poochhte hain (rate, services, timing)?

HAAN → One-page website — services, rate, WhatsApp button.

NAHI → Abhi Google profile + Instagram kaafi ho sakte hain.

Koi khaas offer/event chal raha hai?

HAAN → Us offer ka landing page.

Bada catalog, online payment? Online store — baad mein, jaankar ki madad se.

5 Step-by-Step Mobile Process: 3 Businesses, 3 Faisle

1 3 local businesses chuniye

Aas-paas ki dukaanein — ya Swaad Rasoi, Glow Salon, Chamak Car Wash jaise fictional examples.

2 Google Maps par dhoondhiye

Dikhte hain? Photos, timing, reviews hain? Website ka link hai?

3 Instagram / WhatsApp dekhiye

Services aur rate kahin likhe hain?

4 Decision tree chalaiye

Har business ke liye: Google profile / one-page website / landing page / abhi kuch nahi.

5

Reason likhiye

Ek line: "Chamak Car Wash — pehle Google profile, phir one-page site, kyunki log rate poochhne ke liye phone karte hain."

6

Sheet mein save

Drive → 06 Business Docs → "Website_Research". Chapter 40 mein ye lead list ki shuruaat banegi.

6

AI Tool Recommendation

Is chapter mein koi naya tool nahi. **Google Maps** (research), **aapka Chat AI** (samajhne aur decision mein madad), **Google Sheets** (notes). Website banana Chapter 26 se.

7

Copy-Paste Prompts**PROMPT 1 — SIMPLE SAMAJH**

Domain, hosting, website aur landing page ko ek chhoti dukaan ke example se Roman Hindi mein 8 lines mein samjhao. Koi technical shabd bina matlab ke mat use karna.

PROMPT 2 — KISKO KYA CHAHIYE

Ek [business type] hai, [area] mein. Abhi uske paas: [Google Maps par hai/nahi, Instagram hai/nahi, customers kya poochhte hain]. Kya ise website chahiye? Options compare karo: Google Business Profile, one-page website, landing page, online store. Har ek ka fayda aur kab zaroori. Last mein ek suggestion, reason ke saath. Koi price mat batana.

PROMPT 3 — DOMAIN NAAM IDEAS

"[Business ka naam]" ([business type], [sheher]) ke liye 8 domain naam ideas do — chhote, bolne mein aasaan, bina hyphen ke. .in aur .com dono options. Main availability khud check karunga.

8 Prompt Ka Explanation

PROMPT KA HISSA	YE KYUN KAAM KARTA HAI
"Dukaan ke example se"	Naye shabd ek jaani-pehchaani cheez se jud jaate hain.
Business ki abhi ki haalat (Prompt 2)	AI "sabko website chahiye" nahi bolega — situation ke hisaab se sochega.
"Koi price mat batana"	Domain/hosting ke rate badalte rehte hain — official page se dekhiye.
"Availability khud check karunga"	AI ko nahi pata kaunsa domain khaali hai — ye registrar ki website batayegi.

9 Practical Example: Rahul Ki Research Sheet

BUSINESS	ABHI KYA HAI	FAISLA
Chamak Car Wash	Google Maps par nahi; rate poochhne ke liye phone	Pehle Google profile, phir one-page website
Glow Salon	Google par hai, Instagram achha; packages kahin likhe nahi	One-page website + Wedding Package landing page
Kulhad Corner	Google par hai; college students Instagram dekhte hain	Abhi website zaroori nahi — Google profile update + Instagram

Fictional example.

Dhyan dijiye — Kulhad Corner ke liye Rahul ne "website nahi" bola. **Imaandaar salah hi lambe samay tak client laati hai.** Jise zaroorat nahi, use bechna nahi.

10 Practice Task

Task 1: Prompt 1 chalaiye aur 4 shabd (Domain, Hosting, Website, Landing Page) apne shabdon mein note mein likhiye.

Task 2: 3 local businesses ko Google Maps aur Instagram par dekhiye.

Task 3: Decision tree se har ek ke liye faisla aur reason likhiye (Prompt 2 madad ke liye).

Task 4: Ek business ke liye Prompt 3 se domain ideas lijiye — aur ek domain registrar ki website par 2 naam ki availability dekhiye (khareedna nahi).

11 Common Mistakes

GALTI	SAHI TAREEKA
"Har business ko website chahiye"	Pehle problem, phir auzaar. Kai jagah Google profile pehla kadam.
Lamba, mushkil domain naam	Chhota, aasaan, bina hyphen.
Sirf pehle saal ka offer price dekhna	Renewal price bhi dekhiye.
Client ka domain apne naam par	Client ke naam aur account par.
Bade online store se shuru	One-page ya landing page se shuru.

12 Quick Checklist

- ☐ Main Domain, Hosting, Website aur Landing Page dukaan ke example se samjha sakta/sakti hoon
- ☐ Mujhe website ke types pata hain
- ☐ Maine 3 businesses ke liye decision tree chalaya
- ☐ Meri Website_Research Sheet save hai
- ☐ Mujhe domain renewal aur ownership ka rule yaad hai

13 Chapter Summary

KEY TAKEAWAYS

- Domain = pata, Hosting = zameen, Website = dukaan ka andar, Landing Page = offer ka stall.
- Google Business Profile = sadak ka board — aksar pehla kadam.
- Website ka kaam customer ki problem hal karna hai — bharosa, 24 ghante jaankari, Google par milna.
- Chhote business ke liye aksar one-page website ya landing page kaafi.
- Domain renewal dekhiye; client ka domain client ke naam par.

Next Step — Chapter 25: Website Planning — Structure aur Pages

Chamak Car Wash ko website chahiye — ye tay ho gaya. Lekin website builder kholne se pehle ek sawal: us par *likhna* kya hai? Agle chapter mein Rahul pehle kaagaz par website ka naksha banata hai aur har section ka text AI se draft karta hai.

25

Website Planning: Structure aur Pages

Achhi website builder mein nahi, kaagaz par banti hai.

Chapter 24 mein tay hua ki Chamak Car Wash ko ek one-page website chahiye. Ab ek aam galti se bachna hai: seedha website builder kholna aur sochna "kya likhun?" Achhi website builder mein nahi, **kaagaz par banti hai** — pehle naksha, phir text, phir design.

1 Is Chapter Mein Kya Seekhenge

- 1 Client se website ki jaankari lene ke 12 sawal
- 2 Sitemap — website ka naksha
- 3 Homepage ka "Hero" section aur baaki sections ka order
- 4 AI se har section ka text draft karna

2 Simple Explanation

Ghar banane se pehle naksha banta hai — kitne kamre, kaunsa kamra kahan. Website ka naksha **Sitemap** kehlata hai: kaunse pages ya sections honge, aur kis order mein.

Naksha tay hone ke baad har section ka **text (content)** likhte hain. Jab text ready ho, tab website builder mein daalna sirf "copy-paste aur sajana" reh jaata hai — 1-2 ghante ka kaam. Bina planning ke yahi kaam hafte bhar khinchta hai.

3

Kahani: Kaagaz Par Website

Fictional kahani — Rahul, Deepak, Imran bhai aur "Chamak Car Wash" is book ke fictional examples hain.

RAHUL

Deepak ne haan kar di thi. Rahul utsaah mein ghar aaya aur seedha ek website builder khola. Template chuna, aur phir atak gaya. "Welcome to our website" hataya — ab kya likhun? Services kitni hain? Rate kya hai? Timing? Kuch pata nahi tha.

Imran bhai ne phone par kaha:

"Builder band kar. Kal Deepak ke paas notebook le ke ja. 12 sawal poochh. Phir kaagaz par ek khada phone bana aur upar se neeche likh — sabse upar kya dikhega, phir kya. Jab kaagaz par website dikh jaaye, tab builder kholna."

Agle din Rahul ne Deepak se sawal poochhe. Pata chala: 4 services hain, gaadi ke size ke hisaab se rate alag hain, subah 8 se raat 8 tak khula hai, Tuesday band, aur log sabse zyada poochhte hain — "kitna time lagega?"

Ghar aakar Rahul ne kaagaz par naksha banaya: sabse upar ek bada headline aur "WhatsApp karein" button, phir services, phir "Kyun Chamak", phir rate, phir photos, phir location. Har section ka text AI se draft karwaya, Deepak ki asli baaton ke saath. Ek Google Doc mein poori website ka text taiyaar — builder khole bina.

4

Important Concepts

1. Client se 12 sawal

1

Business ka naam aur ek line mein kaam

2

Kaunsi services / products?

3

Rate — ya "starting from"?

4

Timing aur chhutti ka din

5

Address + Google Maps link

6

WhatsApp aur call number

7

Customer sabse zyada kya poochhte hain?

8

Aap doosron se alag kyun ho?

9

Kitne saal se kaam kar rahe ho?

10

Asli photos (kaam, dukaan, team)

11

Asli reviews — Google par ya likhit

12

Website se aapko kya chahiye? (call, booking, WhatsApp)

SAWAL 12 SABSE ZAROORI

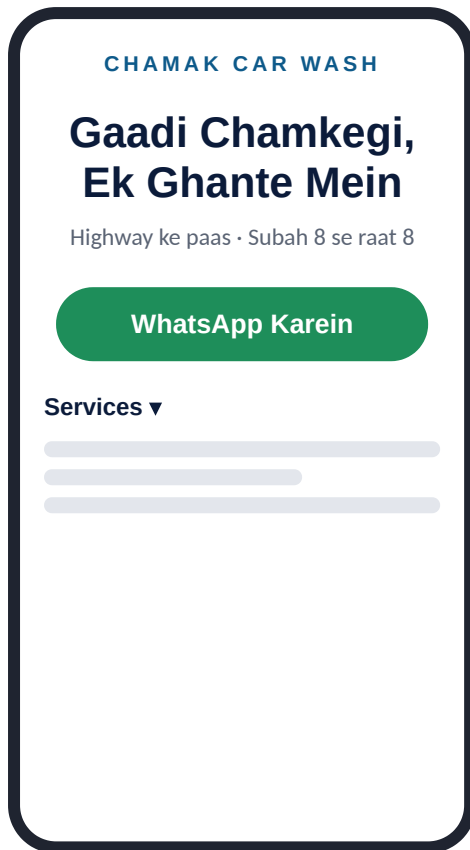

Website ka ek main **goal** hona chahiye — zyadatar local business ke liye "log WhatsApp ya call karein". Poori website usi goal ki taraf le jaati hai.

2. Sitemap — one-page website ke sections

#	SECTION	KYA HOTA HAI
1	Hero	Sabse upar: headline, ek line, bada button (WhatsApp/Call). Pehli nazar.
2	Services	3-6 services, har ek ki 1-2 line
3	Kyun hum (Why Us)	3 asli kaaran — saal, tareeka, suvidha
4	Pricing	Rate list ya "starting from" — owner ke numbers
5	Gallery	Asli kaam ki 4-8 photos
6	Reviews	Sirf asli reviews — ya Google reviews ka link
7	FAQ	Wo sawal jo customer baar-baar poochhte hain
8	Contact + Location	Address, map, timing, WhatsApp, call

Badi website mein inme se kai alag pages ban jaate hain (Home, About, Services, Contact). Chhote business ke liye ek lamba page aksar kaafi aur mobile par aasaan.

3. Hero section — sabse zaroori 5 second

Headline: customer ko kya milega — 3-6 shabd

Sub-line: kahan, kab — ek line

Button: ek hi, bada, saaf — website ka goal

Photo (optional): asli kaam ki ek achhi photo

3-SECOND RULE YAHAN BHI

Website khulte hi 3 second mein samajh aaye: kya business hai aur contact kaise karein (Chapter 14).

Mobile wireframe — fictional example. "Wireframe" matlab website ka simple khaka, bina rang-roop ke.

4. Content ki imaandaari

WEBSITE PAR YE KABHI NAHI

- **Naqli reviews:** AI se "Rahul S. — Great service! ★★★★★" jaise reviews banwana dhokha hai. Sirf asli reviews (permission ke saath) ya Google profile ka link.
- **Andaaze wale rate:** price sirf owner ke diye hue; na ho to "Rate ke liye WhatsApp karein".
- **Jhoothe dawe:** "Sheher ki No.1", "10,000+ happy customers" — tabhi, jab saboot ho.
- **Stock photos ko asli kaam batana:** gallery mein sirf asli kaam.

5

Step-by-Step Mobile Process: Website Ka Plan

1

Client se 12 sawal

Milkar ya WhatsApp voice note par. Jawab Google Doc mein: "[Business]_Website_Info".

2

Goal tay kijiye

Ek line: "Website ka goal: log WhatsApp par booking karein."

3**Sitemap chuniye**

8 sections mein se jo zaroori hain. Kaagaz par ek khada phone bana kar upar se neeche likhiye.

4**AI se content draft**

Prompt 1 — client ki jaankari ke saath. Har section ka text.

5**Hero ke 3 options**

Prompt 2 — 3 headline + sub-line. Client se chunwaiye.

6**Check kijiye**

Har rate, timing, number client ke jawab se match? Koi naqli review ya dawa nahi? "Kya main aisa bolta?" test.

7**Photos ikattha kijiye**

Client se asli photos — ya khud jaakar lijiye (Chapter 21 ke roshni wale rules). Drive → 03 Clients → [Business] → Website.

8**Client se approval**

Google Doc ka link "comment" access ke saath. Unke badlaav ke baad text final.

6**AI Tool Recommendation**

Aapka Chat AI (content draft, headlines, FAQ) + **Google Docs** (info aur final text) + **Kaagaz-pen** (naksha — sach mein, sabse achha tool). Website builder agle chapter mein.

7 Copy-Paste Prompts

PROMPT 1 — POORI WEBSITE KA CONTENT

Role: Tum ek local business website copywriter ho.

Context: [Client ke 12 sawalon ke jawab paste karo]

Task: Is business ki one-page website ka content likho. Sections: Hero (headline max 6 words, sub-line, button text), Services (har ek 1-2 line), Kyun Hum (3 points), Pricing (sirf mere diye rate; na hon to "Rate ke liye WhatsApp karein"), FAQ (5 sawal-jawab), Contact.

Goal: Visitor WhatsApp par [booking/order] kare.

Constraints: Roman Hindi + English service names. Koi naqli review, "No.1" ya andaaze ka number nahi. Jo jaankari nahi di, uski jagah [CLIENT SE POOCHHO] likho.

PROMPT 2 — HERO OPTIONS

Isi business ke liye 3 alag Hero options do. Har ek mein: Headline (max 6 words, customer ka fayda), Sub-line (max 12 words – kahan, kab), Button text (max 3 words). Table format.

PROMPT 3 — FAQ

Customers ye sawal poochhte hain: [list]. Inke short jawab likho (max 30 words each) – sirf is jaankari se: [client info]. Jo nahi pata, wahan [CLIENT SE POOCHHO].

8 Prompt Ka Explanation

PROMPT KA HISSA	YE KYUN KAAM KARTA HAI
Client ke 12 jawab Context mein	AI asli business ke baare mein likhta hai, "kisi bhi car wash" ke baare mein nahi.
"[CLIENT SE POOCHHO]"	Jo jaankari missing hai, wo saaf dikhti hai — AI use bharta nahi (Chapter 3).
Goal Prompt mein	Har section aur button usi kaam (WhatsApp booking) ki taraf le jaata hai.
"Koi naqli review"	AI kabhi-kabhi website draft mein khud reviews bana deta hai — ye line use rokhti hai.

9 Practical Example: Chamak Car Wash — Content Ka Hissa

Chamak Car Wash — Website Content

DRAFT v2

Hero	"Gaadi Chamkegi, Ek Ghante Mein" · Highway ke paas · Subah 8 se raat 8 (Tuesday band) · [WhatsApp Karein]
Services	Basic Wash · Interior Cleaning · Full Detailing · Bike Wash — har ek ki 1 line
Kyun Chamak	6 saal ka kaam · Pehle se time slot — intezaar nahi · Chhoti gaadi se SUV tak
Pricing	Gaadi ke size ke hisaab se — Deepak ki rate list (unke numbers)
Reviews	Google profile ke reviews ka link (Chapter 29 ke baad)
FAQ	"Kitna time lagega?" · "Pehle booking zaroori hai?" · "Baarish mein bhi?" · [CLIENT SE POOCHHO: payment kaise?]

Fictional example.

AI ke pehle draft mein ek line thi: "Trusted by 5000+ customers". Deepak ke paas aisa koi record nahi tha — Rahul ne hata di. **Website par wahi, jo sach ho.**

10 Practice Task

Task 1: Chapter 24 wala ek business chuniye (asli ho to owner ke saath, warna fictional details bana kar "fictional" likhiye).

Task 2: 12 sawalon ke jawab Google Doc mein likhiye aur website ka goal ek line mein.

Task 3: Kaagaz par mobile wireframe banaiye — sections upar se neeche.

Task 4: Prompt 1-3 se poora content draft kijiye, check kijiye, aur Doc mein final kijiye. Ye Chapter 26 mein builder mein jayega.

11 Common Mistakes

GALTI	SAHI TAREEKA
Seedha builder kholna	Pehle jaankari → naksha → text.
"Welcome to our website" headline	Headline mein customer ka fayda.
Paanch alag buttons	Ek goal, ek main button.
Naqli reviews ya "5000+ customers"	Sirf asli reviews aur sach numbers.
Rate andaaze se	Owner ke rate, ya "Rate ke liye WhatsApp karein".

12 Quick Checklist

- ☐ Maine client se 12 sawal poochhe aur Doc mein likhe
- ☐ Website ka ek goal tay hai
- ☐ Maine kaagaz par mobile wireframe banaya
- ☐ Har section ka content draft ready hai; missing jaankari marked hai
- ☐ Koi naqli review, dawa ya andaaze ka rate nahi

13 Chapter Summary

KEY TAKEAWAYS

- Website kaagaz par banti hai: Jaankari → Naksha → Text → Builder.
- Client se 12 sawal; sabse zaroori — website ka goal.
- One-page sections: Hero, Services, Why Us, Pricing, Gallery, Reviews, FAQ, Contact.
- Hero: headline (fayda), sub-line (kahan-kab), ek bada button.
- Naqli reviews, andaaze ke rate aur jhootha dawa kabhi nahi.

Next Step — Chapter 26: No-Code AI Website Builder Se Website

Text ready hai, naksha ready hai. Ab builder kholne ka waqt. Agle chapter mein Priya bina ek line code likhe, AI website builder mein apni tiffin service ki one-page website ka draft banati hai — sirf phone se.

26

No-Code AI Website Builder Se Website

AI dhaancha deta hai, jaan aap daalte ho.

Chapter 25 mein aapne kaagaz par website ka naksha banaya aur har section ka text Google Doc mein taiyaar kiya. Ab wo pal aaya hai jiske liye Part VI shuru hua tha: **website ko sach mein banana** — bina ek line code likhe, AI website builder ki madad se.

1 Is Chapter Mein Kya Seekhenge

- 1 AI website builder kaise kaam karta hai — 3 steps
- 2 Paid builder vs free practice option
- 3 Paise dene se pehle ki checklist (renewal, refund, domain)
- 4 Apne plan se draft website banana aur mobile preview check karna

2 Simple Explanation

Website builder ek aisa tool hai jisme aap bina coding ke website bana sakte ho — template chuniye, text aur photo badliye, publish kijiye. **AI website builder** ek kadam aage hai: aap business ke baare mein likhte ho, aur AI ek pehla draft bana deta hai. Phir aap use apne plan (Chapter 25) ke hisaab se theek karte ho.

AI DRAFT = SHURUAAT, WEBSITE NAHI

AI ka banaya draft sundar dikhta hai, lekin usme aksar general text, stock photos aur naqli-si baatein hoti hain. Asli website tab banti hai jab aap Chapter 25 ka **asli content** aur **asli photos** daalte ho.

3 Kahani: Priya Ki Pehli Website

Fictional kahani — Priya, Rahul aur "Priya Ki Rasoi" is book ke fictional examples hain.

PRIYA

Office ke kuch naye customers ne Priya se poochha: "Aapki website hai? Menu aur area wahan dekh lete." Priya ne Rahul ko phone kiya. Rahul ne kaha: "Didi, is baar aap khud banaogi. Main bas saath baithunga."

Pehle dono ne Chapter 25 wala kaam kiya — 12 sawal, goal ("log WhatsApp par order karein"), kaagaz par naksha, aur Google Doc mein text. Priya ke Brand Kit ke rang aur fonts pehle se tay the (Chapter 18).

Phir builder mein Priya ne likha: *"Ghar se chalne wali tiffin service, warm colors, simple, bade buttons, WhatsApp order button, aaj ka menu section, delivery area section."* Kuch second mein ek draft saamne tha — sundar, lekin uspar ek angrezi restaurant jaisi baatein aur kisi aur ke khaane ki stock photos thi.

Agle ek ghante mein Priya ne har section ka text Google Doc se copy-paste kiya, apne Brand Kit ke rang lagaye, apni rajma aur roti ki asli photos daali, aur WhatsApp button par apna number joda. Phir phone par "Preview" dabaya aur ek-ek section upar se neeche dekha.

"Ye to sach mein meri dukaan jaisi lag rahi hai," Priya boli. Rahul ne kaha: "Kyunki ab ismein aapka content hai, AI ka nahi."

4 Important Concepts

1. Example builder: Hostinger AI Builder

Is book mein example ke liye **Hostinger AI Website Builder** liya hai, kyunki isme AI se draft, drag-and-drop editing, hosting, SSL aur saal bhar ya usse lambe plans ke saath domain ek hi jagah milte hain. Iski official site ke mutabik (September 2026):

CHEEZ	OFFICIAL PAGE PAR KYA LIKHA HAI
Kaise kaam karta hai	Idea describe karo → AI pehla version banata hai → drag-and-drop ya AI se edit → publish
Shaamil	Hosting, SSL certificate; 12 mahine ya usse lambe plans par free domain
Mobile	Design responsive; mobile editing drag-and-drop mode mein
Paisa	Paid plans; lambi avadhi ka paisa pehle (upfront); renewal rate alag; 30-day money-back guarantee

Last checked: 21 September 2026 — hostinger.com/ai-website-builder. Price aur shartein badalti hain; kharidne se pehle official page aur checkout par dekhiye. Ye ek example hai, "best" ki salah nahi — doosre builders (Wix, WordPress-based builders, etc.) bhi hain.

2. Paise dene se pehle — 6 sawal

- ☐ **Renewal price:** pehle term ke baad kitna lagega?
- ☐ **Billing:** kitne mahine ka paisa ek saath? (lambi avadhi = offer price, lekin bada ek-mushth kharcha)
- ☐ **Refund:** money-back kitne din ka, kin sharton par?
- ☐ **Domain:** shaamil hai? Kitne samay ke liye? Uska renewal?
- ☐ **Kiske naam par:** client ka account aur payment client ke naam par (Chapter 24)
- ☐ **Chhod kar jaana:** baad mein website/domain kahin aur le ja sakte hain?

3. Free practice option

Seekhne aur demo ke liye paise lagana zaroori nahi. **Google Sites** Google ka ek free tool hai jisme simple website bana sakte hain (aapke Google account se). Iski limits hain — design options kam, aur editing computer browser mein zyada aasaan. Lekin practice aur **demo website** (Chapter 40) ke liye kaam ka hai.

Practice / demo ke liye

Free option (jaise Google Sites) — koi kharcha nahi, portfolio mein dikhane layak.

Client ki asli website ke liye

Paid builder — client ke account aur payment se, uski manzoori ke baad.

4. AI draft mein kya-kya badalna hai

AI DRAFT MEIN AKSAR	AAP KYA KAREIN
General text ("Welcome to our restaurant")	Chapter 25 ka asli content paste
Stock photos	Asli photos (client ki ya aapki li hui)
Random rang aur fonts	Brand Kit ke hex codes aur 2 fonts
Naqli reviews / testimonials	Hataiye — sirf asli (Chapter 25)
Placeholder phone, email, address	Asli details — do baar check
Faltu sections (Blog, Team...)	Jo plan mein nahi, hataiye

5 Step-by-Step Mobile Process: Draft Website

1 Taiyaari

Google Doc (content), photos (Drive), Brand Kit (hex codes) — teeno phone mein khule rakhiye.

2 Builder kholiye

Phone ke browser (Chrome) mein builder ki website. Practice ke liye free option, client ke liye client ka account.

3 Business describe kijiye

Prompt 1 — builder ke AI box mein. Draft banne dijiye.

4 Sections plan se milaiye

Jo sections Chapter 25 ke naksha mein nahi, hataiye; jo missing hain, jodiye.

5 Text badliye

Har section mein Doc se copy-paste. AI ka text mat rakhiye.

6 Photos aur rang

Asli photos upload; Brand Kit ke rang aur fonts.

7

Mobile preview

Preview → mobile view. Upar se neeche: text padha ja raha hai? Button bada hai? Photos kat to nahi rahi?

8

Draft save — abhi publish nahi

Buttons, map, SEO aur testing Chapter 28 mein. Publish client ki manzoori ke baad.

MOBILE SE KYA POSSIBLE HAI, COMPUTER KAB USEFUL HAI

Mobile: AI draft banana, text/photo badalna, preview — ho jaata hai. **Computer:** layout ki baariki (spacing, alignment), bahut saare sections, ya Google Sites jaise tools mein editing — badi screen par zyada aasaan. **Beginner kya kare:** draft phone par; agar editing mein bahut dikkat ho to kisi dost/cyber cafe ke computer par ek baar baith kar final touch.

6

AI Tool Recommendation

TOOL	KAAM	PLAN (21 SEP 2026)
Hostinger AI Builder (example)	AI draft, editing, hosting, domain	Paid; 30-day money-back
Google Sites	Free practice/demo website	Free (limits ke saath)
Aapka Chat AI	Builder ke liye describe text, content sudhaar	Free
Canva	Website ke liye images/banner	Free

7

Copy-Paste Prompts**PROMPT 1 — BUILDER KE AI BOX KE LIYE**

[Business type] ki one-page website: "[Business ka naam]", [sheher/area]. Style: [simple/warm/modern], colors [hex codes]. Sections: Hero with WhatsApp button, Services, Why Us, Pricing, Gallery, FAQ, Contact with map. Mobile-first, bade buttons, kam text. No testimonials section.

PROMPT 2 — DRAFT CHECK (screenshot attach karke)

Ye meri website draft ka mobile screenshot hai. Check karo: (1) 3 second mein samajh aata hai kya business hai aur contact kaise karein? (2) koi placeholder text ya naqli-si baat bachi hai? (3) button aur text phone par saaf hain? Sirf problems aur sudhaar batao.

PROMPT 3 — BUILDER CHUNNE MEIN MADAD

Main [business type] ki simple one-page website banana chahta hoon, sirf Mobile se. Mujhe website builder chunne se pehle kaunse 8 sawal poochhne chahiye (price, renewal, refund, domain, mobile editing, ownership)? Kisi company ka price mat batana.

8 Prompt Ka Explanation

PROMPT KA HISSA	YE KYUN KAAM KARTA HAI
Sections ki list (Prompt 1)	Draft aapke Chapter 25 wale naksha ke kareeb banta hai — kam hatana padta hai.
"No testimonials section"	Builder naqli reviews wala section nahi banayega.
Hex codes	Pehle se brand rang — baad mein badalna kam.
Prompt 2 — mobile screenshot	Zyadatar visitors phone par aayenge; check bhi phone view ka.
Prompt 3 — "price mat batana"	Price official page se; AI se sirf sahi sawal.

9 Practical Example: Priya Ka Draft — Pehle aur Baad

AI KA PEHLA DRAFT

- "Experience Culinary Excellence"
- Pasta aur salad ki stock photos
- Neela-safed rang
- "Our Chefs" aur "Testimonials" sections
- Phone: 000-000-0000

PRIYA KA VERSION

- "Ghar Ka Khaana, Roz Time Par"
- Apni rajma, roti, dabbe ki photos
- Brand Kit: #8B2E1F, #F2A541, #FFF8EE
- Aaj ka menu, Delivery area, FAQ
- Asli WhatsApp number — test kiya

Fictional example.

AI ne **dhaancha** diya — sections, layout, mobile design. Priya ne **jaan** daali — apna text, apni photos, apne rang. Dono milkar website.

10 Practice Task

Task 1: Prompt 3 chalaiye aur 8 sawal note mein save kijiye.

Task 2: Practice ke liye free option (jaise Google Sites) ya client ke account mein ek draft website banaiye — Chapter 25 ke content se.

Task 3: "AI draft mein kya badalna hai" table ke saare 6 points check kijiye.

Task 4: Mobile preview ka screenshot lekar Prompt 2 se check kijiye aur 2 sudhaar kijiye. Draft ka link/screenshot Drive mein save kijiye.

11 Common Mistakes

GALTI	SAHI TAREEKA
AI draft ko hi final maan lena	Asli content, asli photos, brand rang.
Sirf pehle term ka offer price dekhna	Renewal, billing avadhi aur refund bhi.
Client ki website apne account par	Client ka account, client ka payment.
Practice ke liye paid plan khareedna	Free option se seekhiye.
Bina mobile preview publish	Phone view mein upar se neeche check.

12 Quick Checklist

- ☐ Mujhe AI builder ke 3 steps samajh aa gaye
- ☐ Mere paas paise dene se pehle ke sawalon ki list hai
- ☐ Maine ek draft website banayi, Chapter 25 ke content se
- ☐ Draft mein koi placeholder, stock photo ya naqli review nahi
- ☐ Maine mobile preview check kiya

13 Chapter Summary

KEY TAKEAWAYS

- AI builder: Describe → Edit → Check → Publish.
- AI dhaancha deta hai; asli content, photos aur rang aap daalte ho.
- Paise se pehle: renewal, billing avadhi, refund, domain, ownership.
- Practice/demo ke liye free option; client ki site client ke account se.
- Publish se pehle mobile preview — aur client ki manzoori.

Next Step — Chapter 27: AI-Assisted Coding Workflow (Optional Level)

Aapne bina code ke website bana li. Lekin aapne "vibe coding" ke baare mein bhi suna hoga — AI se bol kar app ya page banwana. Agla chapter optional hai: Rahul AI app builder se ek landing page banata hai, ek button kaam nahi karta — aur wo testing ka asli matlab seekhta hai.

IS CHAPTER KE SOURCES (LAST CHECKED: 21 SEPTEMBER 2026)

Hostinger — AI Website Builder official page (steps, inclusions, 30-day money-back, upfront billing aur renewal) ·
Google Sites (free website tool)

27

AI-Assisted Coding Workflow (Optional Level)

Sundar dikhna aur kaam karna — do alag baatein.

OPTIONAL Ye chapter zaroori nahi hai. Chapter 26 ka no-code raasta kaafi hai. Agar code ke naam se ghabrahat ho, ise abhi chhod kar Chapter 28 par jaiye — baad mein kabhi bhi laut sakte hain.

Chapter 26 mein aapne bina code ke website banayi. Is chapter mein hum ek naya raasta dekhenge jiske baare mein aajkal bahut baat hoti hai — AI se **bol kar** web page ya chhota app banwana, jahan code AI likhta hai. Isse "vibe coding" bhi kehte hain. Ye taakatwar hai, lekin iski ek shart hai: **testing**.

1 Is Chapter Mein Kya Seekhenge

- 1 "Vibe coding" ka matlab — aur uski seema
- 2 HTML, CSS, JavaScript — ek ghar ke example se, 1 page mein
- 3 AI se bana page test karne ke 5 points
- 4 Bug ko saaf shabdon mein batana — aur kab no-code behtar hai

2 Simple Explanation

Har website ke peeche **code** hota hai — computer ke liye likhi hui instructions. Pehle ise likhne ke liye programming seekhni padti thi. Ab kuch AI tools aise hain jinme aap normal bhasha mein batate ho "mujhe aisa page chahiye", aur AI code likh kar page bana deta hai. Is tareeke ko log "**vibe coding**" kehte hain.

Isse aap template se aage ja sakte ho — apni pasand ka layout, chhote tools (jaise rate calculator), ya ek simple app. Lekin ek baat saaf rakhiye: **AI ka likha code bhi galat ho sakta hai** (Chapter 3). Page

dikhta sahi hai, par koi button kaam nahi karta — ye bahut common hai. Isliye is raaste ki sabse zaroori skill coding nahi, **testing** hai.

3 Kahani: "Book Now" Button

Fictional kahani — Rahul, Deepak, Imran bhai aur "Chamak Car Wash" is book ke fictional examples hain.

RAHUL

Rahul ne ek video mein dekha ki log AI se bol kar website bana rahe hain. Usne ek AI app builder khola aur likha: *"Car wash business ke liye landing page banao — hero section, 3 services, WhatsApp button, contact form."*

Ek minute mein page ban gaya — Chapter 26 wale template se bhi zyada sundar. Rahul ne turant Deepak ko link bheja. Deepak ne phone par dabaya: "Book Now" — kuch nahi hua. Contact form bhara — "Sent!" likha aaya, lekin message kahin nahi gaya.

Rahul ghabra gaya. Imran bhai ne kaha:

"AI ne ghar ka dhaancha bana diya, rang bhi kar diya — lekin bijli ki wiring aadhi chhod di. Bhejne se pehle har switch daba ke dekhna tha. Ab AI ko saaf bata: kya dabaya, kya hona chahiye tha, kya hua."

Rahul ne likha: *"'Book Now' button dabane par kuch nahi hota. Ise WhatsApp link se jodo — number [number], message: 'Car wash booking'. Contact form hata do, uski jagah bhi WhatsApp button."* Agle version mein dono theek the. Is baar Rahul ne 5-point test kiya — tab Deepak ko bheja.

Us din Rahul ki note mein ek nayi line judi: **"Sundar dikhna aur kaam karna — do alag baatein hain."**

4 Important Concepts

1. HTML, CSS, JavaScript — ek ghar

 HTML = Dhaancha Deewar, kamre, darwaze. Page par kya-kya hai — heading, text, photo, button.	 CSS = Rang-roop Paint, parde, sawawat. Rang, font, size, cheezein kahan dikhein.	 JavaScript = Bijli Switch dabao to bulb jale. Button dabao to kuch ho — form, menu, calculator.
--	--	---

Bas itna samajhna kaafi hai. Code padhna ya likhna zaroori nahi — AI likhega. Lekin jab kuch toote, to aap bata sakte ho: "dhaancha theek hai, rang theek hai, **bijli** (button) kaam nahi kar rahi."

2. Example tool: Lovable

Is chapter mein example ke liye **Lovable** liya hai. Iska Android app Play Store par hai (publisher: Lovable Labs). Listing ke mutabik aap normal bhasha mein describe karte ho aur ye web app/website banata hai, hosting shaamil hai, aur "free to start" hai — free mein limited use, zyada ke liye paid plan. (Last checked: 21 September 2026 — Google Play listing.) Aur bhi aise tools hain; ye "best" ki salah nahi, sirf example hai.

3. 5-Point Test — bhejne se pehle

- ☐ **Buttons:** har button dabaiye — sahi jagah jaata hai? (WhatsApp sahi number par?)
- ☐ **Links:** har link — map, call, social — khulta hai?
- ☐ **Mobile view:** phone par kuch kat to nahi raha, text chhota to nahi?
- ☐ **Text:** koi placeholder, galat spelling, naqli review ya dawa?
- ☐ **Speed:** mobile data par 3-5 second mein khulta hai? Bhaari photos?

4. Bug report — AI ko galti kaise batayein

Bug matlab code ki galti. AI ko "kaam nahi kar raha, theek karo" bolne se aksar kaam nahi banta. Teen hisson mein bataiye:

1

Maine kya kiya

"Phone par 'Book Now' button dabaya."

2

Kya hona chahiye tha

"WhatsApp khulna chahiye tha, number [X] ke saath."

3

Kya hua

"Kuch nahi hua. Page wahi raha."

Screenshot bhi saath bhejiye. Ek baar mein ek bug (Chapter 9 ka rule: ek follow-up, ek badlaav).

5. Beginner kya NA banaye

SECURITY KI SEEMA

Is stage par AI se aisi cheezein **mat** banwaiye jinme **login/password, online payment**, ya **customers ka personal data** (naam, phone, address) save hota ho. Inme chhoti si galti se logon ka data leak ho sakta hai — aur zimmedaari aapki hogi (Chapter 49). Simple, jaankari wale pages aur WhatsApp buttons tak rahiye. Payment ke liye bharosemand payment apps/links (Chapter 35, 45).

6. No-code ya AI coding — kab kya?

NO-CODE BUILDER BEHTAR (CHAPTER 26)	AI CODING TRY KAR SAKTE HAIN
Client ki normal business website	Apna portfolio ya ek khaas design jo template mein nahi
Client khud baad mein edit karega	Chhota tool: rate calculator, menu page
Hosting, domain, support ek jagah chahiye	Seekhne aur experiment ke liye
Aapke paas testing ka time kam hai	Aap har version dhyan se test kar sakte hain

5

Step-by-Step Mobile Process: Pehla AI-Coded Page

1

Tool install aur login

Play Store se publisher check karke (Chapter 4). Free plan.

2

Chapter 25 ka content taiyaar rakhiye

AI ko asli text do — warna wo apna general text daalega.

3 Prompt 1 se page banwaiye

Simple landing page — koi login, payment ya form-data nahi.

4 5-Point Test

Apne phone par, mobile data par. Har point ka result note mein.

5 Bug report

Jo toota, Prompt 2 ke format mein — ek-ek karke.

6 Dobara test

Har fix ke baad poora 5-point test — kabhi-kabhi ek fix doosri cheez tod deta hai.

7 Faisla likhiye

"Ye project no-code se behtar tha ya AI coding se?" — ek line, reason ke saath.

MOBILE SE KYA POSSIBLE HAI, COMPUTER KAB USEFUL HAI

Mobile: simple page banwana, test karna, bug batana. **Computer:** jab project bada ho, code dekhna ho, ya kai files sambhalni hon. **Beginner kya kare:** is chapter ka experiment phone par; asli client kaam ke liye abhi no-code builder.

6 AI Tool Recommendation

TOOL	KAAM	PLAN (21 SEP 2026)
Lovable (example)	Bol kar web page/app banwana	Free to start; limited; paid plans
Aapka Chat AI	Prompt likhna, bug samajhna	Free
Phone browser	Testing — mobile data par	—

7 Copy-Paste Prompts

PROMPT 1 — SIMPLE LANDING PAGE

Ek mobile-first landing page banao: [business type], "[Business ka naam]".
Sections: Hero (headline: "[headline]", sub-line: "[sub-line]", button "WhatsApp Karein" jo [https://wa.me/91\[number\]](https://wa.me/91[number]) khole), Services ([list]), Timing aur address, Google Maps link button.
Rang: [hex codes]. Bade buttons, kam text.
Login, payment, contact form ya koi customer data save mat karna. Testimonials section mat banana.

PROMPT 2 — BUG REPORT

Bug: Maine [kya kiya]. [Kya hona chahiye tha]. Lekin [kya hua]. Screenshot attach hai. Sirf ye ek cheez theek karo, baaki page same rakho.

PROMPT 3 — SAMJHAO (Chat AI mein)

Main beginner hoon. Is page mein [button/section] kaise kaam karta hai, bina code dikhaye 4 simple lines mein samjhao — HTML, CSS aur JavaScript mein se kiska kaam hai.

8 Prompt Ka Explanation

PROMPT KA HISSA	YE KYUN KAAM KARTA HAI
wa.me link saaf likhna	WhatsApp button ka exact kaam AI ko pata hai — andaaza nahi lagata.
"Login, payment, form-data mat"	Security ka khatra shuru se band.
Bug report ke 3 hisse	AI ko exact pata chalta hai kya todna nahi aur kya jodna hai.
"Baaki page same rakho"	Ek fix mein poora page nahi badalta (Chapter 9).

WhatsApp ka "click to chat" link wa.me/ ke baad country code (India: 91) aur number se banta hai. Official detail Chapter 28 mein.

9 Practical Example: Rahul Ka Test Note

Chamak Car Wash — Landing Page Test

VERSION 2

Buttons	✓ WhatsApp sahi number par, message ke saath
Links	✓ Map khulta hai · ✗ Instagram link galat tha → fix (v3)
Mobile view	✓ Theek; services ke icons thode bade — chalega
Text	✗ "Serving 10,000+ cars" — AI ne joda tha → hataya
Speed	✓ Mobile data par jaldi khula
Faisla	Deepak ki asli website no-code builder se (baad mein Deepak khud edit karega). Ye page Rahul ke portfolio mein — "AI coding experiment".

Fictional example.

10 Practice Task (Optional)

Task 1: HTML, CSS, JavaScript ko ghar ke example se apne shabdon mein 3 line mein likhiye.

Task 2: Prompt 1 se ek simple landing page banwaiye (practice business ya fictional).

Task 3: 5-Point Test kijiye aur kam se kam ek bug Prompt 2 ke format mein theek karwaiye.

Task 4: Test note aur faisla ("no-code ya AI coding — kyun") Drive mein save kijiye.

11 Common Mistakes

GALTI	SAHI TAREEKA
Sundar dikha to bina test bhej diya	5-Point Test — har baar, har version.
"Kaam nahi kar raha, theek karo"	Bug report: kya kiya, kya hona tha, kya hua.
Login/payment/customer data wala app	Beginner stage par nahi — security khatra.
AI ke jode naqli numbers/reviews	Text bhi test ka hissa — hataiye.
Har client project AI coding se	Client website ke liye aksar no-code behtar.

12 Quick Checklist

- ☐ Main HTML, CSS, JavaScript ghar ke example se samjha sakta/sakti hoon
- ☐ Mujhe 5-Point Test yaad hai
- ☐ Maine bug report ke 3 hisse use kiye
- ☐ Mujhe pata hai beginner ko kya nahi banana (login, payment, data)
- ☐ Mujhe pata hai kab no-code behtar hai

13 Chapter Summary

KEY TAKEAWAYS

- Vibe coding = bol kar AI se page/app banwana; code AI likhta hai.
- HTML = dhaancha, CSS = rang-roop, JavaScript = bijli.
- Sundar dikhna aur kaam karna alag — 5-Point Test zaroori.
- Bug report: kya kiya, kya hona chahiye tha, kya hua — ek baar mein ek.
- Beginner: login, payment, customer data wale projects nahi; client site ke liye aksar no-code.

Next Step — Chapter 28: Website Essentials — Buttons, SEO, Testing aur Publish

Website ban gayi — no-code se ya AI se. Ab use duniya ke saamne rakhne se pehle ki aakhri taiyaari: WhatsApp aur call buttons, Google Map, SEO ki basic baatein, poori testing, aur publish. Chamak Car Wash ka WhatsApp button galat number par ja raha tha — testing ne pakda.

IS CHAPTER KE SOURCES (LAST CHECKED: 21 SEPTEMBER 2026)

Google Play — "Lovable: Build Apps With AI" (publisher Lovable Labs; free to start; hosting shaamil)

28

Website Essentials: Buttons, SEO, Testing aur Publish

Pehle test, phir publish, phir dobara test.

Chapter 26 (aur optional Chapter 27) mein aapki website ka draft ban gaya. Lekin draft aur live website ke beech kuch zaroori kaam baaki hain — wahi kaam jo tay karte hain ki customer aapse **jud paayega** ya nahi. Chapter 27 mein aapne dekha ki ek toota button poori mehnat bekaar kar deta hai. Is chapter mein hum har button, har link aur har line ko publish se pehle pakka karenge.

1 Is Chapter Mein Kya Seekhenge

- 1 WhatsApp button, Call button aur Google Map jodna
- 2 Contact form aur privacy ki ek zaroori line
- 3 SEO basics — Google ki apni guide ke hisaab se
- 4 20-point Website Checklist, domain connect aur publish

2 Simple Explanation

Local business ki website ka ek hi kaam hai: customer ko **aap tak pahunchana** — WhatsApp par, phone par, ya dukaan tak. Isliye sabse zaroori hisse wo hain jo is kaam ko karte hain: buttons, map aur sahi jaankari.

Uske baad aata hai **SEO** (Search Engine Optimization) — yaani website ko aisa banana ki Google samajh sake ki ye kis baare mein hai, aur search karne wale ko sahi page dikhaye. SEO koi jaadu nahi; Google khud kehta hai ki saaf, kaam ka, logon ke liye likha content hi sabse zaroori hai.

PUBLISH KA RULE

Pehle test, phir publish, phir dobara test. Aur client ki website ho to publish sirf client ki manzoori ke baad.

3 Kahani: Galat Number

Fictional kahani — Rahul, Deepak aur "Chamak Car Wash" is book ke fictional examples hain.

RAHUL

Chamak Car Wash ki no-code website taiyaar thi. Deepak utsaah mein the: "Aaj hi live kar do!" Rahul ne kaha, "Bas 20 minute — ek checklist."

Checklist ke teesre point par Rahul ne apne phone se "WhatsApp Karein" dabaya. WhatsApp khula — lekin ek anjaan naam ke saath. Pata chala, Chapter 25 ke Google Doc mein Deepak ka **purana number** tha, jo unhone 6 mahine pehle band kar diya tha.

Agar website aise hi live hoti, to har customer ka message kisi anjaan insaan ke paas jaata. Rahul ne number theek kiya, Deepak se ek test message bhejwaya — "Test: website se" — aur Deepak ke phone par aaya.

Checklist mein do aur galtiyen nikli: Google Map ek doosri car wash par khul raha tha (naam milta-julta tha), aur ek photo mobile par aadhi kat rahi thi. Teeno theek karke Rahul ne publish kiya — phir apne aur Deepak ke, dono phone par dobara test kiya.

"20 minute ki checklist ne mera poora mahina bacha liya," Deepak ne kaha.

4 Important Concepts

1. WhatsApp button — click-to-chat link

WhatsApp ka "click to chat" link website ke button ko seedha aapki chat se jod deta hai. Iska format:

`https://wa.me/91XXXXXXXXXX`

- Number **poore international format** mein: pehle country code (India: 91), phir number.
- **Bina "+"**, bina shuru ke 0, bina space, dash ya bracket.
- Pehle se likha message chahiye to: `https://wa.me/91XXXXXXXXXX?text=Car%20wash%20booking` — space ki jagah **%20**.

TEST ZAROOR

Link banane ke baad khud dabaiye — sahi naam/business ke saath chat khulti hai? Owner se ek test message ka jawab mangwaiye.

2. Call button aur Google Map

CHEEZ	KAISE
Call button	Zyadatar builders mein button ka link "Phone" chuniye aur number daaliye (andar se ye "tel:" link banta hai). Dabane par phone ka dialer khulna chahiye.
Google Map	Google Maps mein business kholiye → Share → link copy → website ke "Map/Location" button mein. Builder mein map section ho to wahan address daaliye. Check kijiye — sahi business par khulta hai?

3. Contact form aur privacy

Form tab rakhiye jab sach mein zaroorat ho — chhote business ke liye aksar WhatsApp button kaafi hai. Form ho to:

- **Kam se kam jaankari:** naam, phone, sandesh — bas. Aadhaar, address, janam-tithi jaisi cheezein nahi.
- **Ek privacy line** form ke paas: *"Aapka naam aur number sirf aapke sawal ka jawab dene ke liye use hoga."*
- **Test:** form bhar kar dekhiye — message owner tak pahuncha?

India ka Digital Personal Data Protection (DPDP) Act aur 2025 ke Rules logon ke personal data ke use par niyam banate hain; iske poore niyam phase mein lagu ho rahe hain. Chhote business ke liye basic samajh Chapter 49 mein. Yahan simple rule: kam data, saaf maqsad, sirf zaroori use.

4. SEO basics — Google ki guide se

Google ki official "SEO Starter Guide" ke kuch seedhe sujhaav:

CHEEZ	GOOGLE KYA KEHTA HAI (SAAR)	EXAMPLE
Page Title	Har page ka unique, saaf, chhota title jo page ka asli content bataye; business naam aur jagah jahan theek ho	"Chamak Car Wash — Car Wash, [Area], [Sheher]"
Meta Description	Chhota, us page ke liye unique, sabse zaroori baatein	"Highway ke paas car wash — basic wash se full detailing tak. Subah 8 se raat 8."
Image alt text	Photo ka chhota, saaf description	"Chamak Car Wash mein SUV ki foam wash"
Keyword stuffing	Google ki spam policies ke khilaf — logon ke liye naturally likhiye	"car wash car wash best car wash" — nahi
Mobile	Google mobile version ko dhyan mein rakhta hai (mobile-first indexing)	Mobile preview hamesha check

Source: Google Search Central — SEO Starter Guide (Last checked: 21 September 2026). Title aur description zyadatar builders mein "SEO settings" ya "Page settings" mein milte hain.

LOCAL SEO KA SABSE BADA KADAM

Local business ke liye Google par dikhne ka sabse asardaar kadam aksar **Google Business Profile** hai (Chapter 29) — aur usme website ka link. Website aur profile ki jaankari (naam, address, number, timing) ek jaisi honi chahiye.

5. Domain connect aur Publish

Builder se domain liya ho to aksar wo apne aap jud jaata hai. Domain kahin aur se liya ho to builder ki guide ke steps follow kijiye — isme domain ki settings (jise **DNS** kehte hain) mein kuch values daalni hoti hain. Ghabraiye mat: builder exact values aur steps batata hai, aur badlaav poora hone mein kuch ghante lag sakte hain. Publish ke baad address mein **https** aur taala check kijiye (Chapter 24).

5 Step-by-Step Mobile Process: Final Taiyaari Aur Publish

1

Buttons jodiye

WhatsApp (wa.me link), Call (phone link), Map (Google Maps share link).

2 Form (sirf zaroorat ho to)

3 fields + privacy line.

3 SEO settings

Prompt 1 se title aur description; har photo par alt text.

4 20-point checklist

Neeche wali — ek-ek tick.

5 Client ki manzoori

Preview link ya screenshots bhejiye; "Haan, live karo" likhit mein.

6 Domain connect aur Publish

Builder ki guide ke hisaab se.

7 Live test — 2 phones par

Aapka aur client ka phone, mobile data par. WhatsApp, call, map — dobara.

8 Website ko jodiye

Link Google Business Profile, Instagram bio aur WhatsApp Business profile mein (Chapter 29, 37).

20-Point Website Checklist

CONTACT

- ☐ WhatsApp sahi number
- ☐ Test message pahuncha
- ☐ Call button dialer kholta
- ☐ Map sahi business par
- ☐ Timing sahi

CONTENT

- ☐ Koi placeholder nahi
- ☐ Spelling check
- ☐ Rate client ke
- ☐ Koi naqli review/dawa nahi
- ☐ Asli photos

MOBILE

- ☐ Text padha jaata
- ☐ Buttons bade
- ☐ Photos kat nahi rahi
- ☐ Mobile data par jaldi khule
- ☐ 3-Second Rule

TECHNICAL

- ☐ Page title + description
- ☐ Photos ka alt text
- ☐ https + taala
- ☐ Form test (agar hai)
- ☐ Client ki manzoori

Ye checklist Bonus 8 (Website Checklist) mein printable roop mein bhi hai.

6 AI Tool Recommendation

Aapka website builder (Chapter 26), **Google Maps** (map link), **WhatsApp** (test), **aapka Chat AI** (SEO title, description, alt text). Koi naya tool nahi.

7 Copy-Paste Prompts

PROMPT 1 — SEO TITLE + DESCRIPTION

"[Business ka naam]", [business type], [area], [sheher]. Main services: [list]. Homepage ke liye 3 SEO title options (max 60 characters) aur 3 meta description options (max 155 characters) do. Business naam aur jagah shaamil ho. Keyword stuffing nahi, naturally padhne layak. Table format.

PROMPT 2 — ALT TEXT

Meri website ki ye photos hain: [har photo ka ek line description]. Har photo ke liye alt text likho — max 12 words, saaf, business ka naam jahan naturally aaye.

PROMPT 3 — WHATSAPP LINK

Mera WhatsApp number [number] hai (India). Iska click-to-chat link bana do, aur ek version jisme pehle se message ho: "[message]". Space ko sahi encode karna.

PROMPT 4 — FINAL REVIEW (screenshots attach karke)

Ye meri website ke mobile screenshots hain. Ek customer ki nazar se dekho: kya samajh nahi aaya, kya missing hai, koi aisi line jo misleading lage? Sirf problems aur sudhaar.

8 Prompt Ka Explanation

PROMPT KA HISSA	YE KYUN KAAM KARTA HAI
Character limits (60, 155)	Search results mein title/description katne se bachte hain — ye aam taur par use hone wali seemaen hain, Google ki pakki shart nahi.
"Keyword stuffing nahi"	Google ki spam policy ke khilaf hai — Prompt mein hi rok.
Prompt 3 — encode	Message wale link mein space ka galat format link tod deta hai.
Prompt 4 — customer ki nazar	Aapko apni website "sahi" lagti hai; naye insaan ki nazar galtiyan pakadti hai.

DHYAN DEIN

AI ka banaya WhatsApp link bhi **khud daba kar test** kijiye. Number mein ek ank ki galti — aur saare customer kisi aur ke paas.

9

Practical Example: Chamak Car Wash — Checklist Ke Nateeje

POINT	PEHLI JAANCH	KYA KIYA
WhatsApp sahi number	✗ Purana number	Naya number, Deepak se test message
Map sahi business par	✗ Doosri car wash	Google Maps se Chamak ka sahi share link
Photos kat nahi rahi	✗ Ek photo aadhi	Photo badli, mobile preview dobara
Page title	—	"Chamak Car Wash — Car Wash near Highway, [Sheher]"
Client ki manzoori	✓	Deepak ka WhatsApp: "Haan, live karo"

Fictional example.

10

Practice Task

Task 1: Apni draft website (Chapter 26) mein WhatsApp, Call aur Map buttons jodiye; Prompt 3 se link banaiye aur khud test kijiye.

Task 2: Prompt 1 aur 2 se SEO title, description aur alt text lagaiye.

Task 3: 20-point checklist chalaiye aur har galti theek kijiye.

Task 4: Practice website ho to publish kijiye (free option par); client ki ho to manzoori ke baad. Live link Drive ke "04 Portfolio" mein note kijiye.

11 Common Mistakes

GALTI	SAHI TAREEKA
WhatsApp link mein "+", 0 ya space	wa.me/91 + number, bina extra nishaan; khud test.
Map kisi aur business par	Google Maps se apne business ka share link.
Form mein zyada personal jaankari maangna	Naam, phone, sandesh — aur privacy line.
Title mein keywords ki bheed	Saaf title: naam + kaam + jagah.
Publish ke baad test nahi	2 phones, mobile data — dobara test.

12 Quick Checklist

- ☐ WhatsApp, Call aur Map buttons kaam karte hain — maine khud test kiya
- ☐ Form hai to usme kam jaankari aur privacy line hai
- ☐ Page title, description aur alt text lage hain
- ☐ 20-point checklist पूरी hai
- ☐ Publish ke baad 2 phones par dobara test hua

13 Chapter Summary

KEY TAKEAWAYS

- WhatsApp link: <https://wa.me/91XXXXXXXXXX> — bina +, 0, space; hamesha test.
- Call, Map aur form — sab khud daba kar check; form mein kam data + privacy line.
- SEO: saaf title, chhota description, alt text, koi keyword stuffing nahi, mobile theek.
- 20-point checklist, client ki manzoori, publish, dobara test.
- Website ka link Google profile, Instagram aur WhatsApp Business mein.

Next Step — Chapter 29: Google Business Profile aur Local Search

Website live hai. Lekin Chapter 24 mein humne dekha tha — local business ke liye Google Maps par sahi dikhna aksar sabse pehla aur sabse zaroori kadam hai. Agle chapter mein Glow Salon ke 40 bina-jawab reviews ki kahani, aur Google profile ko poora aur sahi banane ka tareeka.

IS CHAPTER KE SOURCES (LAST CHECKED: 21 SEPTEMBER 2026)

Google Search Central — SEO Starter Guide (title, meta description, alt text, keyword stuffing, mobile-first indexing) • WhatsApp Help Center — How to use click to chat (wa.me format) • MeitY — DPDP Rules 2025

29

Google Business Profile aur Local Search

Board sahi ho, to customer rasta khud dhoondh leta hai.

Chapter 28 mein aapki website live ho gayi — har button test karke. Lekin sach ye hai: ek local customer aksar aapki website tak pahunchta hi nahi. Wo phone uthata hai, likhta hai "salon near me", aur Google Maps par jo dikhta hai, wahin chala jaata hai. Chapter 24 mein humne ye baat shuru ki thi; is chapter mein hum us "Maps wale dukaan-board" ko poora, sahi aur zinda banayenge — aur website ka link bhi wahin jodenge.

1 Is Chapter Mein Kya Seekhenge

- 1 Google Business Profile kya hai aur kisko banana chahiye
- 2 Profile banana, sahi naam/category, aur video verification
- 3 Local ranking ke 3 factor — Google ke apne shabdon mein
- 4 Reviews ka jawab AI ki madad se, aur reviews ke niyam

2 Simple Explanation

Google Business Profile (pehle naam "Google My Business" tha) aapke business ka wo card hai jo Google Search aur Google Maps par dikhta hai — naam, address, timing, phone, photos, reviews aur website ka button. Iska account aap apne Google account se, mobile se hi bana sakte hain.

Website aapka "ghar" hai; Google profile aapka **sadak par laga board**. Board ke bina log ghar tak pahunchte hi nahi. Isliye local business ke liye aksar pehla kaam yahi hota hai.

EK LINE MEIN

Sahi jaankari + asli photos + har review ka jawab — yahi Google profile ki poori strategy hai. Koi shortcut ya "paid rank" nahi.

3 Kahani: 40 Bina-Jawab Reviews

Fictional kahani — Rahul, Neha ji aur "Glow Salon" is book ke fictional examples hain.

RAHUL

Glow Salon ki website ke baad Rahul ne Neha ji ka Google profile khola. Profile bana hua tha — kisi ne 3 saal pehle banaya tha. Timing purani thi (salon ab Monday band rehta hai, profile par khula dikh raha tha), sirf 2 dhundhli photos, aur **40 reviews — ek ka bhi jawab nahi.**

Ek 2-star review mein likha tha: "Monday ko gayi, salon band tha. Time waste." Neha ji ko pata hi nahi tha. "Main to sochti thi ye Google ka apna page hai, mera nahi," unhone kaha.

Rahul ne kaha, "Ye aapka hi board hai — bas chaabi aapke paas nahi thi." Profile claim karke verify kiya, timing theek ki, 12 asli photos daali. Phir har hafte 10 reviews ka jawab — AI se draft, Neha ji ki apni awaaz mein sudhaar ke.

Us 2-star wali customer ko jawab gaya: "Maafi chahte hain — Monday hum band rehte hain, aur Google par galat time tha. Ab theek kar diya hai. Agli baar aaiye, hum intezaar karenge. — Neha, Glow Salon"

"Reviews to pehle bhi aa rahe the," Neha ji boli, "bas ab koi sun raha hai."

4 Important Concepts

1. Kaun bana sakta hai profile?

Google ke niyam ke hisaab se profile un business ke liye hai jo customer se **aamne-saamne milte hain:**

TYPE	MATLAB	EXAMPLE
Storefront (dukaan)	Customer aapki jagah par aata hai — address dikhta hai	Glow Salon, Kulhad Corner, Sharma General Store
Service-area	Aap customer ke paas jaate ho — address chhupana hota hai, sirf area dikhte hain (Google ki salah: base se lagbhag 2 ghante ki drive se zyada nahi)	Ghar par AC repair, home tuition
Sirf online	Customer se kabhi aamne-saamne nahi — profile ke liye yogya nahi	Sirf online design service

DHYAN DEIN

Ghar se tiffin chalane wali Priya jaise business mein jahan customer ghar nahi aata, service-area profile ka vikalp hota hai — ghar ka address public mat kijiye.

2. Naam aur category — sabse aam galti

- **Naam** wahi jo board, website aur bill par hai. Google ke niyam mein naam ke saath tagline, phone number, ya keywords jodna mana hai. Glow Salon sahi; Glow Salon Best Bridal Makeup Cheap Rate galat.
- **Category** wo chuniye jo aapka business **hai**, jo cheez aapke paas **hai** wo nahi. Jitni kam categories, utna behtar.
- **Har jagah ek jaisa:** naam, address, phone — profile, website, Instagram, sab jagah same.

3. Verification — bina iske profile dikhega nahi

Google saaf kehta hai: verification poora hone ke baad hi customer aapka profile Google par dekh paate hain. Aajkal ek aam tareeka **video recording** hai:

Kya dikhana hai

Bahar ka board jisme business ka naam ho, aas-paas ki sadak/landmark, aur ye saboot ki aap hi business chalute ho (jaise counter, salon ki kursiyan, auzaar, dukaan kholna)

Kaise record karna hai

Mobile se, Business Profile ke andar se hi • kam se kam 30 second • ek hi baar mein, bina cut ya edit

Kya nahi dikhana

Bank account, tax ya ID number, aur doosre logon ki private jaankari

Kaunse verification tareeke milenge, ye business type aur jagah par depend karta hai — profile jo vikalp dikhaye, wahi use kijiye.

4. Local ranking ke 3 factor

Google ki help page ke mutabik local results teen cheezon par tay hote hain:

Relevance

Mel

Aapka profile search se kitna milta hai — isliye poori aur sahi jaankari

Distance

Doori

Search karne wale se aap kitne door ho — ye aapke haath mein nahi

Prominence

Pehchaan

Aap kitne jaane-maane ho — Google ke mutabik zyada reviews aur achhi ratings madad kar sakti hain

SCAM SE BACHIYE

Google khud likhta hai ki **behtar local ranking ke liye request karne ya paise dene ka koi tareeka nahi hai**. Jo "Google Maps par No.1 guarantee" bechta hai, usse door rahiye — aur aap bhi client se aisa vaada mat kijiye.

5. Reviews — jawab bhi, niyam bhi

Verify hone ke baad aap har review ka jawab de sakte hain. Jawab **public** hota hai aur customer ko notification jaati hai. Google jawab ko check karta hai — aam taur par kuch minute lagte hain, kabhi-kabhi zyada.

KAR SAKTE HAIN ✓	NAHI KAR SAKTE ✗ (GOOGLE POLICY)
Har customer se seedha poochhna: "Achha laga ho ya bura, Google par apna anubhav likhiye"	Review ke badle discount, free service, paisa ya gift
Bill ya WhatsApp message ke saath review link bhejna	Sirf khush customers se review maangna, naraaz walon ko chhod dena
Har review ka shaant, insaani jawab	Customer ko dukaan par hi khade karke review likhne ka dabav
Policy todne wale review ko report karna	Negative review likhne se rokna, ya naqli review likhwana

6. Posts aur photos

Profile par teen tarah ke post daal sakte hain: **Update** (khabar), **Offer** (deal, tarikh ke saath), **Event** (kaarykram). Asli photos — bahar se, andar se, kaam ke — sabse zyada bharosa banati hain.

AI KE SAATH SAVDHAANI

Google ki post guidelines "auto-generated" ya bekaar text se bachne ko kehti hain. Isliye AI sirf **draft** banaye; post mein asli tarikh, asli offer aur aapki apni bhasha ho — copy-paste robot jaisa text nahi.

5

Step-by-Step Mobile Process: Profile Ko Poora Karna

1

Pehle dhoondhiye

Google Maps mein business ka naam search kijiye. Profile pehle se hai to "Own this business?" / claim wala vikalp; nahi hai to naya banaiye.

2

Basic jaankari

Asli naam, sahi category, address (ya service area), phone, website link (Chapter 28).

3

Verification

Profile jo tareeka de. Video ho to pehle rehearsal kar lijiye: board → sadak → andar ka kaam, ek hi take mein.

4

Timing, chhuttiyan, services

Band ka din zaroor. Tyohaar par "special hours".

5

Description

Prompt 1 se draft, phir apne shabdon mein. Koi jhootha dawa ("sheher ka No.1") nahi.

6

10+ asli photos

Bahar ka board, andar, kaam, team (permission ke saath). Chapter 14 ka 3-Second Rule yahan bhi.

7

Purane reviews ka jawab

Pehle negative, phir baaki. Roz 5–10, Prompt 2 aur 3 se.

8

Review link share

Profile se review link copy karke WhatsApp message ya bill par — sab customers ko, bina kisi inaam ke.

9

Hafte ki aadat

Ek post, naye reviews ka jawab, timing check — 15 minute.

6

AI Tool Recommendation

Google Maps app / Business Profile (asli kaam), **aapka Chat AI** (description, review reply draft, post draft), **Canva** (post ki photo, Chapter 16). Voice mode wale Chat AI mein owner bol kar bhi jawab ki soch bata sakta hai — aap use saaf kar lijiye.

7

Copy-Paste Prompts**PROMPT 1 — BUSINESS DESCRIPTION**

Tum ek local business copywriter ho. Business: "[naam]", [type], [area, sheher]. Services: [list]. Khaas baat: [2-3 asli baatein]. Timing: [time]. Google Business Profile ke liye description likho — max 700 characters, simple Hinglish/English, koi jhootha dawa ya "No.1/best" nahi, koi phone number ya link nahi. 2 versions do.

PROMPT 2 — POSITIVE REVIEW KA JAWAB

Main [naam], "[business]" ka owner hoon. Ye reviews hain: [3-5 reviews paste]. Har ek ka chhota jawab likho (2-3 line) — customer ne jo khaas baat kahi, uska zikr ho; har jawab alag lage; koi copy-paste jaisa "Thanks for your review" nahi. Mera naam ant mein.

PROMPT 3 — NEGATIVE REVIEW KA JAWAB

Ye ek negative review hai: "[review]". Asli sach ye hai: [kya hua tha, aapki taraf se]. Ek shaant, izzatdaar public jawab likho: maafi jahan banti ho, sach bina behas ke, kya sudhaar kiya, aur baat aage badhane ke liye phone/WhatsApp par aane ka nimantran. Customer ko galat mat thehrao. Max 4 line.

PROMPT 4 — HAFTE KA POST

"[business]" ke Google profile ke liye is hafte ka [Update / Offer / Event] post likho. Asli jaankari: [kya naya hai, tarikh, shartein]. 2-3 line, ek saaf call-to-action. Koi bana hua offer ya tarikh mat jodna.

8 Prompt Ka Explanation

PROMPT KA HISSA	YE KYUN KAAM KARTA HAI
"Koi phone number ya link nahi" (P1)	Description mein ye cheezein Google ko pasand nahi; phone aur website ke apne khaane hain.
"Khaas baat ka zikr" (P2)	Ek jaise 40 jawab robot jaise lagte hain; customer ki apni baat se jawab asli lagta hai.
"Asli sach ye hai" (P3)	AI ko pata nahi kya hua; sach aap dete ho, AI sirf shabd sambhaalta hai.
"Bana hua offer mat jodna" (P4)	AI khud se "20% off" likh sakta hai — jo aapne diya hi nahi. Chapter 5 ka 4-step check yaad rakhiye.

DHYAN DEIN

Review ka jawab **public** hai — sab padhenge. Customer ka poora naam, phone, bill ki rakam ya koi private baat jawab mein kabhi mat likhiye.

9 Practical Example: Glow Salon — Pehle Aur Baad

CHEEZ	PEHLE	BAAD MEIN
Naam	"Glow Salon Best Bridal Parlour"	"Glow Salon" (board jaisa)
Timing	Monday khula dikh raha	Monday band; Diwali ke special hours
Photos	2 dhundhli	12 asli — board, andar, kaam
Reviews ka jawab	0 / 40	40 / 40, har jawab alag
Website	Link nahi	Chapter 28 wali website jodi
Review maangna	Kabhi nahi	Har customer ko WhatsApp par link — bina inaam

Fictional example. Profile sudharne se calls ya customer kitne badhenge, iski koi guarantee nahi — ye business, jagah aur competition par depend karta hai.

10 Practice Task

Task 1: Apne sheher ke 3 local business Google Maps par dekhiye. Har ek mein kya kami hai — timing, photos, jawab? Ek line mein note kijiye.

Task 2: Kisi ek business (apna, parivaar ka ya practice client) ke liye Prompt 1 se description banaiye aur apne shabdon mein sudhaariye.

Task 3: Us business ke 5 purane reviews par Prompt 2/3 se jawab draft kijiye — owner ki manzoori ke baad hi post.

Task 4: Neeche ki checklist se profile ka "health score" (10 mein se) nikaaliye aur Drive ke "04 Portfolio" mein pehle/baad ka screenshot rakhiye.

11 Common Mistakes

GALTI	SAHI TAREEKA
Naam mein keywords bhar dena	Wahi naam jo board par hai.
Review ke badle discount dena	Sab se seedha poochhiye — bina inaam, achha ho ya bura.
Har review ka ek hi copy-paste jawab	Customer ki khaas baat ka zikr, har jawab alag.
Negative review par behas	Shaant jawab, sudhaar batao, baat private le jao.
Ghar ka address public (service business)	Service-area chuniye, address chhupaiye.
"Maps par No.1" ka vaada	Google ke mutabik paid rank hai hi nahi — sirf sahi kaam ka vaada.

12 Quick Checklist

- ☐ Profile verified hai, naam board jaisa, category sahi
- ☐ Timing, band ka din aur website link sahi hai
- ☐ 10+ asli photos hain
- ☐ Har review ka jawab diya — private jaankari ke bina
- ☐ Review link sab customers ko, bina inaam ke
- ☐ Hafte mein 15 minute ki profile aadat tay hai

13 Chapter Summary

KEY TAKEAWAYS

- Google Business Profile local business ka "sadak par laga board" hai — aksar website se pehle dikhta hai.
- Asli naam, kam aur sahi categories; verify hone ke baad hi profile dikhta hai.
- Ranking: Relevance, Distance, Prominence — paise dekar rank nahi milti.
- Har review ka alag, insaani jawab; review ke badle inaam ya chun-chun kar maangna mana.
- AI draft banata hai; sach, offer aur aakhri shabd aapke.

Next Step — Chapter 30: Project 3 — Local Business Website

Part VI ka aakhri chapter aur teesra bada project. Chapter 24 se 29 tak ki har cheez — plan, content, builder, buttons, SEO aur Google profile — ek saath jod kar ek local business ki poori online presence banayenge, jo aapke portfolio ka sabse mazboot hissa banegi.

IS CHAPTER KE SOURCES (LAST CHECKED: 21 SEPTEMBER 2026)

Google Business Profile Help — Add or claim your Business Profile • Guidelines for representing your business on Google (naam, category, service area) • Verify your business with a video recording • Tips to improve your local ranking on Google • Read & reply to reviews • Create posts on your Business Profile • Maps User Contributed Content Policy — Fake engagement

30

Project 3: Local Business Website

Website bana dena aadha kaam hai; chaabi maalik ke haath mein dena poora.

PROJECT 3 Is chapter mein aap ek local business ki poori online presence banayenge — brief se lekar website, Google profile aur owner ko handover tak. Ye aapke portfolio ka sabse mazboot project banega.

Part VI mein aapne ek-ek eent rakhi: website ki samajh (Chapter 24), kaagaz par plan (Chapter 25), builder (Chapter 26), optional coding (Chapter 27), buttons, SEO aur publish (Chapter 28), aur Google profile (Chapter 29). Ab un eenton se **poora ghar** banane ka waqt hai — ek hi project mein, shuru se aakhir tak. Aur ek naya hissa jodenge jo aksar beginner bhool jaate hain: **kaam ko owner ke haath mein saunpna**.

1 Is Chapter Mein Kya Seekhenge

- 1 7-stage project roadmap — Part VI ek nazar mein
- 2 10-sawal ka Website Brief
- 3 Handover Kit — accounts, passwords aur owner ki guide
- 4 Maintenance aur portfolio ke liye imaandaar Case Study

2 Simple Explanation

Ek local business ki online presence ke teen hisse hain: **website** (ghar), **Google Business Profile** (sadak ka board), aur **WhatsApp** (darwaaza jahan baat hoti hai). Project 3 mein ye teeno ek-dosre se jude honge — website par WhatsApp button, Google profile par website ka link, aur har jagah ek hi naam, number aur timing.

Project tab poora nahi hota jab website live ho jaaye. Project tab poora hota hai jab **owner khud** use chala sake — uske accounts uske naam par hon, aur use pata ho ki timing kaise badalni hai.

3 Kahani: "Password Kiske Paas Hai?"

Fictional kahani — Rahul, Imran bhai, Deepak aur "Chamak Car Wash" is book ke fictional examples hain.

RAHUL

Chamak Car Wash ki website live thi, Google profile theek tha. Rahul khush hokar Imran bhai ko dikhane gaya. Imran bhai ne website dekhi, phir ek hi sawal poochha: "Domain kiske naam par hai? Aur agar kal tu Pune chala gaya, to Deepak timing kaise badlega?"

Rahul chup ho gaya. Domain uske apne email par tha. Builder ka password sirf uske phone mein. Deepak ko ye tak nahi pata tha ki website kis app mein bani hai.

"Website bana dena aadha kaam hai," Imran bhai bole. "Poora kaam tab hai jab chaabi maalik ke haath mein ho. Warna tumne dukaan nahi banayi — dukaan par taala laga kar chaabi apni jeb mein rakh li."

Agle din Rahul ne Deepak ke saath baith kar domain aur builder ka account Deepak ke email par kiya, Google profile mein Deepak ko hi owner rakha, aur ek page ki "Website Guide" banayi — Roman Hindi mein, screenshots ke saath. Phir Deepak se khud timing badalwa kar dekha. Deepak ne 2 minute mein kar liya.

Ek mahine baad Deepak ka WhatsApp aaya: "Rahul bhai, Diwali ki chhutti website par daal di, khud se. Aur ek dost ko bhi website chahiye — tumhara number de diya."

1. 7-stage roadmap — kya, kahan se, kya nikalna chahiye

STAGE	CHAPTER	OUTPUT (YE HAATH MEIN HONA CHAHIYE)
1. Brief	30 (neeche)	10 sawal ke jawab, owner se confirm
2. Plan	24, 25	Goal, pages ki list, mobile wireframe
3. Content	25, 20	Google Doc: har section ka text, asli photos ka folder, rates owner se
4. Build	26 (ya 27)	Builder mein draft website
5. Test + Publish	28	20-point checklist पूरी, owner ki manzoori, live link
6. Google Profile	29	Verified profile, website link, photos, reviews ke jawab
7. Handover	30 (neeche)	Accounts owner ke naam, Website Guide, maintenance plan

2. Website Brief — 10 sawal

Chapter 17 mein poster ke liye brief banaya tha. Website ka brief thoda bada hai. Owner se 15-20 minute baat, aur ye 10 jawab likh lijiye:

1 Business ka poora naam (board jaisa)?

2 Kya bechte ho — top 3-5 services/products?

3 Customer kaun hai, kahan se aata hai?

4 Website se sabse zaroori ek kaam? (WhatsApp, call, visit)

5 WhatsApp aur call ka number?

6 Address, timing, chhutti ka din?

7 Rates dikhane hain? Kaunse, owner ke confirm kiye hue?

8 Asli photos kaun dega, kab tak?

9 Rang ya logo pehle se hai? (Chapter 18 kit)

10 Domain/account kiske email par banega?

SAWAL 10 SABSE PEHLE

Account banane se **pehle** tay kijiye ki kiske email par banega. Baad mein transfer karna mushkil ho sakta hai — aur kuch services mein uske alag niyam hote hain.

3. Handover Kit — chaabi maalik ko

CHEEZ	SAHI TAREEKA
Domain	Owner ke naam aur email par. Renewal ki tarikh owner ko pata ho.
Website builder account	Owner ke email par. Aapko zaroorat ho to builder ka "team/collaborator" jaisa access, agar builder deta ho.
Google Business Profile	Owner hi owner rahe. Aapko alag se manager access mil sakta hai — poori ownership nahi.
Passwords	Owner ke paas, surakshit jagah par (Chapter 49 mein password safety). Chat mein khule password mat bhejiye.
Website Guide	1-2 page, Roman Hindi mein, screenshots ke saath: timing badalna, photo badalna, offer daalna, aapka contact.
Files	Photos, logo, text ka Google Doc — owner ke Drive folder mein bhi copy.

BHAROSE KA NIYAM

Client ka domain ya account apne naam par rakh kar use "baandh" kar rakhna galat hai — aur ek din aapki reputation ko nuksaan pahunchayega. Saaf kaam hi aage referral laata hai.

4. Maintenance — mahine mein 15 minute

- **Timing, rate, offer** — sab abhi bhi sahi?
- **WhatsApp aur call button** — ek baar daba kar dekhiye.
- **Google profile** — naye reviews ka jawab, ek post, nayi photos.
- **Renewal** — domain aur plan ki agli tarikh calendar mein.

Ye kaam owner khud kar sakta hai (Website Guide se), ya aap mahine ki fees par kar sakte hain — ye aapas mein tay kijiye. Monthly service ki pricing Chapter 44 mein.

5. Case Study — portfolio ke liye, sirf sach

Project ke baad ek page ka case study banaiye. Format:

Business	Problem	Kya banaya	Pehle / Baad	Nateeja
Kaun, kya karta hai	Pehle kya kami thi	Website, profile, buttons	Screenshots	Sirf jo sach mein hua

NATEEJA LIKHNE KA NIYAM

"Sales 3 guna ho gayi" tabhi likhiye jab owner ne khud bataya ho aur wo likhne ki permission de. Warna sirf wahi jo aap dikha sakte ho: "Website live, Google profile verified, 40/40 reviews ka jawab." Client ka naam aur screenshots use karne ki **permission** zaroor lijiye; practice project ho to saaf likhiye "**Demo / Practice Project**".

5 Step-by-Step Mobile Process: 7 Din Ka Project Plan

Ye ek suggested plan hai. Aapki speed, owner kitni jaldi photos aur jawab deta hai, aur internet — in sab par depend karega. Do din lag jaayein ya do hafte, dono theek hain.

1 Din 1 — Brief

Owner se 10 sawal; jawab Google Doc mein; sawal 10 (email) pehle tay.

2 Din 2 — Plan

Pages, sections aur mobile wireframe (Chapter 25). Owner ko dikha kar haan lijiye.

3 Din 3 — Content

Prompt 2 se text draft, owner se rate aur details confirm; asli photos ikattha.

4 Din 4 — Build

Builder mein draft (Chapter 26), owner ke email wale account mein.

5 Din 5 — Test + Publish

20-point checklist, owner ki likhit manzoori, publish, 2 phones par test (Chapter 28).

6 Din 6 — Google Profile

Claim/verify, website link, photos, purane reviews ke jawab (Chapter 29).

7 Din 7 — Handover

Handover Kit, Website Guide (Prompt 3), owner se ek badlaav khud karwa kar dekhiye. Phir case study (Prompt 4).

6 AI Tool Recommendation

Koi naya tool nahi — Part VI ka poora toolkit: **Chat AI** (brief se plan, text, guide, case study), **website builder** (Chapter 26), **Canva** (logo/photos ka size, case study page), **Google Maps / Business Profile**, **Google Docs aur Drive** (brief, content, handover files), **WhatsApp** (test aur owner se baat).

7 Copy-Paste Prompts

PROMPT 1 — BRIEF SE WEBSITE PLAN

Tum ek local business website planner ho. Ye owner ke saath bana brief hai: [10 sawal ke jawab paste].

Iske hisaab se ek mobile-first, 1-page (ya zaroorat ho to 3-page) website ka plan do: sections ka kram, har section mein kya jayega, aur main button kya hoga. Jo jaankari brief mein nahi hai, use khud mat bharo — "Owner se poochhna hai" likho.

PROMPT 2 — SECTION-WISE TEXT

Upar wale plan ke har section ke liye website text likho — simple Hinglish, chhote vaakya, mobile par padhne layak. Sirf brief ki jaankari use karo. Rates, reviews, "No.1" ya numbers mat banao; jahan zaroorat ho wahan [OWNER SE CONFIRM] likho.

PROMPT 3 — OWNER KE LIYE WEBSITE GUIDE

Meri client [naam], "[business]" ki owner hain; technical nahi hain. Website [builder ka naam] par bani hai. Unke liye ek page ki guide likho, Roman Hindi mein, bahut simple: (1) timing badalna (2) photo badalna (3) offer ka section update karna (4) Google profile par review ka jawab. Har kaam 3-5 steps mein. Jahan builder ke button ka exact naam pata na ho, wahan [SCREENSHOT] likho — main khud screenshot lagaunga.

PROMPT 4 — CASE STUDY DRAFT

Mere portfolio ke liye ek case study likho. Business: [kaun]. Problem: [pehle kya tha]. Maine kya kiya: [list]. Nateeja: [sirf jo sach mein hua / owner ne bataya]. Format: Business → Problem → Kya banaya → Nateeja → Maine kya seekha. 150-200 shabd. Koi number ya dawa mat jodo jo maine nahi diya. [Practice project ho to: ise "Demo Project" ke roop mein likho.]

8 Prompt Ka Explanation

PROMPT KA HISSA	YE KYUN KAAM KARTA HAI
"Khud mat bharo — Owner se poochhna hai" (P1)	AI khaali jagah andaaze se bhar deta hai. Is line se kami saaf dikhti hai, chhupti nahi.
[OWNER SE CONFIRM] (P2)	Publish se pehle ye tags search karke dhoondh sakte ho — koi andaaza live nahi jaata.
[SCREENSHOT] (P3)	AI ko aapke builder ke naye buttons ka naam pata ho, zaroori nahi. Galat step se owner atak jayega; asli screenshot se nahi.
"Koi number ya dawa mat jodo" (P4)	Portfolio mein ek jhootha number aapki पूरी imaandaari par sawal bana deta hai.

DHYAN DEIN

Publish se pehle पूरी website mein "[" search kijiye. Ek bhi [OWNER SE CONFIRM] ya [SCREENSHOT] bacha, to website abhi taiyaar nahi.

9 Practical Example: Chamak Car Wash — Project 3 Final

CHAMAK CAR WASH

Gaadi Chamkegi, Ek Ghante Mein

Highway ke paas • Subah 8 se raat 8 •
Tuesday band

WhatsApp Karein

Services
Basic Wash • Foam Wash • Interior
Cleaning • Full Detailing

Rate
Owner ke confirm kiye rate (yahan placeholder)

Location
Map • Call • Google Reviews dekhein

Project 3 — kya-kya bana

- **Website:** 1-page, mobile-first, ek main button (WhatsApp)
- **Buttons:** WhatsApp, Call, Map — 2 phones par test
- **SEO:** title, description, alt text
- **Google profile:** verified, website link, 12 asli photos
- **Reviews:** Google profile ka link — website par koi naqli review nahi
- **Handover:** domain + builder Deepak ke email par, 1-page Website Guide
- **Test:** Deepak ne khud timing badal kar dekhi
- **Case study:** Deepak ki permission se portfolio mein

10 Practice Task — Project 3

Business chuniye: parivaar ya dost ka local business (unki permission ke saath), ya ek **fictional** business — us case mein har jagah "Demo Project" likhiye.

Task 1: 10-sawal ka brief bharwaiye aur Google Doc mein rakhiye.

Task 2: 7-din plan follow karke website banaiye aur publish kijiye (free option chalega).

Task 3: Real business ho to Google profile (Chapter 29); fictional ho to profile ka plan Doc mein likhiye — naqli profile mat banaiye.

Task 4: Prompt 3 se Website Guide banaiye, apne screenshots lagaiye.

Task 5: Prompt 4 se case study; sab kuch Drive ke "04 Portfolio / Project 3" folder mein.

PROJECT 3 POORA TAB MAANIYE JAB

Live link khulta hai • 20-point checklist ✓ • owner ne manzoori di (ya "Demo" label hai) • accounts owner ke naam par • Website Guide bani • case study mein koi jhootha number nahi.

11 Common Mistakes

GALTI	SAHI TAREEKA
Brief ke bina seedha builder kholna	Pehle 10 sawal — phir design.
Domain/account apne email par	Shuru se owner ke email par.
[OWNER SE CONFIRM] tags live chale gaye	Publish se pehle "[" search.
Fictional business ka naqli Google profile	Google profile sirf asli business ka; demo ka sirf plan.
Case study mein andaaze ke numbers	Sirf sach, owner ki permission ke saath.
Handover ke baad gayab	Ek mahine baad ek check-in message.

12 Quick Checklist

- ☐ Brief ke 10 jawab owner se confirm hain
- ☐ Website live, 20-point checklist पूरी
- ☐ Website, Google profile aur WhatsApp — naam, number, timing ek jaise
- ☐ Domain aur accounts owner ke naam/email par
- ☐ Website Guide owner ke पास; usne ek badlaav khud kiya
- ☐ Case study bani — sirf sach, permission ya "Demo" label ke saath

13 Chapter Summary

KEY TAKEAWAYS

- Online presence = website + Google profile + WhatsApp, teeno jude hue.
- 7 stage: Brief → Plan → Content → Build → Test + Publish → Google Profile → Handover.
- Account kiske email par banega — ye sabse pehle tay kijiye.
- Project tab poora jab owner khud chala sake: Handover Kit + Website Guide.
- Case study mein sirf sach; practice ho to "Demo Project".

PART VI COMPLETE

AI Se Website aur Local Online Presence — aapne kya haasil kiya

Ch 24

Domain, hosting, landing page ki samajh

Ch 25

Kaagaz par plan aur wireframe

Ch 26

No-code AI builder se website

Ch 27

AI-assisted coding (optional)

Ch 28

Buttons, SEO, test aur publish

Ch 29

Google Business Profile aur reviews

Ch 30

Project 3: पूरी online presence + handover

Portfolio

Project 1 · Branding Kit · Project 2 · Project 3

Ab aap ek local business ko wo de sakte ho jo sabse zyada kaam aata hai: **Google par sahi dikhna aur ek tap mein baat karna**. Note mein likhiye: *"Part VI khatam — ab main ek local business ki website bana kar, Google profile theek karke, owner ko saunp sakta/sakti hoon."*

Next Step — Part VII, Chapter 31: eBook Idea, Target Reader aur Outline

Ab tak aapne doosron ke business ke liye kaam kiya — poster, content, website. Part VII mein ek naya raasta: **apna digital product**. Priya ki kahani wapas aayegi —

"Priya Ki Rasoi" ka tiffin chal raha hai, aur log poochhte hain, "Aap ye sab kaise sambhalti ho?" Kya ye sawal ek eBook ban sakta hai? Pehle 10 logon se poochh kar dekhenge.

PART VII

07

AI Se eBook aur Digital Products

Idea se PDF tak apni eBook, aur templates, checklists aur prompt packs jaise chhote digital products — banana, check karna aur bechna.

Chapter 31 – 35

31

eBook Idea, Target Reader aur Outline

Pehle padhne wala, phir problem, phir kitaab.

Part VI mein aapne doosron ke business ko online laane ka hunar seekha. Lekin Chapter 30 ke end mein ek sawal chhoda tha: log Priya se poochhte hain, "Aap ye sab kaise sambhalti ho?" Jab log baar-baar ek hi sawal poochhein, to wo sawal ek **product** ban sakta hai. Part VII isi ke baare mein hai — apna digital product. Aur shuruaat hogi likhne se nahi, **sunne** se.

1 Is Chapter Mein Kya Seekhenge

- | | |
|--|--|
| <p>1 eBook ka idea kahan se aata hai — Problem → Solution formula</p> | <p>2 Target Reader Card — kiske liye likh rahe ho</p> |
| <p>3 10 logon se baat karke idea check (validate) karna</p> | <p>4 8–12 chapter ka outline — AI ki madad se</p> |

2 Simple Explanation

Digital product wo cheez hai jo file ya link ke roop mein bikti hai — eBook, template, checklist, prompt pack. Ise ek baar banaya jaata hai aur kai logon tak pahunchaya ja sakta hai. **eBook** ek PDF kitaab hai jo kisi ek khaas problem ka hal deti hai.

Beginner ki sabse badi galti: pehle 50 page likh dena, phir sochna ki kaun padhega. Sahi kram ulta hai — **pehle padhne wala, phir uski problem, phir kitaab**. Is chapter mein ek bhi page nahi likhna hai; sirf idea pakka karna hai aur outline banana hai.

SACHCHI BAAT

eBook se kamaai ki koi guarantee nahi. Kai eBooks ek bhi copy nahi bikti — aksar isliye ki wo kisi asli problem ko hal nahi karti. Ye chapter usi khatre ko kam karne ke liye hai.

3 Kahani: Recipe Book Ya Kuch Aur?

Fictional kahani — Priya, Imran bhai aur "Priya Ki Rasoi" is book ke fictional examples hain.

PRIYA

Priya Ki Rasoi ka tiffin ab 8 mahine se chal raha tha. Priya ne socha, "Meri recipes sab ko pasand hain — ek recipe book likhti hoon." Usne AI se 20 recipes ka outline bhi bana liya.

Imran bhai ne kaha, "Likhne se pehle 10 logon se baat karo. Aur unse ye mat poochhna ki 'meri book kharidoge?' — sab haan bol denge. Ye poochhna ki unhe **kis cheez mein dikkat** aati hai."

Priya ne 10 logon se baat ki — 4 customers, 3 mohalle ki auratein jo khud tiffin shuru karna chahti thi, 2 college students, 1 cousin. Recipes ke baare mein sirf 2 logon ne poochha. Baaki 7 ke sawal kuch aur the: "Pehle 10 customer kaise mile?" "Rate kitna rakhein?" "Packaging kya lein?" "Roz ka hisaab kaise rakhein?"

Priya hairan thi. "Log meri **recipe** nahi, mera **tareeka** jaanna chahte hain." Usne recipe book ka idea chhoda aur naya idea likha: "**Ghar Se Tiffin Business Ki Shuruaat**".

"Agar main apne man se likhti," Priya boli, "to wo kitaab likhti jo sirf mujhe pasand thi."

4 Important Concepts

1. Idea kahan se aaye — 3 jagah

Log aapse kya poochhte hain?

Jo sawal baar-baar aata hai, wahi sabse achha idea hai.

Aapne kya mushkil se seekha?

Jo galtiyan aapne ki, wo doosron ka time bacha sakti hain.

Aap roz kya karte ho?

Aapka kaam, hunar ya shauk — jisme aap doosron se ek kadam aage ho.

Expert hona zaroori nahi. Beginner ke liye sabse achha likhne wala aksar wo hota hai jo khud **abhi-abhi** us raaste se guzra hai.

2. Problem → Solution formula

Har idea ko is ek line mein likh kar dekhiye. Agar line nahi banti, to idea abhi dhundhla hai:

Ye eBook **[kaun]** ke liye hai, jo **[kya problem]** se pareshaan hai. Padhne ke baad wo **[kya kar paayega]**.

DHUNDHLA IDEA ✗	SAAF IDEA ✓
"Cooking ki book"	Ghar se tiffin shuru karna chahne wali auraton ke liye — pehle 10 customer, rate aur roz ka hisaab
"Fitness tips"	Office jaane walon ke liye — gym ke bina, ghar par 20 minute ka routine (Vikram jaise trainer ke anubhav se)
"Canva sikho"	Chhote dukaandaron ke liye — mobile par Canva se tyohaar ke poster, 30 minute mein

3. Target Reader Card

Ek asli jaisa insaan sochiye jiske liye aap likh rahe ho. Uska card banaiye:

TARGET READER CARD		
Kaun? Umar-ka-daur, kaam, sheher/gaon	Problem kya hai? Uske apne shabdon mein	Abhi tak kya try kiya? YouTube, dost, kuch nahi?
Kya chahta hai? Book ke baad kya badle	Kaunsi bhasha? Hindi, Hinglish, English; simple ya technical	Kitna padh sakta hai? 20 page ya 100? Mobile par ya print?

4. Validation — 10 logon se baat

Validation matlab likhne se pehle check karna ki problem asli hai. Sabse aasaan tareeka: apne target reader jaise 10 logon se 10-10 minute baat (call, WhatsApp voice note, ya aamne-saamne).

AISE POOCHHIYE ✓	AISE MAT POOCHHIYE ✗
"[Kaam] mein sabse zyada dikkat kahan aayi?"	"Meri book kharidoge?" (sab haan bolenge)
"Pichhli baar jab ye problem aayi, aapne kya kiya?"	"Achha idea hai na?"
"Iske liye kabhi kuch khareeda ya seekha? Kya kami thi?"	"Aapko ye chahiye hoga, right?"
"Agar ek cheez jaadu se theek ho jaaye, to kya?"	Apna idea 5 minute tak samjhana

SUNNE KA NIYAM

Baat mein aap kam boliye, wo zyada. Unke **shabd waise ke waise** note kijiye — yahi shabd baad mein aapki book ke title, chapters aur product page mein kaam aayenge.

5. Idea Score — 4 sawal, 1 se 5 number

SAWAL	KAISE NUMBER DEIN
Dard: problem kitni chubhti hai?	10 mein se kitne logon ne khud ye problem boli
Anubhav: kya aapne ye khud kiya/jheela hai?	Sirf padha = 1 · khud kiya = 5
Pahunch: kya aap aise logon tak pahunch sakte ho?	WhatsApp, Instagram, mohalla, college
Samay: kya 30 din mein pehla draft ho sakta hai?	Chhota aur saaf = 5

20 mein se 14+ ho to idea aage badhane layak hai. Ye koi vigyaan nahi — sirf ek simple tareeka hai jisse aap apne ideas ki tulna kar sakein.

6. Outline — shuru, beech, nateeja

Achha outline reader ko ek safar par le jaata hai: jahan wo abhi hai, wahan se jahan wo pahunchna chahta hai.

Shuru Chapter 1–2 Reader ki haalat samjhiye, darr door kijiye, pehla chhota kadam	Beech Chapter 3–8 Ek-ek karke asli kaam — har chapter ek problem hal kare	Nateeja Chapter 9–10+ Sab jodna, agla kadam, checklist
--	--	---

8 se 12 chapters kaafi hain. Har chapter ka title ek **kaam** ya **nateeja** bataye — "Packaging" se behtar hai "Kam kharche mein packaging jo leak na ho".

5

Step-by-Step Mobile Process: Idea Se Outline Tak

1

3 ideas likhiye

Google Doc "eBook Idea" banaiye. 3 jagah (Concept 1) se 3 ideas — Prompt 1 madad karega.

2 Formula mein daaliye

Har idea ki Problem → Solution line. Jo line na bane, use abhi chhod dijiye.

3 Target Reader Card

Top idea ke liye card (Prompt 2 se draft, phir apni samajh se theek).

4 10 logon se baat

Prompt 3 ke sawal. Jawab unke shabdon mein Doc mein. 3-5 din lag sakte hain — jaldi mat kijiye.

5 Pattern dhoondhiye

Notes AI ko dijiye (naam hata kar): kaunsi problem sabse zyada aayi? (Prompt 4)

6 Idea Score

4 sawal, 20 mein se number. Zaroorat ho to idea badaliye — Priya ki tarah.

7 Kya pehle se hai? (Research)

Perplexity ya Google par dekhiye is vishay par kya uplabdh hai. Copy nahi — **kami** dhoondhiye (Prompt 5).

8 Outline

Prompt 6 se 8-12 chapter ka outline; phir 10 logon ke sawal se milaiye — har bada sawal kisi chapter mein hai?

6 AI Tool Recommendation

TOOL	KAAM
Aapka Chat AI	Ideas, reader card, interview sawal, notes ka pattern, outline
Perplexity (optional)	Research — jawab ke saath source links (Chapter 5, 13). Na ho to Google Search.
Google Docs	"eBook Idea" Doc — ideas, interview notes, outline ek jagah
WhatsApp	10 logon se baat — voice note bhi chalega

7 Copy-Paste Prompts

PROMPT 1 — MERE ANUBHAV SE eBook IDEAS

Main [aapka kaam/hunar/anubhav] karta/karti hoon. Log mujhse aksar ye poochhte hain: [2-3 sawal]. Maine ye cheez mushkil se seekhi: [1-2 baatein]. Inke aadhaar par 5 eBook ideas do. Har idea is format mein: "Ye eBook [kaun] ke liye hai, jo [problem] se pareshaan hai. Padhne ke baad wo [nateeja] kar paayega." Sirf wahi ideas jo mere anubhav se jude hon.

PROMPT 2 — TARGET READER CARD

Mera eBook idea: [formula wali line]. Iske target reader ka ek card banao: kaun hai, problem uske apne shabdon mein, abhi tak kya try kiya, kya chahta hai, kaunsi bhasha, kitna padh sakta hai. Jahan tum andaaza laga rahe ho, wahan " (andaaza – confirm karna hai)" likho.

PROMPT 3 — INTERVIEW KE SAWAL

Main [target reader] se 10 minute baat karke check karna chahta/chahti hoon ki [problem] asli hai. Mujhe 6 sawal do jo unke **pichhle anubhav** ke baare mein hon – "kya aap kharidoge" ya "achha idea hai na" jaise sawal nahi. Simple Hinglish mein.

PROMPT 4 — NOTES SE PATTERN

Ye 10 logon se baat ke notes hain (naam hata diye hain): [notes paste]. Batao: (1) kaunsi problems sabse zyada baar aayi, ginti ke saath (2) logon ne kaunse shabd baar-baar use kiye (3) kya koi aisi baat hai jo mere idea se alag disha dikhati hai. Sirf notes ke aadhaar par – apni taraf se kuch mat jodo.

PROMPT 5 — KAMI DHOONDHNA (Perplexity / web search wala AI)

"[vishay]" par Hindi ya Hinglish mein kaunsi books, courses ya free guides uplabdh hain? Har ek ka source link do. Phir batao ki beginner ke liye kaunse hisse aksar chhoot jaate hain.

PROMPT 6 — OUTLINE

Idea: [formula line]. Target reader: [card]. 10 logon ki top problems: [list]. 8–12 chapter ka outline banao – Shuru (reader ki haalat, pehla kadam) → Beech (har chapter ek problem hal kare) → Nateeja (sab jodna, checklist). Har chapter: title (kaam ya nateeja batane wala) + 2 line mein kya seekhega. Table format.

8 Prompt Ka Explanation

PROMPT KA HISSA	YE KYUN KAAM KARTA HAI
"Sirf mere anubhav se jude" (P1)	Warna AI trending par generic ideas deta hai — jin par aap likh to loge, par aapki kitaab nahi hogi.
"(andaaza — confirm karna hai)" (P2)	AI ka reader card sirf andaaza hai; asli card 10 logon se baat ke baad banta hai.
"Pichhle anubhav ke sawal" (P3)	Log bhavishya ke baare mein galat andaaza lagate hain, par jo ho chuka wo sach batate hain.
"Naam hata diye" / "kuch mat jodo" (P4)	Logon ki privacy; aur AI apni kalpana notes mein na mila de.
"Source link do" (P5)	Research AI bhi galat ho sakta hai — links khud khol kar dekhiye (Chapter 5).

DHYAN DEIN

AI 10 logon ki jagah nahi le sakta. "Imagine karo tum 10 customers ho aur jawab do" — ye validation nahi, kalpana hai. Asli insaan, asli jawab.

9 Practical Example: Priya Ka Idea Card Aur Outline

Ye eBook **ghar se tiffin shuru karna chahne walon** ke liye hai, jo **pehle customer, rate aur hisaab ko lekar confuse hain**. Padhne ke baad wo **30 din mein pehle 10 paying customers tak pahunchne ka plan bana paayenge**.

#	CHAPTER	10 LOGON MEIN SE KISKA SAWAL
1	Kya tiffin business aapke liye hai?	"Kya main kar paaungi?" (3 log)
2	Menu: kam dishes, zyada bharosa	"Roz kya banaun?" (2)
3	Rate kaise tay karein — kharcha + mehnat	"Rate kitna rakhein?" (6)
4	Kam kharche ki packaging jo leak na ho	"Packaging kya lein?" (4)
5	Registration aur saaf-safai — official jaankari kahan se	"License chahiye?" (3)
6	Pehle 10 customer — mohalla, office, WhatsApp	"Customer kaise milein?" (7)
7	Roz ka hisaab — ek simple sheet	"Hisaab kaise rakhein?" (5)
8	Delivery, time aur shikayatein	"Late ho jaaye to?" (2)
9	Pehla mahina — 30 din ka plan	—
10	Meri 10 galtiyan (taaki aap na karein)	—

Fictional example. Idea Score: Dard 5, Anubhav 5, Pahunch 4, Samay 4 = 18/20. Ginti Priya ki kahani ke 10 fictional logon ki hai.

10 Practice Task

Task 1: Prompt 1 se ideas lijiye; unme se 3 chuniye aur formula line likhiye.

Task 2: Teenon ko Idea Score dijiye (abhi andaaze se); top idea ka Target Reader Card banaiye.

Task 3: Kam se kam 5 logon se baat kijiye (10 ho sakein to aur achha) — Prompt 3 ke sawal, unke shabdon mein notes.

Task 4: Prompt 4 se pattern, phir Idea Score dobara; Prompt 6 se 8–12 chapter ka outline. Sab "eBook Idea" Doc mein, Drive ke "AI Business" mein ek naya folder "07 Products" banaiye (Chapter 13 wale 6 folders ke baad), usme rakhiye.

11 Common Mistakes

GALTI	SAHI TAREEKA
Pehle poori book likh dena	Pehle 10 log, phir outline, phir likhna.
"Sabke liye" book	Ek saaf target reader — card ke saath.
"Kharidoge?" poochhna	Pichhle anubhav aur dikkat ke sawal.
AI se "naqli" interview	Asli log; AI sirf notes ka pattern nikaale.
Trending vishay jisme anubhav nahi	Wo vishay jisme aap ek kadam aage ho.
Doosre ki book ka outline copy	Research se kami dhoondhiye, copy nahi.

12 Quick Checklist

- ☐ Idea ek Problem → Solution line mein likha hai
- ☐ Target Reader Card bana hai
- ☐ Kam se kam 5 (behtar 10) logon se baat hui, notes unke shabdon mein
- ☐ Idea Score 20 mein se nikala
- ☐ 8–12 chapter ka outline — har bada sawal kisi chapter mein

13 Chapter Summary

KEY TAKEAWAYS

- Pehle padhne wala, phir problem, phir kitaab.
- Idea ke 3 srot: log kya poochhte hain, aapne kya mushkil se seekha, aap roz kya karte ho.
- Validation = 10 asli logon se pichhle anubhav ke sawal — "kharidoge?" nahi.
- Outline: Shuru → Beech → Nateeja, 8–12 chapters, har title ek kaam/nateeja.
- AI ideas, sawal, pattern aur outline mein madad karta hai; logon ki jagah nahi leta.

Next Step — Chapter 32: AI-Assisted Writing, Editing aur Fact-check

Outline taiyaar hai. Ab likhna hai — aur yahin sabse bada jaal hai. Priya ne AI se pehla chapter likhwaya: shabd sundar the, lekin kitaab "uski" nahi lag rahi thi. Agle chapter mein AI draft ko apne anubhav, apni galtiyan aur apni awaaz se "apna" banana, editing, aur fact-check.

32

AI-Assisted Writing, Editing aur Fact-check

AI khaali page ka darr mitata hai; kitaab aap likhte ho.

Chapter 31 mein Priya ne recipe book ka idea chhoda aur 10 logon ki baat sun kar "Ghar Se Tiffin Business Ki Shuruaat" ka outline banaya. Ab asli kaam: likhna. Aur yahan AI sabse bada madadgaar bhi hai aur sabse bada jaal bhi. Wo 10 minute mein poora chapter likh deta hai — lekin wo chapter **kisi ka bhi** ho sakta hai. Is chapter mein hum AI ke draft ko **aapki kitaab** banayenge, use saaf karenge, aur har fact ko check karenge.

1 Is Chapter Mein Kya Seekhenge

- 1 5-step writing workflow: Brief → Draft → Apna Banao → Edit → Check
- 2 "Apna Banao" layer — kahani, anubhav, galtiyan, awaaz
- 3 3-pass editing — mobile par
- 4 Fact-check aur originality check — ek asli example ke saath

2 Simple Explanation

AI ek tez typist hai jisne duniya bhar ki kitaabein padhi hain — par aapki zindagi nahi dekhi. Isliye uska draft **sahi lagta hai, par khaali hota hai**: "Customer satisfaction bahut zaroori hai", "Quality par dhyan dein" — aisi baatein jo har kitaab mein hain.

Reader aapki kitaab isliye khareedta hai kyunki usme wo hai jo kahin aur nahi: **aapka anubhav**. Aapki pehli galti, aapka rate kaise tay hua, aapke pehle customer ki baat. AI dhaancha deta hai; jaan aap daalte ho (Chapter 26 wali baat, yahan bhi).

3 Kahani: "Ye Meri Kitaab Nahi Lagti"

Fictional kahani — Priya, Imran bhai aur "Priya Ki Rasoi" is book ke fictional examples hain.

PRIYA

Priya ne outline ka Chapter 3 — "Rate kaise tay karein" — AI ko diya. 2 minute mein 1,200 shabd aa gaye. Achhe shabd, saaf headings. Priya khush thi. Phir usne padha: "Apne competitors ke rate dekhein aur market ke hisaab se price rakhein. Quality aur customer satisfaction ka dhyan rakhein."

"Ye to maine kahin bhi padh leti," Priya ne socha. "Isme wo baat hi nahi jo mere saath hui."

Uske saath kya hua tha? Pehle mahine usne ₹60 ki thali rakhi thi, kyunki padosi aunty bhi itna hi leti thi. Mahine ke end mein hisaab kiya to gas, sabzi aur dabbe ke baad haath mein lagbhag kuch nahi bacha. Tab usne har thali ka kharcha ek copy mein likhna shuru kiya.

Priya ne AI ka draft rakha, lekin beech mein apni ye kahani, apni copy ki photo jaisi ek table, aur apni galti — "padosi ka rate copy mat karo" — daal di. Ab chapter uska tha.

Phir AI ke draft mein ek line dikhi: "₹12 lakh se kam turnover par sirf basic FSSAI registration chahiye." Priya ne socha, "Ye niyam hai — isko check karna padega." Aur check karne par ek hairan karne wali baat nikli (Section 9 mein).

"AI ne mujhe likhna nahi sikhaya," Priya boli. "Usne mujhe khaali page ke darr se bachaya. Likha maine."

Kahani mein rate sirf samjhane ke liye hain — ye kisi business ki salah ya guarantee nahi.

4 Important Concepts

1. Chapter Brief — AI ko khaali haath mat bhejiye

Poori kitaab ek prompt mein mat likhwaiye. **Ek chapter, ek baar.** Har chapter se pehle 5 line ka brief:

BRIEF KA HISSA	PRIYA KA EXAMPLE (CHAPTER 3)
Reader	Ghar se tiffin shuru karne wali, pehli baar business
Is chapter ka nateeja	Reader apni thali ka kharcha nikaal kar rate tay kar sake
Mera anubhav / kahani	₹60 wali galti; copy mein kharcha likhna
Zaroori points	Kharcha, mehnat ka mol, gas/dabba, chhutti ke din
Bhasha aur lambai	Simple Hinglish, 1,000–1,500 shabd, chhote paragraph

2. "Apna Banao" layer — 5 cheezein jo sirf aapke paas hain

Kahani Ek asli ghatna — aapki ya (permission se) kisi aur ki	Galti Jo aapne galat kiya aur kya seekha	Apne number Aapka kharcha, aapka time — "example" label ke saath	Apna tareeka Aapki checklist, aapki copy, aapka jugaad	Apni awaaz Jaise aap bolte ho — waise likhiye
--	--	--	--	---

40% NIYAM

AI draft ka kam se kam **40%** hissa apne shabdon, apne examples aur apne anubhav se badliye. Ye koi kanoon nahi — ek aadat hai jo kitaab ko "aapki" banati hai. Aasaan tareeka: har AI paragraph ke baad khud se poochhiye, *"Is par mera apna kya example hai?"*

3. Awaaz ke liye voice typing

Bahut log likhne mein atakte hain, lekin bolne mein nahi. Mobile keyboard ka **mic button** dabaiye aur apni kahani waise hi boliye jaise dost ko sunate ho. Phir wo text AI ko dijiye: *"Isko saaf karo, lekin mere shabd aur andaaz mat badlo"* (Prompt 3). Aapki awaaz bachi rahegi.

4. 3-pass editing — teen baar, teen nazar

PASS	KYA DEKHNA HAI	MOBILE TIP
1. Content	Kya chapter apna nateeja deta hai? Kuch faltu ya kuch missing?	Pehle sirf headings padhiye — kram sahi hai?
2. Saaf-pan	Lambe vaakya todiye, mushkil shabd badliye, har paragraph 3–4 line	Doc ko "Print layout" band karke mobile par padhiye
3. Bhasha	Spelling, ek hi shabd har jagah ek jaisa (Roman Hindi mein "hai/he" mix nahi)	Zor se padhiye — ya phone ka "read aloud" feature, agar ho

5. Fact-check — kya check karna hai

Har chapter mein un lines par nishaan lagaiye jo **fact** hain — raay ya anubhav nahi. Ye 5 tarah ki lines hamesha check:

Niyam / kanoon License, tax, registration	Number Keemat, fees, ginti, pratishat	Tarikh Kab se, kab tak	Naam Log, company, app, scheme	Dawa "Sabse zyada", "research kehti hai"
---	---	----------------------------------	--	--

Check ka tareeka Chapter 5 wala hai: **official source** dhoondhiye (sarkari site, company ki apni help page), **tarikh** dekhiye, aur kitaab mein "**Last checked**" ke saath likhiye.

AI KA PURANA GYAAN

AI ka gyaan ek tarikh tak ka hota hai. Niyam, fees aur features uske baad badal sakte hain — aur AI poore bharose se purani baat bol sakta hai. Isliye niyam aur number **kabhi** sirf AI ke bharose mat likhiye.

6. Originality check — naqal se bachna

- **Kisi aur ka text paste karke "rewrite" mat karwaiye.** Shabd badalne se kisi aur ka kaam aapka nahi ho jaata.
- **AI ki khaas lagne wali lines check kijiye:** ek-do anokhe vaakya Google mein double quotes ("...") ke andar search kijiye. Hubahu mil jaaye, to wo line badal dijiye.
- **Quote karna ho to credit:** kisi ki line use karni ho, to chhoti rakhiye aur naam/source likhiye.
- **Photos aur recipes:** sirf apni, ya jinki permission/licence ho (Chapter 49 mein copyright).

5

Step-by-Step Mobile Process: Ek Chapter, Shuru Se Aakhir Tak

1 Google Doc: "eBook Draft"

Har chapter ek Heading. "07 Products" folder mein.

2 Chapter Brief

5 line — upar wali table jaisa.

3 Pehle apni kahani boliye

Voice typing se 3–5 minute: is chapter se juda aapka anubhav. Draft se **pehle** — taaki AI ka text aapki soch na badal de.

4 AI Draft

Prompt 1 — brief + aapki kahani ke saath.

5 Apna Banao

5 cheezein jodiye; generic lines kaatiye. Prompt 2 se "khaali" lines dhoondhiye.

6 3-pass edit

Content → Saaf-pan → Bhasha. Teeno alag din ho sakein to aur achha.

7 Fact list

Prompt 4 se chapter ke saare facts ki list; har ek official source se check.

8 Originality

2–3 anokhi lines quotes mein search; kisi ka text ho to hata/badal dijiye.

9 Ek insaan ko padhwaiye

Target reader jaisa koi ek insaan — "Kahan samajh nahi aaya?"

6 AI Tool Recommendation

TOOL	KAAM
Aapka Chat AI	Draft, khaali lines pakadna, awaaz bachate hue saaf karna, fact list
Google Docs	Poori kitaab ek jagah, headings se navigation, comments se kisi aur ki raay
Keyboard voice typing	Apni kahani bol kar likhna
Google Search / Perplexity	Official source dhoondhna; originality ke liye quotes mein search

7 Copy-Paste Prompts

PROMPT 1 — CHAPTER DRAFT

Tum ek simple Hinglish mein likhne wale non-fiction editor ho. Meri eBook: [formula line]. Is chapter ka brief: [5 line]. Meri apni kahani (voice typing se): [paste].

Is chapter ka draft likho – meri kahani ko beech mein mere **shabdon ke kareeb** rakhte hue. Jahan mera apna example chahiye, wahan [MERA EXAMPLE] likho. Koi niyam, fees ya number apni taraf se mat likho – zaroorat ho to [FACT CHECK KARNA HAI] likho.

PROMPT 2 — KHAALI LINES PAKADNA

Ye mere chapter ka draft hai: [paste]. Wo lines dikhao jo "generic" hain – jo kisi bhi kitaab mein ho sakti hain aur jinme koi khaas example, number ya anubhav nahi. Har line ke saath ek sawal do jo mujhse apna example nikalwaye.

PROMPT 3 — AWAAZ BACHA KAR SAAF KARNA

Ye maine bol kar likha hai: [paste]. Isko padhne layak banao – spelling, vaakya todna, punctuation. Lekin mere shabd, mere muhavre aur mera andaaz mat badlo. Koi nayi baat mat jodo.

PROMPT 4 — FACT LIST

Is chapter mein har wo line nikaalo jo fact hai – niyam, number, tarikh, naam ya dawa. Table banao: Line | Kis tarah ka fact | Kahan check karna chahiye (kaunsa official source). Khud se kisi fact ko "sahi" mat batao.

PROMPT 5 — PADHNE WALE KI NAZAR

Tum [target reader] ho, pehli baar ye padh rahe ho: [chapter paste]. Batao: kahan samajh nahi aaya, kahan bore hue, aur kaunsa sawal abhi bhi baaki hai. Tareef nahi — sirf problems.

8 Prompt Ka Explanation

PROMPT KA HISSA	YE KYUN KAAM KARTA HAI
[MERA EXAMPLE] (P1)	AI bana-banaya example nahi bharta; khaali jagah aapko yaad dilati hai.
[FACT CHECK KARNA HAI] (P1)	Niyam aur number wahi likhe jo aapne check kiya — AI ka andaaza nahi. Publish se pehle "[" search.
"Mere shabd mat badlo" (P3)	AI aksar sab kuch "sundar" aur ek jaisa bana deta hai — aapki awaaz kho jaati hai.
"Khud se sahi mat batao" (P4)	AI list bana sakta hai; sahi-galat ka faisla official source karega.
"Tareef nahi" (P5)	AI tareef karne ki aadat rakhta hai; problems se hi kitaab sudhrti hai.

9 Practical Example: Priya Ka Fact-check — Ek Asli Badlaav

AI DRAFT NE LIKHA

"₹12 lakh se kam saalana turnover par sirf basic FSSAI registration chahiye; usse upar State License."

Poore bharose se likha — koi tarikh ya source nahi.

CHECK KE BAAD

March 2026 ke FSSAI amendment notification ke baad (1 April 2026 se lagu), basic registration ki seema **₹1.5 crore** tak saalana turnover batayi gayi hai. ₹12 lakh purani seema thi.

Kitaab mein: "Last checked: [tarikh]" + FoSCoS portal par khud confirm karne ki salah.

Seekh: AI galat nahi "bol raha tha" — wo **purana** नियम bol raha tha. Registration ab bhi chahiye; sirf seema badli hai. Aur ye badlaav AI ke draft mein kabhi nahi aata agar Priya check na karti.

Ye jaankari FSSAI ki official press release (13 March 2026) se check ki gayi hai (21 September 2026): basic registration ki seema ₹12 lakh se badh kar ₹1.5 crore, 1 April 2026 se. Isi badlaav mein registration/licence ki baar-baar renewal ki zaroorat bhi khatam ki gayi hai. Food business shuru karne se pehle FSSAI ke official FoSCoS portal par ya kisi jaankar se apni sthiti confirm kijiye. Ye kanooni salah nahi hai.

10 Practice Task

Task 1: Apne outline (Chapter 31) ke ek chapter ka 5-line brief likhiye.

Task 2: Voice typing se 3 minute apna anubhav boliye; phir Prompt 1 se draft.

Task 3: Prompt 2 se khaali lines pakdiye; draft ka kam se kam **40%** apne shabdon aur examples se badliye. Badle hue hisse ko Doc mein alag rang se highlight kijiye — taaki khud dekh sakein.

Task 4: 3-pass edit, Prompt 4 se fact list, har fact ka official source, aur 2 lines ka originality search. Ek insaan se padhwaiye.

11 Common Mistakes

GALTI	SAHI TAREEKA
Poori kitaab ek prompt mein	Ek chapter, ek brief, ek baar.
AI draft seedha publish	40% apna — kahani, galti, number, tareeka, awaaz.
Niyam/fees AI ke bharose	Official source + "Last checked".
Doosre ka text "rewrite" karwana	Apna content; quote ho to chhota aur credit ke saath.
Ek hi baar mein editing	3 pass — content, saaf-pan, bhasha.
Sirf khud padhna	Ek target reader jaisa insaan zaroor.

12 Quick Checklist

- ☐ Chapter ka 5-line brief bana
- ☐ Apni kahani draft se pehle boli/likhi
- ☐ 40%+ hissa apna — highlight karke dekha
- ☐ 3-pass edit poora
- ☐ Har fact official source se check, "Last checked" ke saath
- ☐ Originality search kiya; koi "[" tag baaki nahi

13 Chapter Summary

KEY TAKEAWAYS

- Workflow: Brief → AI Draft → Apna Banao → Edit → Fact + Originality Check.
- Kitaab ki keemat aapka anubhav hai — kahani, galti, number, tareeka, awaaz.
- Voice typing se apni awaaz pakdiye; AI se sirf saaf karwaiye.
- Niyam aur number hamesha official source se — AI purani baat bhi bharose se bolta hai.
- Naqal nahi: kisi ka text rewrite mat karwaiye; anokhi lines search karke check.

Next Step — Chapter 33: Cover, Page Layout aur PDF

Shabd taiyaar hain. Ab kitaab ko kitaab jaisa *dikhna* hai. Rahul ne apni pehli PDF banayi to har page par alag font tha — padhne wale ne 3 page mein chhod di. Agle chapter mein Canva se cover, ek jaisa page layout, tip boxes aur PDF export.

IS CHAPTER KE SOURCES (LAST CHECKED: 21 SEPTEMBER 2026)

FSSAI — Food Safety and Standards (Licensing and Registration of Food Businesses) Amendment Regulations, 2026 (notification dated 10 March 2026; effective 1 April 2026) • FSSAI Press Release, 13 March 2026 — FSSAI Reforms (official) • TaxGuru (notification details) • FSSAI FoSCoS portal (confirm karne ke liye)

33

Cover, Page Layout aur PDF

Ek design banao, tees baar copy karo — isi ko kitaab kehte hain.

Chapter 32 mein Priya ke shabd taiyaar ho gaye — apni kahani, apni galtiyan, har fact check karke. Lekin reader shabd padhne se pehle kitaab ko **dekhta** hai. Cover dhundhla ho to wo kholta hi nahi; har page alag dikhe to wo 3 page mein thak jaata hai. Is chapter mein hum shabdon ko ek saaf, ek-jaisi, padhne layak **PDF kitaab** banayenge — mobile par hi.

1 Is Chapter Mein Kya Seekhenge

- 1 Cover ke 4 hisse aur "Thumbnail Test"
- 2 Style Page — पूरी किताब का एक नियम
- 3 किताब के ज़रूरी pages — शुरू से अखिर तक
- 4 Canva से PDF — Digital या Print, और download के बाद check

2 Simple Explanation

Layout matlab page par cheezein kahan aur kaise rakhi hain — heading, text, box, photo, page number. Achha layout dikhta nahi; bas padhna aasaan lagta hai. Bura layout turant dikhta hai.

eBook के design का एक ही बड़ा नियम है: **ek jaisa (consistency)**. Har chapter ki heading ek jaisi, har tip box ek jaisa, har page par margin ek jaisa. Chapter 14 का design gyaan (rang, font, jagah) yahan पूरी किताब पर lagta hai.

DO RAASTE

Chhoti, design-heavy book (20–40 page, boxes, photos) → **Canva**. **Lambi, text-heavy book** → Google Docs में ही साफ formatting, Canva सिर्फ cover के लिये. Dono से PDF बंटी है। Phone पर बहुत लंबी Canva design बहारी और धीमी हो सकती है।

3 Kahani: Har Page Ek Naya Font

Fictional kahani — Rahul, Priya aur Imran bhai is book ke fictional examples hain.

RAHUL

Kuch mahine pehle Rahul ne ek free PDF banayi thi — "Dukaan Ke Liye 10 Poster Tips". Har tip ke liye usne Canva mein alag template uthaya, kyunki "har page sundar dikhna chahiye". Page 1 par gol font, page 2 par script, page 3 par bold capital, har page alag rang.

Ek dost ne padh kar seedha bataya: "Bhai, teesre page par main kho gaya. Samajh nahi aaya kaunsi heading hai, kaunsa tip."

Ab Priya apni tiffin eBook ka layout Rahul se banwana chahti thi. Is baar Rahul ne pehle ek hi page banaya — **Style Page**: 2 fonts, 3 heading size, 3 rang, ek tip box, ek page number ki jagah. Phir har naya page usi Style Page ko **duplicate** karke banaya.

"Pehli PDF mein maine 10 design banaye the," Rahul ne Imran bhai ko bataya. "Is baar sirf ek — aur use 30 baar copy kiya." Imran bhai hanse: "Isi ko kitaab kehte hain."

Cover ke liye Rahul ne 3 options banaye aur teeno ko phone ki gallery mein chhote size mein dekha. Ek ka title chhota karke padhne mein hi nahi aaya — wo turant bahar.

4 Important Concepts

1. Cover ke 4 hisse

Cover par sirf ye 4

- **Title** — sabse bada, 2–5 shabd, reader ke shabdon mein
- **Subtitle (vaada)** — padh kar kya milega, ek line
- **Ek visual** — asli photo ya saaf illustration; bheed nahi
- **Author ka naam** — chhota, par saaf

COVER PAR YE NAHI

"Bestseller", "No.1", naqli reviews ya "₹1 lakh kamao" jaisa vaada. Cover bhi ek dawa hai — sirf sach.

Bayein taraf: fictional cover — is book ke liye banaya gaya illustration.

2. Thumbnail Test

Aapka cover log aksar **chhote size** mein dekhenge — WhatsApp par, Instagram par, selling page ki list mein. Test: cover ko download karke phone ki gallery mein **grid view** mein dekhiye. Title padha ja raha hai? 3 second mein samajh aata hai ki kitaab kis baare mein hai? (Chapter 14 ka 3-Second Rule, cover par.)

3. Style Page — kitaab ka niyam-patra

Design shuru karne se pehle ek page banaiye jisme saare niyam hon. Phir har page isi se banega:

Fonts (max 2)	Headings: ek bold, saaf font · Body: ek simple, padhne layak font
Sizes (3 level)	Chapter title · Section heading · Body text
Rang (2–3)	 main highlight background · Chapter 18 ki Branding Kit se
Boxes	Tip box aur Dhyan-dein box — har baar same rang, same shape
Margin	Chaaron taraf ek jaisi khaali jagah — text kinaare se na chipke
Page number	Har page par, ek hi kone mein

Sizes sirf example hain. Asli test: PDF download karke phone par padhiye — zoom kiye bina body text aaraam se padha jaaye.

4. Kitaab ke zaroori pages

PAGE	KYA HOTA HAI
Cover	Title, subtitle, visual, naam
Title + Copyright page	Title, author, saal, "© [saal] [naam]. Sabhi adhikaar surakshit.", aur ek chhota disclaimer (jaise: "Ye jaankari anubhav par aadharit hai; niyam badal sakte hain, official source se confirm karein.")
Vishay-suchi (Contents)	Chapter aur page number
Shuruaat	Ye kitaab kiske liye hai, kaise padhein — 1 page
Chapters	Har chapter naye page se, ek jaisa chapter-opener
Aakhir mein	Checklist/summary, author ke baare mein, contact (WhatsApp/Instagram), agla product

Copyright aur disclaimer ki basic samajh Chapter 49 mein. Ye kanooni salah nahi hai.

5. PDF — Digital ya Print?

Canva mein PDF download karte waqt **presets** milte hain: **Digital** (screen par padhne ke liye) aur **Print** (chhapne ke liye). eBook jo log phone par padhenge, uske liye aam taur par Digital kaafi hai. Canva ek "**flatten**" option bhi deta hai jo saari layers ko ek kar deta hai — fonts theek dikhte hain, par file badi ho sakti hai.

DOWNLOAD KE BAAD CHECK

PDF ko phone par kholiye aur dekhiye: fonts theek, koi text kata nahi, links (agar hain) click hote hain, file size WhatsApp par bhejne layak hai. Settings badalne par nateeja badal sakta hai — isliye har baar test.

5 Step-by-Step Mobile Process: Canva Mein eBook

1 Size chuniye

Canva → search "A4 document" (ya eBook template). Portrait. Poori kitaab ek hi size mein.

2 Style Page banaiye

Page 1 par saare niyam (upar wala dhaancha). Branding Kit ke rang aur fonts.

3 3 master pages

Chapter-opener, normal text page, box wala page. Baaki sab inke **Duplicate** se.

4 Text daaliye

Google Doc se ek-ek section copy-paste. Heading ko heading style, body ko body style — beech mein naya font nahi.

5 Cover — 3 options

Prompt 1 se title/subtitle ke vikalp; 3 cover; Thumbnail Test; ek chuniye.

6 Front + back pages

Title/copyright, contents, shuruaat; aakhir mein author aur contact.

7 Consistency check

Saare pages grid view mein dekhiye — koi page "alag" dikhta hai? Prompt 4 ki checklist.

8

PDF download

Share → Download → PDF → preset (Digital). Poori kitaab.

9

Phone par test

PDF kholiye, har page scroll; ek dost ko WhatsApp par bhej kar dekhiye ki khulti hai.

Canva ke menu ke naam app update ke saath thode badal sakte hain.

6

AI Tool Recommendation

TOOL	KAAM
Canva	Cover, page layout, PDF — free plan se shuru. Pro elements par watermark/licence ka dhyan (Chapter 15).
Aapka Chat AI	Title/subtitle ke vikalp, back-page text, consistency checklist, screenshot se design feedback
Google Docs	Lambi text-heavy kitaab ka layout aur PDF (Canva sirf cover ke liye)
AI image tool (optional)	Cover ka visual — tool ke niyam aur watermark dekh kar (Chapter 16). Asli photo aksar behtar.

7

Copy-Paste Prompts**PROMPT 1 — TITLE + SUBTITLE**

Meri eBook: [formula line]. Target reader: [ek line]. 10 logon ke asli shabd: [2-3 phrases].

10 title options do (2–5 shabd, reader ke shabdon mein) aur har ek ke saath ek subtitle jo saaf vaada kare. "Secret", "Guaranteed", "Lakhon kamao" jaise shabd nahi. Table format.

PROMPT 2 — COVER FEEDBACK (3 cover screenshots attach)

Ye meri eBook ke 3 cover options hain. Har ek ko chhote thumbnail size mein sochkar batao: title padha jaata hai? 3 second mein vishay samajh aata hai? Kya bheed hai? Sabse achha kaunsa aur use kaise sudhaarein – 3 point mein.

PROMPT 3 — FRONT AUR BACK PAGES

Meri eBook "[title]" ke liye likho: (1) 1 page ki shuruaat — ye kitaab kiske liye hai, kaise padhein (2) ek chhota disclaimer — jaankari anubhav par aadharit, niyam badal sakte hain (3) "Author ke baare mein" — 80 shabd, sirf ye facts: [aapke facts]. Simple Hinglish. Koi dawa ya number mat jodo.

PROMPT 4 — CONSISTENCY CHECK (pages ke screenshots)

Ye meri eBook ke 4–6 pages ke screenshots hain. Consistency check karo: fonts, heading size, rang, margins, boxes, page number — kahan-kahan alag hai? Sirf galtiyen, page number ke saath.

8 Prompt Ka Explanation

PROMPT KA HISSA	YE KYUN KAAM KARTA HAI
"Reader ke asli shabd" (P1)	Chapter 31 ke interviews ka fayda — title wahi jo reader search ya bolta hai.
"Secret/Guaranteed nahi" (P1)	AI click-bait title deta hai; wo bharosa todte hain aur kai platforms par dikkat de sakte hain.
"Thumbnail size mein socho" (P2)	Bade screen par sab achha lagta hai; chhote size mein asli test hota hai.
"Sirf ye facts" (P3)	AI "10 saal ka anubhav" jaisi baatein khud jod deta hai — author page par jhooth sabse bura.

DHYAN DEIN

AI design ki raay de sakta hai, par aakhri test aapka phone hai: PDF kholiye, chhota karke dekhiye, ek insaan ko padhwaiye.

9 Practical Example: Rahul Ki Pehli PDF vs Priya Ki eBook

RAHUL KI PEHLI PDF

- Har page alag template
- 7 alag fonts
- Har page naye rang
- Page number nahi

PRIYA KI eBook

- 1 Style Page + 3 master pages
- 2 fonts, 3 size
- 3 rang (Branding Kit se)
- Har page par number

- Cover par 12 cheezein
- Contents page nahi

- Cover par sirf 4 cheezein, Thumbnail Test pass
- Title, copyright, contents, shuruaat, author page

Fictional example.

10 Practice Task

Task 1: Apni eBook ka Style Page banaiye (fonts, sizes, rang, box, margin, page number).

Task 2: Prompt 1 se title/subtitle; 3 cover options; Thumbnail Test; ek chuniye.

Task 3: Cover + 5 pages ka layout: title/copyright, contents, ek chapter-opener, ek text page, ek box wala page.

Task 4: PDF (Digital) download, phone par test, Prompt 4 se consistency check. File Drive ke "07 Products" mein.

11 Common Mistakes

GALTI	SAHI TAREEKA
Har page alag template	Ek Style Page, 3 master pages, duplicate.
Cover par bheed	Title, subtitle, ek visual, naam.
Bade screen par hi check	Thumbnail Test aur phone par PDF.
Chhota body text	Phone par bina zoom padha jaaye.
Contents aur page number nahi	Dono zaroori — reader ko raasta chahiye.
Pro element bina dhyan ke	Download se pehle watermark/licence check.

12 Quick Checklist

- ☐ Style Page bana; saare pages usi se
- ☐ Cover: 4 hisse, Thumbnail Test pass, koi jhootha dawa nahi
- ☐ Title/copyright, contents, shuruaat aur author page hain
- ☐ Har page par number; chapter naye page se
- ☐ PDF phone par khol kar test kiya — fonts, text, links, size

13 Chapter Summary

KEY TAKEAWAYS

- eBook design ka ek niyam: ek jaisa (consistency).
- Cover = Title + Subtitle (vaada) + ek visual + naam; Thumbnail Test zaroor.
- Pehle Style Page, phir 3 master pages, phir duplicate.
- Front aur back pages kitaab ko "kitaab" banate hain.
- Canva PDF: phone ke liye Digital preset; download ke baad hamesha test.

Next Step — Chapter 34: Digital Products — Templates, Prompt Packs aur Checklists

eBook ek raasta hai, akela nahi. Kabhi log poori kitaab nahi, bas ek **ready tool** chahte hain — ek template, ek planner, ek checklist. Agle chapter mein Rahul "Festival Poster Template Pack" banata hai aur Priya "Tiffin Menu Planner" — aur dono ise bechne se pehle 3 logon se test karwate hain.

IS CHAPTER KE SOURCES (LAST CHECKED: 21 SEPTEMBER 2026)

Canva Help Center — Download designs as flattened PDF (PDF presets: Digital / Print; flatten option)

34

Digital Products: Templates, Prompt Packs aur Checklists

Mere liye taiyaar hona aur unke liye taiyaar hona — do alag baatein.

Chapter 33 mein Priya ki eBook ek saaf PDF ban gayi. Lekin har insaan poori kitaab nahi padhna chahta. Kai log bas ek **ready tool** chahte hain — jise khola, bhara, aur kaam ho gaya. Sharma ji ko Diwali ka poster chahiye, Diwali ki kitaab nahi. Priya ki customer ko hafte ka menu chahiye, menu par lekh nahi. Yahi hain chhote **digital products** — aur beginner ke liye aksar eBook se bhi aasaan shuruaat.

1 Is Chapter Mein Kya Seekhenge

- 1 5 digital products jo beginner mobile se bana sakta hai
- 2 Canva templates bechne ke niyam — Canva ke apne shabdon mein
- 3 Product package: file + "kaise use karein" + niyam
- 4 3-Log Test — bechne se pehle quality check

2 Simple Explanation

eBook **gyaan** deti hai — "kaise karein". Digital product **kaam** karta hai — "ye lo, bharo, ho gaya". Isliye iska sawal alag hai: "Kya ye mera time bachata hai?"

Achha digital product chhota hota hai, ek kaam karta hai, aur bina samjhaaye chal jaata hai. Aur yahan AI bahut kaam aata hai — sheet ke formulas, checklist ke points, prompts ke examples. Lekin **test** आपको खुद, asli logon ke saath karna hai.

SACHCHI BAAT

Digital product ek baar bana kar kai baar bech sakte hain — ye sach hai. Lekin "passive income" ki guarantee nahi. Bina logon tak pahunche, bina bharose ke, koi product apne aap nahi bikta. Bechne ka tareeka Chapter 35 aur marketing Part VIII mein.

3

Kahani: Sharma Ji Ka Phone Number

Fictional kahani — Rahul, Priya, Sharma ji aur Imran bhai is book ke fictional examples hain.

RAHUL AUR PRIYA

Diwali aane wali thi. Rahul ne socha: har dukaandaar ko festival poster chahiye — kyun na ek **"Festival Poster Template Pack"** banaun? Diwali, Dhanteras, Chhath, Eid, Christmas, Naya Saal — 8 template, har ek mein dukaan ka naam, offer aur number badalne ki jagah.

Imran bhai ne kaha, "Bechne se pehle 3 dukaandaron ko do. Kuch samjhana mat. Bas dekho wo kya karte hain."

Sharma ji ne template khola. 5 minute tak phone number badalne ki koshish ki — number ek group mein band tha, tap karne par poora design hil jaata. "Beta, ye mujhse nahi hoga." Doosre dukaandaar ko pata hi nahi chala ki photo kaise badle.

Rahul ne har template se group hataya, badalne wali cheezon par saaf likha "[YAHAN APNA NUMBER]", aur ek page ki "Kaise use karein" guide jodi — screenshots ke saath. Doosre round mein Sharma ji ne 3 minute mein poster bana liya.

Udhar Priya ne Google Sheet mein **"Tiffin Menu Planner"** banaya — hafte ka menu, aur neeche apne-aap banne wali sabzi ki list. Ek tester ne kaha, "List to badhiya hai, par kitne logon ke liye? Mera tiffin 12 ka hai." Priya ne ek khaana joda: "Kitne tiffin?" — aur list usi hisaab se badhne lagi.

"Maine socha tha product taiyaar hai," Rahul bola. "Asal mein wo mere liye taiyaar tha, unke liye nahi."

4 Important Concepts

1. 5 beginner-friendly digital products

PRODUCT	KYA HAI	KAHAN BANEGA	EXAMPLE
Checklist	Kisi kaam ke saare steps, tick karne layak	Canva / Docs → PDF	"Website Launch Checklist"
Planner / Tracker	Bharne wali sheet, apne-aap hisaab	Google Sheets	Priya ka Tiffin Menu Planner
Template Pack	Ready design jisme sirf apni jaankari badalni hai	Canva (template link)	Rahul ka Festival Poster Pack
Prompt Pack	Kisi khaas kaam ke liye tested prompts + examples	Docs → PDF	"Salon ke liye 30 caption prompts"
Mini Guide	10–15 page ki ek-problem wali guide	Canva / Docs → PDF	"Google Profile 1 ghante mein"

Sabse aasaan shuruaat: **Checklist ya Planner** — kam design, kam niyam, aur jaldi test.

2. Canva templates bechne ke niyam

Canva ki official help page ("Use Canva to design products for sale") ke mukhya niyam:

CHALEGA ✓	NAHI CHALEGA ✗
Original design — aapki apni creative mehnat, Canva elements ke saath	Canva ka bana-banaya template jaisa ka taisa (ya sirf rang/size badal kar) bechna
Free + Pro content wale templates — Canva template link ke roop mein	Pro content wala template PDF ya file ke roop mein bechna
Template jo customer apne hisaab se badle	Canva ke elements ko alag se clipart/sticker ki tarah bechna

TEMPLATE LINK — PRO FEATURE

Canva ki help ke mutabik "Template link" banana **Canva Pro (aur kuch paid/Education plans)** mein hi milta hai; free plan mein nahi. Isliye free plan par ho to pehla product **Checklist, Planner ya Prompt Pack** rakhiye — template pack tab, jab Pro lena sahi lage.

Niyam badal sakte hain — product banane se pehle Canva ki us help page ko khud padh lijiye. Kisi brand ka logo, film/cricket team ka naam ya doosre ka design kabhi nahi (Chapter 49).

3. Product Package — sirf file nahi

1. Product File / Sheet / template link	2. "Kaise use karein" 1 page, screenshots ke saath, 3–5 steps	3. Niyam (licence) Ek line: "Apne business ke liye use kijiye; aage bechna ya share karna mana hai."	4. Madad Aapka WhatsApp/email — "Atke to message kijiye"
---	---	--	--

4. Google Sheets product — copy link

Sheet ka original link kisi ko mat dijiye — wo aapki file badal dega. Customer ko **copy banane wala link** dijiye: sheet ke link ke aakhir mein `/edit...` ki jagah `/copy` likhne par khulne wale ko "Make a copy" ka vikalp milta hai. Share setting "Anyone with the link — Viewer" rakhiye. Bhejne se pehle doosre Google account se khud test kijiye.

5. 3-Log Test — chup reh kar dekhiye

STEP	KAISE
Sahi log	Target customer jaise 3 log — dost nahi jo sirf tareef karein
Ek kaam do	"Isse apni dukaan ka Diwali poster banaiye" — aur kuch mat samjhaiye
Chup rahiye	Jahan wo atke, likh lijiye. Beech mein madad mat kijiye
3 sawal	Kahan atke? Kya kaam ka laga? Kya missing tha?
Sudhaar + dobara	Galtiyan theek karke ek aur insaan ke saath

5 Step-by-Step Mobile Process: Pehla Mini Product

1 Problem chuniye Chapter 31 ke 10 logon ke notes, ya aapke clients ke baar-baar ke sawal. Ek chhota, roz ka kaam.
2 Format chuniye Table se — kaam "bharne" ka hai to Planner; "yaad rakhne" ka to Checklist; "design" ka to Template.

3

AI se dhaancha

Prompt 1 (checklist/prompt pack) ya Prompt 2 (sheet ka structure aur formulas).

4

Apne hisaab se banaiye

Apne anubhav ke points jodiye, Branding Kit ke rang, saaf naam.

5

Khud test

Ek asli example bhar kar dekhiye — formula sahi, text badalta hai, link khulta hai.

6

"Kaise use karein" page

Prompt 3 se draft, apne screenshots.

7

3-Log Test

Chup reh kar dekhiye, notes, sudhaar.

8

Package

Product + guide + licence line + madad ka contact — "07 Products" folder mein.

6

AI Tool Recommendation

TOOL	KAAM
Aapka Chat AI	Checklist points, sheet ka structure aur formulas, prompts ke examples, guide ka draft
Google Sheets	Planner/Tracker — free, mobile par bhi
Canva	Checklist/guide ka design (free); template link ke liye Pro
Google Docs / Drive	Prompt pack, guide, aur saari files

7 Copy-Paste Prompts

PROMPT 1 — CHECKLIST / PROMPT PACK KA DHAANCHHA

Mera target customer: [kaun]. Unka kaam: [kya karna hai]. Ek [checklist / prompt pack] banana hai jo ye kaam aasaan kare.

Points ko 3–5 hisson mein baanto, har point ek chhoti action line ho. Prompt pack ho to har prompt ke saath ek chhota example output bhi. Mere ye apne anubhav ke points zaroor shaamil karo: [2-3 points].

PROMPT 2 — GOOGLE SHEET PLANNER

Mujhe Google Sheets mein "[naam]" planner banana hai. Kaam: [kya karega]. User sirf ye bharega: [inputs]. Sheet apne-aap ye nikaale: [outputs].

Batao: kaunse columns/tabs, har formula (Google Sheets syntax mein, cell ke naam ke saath), aur kaunse cells lock karne chahiye. Mobile par bharne layak simple rakho.

PROMPT 3 — "KAISE USE KAREIN" GUIDE

Mera product: [kya hai, kis format mein]. Customer technical nahi hai. Ek page ki guide likho, Roman Hindi mein: 3–5 steps, har step ek line, jahan screenshot chahiye wahan [SCREENSHOT] likho. Aakhir mein: "Atak jaayein to [contact] par message kijiye."

PROMPT 4 — TEST NOTES SE SUDHAAR

3 logon ne mera product test kiya. Notes: [paste – kahan atke, kya kaha]. Inme se sabse zaroori 3 sudhaar batao, aasaani ke kram mein. Nayi features mat sujhaao jab tak kisi tester ne unki zaroorat na batayi ho.

8 Prompt Ka Explanation

PROMPT KA HISSA	YE KYUN KAAM KARTA HAI
"Mere apne anubhav ke points" (P1)	AI ki generic checklist har jagah free milti hai; aapke points use bechne layak banate hain.
"User sirf ye bharega" (P2)	Input aur output saaf hon to formula sahi banta hai; sheet customer ke liye aasaan rehti hai.
"Kaunse cells lock karne" (P2)	Customer galti se formula mita de to sheet toot jaati hai.
"Nayi features mat sujhaao" (P4)	AI har cheez badhana chahta hai; chhota product hi achha product hai.

DHYAN DEIN

AI ka diya formula **galat bhi** ho sakta hai. Har formula ko 2–3 asli numbers daal kar calculator se check kijiye — customer ka hisaab aapki zimmedaari hai.

9 Practical Example: Priya Ka Tiffin Menu Planner

TIFFIN MENU PLANNER · Hafta 1				
DIN	SABZI	DAL	ROTI/CHAWAL	KHAAS
Somvaar	Aloo-gobhi	Arhar	4 roti + chawal	—
Mangalvaar	Bhindi	Moong	4 roti	Achaar
Budhvaar	Rajma	—	Chawal	Salad
Kitne tiffin? 12 ← user bharta hai				
Sabzi list (apne-aap) Aloo ____ kg · Gobhi ____ kg · Bhindi ____ kg · Rajma ____ kg ← formula: (ek tiffin ki matra) × (kitne tiffin)				

PACKAGE KA HISSA	PRIYA NE KYA DIYA
Product	Google Sheet ka copy link
Kaise use karein	1 page: menu bharo → tiffin ginti → list copy karke sabzi wale ko WhatsApp
Niyam	"Apne tiffin business ke liye; aage bechna mana"
3-Log Test ke baad	"Kitne tiffin?" khaana joda; formula wale cells lock kiye

Fictional example. Sheet ka khaka sirf samjhane ke liye hai.

10 Practice Task

Task 1: Ek mini product chuniye — Checklist, Planner ya Prompt Pack (free plan par sabse aasaan).

Task 2: Prompt 1 ya 2 se dhaancha; apne points jodiye; khud ek asli example bhar kar test.

Task 3: Prompt 3 se "Kaise use karein" page; licence line aur contact.

Task 4: 3-Log Test — chup reh kar; Prompt 4 se top 3 sudhaar; theek karke package "07 Products" mein.

11 Common Mistakes

GALTI	SAHI TAREEKA
Canva template jaisa ka taisa bechna	Original design; Pro content sirf template link se.
Sheet ka original link bhej dena	/copy wala link, Viewer access.
Bina guide ke product	1 page "Kaise use karein" — screenshots ke saath.
Test mein beech mein madad karna	Chup reh kar dekhiye; atakna hi asli data hai.
Bahut bada product	Ek kaam, achhe se.
AI ke formula par bharosa	Asli numbers se calculator check.

12 Quick Checklist

- ☐ Product ek chhota, asli kaam karta hai
- ☐ Canva ho to niyam check kiye; Pro content sirf template link mein
- ☐ Package: product + guide + licence line + contact
- ☐ Formulas/links khud test kiye
- ☐ 3-Log Test hua; top 3 sudhaar kiye

13 Chapter Summary

KEY TAKEAWAYS

- Digital product = ready tool jo time bachaye; eBook gyaan deti hai, product kaam karta hai.
- Shuruaat: Checklist, Planner, Prompt Pack — kam niyam, jaldi test.
- Canva: sirf original design; Pro content wale template sirf template link se (Pro feature).
- Package = product + "kaise use karein" + licence line + madad.
- 3-Log Test: chup reh kar dekhiye — jahan atke, wahi sudhaar.

Next Step — Chapter 35: Project 4 — eBook / Digital Product Publish aur Sell

Priya ki eBook aur Planner taiyaar hain. Ab sabse bada sawal: log kharidenge kaise? Agle chapter mein selling platforms, UPI se payment, product page ka text, pricing ki shuruaati samajh, Amazon KDP ki AI disclosure — aur Priya ka pehla launch message. Part VII ka project aur aakhri chapter.

IS CHAPTER KE SOURCES (LAST CHECKED: 21 SEPTEMBER 2026)

Canva Help Center — Use Canva to design digital and physical products for sale • Canva Help Center — Share designs as a Template link (plan availability)

35

Project 4: eBook / Digital Product Publish aur Sell

Pehle khud kharido, phir duniya ko becho.

PROJECT 4 Is chapter mein aap apni eBook ya digital product ko bechne ke liye taiyaar karenge — product page, payment, delivery aur pehla launch message. Part VII ka aakhri chapter.

Part VII mein Priya ne sunne se shuru kiya (Chapter 31), apni awaaz mein likha (Chapter 32), kitaab ko saaf PDF banaya (Chapter 33), aur ek chhota Planner bhi banaya (Chapter 34). Ab aakhri aur sabse darawna kadam: **duniya ke saamne rakhna**. Is chapter mein koi jaadu ka "launch formula" nahi hai — sirf ek saaf product page, ek chalne wala payment, ek test purchase, aur un logon ko imaandaar message jo is kitaab ka intezaar kar rahe the.

1 Is Chapter Mein Kya Seekhenge

- 1 Bechne ke 3 raaste — seedha UPI, creator platform, Amazon KDP
- 2 Platform fees — official pricing se, ek example calculation
- 3 Product page ke 8 hisse — bina naqli reviews ke
- 4 Test purchase, launch message aur KDP ki AI disclosure

2 Simple Explanation

Digital product bechne ke liye teen cheezein chahiye: ek **jagah** jahan log product ke baare mein padhein (product page), ek **tareeka** jisse wo paise dein (UPI/card), aur ek **system** jisse unhe file mile (delivery). Creator platforms ye teeno ek saath dete hain — badle mein har sale par kuch fees lete hain.

SACHCHI BAAT

Listing ka matlab bikri nahi. Pehli sales aksar un logon se aati hain jo aapko pehle se jaante hain aur jinse aapne baat ki hai. "Launch ke din 1,000 copies" jaisi kahaniyan aam nahi — aur is book mein aisa koi vaada nahi.

3 Kahani: Pehla Order, Pehli Galti

Fictional kahani — Priya, Rahul aur "Priya Ki Rasoi" is book ke fictional examples hain.

PRIYA

Priya ne ek creator platform par account banaya. Product page likha, PDF upload ki, price rakha, aur Rahul se kaha, "Kal subah launch message bhejungi."

Rahul ne kaha, "Pehle ek **test purchase** — apne hi doosre number se kharid kar dekho." Priya ko ajeeb laga, par kiya. Payment ho gaya — lekin email mein jo file aayi, wo **purana draft** tha, jisme abhi bhi [MERA EXAMPLE] likha tha. Galat file upload ho gayi thi.

File badli, dobara test kiya — ab sahi. Agle din Priya ne sabse pehle un 10 logon ko personal message bheja jinse Chapter 31 mein baat ki thi: "Aapne jo sawal poochhe the, unhi par ye kitaab hai." Phir WhatsApp status aur ek Instagram post.

Pehle hafte kuch copies biki — zyadatar unhi 10 logon aur unke jaan-pehchaan walon ko. Ek ne poochha, "Kya isme FSSAI registration ki पूरी process hai?" Priya ne product page par ek line jodi: "Registration ki official jaankari kahan milegi, ye bataya hai; पूरी kanooni process nahi."

"Agar test purchase na karti," Priya boli, "to mere pehle 10 customer ko adhoori kitaab jaati. Wahi 10 jo mujh par sabse zyada bharosa karte the."

1. Bechne ke 3 raaste

RAASTA	KAISE	ACHHA	DHYAN
Seedha UPI + WhatsApp	Customer UPI karta hai, aap screenshot dekh kar file WhatsApp/email par bhejte ho	Koi platform fees nahi; shuru karna sabse aasaan	Har order haath se; raat 2 baje ka order subah jayega; hisaab khud rakhna
Creator / selling platform	Product page + payment + automatic delivery ek jagah (jaise Topmate, Instamojo type platforms)	Turant delivery, professional page, record	Har sale par fees; नियम aur payout samay padhiye
Amazon KDP (optional)	Kindle eBook ke roop mein Amazon par	Amazon ki badi pahunch	Apne file format, royalty aur content नियम; AI disclosure (neeche)

Platforms ke naam sirf example hain, sifarish nahi. Koi bhi platform chunne se pehle uska pricing page, refund नियम aur payout (paise aapke bank mein kab aate hain) khud padhiye.

2. Fees — official pricing pages se (21 September 2026)

PLATFORM	OFFICIAL PRICING PAGE PAR KYA LIKHA HAI
Topmate	Join karna free; apne profile/link se hui sale par 10% commission; unke marketplace se aaye naye customer par 20%
Instamojo	Free (Lite) plan hai; digital products par free/starter plan mein 10% + ₹3 per transaction, Growth plan mein 5% + ₹3

EXAMPLE CALCULATION — ye sirf samajhne ke liye hai, guaranteed income nahi

eBook ka price (maan lijiye)	₹199
Topmate (apne link se, 10%)	₹199 - ₹19.90 = lagbhag ₹179 per sale
Instamojo (digital, free plan: 10% + ₹3)	₹199 - ₹22.90 = lagbhag ₹176 per sale
Seedha UPI	Poora ₹199 — lekin har order aapka time

Fees par tax, payout charges ya niyam badal sakte hain — asli hisaab platform ke current pricing page se kijiye. Kitni copies bikengi, iska koi andaaza is book mein nahi hai.

3. Product page ke 8 hisse

1 Title + subtitle (vaada)	2 Kiske liye hai — aur <u>kiske liye nahi</u>	3 Problem — reader ke apne shabdon mein	4 Andar kya hai — chapters/contents
5 Preview — 2-3 pages ki jhalak	6 Aap kaun ho — asli anubhav, bina badhaa-chadhaa	7 Price, format (PDF, kitne page), delivery kaise	8 Madad aur refund niyam — saaf

PRODUCT PAGE PAR KABHI NAHI

Naqli reviews/testimonials (AI se ya dost se likhwaye), **jhootha scarcity** ("sirf aaj" jab sach na ho), **kamaai ka vaada** ("isse ₹50,000 mahina"), aur wo cheez jo kitaab mein hai hi nahi. Asli kharidaaron ki raay baad mein — unki permission se — jodiye.

4. Amazon KDP aur AI disclosure

Agar aap KDP par publish karte hain, to Amazon ki KDP content guidelines ke mutabik:

TYPE	KDP KA MATLAB	BATANA HAI?
AI-generated	Text, images ya translation AI tool ne banaye — chahe aapne baad mein kaafi edit kiya ho	Haan , publish/republish karte waqt
AI-assisted	Content aapne khud banaya , AI se sirf edit, sudhaar, error-check karwaya	Zaroori nahi

Chapter 32 ke workflow mein AI pehla draft likhta hai — isliye imaandaari se sochiye ki aapki kitaab kis category mein aati hai, aur waisa hi bataiye. Dono tarah ke content ke liye content guidelines aur copyright ki zimmedaari aapki hai. KDP ke file format, royalty aur pricing ke niyam unki help pages par padhiye.

APNE PLATFORM PAR BHI IMAANDAARI

Jahan koi niyam na bhi ho, product page par ek line achhi aadat hai: *"Is kitaab ke likhne aur editing mein AI tools ki madad li gayi hai; saare anubhav, examples aur fact-check lekhak ke hain."* Content labelling ki poori baat Chapter 49 mein.

5. Launch — pehle garam log, phir naye log

KAB	KYA
Launch se pehle	Test purchase (doosre number/email se) • product page ek dost se padhwaiye • file ka version check
Din 1	Chapter 31 ke 10 logon ko personal message (copy-paste broadcast nahi) • WhatsApp status
Din 2-7	Instagram post/Reel — kitaab ki ek kaam ki tip (Chapter 20: Hook → Value → CTA) • Google profile/website par link (agar business hai)
Hafte ke baad	Kharidaaron se: "Kya kaam aaya, kya missing tha?" • sawalon se product page aur kitaab sudhaariye

WhatsApp par sirf unhe message kijiye jo aapko jaante hain; baar-baar ya bina poochhe promotion mat bhejiye. WhatsApp marketing ke niyam aur tareeke Chapter 37 mein.

5 Step-by-Step Mobile Process: Listing Se Launch Tak

1 Raasta chuniye

Seedha UPI, creator platform ya KDP. Beginner ke liye: pehle 5-10 order seedha UPI ya ek simple creator platform.

2 Final file check

Sahi version, "[" search khaali, links chalte hain, file ka naam saaf ("Ghar-Se-Tiffin-Priya.pdf").

3 Account + KYC

Platform ke niyam ke hisaab se apni jaankari aur bank/UPI — sirf official app/website par.

4 Product page

Prompt 1 se 8 hisson ka draft; apne shabdon mein sudhaar; cover aur 2-3 preview images (Chapter 33).

5 Price

Prompt 3 se socho; fees ghata kar kitna bachega, calculator se. Poori pricing ki samajh Chapter 44 mein.

6 Test purchase

Doosre number/email se kharidiye — payment, email, file, download sab check.

7 Launch messages

Prompt 2 se personal message aur status; 10 logon ko naam se.

8 Record

Google Sheet: tarikh, kisne kharida (sirf zaroori jaankari), kahan se aaya, feedback. Kharidaaron ka data sirf unki madad ke liye.

6 AI Tool Recommendation

TOOL	KAAM
Aapka Chat AI	Product page draft, launch messages, FAQ, pricing ke sawal
Creator/selling platform	Page + payment + delivery — fees "Last checked" ke saath
Canva	Cover mockup, preview images, launch post
Google Sheets	Sales aur feedback ka record
Amazon KDP (optional)	Kindle eBook — AI disclosure ke saath

7 Copy-Paste Prompts

PROMPT 1 — PRODUCT PAGE

Mera product: "[title]" – [format, kitne page]. Kiske liye: [target reader card]. Problem unke shabdon mein: [2-3 phrases]. Contents: [chapter list]. Mere baare mein sach: [facts].

Product page likho in 8 hisson mein: title+subtitle, kiske liye/kiske liye nahi, problem, andar kya hai, preview ka intro, mere baare mein, price+format+delivery, madad aur refund. Simple Hinglish. Koi review, testimonial, kamaai ka vaada, "limited time" ya number mat banao.

PROMPT 2 — LAUNCH MESSAGE

Maine [naam] se [kab] baat ki thi; unka sawal tha: "[unka sawal]". Ab meri kitaab "[title]" aa gayi hai jisme [us sawal ka jawab kis chapter mein]. Ek chhota, personal WhatsApp message likho – 4-5 line, dabav nahi, link ke saath, aur "zaroorat na ho to koi baat nahi" jaisa ek line. Ek WhatsApp status text bhi do (2 line).

PROMPT 3 — PRICE SOCHNA

Mera product: [kya, kitna bada]. Target reader: [kaun, kitna kharch kar sakta hai – mera andaaza]. Bazaar mein milte-julte products: [jo maine khud dekhe, price ke saath]. Platform fees: [%]. Mujhe 3 price options aur har ek ke fayde/nuksaan do. Final faisla main karunga – tum koi bikri ka andaaza mat lagana.

PROMPT 4 — FAQ

Mere product ke baare mein log ye sawal poochh sakte hain / poochh chuke hain: [list]. Har ek ka chhota, sachcha jawab likho – jahan kitaab mein jawab nahi hai wahan saaf likho "Is kitaab mein ye nahi hai".

8 Prompt Ka Explanation

PROMPT KA HISSA	YE KYUN KAAM KARTA HAI
"Kiske liye nahi" (P1)	Galat kharidaar kam hote hain — refund aur shikayat bhi kam.
"Koi review ya vaada mat banao" (P1)	AI sales page mein naqli testimonials aur bade dawae jod deta hai — ye dhokha hai.
"Unka sawal" (P2)	Personal message tabhi personal hai jab usme unki apni baat ho.
"Bikri ka andaaza mat lagana" (P3)	AI ke andaaze sirf andaaze hain — unpar plan banana khatarnaak.
"Is kitaab mein ye nahi hai" (P4)	Imaandaar FAQ bharosa banata hai; gol-mol jawab shikayat.

DHYAN DEIN

Kisi platform ke naam par aaye "fees kam karwao", "verification ke liye OTP bhejo" jaise messages scam ho sakte hain. Account aur payment ka kaam sirf official app/website par (Chapter 49).

9 Practical Example: Priya Ka Product Page (Saar)

GHAR SE TIFFIN

Business Ki Shuruat

PRIYA

PDF • [X] pages • ₹[price]

Kharidein

Ghar se tiffin shuru karna hai, par pehle customer, rate aur hisaab samajh nahi aa raha?

Kiske liye: jo ghar se tiffin shuru karna chahte hain ya abhi shuru kiya hai.

Kiske liye nahi: jo recipe book dhoondh rahe hain, ya bade restaurant ki planning.

Andar: 10 chapters — rate kaise tay karein, packaging, pehle 10 customer, roz ka hisaab, meri 10 galtiyen...

Main kaun: Priya — ghar se tiffin chalati hoon. Ye kitaab meri galtiyon aur 10 logon ke sawalon se bani hai.

Dhyan dein: Registration ki official jaankari kahan milegi, ye bataya hai; ye kanooni salah nahi hai. AI tools ki madad se likhi aur edit ki gayi; anubhav aur fact-check lekhak ke.

Madad: Download mein dikhat ho to WhatsApp kijiye.

Fictional example. Price aur page count jaan-boojh kar khaali — ye aapka faisla hai (Chapter 44).

10 Practice Task — Project 4

Task 1: Apni eBook (Chapter 31–33) ya mini product (Chapter 34) ke liye raasta chuniye aur uski fees official page se "Last checked" ke saath likhiye.

Task 2: Prompt 1 se product page ke 8 hisse; Prompt 4 se 5 FAQ.

Task 3: Listing banaiye (ya "listing-ready" Doc agar abhi publish nahi karna); test purchase kijiye.

Task 4: Prompt 2 se 3 personal launch messages aur ek status. Sab "07 Products / Project 4" mein; portfolio ke liye product page ka screenshot.

PROJECT 4 POORA TAB MAANIYE JAB

Product page ke 8 hisse • fees aur niyam official page se check • test purchase pass • koi naqli review ya vaada nahi • KDP ho to AI disclosure imaandaari se • launch messages taiyaar.

11 Common Mistakes

GALTI	SAHI TAREEKA
Test purchase nahi	Doosre number/email se khud kharid kar dekhiye.
Naqli testimonials	Asli kharidaar ki raay, permission ke saath, baad mein.
Fees ka andaaza	Official pricing page, tarikh ke saath.
Sabko ek jaisa broadcast	Pehle 10 logon ko personal message.
"Sirf aaj" jab sach nahi	Sirf sachchi deadline.
KDP par AI ki baat chhupana	AI-generated ho to disclose.

12 Quick Checklist

- ☐ Raasta chuna; fees official page se, tarikh ke saath
- ☐ Product page: 8 hisse, "kiske liye nahi" bhi
- ☐ Sahi file upload; test purchase pass
- ☐ Koi naqli review, jhootha scarcity ya kamaai ka vaada nahi
- ☐ AI ki madad ka imaandaar zikr (KDP par zaroori ho to disclosure)
- ☐ Launch messages personal; sales record sheet taiyaar

13 Chapter Summary

KEY TAKEAWAYS

- Bechne ke 3 raaste: seedha UPI, creator platform, Amazon KDP — har ek ke fayde aur kharche.
- Fees hamesha official pricing page se; example calculation sirf samajh ke liye.
- Product page ke 8 hisse; naqli review aur jhoothe vaade kabhi nahi.
- Launch se pehle test purchase; launch mein pehle wo log jo aapko jaante hain.
- KDP: AI-generated content disclose karna zaroori; AI-assisted nahi.

PART VII COMPLETE

AI Se eBook aur Digital Products — aapne kya haasil kiya

Ch 31

Idea, reader card,
10 logon se
validation, outline

Ch 32

AI draft ko apna
banana, edit, fact-
check

Ch 33

Cover, Style Page,
PDF

Ch 34

Checklist, Planner,
Template, Prompt
Pack

Ch 35

Project 4: product
page, test
purchase, launch

Ab aapke paas do raaste hain: **doosron ke liye kaam** (Part IV–VI) aur **apna product** (Part VII). Portfolio mein: Project 1–4, Branding Kit. Note mein likhiye: *"Part VII khatam — ab main ek chhota digital product bana kar, imaandaari se bechne ke liye taiyaar kar sakta/sakti hoon."*

Next Step — Part VIII, Chapter 36: Marketing Ki Basic Samajh

Product ho ya service — bina sahi logon tak pahunche kuch nahi bikta. Part VIII mein marketing, portfolio aur clients. Shuruaat Glow Salon se: Neha ji kehti hain, "Naye customer chahiye — ek offer bana do." Lekin Rahul pehle ek sawal poochhta hai: "Naye customer kaun hain, aur unki problem kya hai?"

IS CHAPTER KE SOURCES (LAST CHECKED: 21 SEPTEMBER 2026)

Topmate — Pricing page (10% / 20% commission) • Instamojo — Pricing page (digital products: 10% + ₹3 free/starter, 5% + ₹3 Growth) • Amazon KDP — Content Guidelines (AI-generated vs AI-assisted content disclosure)

PART VIII

08

Marketing, Portfolio aur Clients

Marketing ki basic samajh, WhatsApp Business, ek local campaign, bina client ke portfolio — aur izzat ke saath pehle clients tak pahunchna.

Chapter 36 – 41

36

Marketing Ki Basic Samajh

Marketing customer se shuru hoti hai, product se nahi.

Part VII ke aakhir mein Priya ne dekha ki uski pehli sales un logon se aayi jinki baat usne pehle suni thi. Yahi marketing ka pehla sabak hai — aur Part VIII isi se shuru hota hai. Ab tak aapne poster, content, website aur product banana seekha. Lekin koi bhi cheez tab kaam aati hai jab wo **sahi logon** tak, **sahi baat** ke saath pahunche. Is chapter mein koi naya tool nahi — sirf ek soch, jo aage ke har chapter ki neev hai.

1 Is Chapter Mein Kya Seekhenge

1 Marketing ke 7 shabd — ek kahani mein: Customer se Positioning tak

2 Offer aur discount ka farq

3 Customer ki problem kahan se pata karein — reviews aur baat-cheet

4 One-Page Marketing Plan — ek page, 7 khaane

2 Simple Explanation

Marketing ka simple matlab: **sahi logon** ko, **unki problem** ka hal, **sahi jagah** par, **samajh aane wale shabdon** mein batana — taaki wo aap par bharosa karke aapko chunein. Marketing chillana nahi hai; sahi insaan se sahi baat kehna hai.

Beginner aksar ulta karta hai: pehle poster banata hai, phir sochta hai kisko dikhaye. Is chapter ka kram seedha hai: **Kaun → Problem → Offer → Kaise kahein**. Poster, caption, website — sab iske baad aate hain.

EK LINE MEIN

Marketing **customer se shuru** hoti hai, product se nahi.

Kahani: "Sab Par 30% Off?"

Fictional kahani — Rahul, Neha ji, Imran bhai aur "Glow Salon" is book ke fictional examples hain.

RAHUL

Glow Salon ki website aur Google profile theek ho chuke the. Ab Neha ji boli: "Rahul, naye customer chahiye. Ek poster bana do — sab services par 30% off."

Rahul ne poster ke liye Canva khola, phir ruk gaya. Imran bhai ki baat yaad aayi: "Discount sabse aasaan offer hai — aur sabse mehenga." Usne Neha ji se poochha, "Naye customer kaun hain? Aur wo abhi kahin aur kyun jaate hain?"

Neha ji ke paas jawab nahi tha. To Rahul ne do kaam kiye: Google profile ke 40 reviews dobara padhe, aur agle do din salon mein aane wali 6 customers se 2-2 minute baat ki.

Ek pattern dikha. Paas mein naya office complex bana tha. Wahan kaam karne wali ladkiyan shaam ko aati thi — aur 3 reviews mein ek hi shikayat thi: "Shaam ko 40 minute intezaar karna pada." Unhe sasta nahi chahiye tha. Unhe **bina intezaar** chahiye tha.

Offer badal gaya: "**Evening Express — office ke baad, WhatsApp par slot book karo, bina intezaar.**" Shaam 6 se 8, fix slots, 45 minute ki chuni hui services. Koi discount nahi.

"30% off se wo aati," Neha ji ne baad mein kaha, "par intezaar karke naraaz jaati. Ab wo samay par aati hain — aur apni saheliyon ko laati hain."

Kahani ka nateeja fictional hai; har business mein offer ka asar alag hota hai.

4 Important Concepts

1. Marketing ke 7 shabd — Glow Salon ke saath

SHABD	SIMPLE MATLAB	GLOW SALON MEIN
Customer	Jo paise deta hai	Salon aane wali mahilayein
Target Audience	Jinse aap is baar khaas taur par baat kar rahe ho — sab nahi	Paas ke office mein kaam karne wali, 22–35 saal
Problem	Unki takleef — kaam ki aur mann ki	Shaam ko intezaar; thakaan ke baad aur time barbaad
Offer	Wo cheez jo aap dete ho — kya, kitne mein, kaise lein	Evening Express: 6–8 baje fix slot, WhatsApp booking
Value	Customer ko kya fayda, jo keemat se zyada lage	Time bachta hai, bina tension
Branding	Log aapko kaise pehchaante aur yaad rakhte hain — rang, naam, aur anubhav	Branding Kit (Chapter 18) + "Glow mein kabhi intezaar nahi"
Positioning	Customer ke mann mein aapki jagah — "wo wala jo..."	"Office ke baad, bina intezaar wala salon"

"Customer" aur "Target Audience" hamesha ek nahi hote: tuition ke liye paise mata-pita dete hain, lekin padhai bachcha karta hai — dono se alag baat karni padti hai.

2. Offer ≠ Discount

Discount

Wahi cheez, kam daam. Aasaan hai, par aadat ban jaata hai — customer "agle offer" ka intezaar karta hai, aur aapka munafa ghat-ta hai.

Offer

Customer ki **problem ka hal** — kabhi daam ke saath, aksar bina. Naya samay, naya package, aasaan booking, free delivery, guarantee, pehli visit ka trial.

PROBLEM	DISCOUNT WALA JAWAB	OFFER WALA JAWAB
Intezaar (salon)	30% off	Fix evening slots, WhatsApp booking
"Pata nahi khaana kaisa hoga" (tiffin)	Pehla hafta sasta	1 din ka trial tiffin
"Gaadi le jaane ka time nahi" (car wash)	₹50 off	Society mein Sunday pickup
"Gym akele boring" (fitness)	3 mahine ki fees kam	Dost ke saath join karo, dono ke liye plan

Discount galat nahi hai — kabhi-kabhi sahi hota hai (tyohaar, stock khatam karna). Bas wo pehla aur akela jawab na ho. Pricing ki poori baat Chapter 44 mein.

3. Problem kahan se pata karein

Reviews

Aapke aur competitors ke Google reviews — khaas kar 2-3 star wale

Baat-cheet

5-10 customers se 2 minute: "Kya achha laga, kya mushkil tha?"

Sawal

WhatsApp aur DM par baar-baar aane wale sawal

Dekhna

Dukaan mein kahan log atakte, intezaar karte, laut jaate hain

AI KI SEEMA

AI aapke mohalle ke customers ko nahi jaanta. Wo "aam taur par salon customers ko..." jaisi baatein bata sakta hai — kaam ki, par andaaza. **Asli problem asli logon se aati hai**; AI unke notes ka pattern nikaalne mein madad karta hai (Chapter 31 wala tareeka).

4. Positioning — ek line

Hum **[kaun]** ke liye **[kya dete hain]**, aur hum **[kis baat mein alag hain]**.

Glow Salon: "Hum office jaane wali mahilaon ke liye shaam ki grooming dete hain — bina intezaar, WhatsApp booking ke saath." Ye line har poster, caption aur bio ki disha tay karti hai. Isme "best", "No.1", "sabse sasta" jaise shabd nahi — sirf wo farq jo sach mein hai.

5. Customer ka safar — 5 kadam

Jaane Pehli baar naam suna/dekha	Bharosa Reviews, photos, jawab dekhe	Kharide Pehli booking/order	Wapas aaye Achha anubhav	Bataye Dost ko recommend
--	--	---------------------------------------	------------------------------------	------------------------------------

Har marketing kaam kisi ek kadam ke liye hota hai. Instagram Reel = **Jaane**. Google reviews ke jawab = **Bharosa**. WhatsApp booking = **Kharide**. Follow-up message = **Wapas aaye**. Referral = **Bataye** (Chapter 46). Pehle dekhiye kaunsa kadam toota hai — Glow Salon mein "Kharide" ke baad anubhav (intezaar) toot raha tha.

5 Step-by-Step Mobile Process: One-Page Marketing Plan

1 Business chuniye

Client, parivaar ka business, ya apna product (Part VII).

2 Reviews ikattha

Google Maps se business aur 2 competitors ke 15–20 reviews copy karke ek Doc mein (naam hata kar).

3 5 logon se baat

2-2 minute: kya achha, kya mushkil, kyun aate hain, kyun nahi aate.

4 Pattern

Prompt 1 se reviews aur notes ka pattern — top 3 problems.

5 Target audience chuniye

Ek group — "sab log" nahi.

6 Offer options

Prompt 2 se 5 offers — kam se kam 3 bina discount ke. Owner ke saath ek chuniye.

7 Positioning line

Prompt 3 se options; sirf sachcha farq.

8 One-Page Plan

7 khaane bhariye (neech example), Doc mein ek page. Owner se "haan".

6 AI Tool Recommendation

Aapka Chat AI — reviews aur baat-cheet ke notes ka pattern, offer ke vikalp, positioning lines, plan ka format. **Google Maps** — reviews padhna. **Google Docs** — One-Page Plan. Koi naya tool nahi; is chapter ka asli tool aapke **kaan** hain.

7 Copy-Paste Prompts

PROMPT 1 — REVIEWS SE PROBLEMS

Ye "[business type]" ke Google reviews aur customers se baat ke notes hain (naam hata diye hain): [paste].

Batao: (1) customers ki top 3 problems, har ek kitni baar aayi (2) wo kya pasand karte hain (3) kya koi khaas group (umar, kaam, samay) baar-baar dikhta hai. Sirf is data ke aadhaar par — apni taraf se andaaza mat jodo; jahan data kam ho, saaf likho.

PROMPT 2 — OFFER OPTIONS

Business: [kya, kahan]. Target audience: [kaun]. Unki problem: [problem]. Owner kya de sakta hai: [samay, staff, budget ki seema].

5 offer ideas do — kam se kam 3 **bina discount** ke. Har offer: naam, customer ko exactly kya milega, shart, business ke liye kharcha/mehnat (kam/madhyam/zyada). Koi aisa vaada nahi jo owner poora na kar sake.

PROMPT 3 — POSITIONING LINE

Business: [kya]. Target: [kaun]. Asli farq jo competitors se alag hai: [1-2 sachchi baatein]. Is format mein 5 lines do: "Hum [kaun] ke liye [kya] dete hain, aur hum [farq] mein alag hain." "Best", "No.1", "sabse sasta" jaise shabd nahi.

PROMPT 4 — ONE-PAGE PLAN

In jaankariyon se ek One-Page Marketing Plan table banao — Customer, Target Audience, Problem, Offer, Value, Branding, Positioning — aur neeche "Customer ke safar ka kaunsa kadam kamzor hai aur pehla kaam kya ho". Jaankari: [sab paste].

8 Prompt Ka Explanation

PROMPT KA HISSA	YE KYUN KAAM KARTA HAI
"Kitni baar aayi" (P1)	Ek insaan ki shikayat aur 10 logon ki shikayat mein farq hai — ginti se pata chalta hai.
"Owner kya de sakta hai" (P2)	AI ka sundar offer bekaar hai agar salon ke paas shaam ko staff hi nahi.
"3 bina discount" (P2)	AI bhi pehle discount sochta hai; ye line use problem ki taraf modti hai.
"Asli farq" (P3)	Positioning jhooth par tike to pehli visit mein hi toot jaati hai.

DHYAN DEIN

Competitors ke reviews padhiye, unse seekhiye — par unke baare mein bura mat likhiye/boliye, aur unka content copy mat kijiye. Apna farq dikhaiye, unki kami nahi.

9 Practical Example: Glow Salon Ka One-Page Marketing Plan

GLOW SALON · ONE-PAGE MARKETING PLAN		
Customer Mohalle aur paas ke office ki mahilayein	Target Audience Office jaane wali, 22–35, shaam 6 ke baad free	Problem Shaam ko 30–40 min intezaar (3 reviews + 4 baat-cheet)
Offer Evening Express: 6–8 baje fix slot, WhatsApp booking, 45-min services	Value Time bachta hai; thakaan ke baad bina tension	Branding Branding Kit + vaada: "Slot book, to intezaar nahi"
Positioning "Office ke baad, bina intezaar wala salon"		
Kamzor kadam → pehla kaam "Kharide" ke baad anubhav — booking system aur fix slots pehle, poster baad mein (Chapter 38 mein poora campaign)		

Fictional example.

10 Practice Task

Task 1: Ek business chuniye; uske aur 2 competitors ke 15–20 reviews ek Doc mein (naam hata kar).

Task 2: 5 logon se 2-2 minute baat; Prompt 1 se top 3 problems.

Task 3: Prompt 2 se 5 offers (3 bina discount), Prompt 3 se positioning line.

Task 4: Prompt 4 se One-Page Marketing Plan; owner ke saath 10 minute review. File "03 Clients / [business]" mein.

11 Common Mistakes

GALTI	SAHI TAREEKA
Pehle poster, phir soch	Kaun → Problem → Offer → phir poster.
"Hamara customer — sab log"	Is baar ek group chuniye.
Har baar discount	Problem ka hal — kam se kam 3 non-discount options.
AI ke andaaze ko customer ki raay maanna	Reviews aur asli baat-cheet.
"Best/No.1" positioning	Sachcha, dikhne wala farq.
Offer jo owner poora na kar sake	Owner ki seema pehle poochhiye.

12 Quick Checklist

- ☐ Reviews aur kam se kam 5 logon ki baat se problem nikali
- ☐ Ek target audience chuna
- ☐ Offer problem hal karta hai — sirf discount nahi
- ☐ Positioning line sachchi hai, "best/No.1" ke bina
- ☐ One-Page Plan bana; kamzor kadam aur pehla kaam tay

13 Chapter Summary

KEY TAKEAWAYS

- Marketing customer se shuru hoti hai: Kaun → Problem → Offer → Kaise kahein.
- 7 shabd: Customer, Target Audience, Problem, Offer, Value, Branding, Positioning.
- Offer ≠ discount — offer problem ka hal hai.
- Problem reviews aur asli baat-cheet se; AI sirf pattern nikaale.
- Customer ka safar: Jaane → Bharosa → Kharide → Wapas aaye → Bataye; pehle kamzor kadam theek.

Next Step — Chapter 37: WhatsApp Business Marketing aur Business AI

Glow Salon ka offer tay hai: "WhatsApp par slot book karo." Lekin Neha ji ka WhatsApp personal number hai — family groups, customer messages, sab mila-jula. Agle chapter mein WhatsApp Business: profile, catalog, labels, quick replies, broadcast ke niyam aur tameez, aur Business AI ka setup.

37

WhatsApp Business Marketing aur Business AI

Receptionist AI ho sakta hai — boss aap hi rahiye.

Chapter 36 mein Glow Salon ka offer tay hua: "Evening Express — WhatsApp par slot book karo, bina intezaar." Lekin jab booking ka poora bojh WhatsApp par aaya, ek nayi problem dikhi: Neha ji ka WhatsApp unka **personal** number tha. Family group, rishtedaaron ke forward, aur beech mein customer ka "Kal 7 baje slot hai?" — sab ek hi jagah. Is chapter mein WhatsApp ko ek **chhoti dukaan ke counter** jaisa banayenge: saaf, vyavasthit, aur izzat se baat karne wala.

1 Is Chapter Mein Kya Seekhenge

- | | |
|---|---|
| <p>1 WhatsApp Business app — profile, catalog, labels, quick replies</p> | <p>2 Greeting aur away message — jab aap busy hon</p> |
| <p>3 Broadcast ke niyam aur tameez — spam nahi, rishta</p> | <p>4 Business AI — setup, seemaayein aur roz ki nigraani</p> |

2 Simple Explanation

WhatsApp Business ek alag, free app hai jo chhote business ke liye bana hai. Chat wahi hai, lekin saath mein counter ke auzaar: business ki jaankari wala profile, services ki list (catalog), chats par label, ek tap mein bhejne wale jawab, aur apne-aap jaane wale swagat/away messages.

Iske saath ab **Business AI** bhi aaya hai — ek AI assistant jo aapki di hui jaankari se customers ke sawalon ka jawab de sakta hai. Madadgaar hai, lekin Chapter 3 ka niyam yahan bhi: AI galat bhi bol sakta hai, aur **zimmedaari business ki** hai.

PERSONAL AUR BUSINESS ALAG

Ho sake to business ke liye **alag number** rakhiye. Personal number ko hi Business app mein badalna ho, to pehle chat **backup** lijiye aur app ke apne steps follow kijiye.

3

Kahani: 7 Baje Ka Slot Kiska Hai?

Fictional kahani — Rahul, Neha ji aur "Glow Salon" is book ke fictional examples hain.

RAHUL

Evening Express ke pehle hafte mein hi gadbad ho gayi. Do customers aa gayi — dono ka 7 baje ka slot. Neha ji ne WhatsApp mein dhoondha: ek booking family group ke 40 messages ke neeche dab gayi thi. Doosri ko unhone "Haan" likha tha, par kisi list mein note nahi kiya.

Rahul ne ek shaam lagayi. Salon ke liye naya number, WhatsApp Business app, poora profile — timing, address, website link. Catalog mein Evening Express ki 6 services, daam ke saath. Aur **labels**: "Naya sawal", "Slot pakka", "Aa gayi", "Follow-up".

Phir **quick replies**: `/slot` likhte hi poora message — aaj ke khaali slots kaise poochhein, 45 minute ki services, aur "Slot pakka hone par hi aaiye". `/rate` se rate list, `/map` se location.

Neha ji ne Business AI bhi on karna chaha. Rahul ne kaha, "Pehle 20 sawal khud poochh kar dekhte hain." AI ne 17 sahi jawab diye — lekin ek customer ke "Mujhe skin allergy hai, facial chalega?" par AI ne seedha "Haan, zaroor" likh diya. Rahul ne AI ki jaankari mein likha: "Allergy ya health ke sawal — owner se baat karayein." Aur wo sawal owner tak jaane laga.

"Pehle WhatsApp mera sar-dard tha," Neha ji boli. "Ab wo mera receptionist hai — par main uski boss hoon."

4 Important Concepts

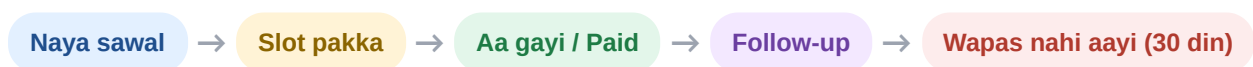

1. WhatsApp Business ke 6 auzaar

AUZAAR	KYA KARTA HAI	GLOW SALON MEIN
Business profile	Naam, category, description, address, timing, website — customer ek tap mein dekhe	Wahi jaankari jo Google profile par (Chapter 29) — ek jaisi
Catalog	Products/services ki list — photo, naam, daam, chhota description	Evening Express ki 6 services
Labels	Chats par rangeen tag — kaun kis stage par hai	Naya sawal • Slot pakka • Aa gayi • Follow-up
Quick replies	"/" shortcut se pehle se likha jawab	/slot • /rate • /map • /thanks
Greeting message	Naye customer ke pehle message par apne-aap swagat	Swagat + menu + "slot ke liye /slot"
Away message	Band samay par apne-aap jawab	"Abhi salon band hai; subah 10 baje jawab denge"

Ye features WhatsApp Business app ke Settings/Tools mein milte hain; menu ke naam app update ke saath badal sakte hain.

2. Labels — ek chhota CRM

CRM (Customer Relationship Management) ka matlab hai customers ka hisaab rakhne ka system. Bade business mehenge software lagate hain; aapke liye labels kaafi hain:

Roz shaam 5 minute: "Naya sawal" wali har chat ko jawab mila? "Follow-up" walon ko thank-you gaya? (Customer ka safar, Chapter 36.)

3. Broadcast — niyam aur tameez

Broadcast list se ek message kai logon ko jaata hai, lekin har ek ko alag chat mein — group ki tarah nahi. Do zaroori baatein (WhatsApp help aur broadcast guides ke mutabik):

- Message **sirf unhe milta hai jinhone aapka number apne phone mein save kiya hai**. Isliye "Please number save kar lijiye" pehle hi keh dijiye.
- Ek list mein **256** contacts tak.

- WhatsApp broadcasts par **mahine ki seema** (limit) test kar raha hai, aur Business app mein ek alag paid "**business broadcasts**" vikalp bhi aaya hai. Isliye current seema aur kharcha apne app mein dekh lijiye.

TAMEEZ ✓	SPAM ✗
Sirf customers ya jinhone jaankari maangi	Anjaan numbers ki list khareedna ya jodna
Hafte mein 1–2 baar tak, kaam ki baat	Roz-roz offer
Har message mein: " <i>Aise messages nahi chahiye to STOP likhiye</i> " — aur STOP par turant hatana	STOP ko ignore karna
Pehle value (tip, naya slot, zaroori khabar), phir offer — Chapter 19 ka 80/20	Har message sirf "Offer! Offer!"

BLOCK KA NUKSAAN

Jitne zyada log aapko block ya report karenge, WhatsApp aapke account par utni hi rok laga sakta hai. Ek bhi customer ko pareshaan karna, sau ko khone ka raasta hai.

4. Business AI — kya hai, kaise

Meta ne May 2026 mein India ke chhote business ke liye WhatsApp par **Business AI** ki ghoshna ki — dheere-dheere rollout ke saath. Meta ke announcement ke mutabik:

BAAT	ANNOUNCEMENT MEIN KYA LIKHA HAI
Kya karta hai	24/7 sawalon ke jawab, FAQ, product sujhaav, leads, appointment booking mein madad
Kahan	WhatsApp Business app → Tools → "Your Business AI" (jo business eligible hain)
Kaise seekhta hai	Aapka catalog aur business documents upload karne se
Bhasha	Announcement ke mutabik Bharat ki native bhashaon mein
Control	Aap kabhi bhi khud jawab de sakte hain, uska vyavhaar badal sakte hain, ya band kar sakte hain

Aapke app mein ye option abhi na dikhe, to ho sakta hai rollout aap tak na pahuncha ho ya aapka account eligible na ho. Kharche ya naye niyam ke liye WhatsApp ki official jaankari dekhiye.

5. Business AI ke 5 niyam — is book ke

1. Sirf sach sikhaiye

Rate, timing, services ka ek saaf, owner-confirmed document

2. 20-sawal test

On karne se pehle khud (ya dost se) 20 asli sawal poochhiye

3. Seema tay

Health, allergy, refund, shikayat — "owner se baat karayein"

4. Imaandaari

Greeting mein batayein: "Pehla jawab hamara AI assistant deta hai"

5. Roz nigraani

Shaam ko AI ki chats padhiye; galat jawab ho to turant sudhaariye

Niyam 4 Meta ki shart nahi, is book ki salah hai — customer ko pata ho ki wo kisse baat kar raha hai, to bharosa banta hai.

5 Step-by-Step Mobile Process: WhatsApp Business Setup

1 App aur number

Play Store se "WhatsApp Business" (publisher: WhatsApp LLC). Business number se register; personal number badal rahe hain to pehle backup.

2 Profile

Naam (board jaisa), category, description (Prompt 1), address, timing, website — Google profile se milaiye.

3 Catalog

5–10 main products/services, asli photo, owner ke confirm daam (Prompt 2).

4 Labels

4–5 labels — upar wala kram.

5 Quick replies

5–8 shortcuts (Prompt 3): rate, slot/order, location, payment, thanks.

6 Greeting + away

Swagat ke saath raasta; band samay ka saaf jawab.

7 Broadcast list

Sirf permission wale customers; "number save kijiye" ka request; pehla message value wala (Prompt 4).

8 Business AI (agar available)

Knowledge document (Prompt 5), seemaayein, 20-sawal test (Prompt 6), phir on.

9

Roz ki 5 minute aadat

Labels check, AI chats review, pending jawab.

6

AI Tool Recommendation

TOOL	KAAM
WhatsApp Business app	Profile, catalog, labels, quick replies, broadcast, Business AI
Aapka Chat AI	Description, catalog text, quick replies, broadcast, AI ka knowledge document aur test sawal
Canva	Catalog photos ka ek jaisa look, profile photo (logo)
Google Docs	Business AI ke liye owner-confirmed FAQ document

7

Copy-Paste Prompts**PROMPT 1 — PROFILE DESCRIPTION**

WhatsApp Business profile ke liye "[business]" ka description likho – [type], [area], main services: [list], khaas baat: [positioning line, Chapter 36]. Chhota, simple Hinglish, koi "best/No.1" nahi. 3 options.

PROMPT 2 — CATALOG ITEMS

Ye meri services/products hain, owner ke confirm daam ke saath: [list]. Har ek ke liye WhatsApp catalog ka naam (max 5 shabd) aur 1–2 line description do – kya milta hai, kitna samay/matra. Daam wahi rakho jo maine diye.

PROMPT 3 — QUICK REPLIES

"[business]" ke liye 8 WhatsApp quick replies banao: shortcut (jaise /rate) + poora message. Sawal jo roz aate hain: [list]. Timing: [..], location link: [..], payment: [UPI/cash]. Har message chhota, garam, ek saaf agla kadam.

PROMPT 4 — BROADCAST MESSAGE

Mere customers ke liye ek WhatsApp broadcast likho. Pehle value: [tip ya zaroori khabar], phir offer: [offer, shart, tarikh]. 5–6 line, emoji kam. Aakhir mein: "Aise messages nahi chahiye to STOP likhiye." Koi jhoothi jaldi ("sirf aaj") mat jodna jab tak main na kahun.

PROMPT 5 — BUSINESS AI KA KNOWLEDGE DOCUMENT

Mere business ki ye jaankari hai: [services, daam, timing, address, booking tareeka, payment, niyam]. Ise ek saaf FAQ document mein badlo — sawal-jawab format. Aakhir mein ek hissa "Ye sawal owner ko bhejein": health/allergy, refund, shikayat, [aur]. Koi jaankari apni taraf se mat jodna.

PROMPT 6 — 20-SAWAL TEST

Mere "[business]" ke customers WhatsApp par kya-kya poochh sakte hain — 20 asli jaise sawal do, Hinglish mein, kuch mushkil aur kuch aise jo AI ko owner ko bhejne chahiye (allergy, refund, gussa). Main inse apne Business AI ko test karunga.

8 Prompt Ka Explanation

PROMPT KA HISSA	YE KYUN KAAM KARTA HAI
"Daam wahi rakho" (P2)	AI "sahi lagne wale" daam bana deta hai — catalog mein galat daam = jhagda.
"Ek saaf agla kadam" (P3)	Har jawab customer ko booking/order ki taraf le jaaye (Chapter 20 ka CTA).
"STOP" line (P4)	Respect aur block se bachaav — dono.
"Owner ko bhejein" hissa (P5)	AI ki seema pehle se tay; sensitive sawal insaan tak.
"Mushkil sawal" (P6)	Aasaan sawal to sab sahi karte hain; mushkil sawal hi kamzori dikhate hain.

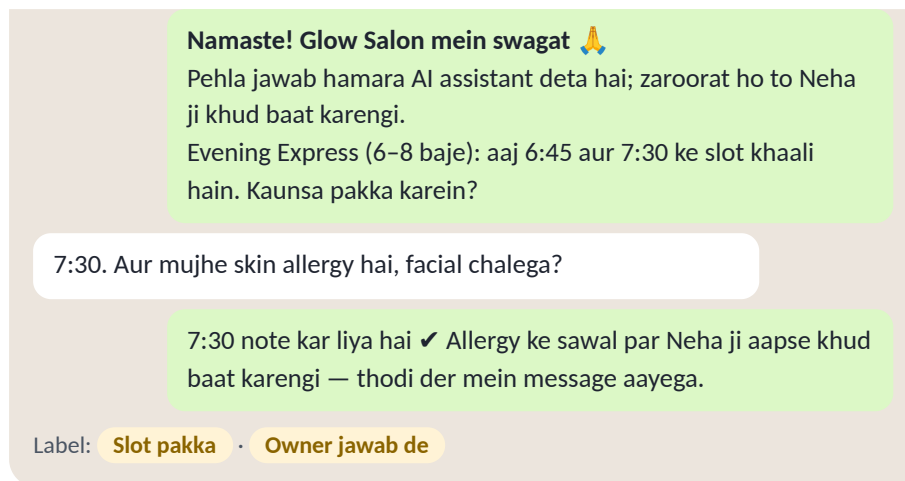

DHYAN DEIN

Customers ke chats aur numbers unki jaankari hain. Unhe kisi aur ko dena, bechna, ya bina zaroorat kisi AI tool mein paste karna galat hai — Chapter 49 mein privacy.

9 Practical Example: Glow Salon Ka WhatsApp Counter

Glow Salon • Business account

Hi, aaj shaam ka slot hai?

Fictional example. Chat sirf samjhane ke liye banaya gaya hai.

10 Practice Task

Task 1: Kisi ek business (apna/client/parivaar) ka WhatsApp Business profile poora kijiye — Prompt 1.

Task 2: 5 catalog items (Prompt 2), 4-5 labels, 8 quick replies (Prompt 3), greeting aur away message.

Task 3: Ek broadcast message draft (Prompt 4) — STOP line ke saath. Sirf permission wale contacts.

Task 4: Business AI dikhe to: knowledge doc (Prompt 5), 20-sawal test (Prompt 6), galat jawab note karke sudhaar. Na dikhe to sirf doc aur test sawal taiyaar rakhiye.

11 Common Mistakes

GALTI	SAHI TAREEKA
Personal aur business ek hi WhatsApp	Alag number, ya Business app + labels.
Anjaan numbers ko broadcast	Sirf customers/permission wale; number save ka request.
STOP ka option nahi	Har broadcast mein; STOP par turant hatana.
Business AI bina test on	20-sawal test, seemaayein, roz review.
AI se health/refund ke jawab	Sensitive sawal owner ko.
Catalog aur Google profile mein alag daam/timing	Har jagah ek jaisi jaankari.

12 Quick Checklist

- ☐ Business profile poora — Google profile se match
- ☐ Catalog mein owner-confirmed daam
- ☐ Labels, quick replies, greeting aur away message set
- ☐ Broadcast: sirf permission wale, STOP line, hafte mein 1-2 tak
- ☐ Business AI: sach wala doc, 20-sawal test, seemaayein, roz review

13 Chapter Summary

KEY TAKEAWAYS

- WhatsApp Business = chhoti dukaan ka counter: profile, catalog, labels, quick replies, greeting/away.
- Labels se chhota CRM — roz 5 minute.
- Broadcast sirf number save karne walon tak (list mein 256 tak); permission, value pehle, STOP option.
- Business AI (India, May 2026 se rollout): sach wala doc, test, seemaayein, nigraani.
- Customer ka data unki amaanat hai.

Next Step — Chapter 38: Project 5 — Local Marketing Campaign

Ab saare auzaar haath mein hain: offer (Chapter 36), poster (Part IV), caption aur Reel (Part V), Google post (Chapter 29), aur WhatsApp counter (is chapter). Agle chapter mein inhe ek saath jod kar Glow Salon ka Evening Express ka poora campaign chalayenge — shuru se follow-up tak. Project 5.

IS CHAPTER KE SOURCES (LAST CHECKED: 21 SEPTEMBER 2026)

Meta Newsroom — Introducing Business AI on WhatsApp for Small Businesses in India (May 2026) • WhatsApp Help Center — How to use broadcast lists (256 contacts; sirf number save karne walon ko) aur About pricing for business broadcasts (search result se dekha; page fetch block tha) • TechCrunch (18 Mar 2025) — WhatsApp broadcast limits ka test • Social Media Today (3 Apr 2025) — business broadcasts

38

Project 5: Local Marketing Campaign

Ek baat, kai jagah, aur aakhir mein sachcha hisaab.

PROJECT 5 Is chapter mein aap ek local business ka 14 din ka poora marketing campaign plan karenge aur chalayenge — offer se follow-up tak, aur nateeja imaandaari se naap kar.

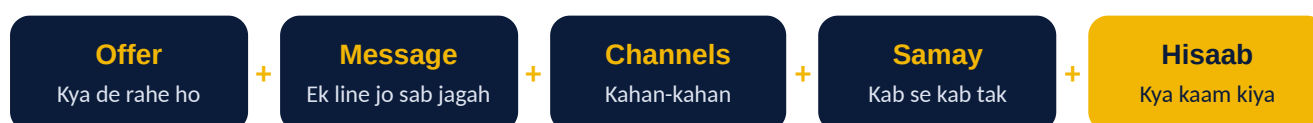

Chapter 36 mein offer bana, Chapter 37 mein WhatsApp counter saja. Part IV mein aapne poster banana seekha tha, Part V mein caption aur Reel, Chapter 29 mein Google post. Ab tak ye sab **alag-alag** the. Campaign unhe **ek saath** bajaata hai — jaise band mein har instrument ek hi gaana bajata hai. Aur ek nayi cheez: pehli baar hum **naapenge** ki kya kaam kiya.

1 Is Chapter Mein Kya Seekhenge

- 1 Campaign Brief — ek page mein poora plan
- 2 Campaign Kit — ek message, 6 roop
- 3 14-din ka calendar aur roz ka kaam
- 4 Tracking, follow-up aur imaandaar Campaign Report

2 Simple Explanation

Campaign matlab: ek **offer**, ek **message**, kai **jagah**, ek **tay samay** ke liye — aur aakhir mein **hisaab**. Ek poster daal dena campaign nahi hai. Campaign mein har cheez ek hi baat kehti hai, alag jagah par, alag roop mein.

SACHCHI BAAT

Campaign ka nateeja pehle se koi nahi jaanta — na aap, na AI. Isliye lakshya (goal) **owner ke saath** tay hota hai, vaade ki tarah nahi, **naapne** ke liye. Kaam na kare to wo bhi ek seekh hai.

3

Kahani: Instagram Ya Notice Board?

Fictional kahani — Rahul, Neha ji aur "Glow Salon" is book ke fictional examples hain; numbers bhi fictional hain.

RAHUL

Evening Express ka campaign 14 din ka tay hua. Rahul ne sab kuch banaya: Instagram post aur Reel, WhatsApp status, purane customers ko broadcast, Google profile par Offer post, website par ek banner — aur Neha ji ke kehne par ek A4 poster, jo paas ke office complex ke notice board par lagana tha, uspar WhatsApp ka QR code.

Imran bhai ne ek hi sawal poochha: "Kaise pata chalega ki kaunsi cheez ne customer laaya?" Rahul ne /slot wale quick reply mein ek line jodi: "Aapko Evening Express ke baare mein kahan se pata chala?" — aur har jawab ek Google Sheet mein.

Teesre din galti pakdi gayi: website par abhi bhi purani timing thi — "shaam 7 baje tak". Theek ki.

14 din baad Sheet dekhi. Rahul ko laga tha Reel sabse zyada laayegi. Lekin sabse zyada bookings **notice board ke poster** aur **WhatsApp status** se aayi. Instagram se kam, lekin wahan se aaye log naye the — jo pehle kabhi salon nahi aaye the.

"Agar main poochhta nahi," Rahul ne kaha, "to main agle campaign mein bhi sab paisa aur mehnat Reel par lagata — andaaze se."

4 Important Concepts

1. Campaign Brief — 9 khaane, ek page

KHAANA	KYA LIKHNA HAI	GLOW SALON
Goal	Ek naapne layak lakshya — owner ke saath	14 din mein Evening Express ki bookings badhana; lakshya: 20 (owner ka)
Audience	Chapter 36 ka target	Paas ke office ki mahilayein, 22–35
Offer	Kya, shart, kab tak	6–8 baje fix slot, WhatsApp booking
Main message	Ek line — har jagah	"Office ke baad, bina intezaar"
Channels	Kahan-kahan	Instagram, WhatsApp, Google profile, website, notice board
Tarikh	Shuru–khatam	[Din 1] se [Din 14]
Budget	Paisa + time	Print ₹[..], Rahul ke [..] ghante
Tracking	Kaise naapenge	"Kahan se pata chala?" + Sheet
Manzoori	Kaun, kab "haan" dega	Neha ji — har design aur text publish se pehle

2. Campaign Kit — ek message, 6 roop

Poster 1 Instagram (square/portrait), WhatsApp status (lamba), print A4 — Chapter 17 ka workflow	Caption + Reel 2 Hook → Value → CTA (Chapter 20, 21)	WhatsApp 3 Broadcast + personal message + /slot quick reply (Chapter 37)
Google post 4 "Offer" type post, tarikh ke saath (Chapter 29)	Website 5 Upar ek chhota banner/section — timing sahi (Chapter 28)	Follow-up 6 Aane ke baad thank-you + raay + agli visit

Print poster par **QR code** jo seedha WhatsApp chat khole (Chapter 28 ka wa.me link). Canva mein QR code banane ka option hai. Chhapne se pehle phone se scan karke test.

3. Tracking — sabse aasaan tareeke

TAREEKA	KAISE
Seedha poochhna	Booking ke waqt: "Kahan se pata chala?" — sabse bharosemand
Alag message	QR/link mein pehle se likha message alag: notice board ka "Evening Express – Board", Instagram ka "Evening Express – Insta" (wa.me ? text=)
Label	WhatsApp label "Campaign – Evening"
Sheet	Tarikh · naam ka pehla akshar · channel · aayi/nahi · naya/purana customer

NAAP KI IMAANDAARI

Jo nahi pata, use "pata nahi" likhiye. Andaaize se khaane mat bhariye. Owner ko report mein asli ginti hi dijiye — kam ho tab bhi.

4. Follow-up — campaign ka chhupa hua aadha

Naya customer laana mushkil hai; aaye hue ko wapas laana aasaan. Campaign mein aaye har customer ko:

- **Usi din:** thank-you message (quick reply).
- **2–3 din baad:** "Kaisa laga?" — aur achha laga ho to Google review ka link. Review ke badle koi discount/gift nahi (Google ki policy, Chapter 29) — aur sabse poochhiye, sirf khush logon se nahi.
- **3–4 hafte baad:** agli visit ki yaad — label "Follow-up" se.

5. Campaign ke niyam

KABHI NAHI

Jhootha "sirf aaj" ya "sirf 5 slot" (jab sach nahi) · offer ka vaada jo salon poora na kar sake · customer ki photo/review bina permission campaign mein · anjaan numbers ko broadcast · doosre salon ki burai.

5 Step-by-Step Mobile Process: 14-Din Campaign

DIN	KYA KARNA HAI
Taiyaari (2–3 din)	Brief (Prompt 1) · owner se goal · Campaign Kit (Prompt 2) · owner ki manzoori · website/Google/WhatsApp ki jaankari match · QR test · Sheet taiyaar
Din 1	Launch: Instagram post · WhatsApp status · Google Offer post · website banner · print poster lagana
Din 2	Purane customers ko broadcast (permission wale) · 10 personal messages
Din 3–4	Reel · roz ka status · Sheet update · koi galti? (link, timing, daam)
Din 5–7	Pehle customers ko follow-up · Instagram story · aadha-raasta review: kya chal raha hai?
Din 8–10	Jo channel kaam kar raha hai, us par thoda zyada · asli customer ki raay (permission se) post
Din 11–13	Yaad dilaane wala status/post — sirf sachchi deadline
Din 14	Campaign band · poster hataiye/Google post khatam · Sheet se Campaign Report (Prompt 4)
Baad mein	Follow-up aur review requests · owner ke saath 15 minute: agli baar kya badlein

6 AI Tool Recommendation

TOOL	KAAM
Aapka Chat AI	Brief, kit ka saara text ek saath, calendar, Sheet se report
Canva	Posters ke 3 size, Reel cover, QR code
Edits / video app	Reel (Chapter 21)
WhatsApp Business + Google profile	Broadcast, status, labels, Offer post
Google Sheets	Tracking aur report

7 Copy-Paste Prompts

PROMPT 1 — CAMPAIGN BRIEF

Business: [kya, kahan]. One-Page Marketing Plan: [Chapter 36 wala paste]. Owner ka goal: [number, din]. Budget: [paisa, mera time]. Channels jo available hain: [list].

Ek Campaign Brief table banao – Goal, Audience, Offer, Main message (ek line, 3 options), Channels, Tarikh, Budget, Tracking, Manzoori. Koi nateeja ya "expected bookings" mat likhna.

PROMPT 2 — CAMPAIGN KIT KA TEXT

Is brief ke hisaab se: [brief paste]. Ek hi main message rakhte hue ye sab likho: (1) poster ka text – headline max 5 shabd, sub-line, CTA (2) Instagram caption – Hook→Value→CTA (3) 30-sec Reel script (4) WhatsApp broadcast – STOP line ke saath (5) personal WhatsApp message (6) Google "Offer" post (7) website banner ki 2 line (8) thank-you aur 3-din-baad wala follow-up. Koi jhoothi jaldi ya bana hua number nahi.

PROMPT 3 — TRACKING LINKS

Mera WhatsApp number [...] hai. Har channel ke liye alag pehle-se-likha message wala wa.me link do: [channels list]. Message format: "[Offer] – [Channel]". Space sahi encode karna. Phir ek Google Sheet ke columns sujhaao jisme main roz bookings likh sakoon.

PROMPT 4 — CAMPAIGN REPORT

Ye mere 14-din campaign ki Sheet ka data hai: [paste]. Goal tha: [...]. Owner ke liye 1 page ki simple report banao: kitni bookings, kis channel se, naye vs purane, kya kaam kiya, kya nahi, agli baar 3 sudhaar. Sirf data se – jahan data nahi, "pata nahi" likho. Bahana ya badha-chadha kar nahi.

8 Prompt Ka Explanation

PROMPT KA HISSA	YE KYUN KAAM KARTA HAI
"Expected bookings mat likhna" (P1)	AI andaaze ko fact jaisa likh deta hai — owner use vaada samajh leta hai.
"Ek hi main message" (P2)	Saare 8 tukde ek awaaz mein — customer ko har jagah wahi baat.
"[Offer] - [Channel]" (P3)	Customer ka pehla message hi bata deta hai wo kahan se aaya.
"Pata nahi likho" (P4)	Imaandaar report se owner ka bharosa — aur agla kaam — aapko milta hai.

DHYAN DEIN

Ek saath 8 tukde banane mein galti chhupna aasaan hai. Publish se pehle har tukde mein **timing, daam, number aur tarikh** ek baar milaiye — sab jagah ek jaisa?

9 Practical Example: Evening Express — Campaign Report

CAMPAIGN REPORT · GLOW SALON · EVENING EXPRESS · 14 DIN			
Goal (owner) 20 bookings	Asli 23 bookings	Naye customers 14	Wapas aaye (2 hafte mein) 5
CHANNEL	BOOKINGS	SEEKH	
Notice board poster (QR)	8	Target ke sabse paas — sabse kaam ka	
WhatsApp status	6	Purane customers ne saheliyon ko bheja	
Instagram (post + Reel)	4	Kam, par sab naye log	
Google profile	3	"Salon near me" se aaye	
Pata nahi	2	Poochhna reh gaya	
Agli baar: notice board 2 aur office complex mein · Reel mein asli customer (permission se) · "Kahan se pata chala" har booking par, bina bhoole.			

Fictional example — saare numbers sirf samjhane ke liye hain. Aapke campaign ke nateeje alag honge; koi guarantee nahi.

10 Practice Task — Project 5

Business chuniye: Chapter 36 wala business (asli, permission ke saath) — ya fictional business ka "Demo Campaign" (sirf plan aur kit, publish nahi).

Task 1: Prompt 1 se Campaign Brief; owner ke saath goal.

Task 2: Prompt 2 se Campaign Kit ka text; Canva mein 3 poster size + QR; Reel.

Task 3: Prompt 3 se tracking links aur Sheet; 14-din calendar.

Task 4: Campaign chalaiye (asli ho to) aur Prompt 4 se report. Sab "03 Clients / [business] / Campaign" mein; ek copy "04 Portfolio / Project 5".

PROJECT 5 POORA TAB MAANIYE JAB

Brief owner ne manzoor kiya • kit ke saare tukde ek message mein • har jagah timing/daam ek jaisa • tracking chali • report mein asli ginti (ya "Demo Campaign" label) • follow-up bheje gaye.

11 Common Mistakes

GALTI	SAHI TAREEKA
Har channel par alag baat	Ek main message, 6 roop.
Tracking nahi	"Kahan se pata chala?" + alag wa.me message + Sheet.
Purani jaankari kahin reh gayi	Launch se pehle website/Google/WhatsApp match.
Campaign ke baad kuch nahi	Follow-up + review request (bina inaam).
Report mein andaaze	Sirf asli ginti; baaki "pata nahi".
Nateeje ka vaada	Goal naapne ke liye, guarantee nahi.

12 Quick Checklist

- ☐ Campaign Brief — 9 khaane, owner ki manzoori
- ☐ Kit ke 6 roop ek hi message ke saath
- ☐ QR aur links test; jaankari har jagah same
- ☐ 14-din calendar aur roz Sheet update
- ☐ Follow-up aur imaandaar Campaign Report

13 Chapter Summary

KEY TAKEAWAYS

- Campaign = Offer + ek Message + Channels + Samay + Hisaab.
- Campaign Brief pehle; goal owner ke saath, naapne ke liye.
- Campaign Kit: poster, caption/Reel, WhatsApp, Google post, website, follow-up — ek awaaz.
- Tracking se andaaza nahi, sach pata chalta hai — kaunsa channel sach mein kaam karta hai.
- Report imaandaar ho to agla campaign behtar — aur client ka bharosa pakka.

Next Step — Chapter 39: Project 6 — Portfolio Bina Client Ke

Ab tak aapne 5 projects banaye — poster, content plan, website, product, campaign. Lekin kisi naye client ko ye kaise dikhayein, jab aapke paas "asli" clients ki lambi list nahi? Agle chapter mein demo projects, case studies aur before/after se ek aisa portfolio jo imaandaar bhi ho aur kaam bhi dilaaye.

IS CHAPTER KE SOURCES (LAST CHECKED: 21 SEPTEMBER 2026)

Canva — QR code app / Free QR Code Generator • Google review policy (Chapter 29 ke sources) • WhatsApp click-to-chat format (Chapter 28)

39

Project 6: Portfolio Bina Client Ke

Client ko almaari nahi, showroom chahiye.

PROJECT 6 Is chapter mein aap apne best 3–5 kaam se ek imaandaar portfolio banayenge — PDF aur ek link — jo client na hone par bhi aapka hunar dikhaye.

Chapter 38 ke end tak aapke paas 5 projects ho chuke hain: poster, content plan, website, digital product, campaign. Lekin ye sab Drive ke alag-alag folders mein pade hain. Jab koi naya insaan poochhega, "Aapne pehle kya kaam kiya hai?", to aap kya dikhayenge? Ek bikhra hua folder — ya ek saaf, chuna hua, 10 page ka jawab? Is chapter mein wahi jawab banayenge. Aur un readers ke liye bhi raasta hai jinke paas abhi ek bhi asli client nahi.

1 Is Chapter Mein Kya Seekhenge

- 1 Portfolio kya hai — aur kya nahi
- 2 Bina client ke kaam: demo, practice aur apne logon ke projects — sahi label ke saath
- 3 Case study aur before/after — kahani ke saath kaam
- 4 Portfolio ke 7 pages aur formats: PDF, Canva website, Drive

2 Simple Explanation

Portfolio aapke kaam ki chuni hui jhalak hai. Wo aapka "saara kaam" nahi hota — sirf **best** kaam, aur har kaam ke saath chhoti kahani: kya problem thi, aapne kya kiya, kya badla.

Client portfolio mein design ki sundarta se zyada ek cheez dhoondhta hai: "Kya ye mere jaise business ki problem samajhta hai?" Isliye 3 achhe projects, kahani ke saath, 20 bina-kahani ke projects se zyada kaam karte hain.

CLIENT NAHI? KOI BAAT NAHI

Har koi kabhi zero se shuru karta hai. Portfolio mein **demo** aur **practice** kaam rakhna bilkul theek hai — bas use **saaf label** kijiye. Galat sirf tab hai jab demo ko asli client ka kaam bataya jaaye.

3 Kahani: "Bhai, Ye Folder Kya Hai?"

Fictional kahani — Rahul, Vikram, Imran bhai aur "FitZone" is book ke fictional examples hain.

RAHUL

Vikram ka "FitZone" gym mohalle mein naya tha. Ek dost ke zariye Rahul ka naam pahuncha. Vikram ne WhatsApp kiya: "Suna hai tum website aur posters banate ho. Kuch kaam dikhao."

Rahul ne turant apna Drive folder share kar diya — 47 files: poster ke 6 versions, content sheets, adhoore drafts, screenshots jinke naam "IMG_2041" the. Do din tak koi jawab nahi. Phir Vikram ka message: "Bhai, ye folder kya hai? Mujhe samajh nahi aaya tumne kya banaya."

Imran bhai hanse. "Tune apni almaari khol kar dikha di. Client ko almaari nahi, **showroom** chahiye."

Rahul ne ek shaam lagayi. 47 mein se 3 projects chune: **Swaad Rasoi ka poster** (Project 1), **Chamak Car Wash ki website** (Project 3), aur **Glow Salon ka campaign** (Project 5). Har ek ke liye ek page: problem, kya banaya, pehle/baad, nateeja — sirf sach. Ek demo gym poster bhi banaya, saaf label ke saath: "Demo — FitZone jaise gym ke liye concept". Canva mein 9 page ki PDF, aur wahi Canva se ek-page website.

Is baar Vikram ka jawab 10 minute mein aaya: "Ye car wash wali website jaisi mujhe bhi chahiye. Kal mil sakte ho?"

"47 files ne kuch nahi kaha," Rahul ne socha. "3 kahaniyon ne sab kuch keh diya."

4 Important Concepts

1. Portfolio kya hai — aur kya nahi

PORTFOLIO ✓	PORTFOLIO NAHI ✗
3-5 best kaam, chune hue	Drive ka poora folder
Har kaam ke saath problem → solution → nateeja	Sirf images, bina kuch likhe
Ek tarah ke client ke liye (jaise local business)	Har tarah ka kaam mila-jula
Saaf label: client / demo / practice	Demo ko asli client ka kaam batana
Mobile par khulne wali PDF ya link	50 MB ki file jo WhatsApp par na jaaye

2. Bina client ke kaam — 4 imaandaar raaste

CLIENT PROJECT Asli kaam Paid ya unpaid — owner ki permission se naam aur screenshots	FAMILY / FRIEND Apne logon ka business Chacha ki dukaan, dost ka tiffin — asli, permission ke saath	DEMO / CONCEPT Fictional business Aapka banaya naam aur brand — "Demo" label ke saath	PRACTICE Is book ke projects Project 1-5 — jaise bana, waisa label
---	---	---	--

KABHI NAHI

Bade brands ke logo lagakar "maine inke liye kaam kiya" jaise dikhana • kisi aur designer ka kaam apna batana • naqli testimonials • kisi asli business ka redesign **bina permission** public portfolio mein (unhe **private** mein demo dikhana theek hai — Chapter 40). Copyright ki baat Chapter 49 mein.

3. Case study — har project ek page

1. Business	2. Problem	3. Mera kaam	4. Process	5. Pehle / Baad	6. Nateeja	7. Seekh
Kaun, kya karta hai, label	Kya kami ya zaroorat thi	Kya banaya — 3-4 points	Brief → draft → feedback → final	2 screenshots	Sirf sach, owner ki permission se	Ek line — aap kaise sochte ho

Chapter 30 mein case study ke 5 hisse the; yahan 2 aur jude — **Process** aur **Seekh**. Client ko result ke saath ye bhi dikhna chahiye ki aap ke saath kaam karna kaisa hoga.

4. Before / After — sabse taakatwar page

- Dono screenshot **ek hi size aur angle** se (jaise dono mobile screen).

- Neeche ek line: "Pehle: Google par timing galat, 2 photos. Baad: sahi timing, 12 asli photos, 40/40 reviews ka jawab."
- Customer ke naam, numbers ya private chats blur/hata kar.
- Owner ki permission — likhit (WhatsApp message bhi chalega).

5. Portfolio ke 7 pages

1 Cover Naam + ek line: "Local business ke liye poster, website aur WhatsApp marketing"	2 Main kaun 4-5 line, sirf sach; photo (optional)	3 Services 3 kaam jo aap karte ho	4-6 3 case studies Har ek ek page	7 Process + Contact 4 step mein kaise kaam karte ho; WhatsApp, email, link
---	---	---	---	--

Demo/extra kaam ke liye ek "Aur kaam" page jod sakte hain — lekin kul 8-12 page se zyada nahi.

6. Format — kahan rakhein

FORMAT	KAB ACHHA	DHYAN
PDF (Canva)	WhatsApp par bhejna, milne par dikhana	File chhoti rakhiye; Digital preset (Chapter 33)
Canva website	Ek link jo bio, card, message mein jaaye	Canva ke mutabik free plan mein 5 live websites tak free domain par, neeche "Designed with Canva" footer ke saath
Apni website	Chapter 26 wala builder — sabse professional	Domain ka kharcha; update aapki zimmedaari
Google Drive folder	Poori files dekhni hon	Sirf chuni files, saaf naam, "Viewer" access

Shuruaat: **ek PDF + ek link**. Baaki baad mein.

5 Step-by-Step Mobile Process: Portfolio 1 Din Mein

1

Sab ikattha

Drive ke "04 Portfolio" mein Project 1-5 ki final files aur screenshots.

2**3 chuniye**

Prompt 1 se madad: kaunse 3 projects aapke target client ke sabse kaam ke hain.

3**Label lagaiye**

Har project: Client / Family-Friend / Demo / Practice.

4**Permission**

Asli business ke naam/screenshot ke liye owner se WhatsApp par "haan". Na mile to naam hata kar ya "Local salon" likh kar.

5**Case studies**

Prompt 2 se har project ka 7-hisson wala draft; apne shabdon mein sudhaar.

6**"Main kaun" aur Services**

Prompt 3 — sirf sach.

7**Canva mein 7–9 page**

Chapter 33 ka Style Page; Branding Kit (apna ya simple 2 rang).

8**PDF + link**

PDF download; wahi design Canva website ke roop mein publish (ya Chapter 26 wali site par ek page).

9**Test**

Phone par kholiye; ek dost ko bhejiye: "30 second mein batao main kya karta hoon?" (Prompt 4 bhi).

6 AI Tool Recommendation

TOOL	KAAM
Canva	Portfolio PDF, before/after layout, ek-page website
Aapka Chat AI	Projects chunna, case study draft, "Main kaun", feedback
Website builder (Chapter 26)	Portfolio page apni site par (optional)
Google Drive	Saari files, saaf naam, share link

7 Copy-Paste Prompts

PROMPT 1 — BEST 3 CHUNNA

Mera target client: [jaise local salon, gym, restaurant]. Mere projects: [har ek ki 1 line – kya, kiske liye, label]. Inme se kaunse 3 portfolio mein rakhoon jo is client ko sabse zyada bhara dilaayein? Har ek ka kaaran do, aur batao koi kami ho to kaunsa ek demo project bana loon.

PROMPT 2 — CASE STUDY

Project: [naam, label]. Business: [kaun]. Problem: [kya tha]. Maine kya banaya: [list]. Process: [kaise]. Pehle/baad: [kya badla]. Nateeja: [sirf sach – ya "abhi pata nahi"]. Seekh: [ek baat].
Ise portfolio ke ek page ke case study mein likho – 7 hisse, 120–160 shabd, simple Hinglish. Koi number, testimonial ya dawa mat jodo jo maine nahi diya. Label upar saaf likho.

PROMPT 3 — MAIN KAUN + SERVICES

Mere baare mein sach: [kya karta hoon, kab se seekh raha hoon, kya tools, kahan hoon, kaunse business ke saath kaam kiya]. Portfolio ke liye 4–5 line ka "Main kaun" aur 3 services (har ek 1 line) likho. "Expert", "10 saal", "100+ clients" jaisi koi baat nahi jo upar nahi likhi.

PROMPT 4 — CLIENT KI NAZAR (PDF screenshots)

Tum ek local gym ke owner ho, busy ho, phone par ye portfolio 30 second dekh rahe ho: [screenshots]. Batao: kya samajh aaya ki ye kya karta hai? Kaunsa page sabse bharsemand laga? Kahan confuse hue? Kya missing hai ki tum message karo?

8 Prompt Ka Explanation

PROMPT KA HISSA	YE KYUN KAAM KARTA HAI
"Target client" (P1)	Salon owner ke liye best project aur restaurant owner ke liye best project alag ho sakte hain.
"Abhi pata nahi" (P2)	Nateeja na pata ho to jhooth ki jagah imaandaar khaali jagah — client isse bhi bharosa karta hai.
"Expert/100+ clients nahi" (P3)	AI "About me" ko badha-chadha deta hai; pehli meeting mein sach khul jaata hai.
"30 second" (P4)	Asli client itna hi time dega — portfolio usi mein kaam kare.

DHYAN DEIN

Screenshots mein customers ke phone number, naam, chats ya payment details dikh rahe hon to **blur/crop** kijiye. Portfolio public hota hai.

9 Practical Example: Rahul Ka Portfolio — 9 Page

CLIENT PROJECT · permission se

Chamak Car Wash — Website + Google Profile

PEHLE

Website nahi · Maps par purana number

BAAD

1-page site · WhatsApp button · verified profile

Nateeja: Owner ab khud timing badalte hain. Website par aaye messages ki ginti abhi naapi nahi gayi.

PAGE	KYA	LABEL
1	Cover: "Rahul — Local business ke liye poster, website aur WhatsApp marketing"	—
2–3	Main kaun · Services	—
4	Swaad Rasoi — Weekend Thali poster	Client (permission)
5	Chamak Car Wash — website + Google profile	Client (permission)
6	Glow Salon — Evening Express campaign	Client (permission)
7	FitZone-type gym — poster concept	Demo / Concept
8–9	Process (4 step) · Contact + link	—

Fictional example.

10 Practice Task — Project 6

Task 1: Apne sab projects ki list banaiye, har ek par label; Prompt 1 se best 3 chuniye (kahi ho to ek demo project banaiye).

Task 2: Asli business ke kaam ke liye permission lijiye; Prompt 2 se 3 case studies (kam se kam 1 poori, 7 hisson ke saath).

Task 3: Prompt 3 se "Main kaun" aur services; Canva mein 7–9 page ka portfolio.

Task 4: PDF + ek link (Canva website ya apni site). Prompt 4 aur ek asli insaan se 30-second test. Final "04 Portfolio / Project 6" mein.

PROJECT 6 POORA TAB MAANIYE JAB

3–5 projects · har ek par sahi label · kam se kam 1 poori case study · permission li ya naam hataya · koi naqli testimonial ya dawa nahi · PDF phone par khulti hai · ek link taiyaar.

11 Common Mistakes

GALTI	SAHI TAREEKA
Poora Drive folder bhej dena	3-5 chune projects, PDF + link.
Sirf images, koi kahani nahi	Problem → kaam → nateeja.
Demo ko client project batana	Saaf label: Demo / Practice.
Bade brand ka logo ya naqli testimonial	Sirf apna, sachcha kaam.
Screenshots mein private jaankari	Blur/crop, owner ki permission.
"Expert", "100+ clients"	Jo sach hai wahi.

12 Quick Checklist

- ☐ 3-5 best projects, har ek par label
- ☐ Case study: problem, kaam, process, pehle/baad, nateeja, seekh
- ☐ Permission li; private jaankari chhupayi
- ☐ 7-9 page PDF, phone par test
- ☐ Ek link (Canva website / apni site) taiyaar

13 Chapter Summary

KEY TAKEAWAYS

- Portfolio showroom hai, almaari nahi — 3–5 best kaam, kahani ke saath.
- Client na ho to demo/practice/family projects — hamesha saaf label.
- Case study ke 7 hisse; before/after sabse taakatwar page.
- 7 pages: Cover, Main kaun, Services, 3 case studies, Process + Contact.
- Shuruaat: ek PDF + ek link. Koi naqli logo, testimonial ya dawa nahi.

Next Step — Chapter 40: Client Dhoondhna — Research aur Demo Project

Showroom taiyaar hai. Ab grahak kahan hain? Rahul Google Maps par apne sheher ke 20 car wash dekhta hai — aur hairan hota hai ki unme se kitno ki koi website hi nahi. Agle chapter mein sirf public jaankari se lead list, "gap" pehchanna, aur 3 businesses ke liye chhote demo.

IS CHAPTER KE SOURCES (LAST CHECKED: 21 SEPTEMBER 2026)

Canva Help Center — Publish websites to a free domain (free plan: up to 5 live websites, "Designed with Canva" footer)

40

Client Dhoondhna: Research aur Demo Project

Grahak hamesha yahin the — bas dekha nahi tha.

Chapter 39 mein Rahul ka showroom — uska portfolio — taiyaar ho gaya. Lekin showroom kholne se grahak apne-aap nahi aate. Ab tak uske clients jaan-pehchaan se aaye: Deepak, Neha ji, Gupta ji. Agla sawal har freelancer ke saamne aata hai: "Jinhe main nahi jaanta, unme se kise meri zaroorat hai?" Is chapter mein jawab dhoondhenge — andaaze se nahi, **research** se. Aur khaali haath nahi jaayenge: har chune hue business ke liye ek chhota **demo** saath hoga.

1 Is Chapter Mein Kya Seekhenge

- 1 Ideal Client Card — kis tarah ka business aapke liye sahi hai
- 2 "Gap" pehchanna — business ki online kami, 8 nishaan
- 3 20 businesses ki Lead List — sirf public business jaankari se
- 4 Top 3 ke liye chhota demo aur "Online Health Check"

2 Simple Explanation

Client wo business ya insaan hai jo aapke kaam ke badle aapko paise deta hai. **Lead** wo business hai jo *shayad* client ban sake — abhi usse baat nahi hui. **Research** ka matlab hai lead ko pehle se samajhna: wo kya karta hai, online kaisa dikhta hai, aur kahan kami hai.

Beginner ki galti: 100 logon ko ek jaisa message — "Website banwaiye!" Research ke baad aap 3 logon ko aisa message bhejte ho jisme **unki** baat ho: "Aapke Google profile par timing galat dikh rahi hai — maine ek sahi version banakar dekha hai." Pehla spam lagta hai, doosra madad.

SEEDHA NIYAM

Research sirf **business ki public jaankari** ki — jo business ne khud duniya ke liye daali hai. Kisi ki personal zindagi ki nahi.

3 Kahani: 20 Car Wash, 12 Bina Website

Fictional kahani — Rahul, Imran bhai aur saare business naam is book ke fictional examples hain; ginti bhi fictional hai.

RAHUL

Chamak Car Wash ka project Rahul ka sabse achha case study tha. Imran bhai ne kaha, "Jo kaam tu achha kar chuka hai, pehle wahi aur logon ko de. Tere sheher mein aur kitne car wash hain?"

Rahul ne Google Maps par "car wash" search kiya aur ek Google Sheet kholi. Ek ghante mein 20 car wash ki list — naam, area, rating, reviews ki ginti, website hai ya nahi, Instagram hai ya nahi. Nateeja dekh kar wo hairan tha: **12 ki koi website nahi**. 7 ke profile par ek bhi review ka jawab nahi. 4 par timing "Open 24 hours" likhi thi — jo shayad sach nahi tha.

Usne har ek ko ek "Gap Score" diya. Top 3 chune — jinki rating achhi thi (kaam achha, bas online kamzor) aur jinke paas kaafi reviews the.

Teeno ke liye usne kuch bada nahi banaya. Ek ke liye phone-screen jaisa ek-page website ka mockup. Doosre ke liye 1 page ka "Online Health Check" — 5 points, bina taana maare. Teesre ke liye unke hi naam se Diwali poster ka ek sample. Har demo par likha: *"Sample — aapki permission ke bina kahin publish nahi hoga."*

"Pehle main sochta tha client kahan milenge," Rahul bola. "Ab lagta hai wo hamesha yahin the — bas maine dekha nahi tha."

4 Important Concepts

1. Ideal Client Card

Har business aapke liye sahi client nahi. Pehle likhiye ki **aapka** ideal client kaisa hai:

IDEAL CLIENT CARD • RAHUL

Business type Local service: car wash, salon, gym, tiffin	Jagah Mera sheher — milne ja sakoon	Size Owner khud chalata hai, 1–10 log
Dikhne wali kami Website nahi, profile adhoora, reviews bina jawab	Kaam achha hai Rating 4+ ya kaafi reviews — log pasand karte hain	Mera saboot Portfolio mein milta-julta project hai

"Kaam achha hai" zaroori hai: jis business ke customers pehle se khush hain, usse online behtar dikhne ka fayda turant dikhta hai — aur aapka case study bhi achha banta hai.

2. Gap pehchanna — 8 nishaan

1 Website nahi, ya mobile par tooti	2 Google profile par galat timing/number	3 Reviews ka jawab nahi	4 2–3 se kam asli photos
5 WhatsApp/call button nahi	6 Instagram mahino se band	7 Posters dhundhle ya bheed wale	8 Har jagah alag naam/number

Ye kami **business ki** hai — insaan ki nahi. Message ya audit mein kabhi "aapka profile bekaar hai" nahi; hamesha "ye ek cheez theek ho jaaye to customers ko aasaani hogi".

3. Lead List — Google Sheet ke columns

COLUMN	KYA LIKHNA HAI
Business naam, type, area	Jaisa Google Maps par hai
Rating, reviews ki ginti	Jaise 4.3 • 86
Website / Instagram	Hai / nahi / band
Gap (1–8)	Upar ke nishaan jo dikhe
Business contact	Sirf wo number/email jo business ne public profile par diya hai
Gap Score, Priority	Neeche wala tareeka
Status	Research • Demo bana • Message gaya • Jawab • Client • Mana kiya

4. Gap Score — top 3 kaise chunein

Priority = Gap kitna bada (1-5) + Kaam achha hai (1-5) + Mera saboot hai (1-5)

Sabse zyada score wale 3 par demo. Ye koi pakka formula nahi — bas 20 mein se shuruaat kahan karein, ye tay karne ka aasaan tareeka.

5. Demo — chhota, khaas, 30–60 minute

DEMO	KYA	KISKE LIYE
Website mockup	Phone screen jaisa homepage — unka naam, services, WhatsApp button	Website nahi hai
Online Health Check	1 page: 5 points — kya achha hai, kya 3 cheezein theek ho sakti hain	Profile/reviews ki kami
Sample poster	Aane wale tyohaar/offer ka ek poster, unke naam se	Posters kamzor
3 review replies	Unke 3 bina-jawab reviews ke sample jawab	Reviews ka jawab nahi

DEMO KE NIYAM

Demo sirf **us business ko, private mein** dikhaiye • upar likhiye "Sample — aapki permission ke bina publish nahi hoga" • unki photos/logo sirf is demo mein, public kabhi nahi • poora kaam free mein mat kar dijiye — demo **jhalak** hai, project nahi.

6. Research ki maryaada

KABHI NAHI

Owner ki personal profile, ghar, parivaar ki jaankari ikattha karna • automatic "scraping" tools ya bots se hazaron numbers nikaalna (platforms ke niyam ke khilaf ho sakta hai, aur spam ki shuruaat) • lead list kisi ko bechna ya share karna • jo "mana" kare, uska data rakhna. Sirf business ki public jaankari, haath se, apne kaam ke liye. Privacy ki baat Chapter 49 mein.

5

Step-by-Step Mobile Process: 20 Leads, 3 Demo

1

Ideal Client Card

Prompt 1 se draft; ek business type chuniye jiska saboot aapke portfolio mein hai.

2**Sheet banaiye**

"Lead List" — upar ke columns. Drive → "03 Clients".

3**Google Maps research**

"[type] in [area]" search. Har business kholiye: rating, reviews, timing, photos, website. 20 row.

4**Instagram check**

Profile hai? Aakhri post kab? Bio mein contact?

5**Gap aur Score**

8 nishaan mein se kaunse; Priority score. Prompt 3 se madad.

6**Top 3**

Har ek ke liye Prompt 4 se demo idea.

7**Demo banaiye**

30–60 minute har ek; "Sample" label.

8**Health Check**

Prompt 5 se 1-page, izzat bhari bhasha.

9**Taiyaar**

Status: "Demo bana". Message Chapter 41 mein.

6 AI Tool Recommendation

TOOL	KAAM
Google Maps	Businesses, rating, reviews, timing, photos — public jaankari
Instagram	Profile aur activity dekhna
Google Sheets	Lead List, score, status
Aapka Chat AI	Ideal client card, gap analysis, demo ideas, Health Check ka text
Canva	Website mockup, sample poster, Health Check page

7 Copy-Paste Prompts

PROMPT 1 — IDEAL CLIENT CARD

Main [kya services deta hoon]. Mere portfolio mein ye projects hain: [list]. Main [sheher] mein hoon aur [kitna time] de sakta hoon. Mere liye Ideal Client Card banao: business type (1–2), jagah, size, dikhne wali kami, "kaam achha hai" ka nishaan, aur mera saboot. Kaaran ke saath.

PROMPT 2 — GAP CHECKLIST (screenshots attach)

Ye ek local business ke Google Maps profile aur Instagram ke screenshots hain. In 8 cheezon par check karo: website, timing/number, reviews ka jawab, photos, WhatsApp/call button, Instagram activity, posters, naam/number ek jaisa. Har ek: "theek / kami / pata nahi". Sirf screenshots se — andaaza nahi.

PROMPT 3 — PRIORITY SCORE

Ye meri lead list hai: [Sheet ki rows paste]. Har business ko 3 cheezon par 1–5 do: Gap kitna bada, Kaam achha hai (rating/reviews se), Mera saboot (mera portfolio: [..]). Total ke hisaab se top 5, kaaran ke saath.

PROMPT 4 — DEMO IDEA

Business: [naam, type]. Unke gaps: [list]. Mere skills: [..]. Ek aisa demo sujhaao jo 30–60 minute mein bane, sabse badi kami dikhaye, aur unhe "ye to mujhe chahiye" lage. Poora project nahi — sirf jhalak.

PROMPT 5 — ONLINE HEALTH CHECK

Business: [naam]. Jo dekha: [gaps + jo achha hai]. Owner ke liye 1 page ka "Online Health Check" likho: pehle 2 achhi baatein, phir 3 cheezein jo theek ho sakti hain — har ek ke saath customer ko kya fayda. Izzat bhari, simple Hinglish, koi taana ya "aapka profile kharab hai" nahi. Koi vaada ya number nahi.

8 Prompt Ka Explanation

PROMPT KA HISSA	YE KYUN KAAM KARTA HAI
"Mera saboot" (P1, P3)	Jahan aapka milta-julta kaam hai, wahan bharosa aasaan — shuruaat wahan se.
"Pata nahi" option (P2)	Screenshot mein na dikhe to AI kami "bana" deta hai — galat audit bharosa todta hai.
"Sirf jhalak" (P4)	Demo mein poora kaam de diya to project ki zaroorat hi khatam.
"Pehle 2 achhi baatein" (P5)	Owner apne business se pyaar karta hai; tareef se darwaaza khulta hai, taane se band.

DHYAN DEIN

Screenshots AI ko dene se pehle customers ke naam/photo wale reviews crop kijiye — business ki jaankari chahiye, logon ki nahi.

9 Practical Example: Rahul Ki Lead List (Jhalak)

BUSINESS	RATING · REVIEWS	WEBSITE	GAPS	SCORE	STATUS
Sparkle Car Spa	4.5 · 120	Nahi	1, 3, 5	13	Demo: website mockup
Highway Auto Shine	4.4 · 64	Nahi	2, 3, 4	12	Demo: Health Check
Moti Car Care	4.2 · 88	Hai (tooti)	1, 7	12	Demo: Diwali poster
Fresh Wheels	3.6 · 22	Nahi	1, 3, 4, 6	9	Research
City Foam Wash	4.6 · 210	Hai	—	6	Abhi zaroorat nahi
... 15 aur rows					

Fictional example — saare business naam aur numbers kaalpanik hain. "City Foam Wash" ka online sab theek hai, isliye unhe abhi pareshaan nahi karna.

10 Practice Task

Task 1: Prompt 1 se apna Ideal Client Card.

Task 2: Google Maps aur Instagram se **20 businesses** ki Lead List — sirf public business jaankari.

Task 3: Gap aur Priority Score (Prompt 2, 3); top 3 chuniye.

Task 4: Top 3 ke liye ek-ek demo (Prompt 4) aur kam se kam ek Online Health Check (Prompt 5). Sab par "Sample" label. Status "Demo bana".

11 Common Mistakes

GALTI	SAHI TAREEKA
100 logon ko bina research message	20 ki research, 3 ke liye demo.
Har business "client" samajhna	Ideal Client Card se chuniye.
Personal jaankari ikattha karna	Sirf business ki public jaankari.
Scraping tools se hazaron numbers	Haath se, chuni hui list.
Demo mein poora project free	Chhoti jhalak, 30–60 minute.
Audit mein taana	Pehle tareef, phir 3 sudhaar, fayde ke saath.

12 Quick Checklist

- ☐ Ideal Client Card bana
- ☐ 20 businesses ki Lead List — sirf public business jaankari
- ☐ Gaps aur Priority Score bhare
- ☐ Top 3 ke demo — "Sample" label ke saath
- ☐ Online Health Check izzat bhari bhasha mein

13 Chapter Summary

KEY TAKEAWAYS

- Lead = shayad-client; research se samjho, phir baat.
- Ideal Client: aapka saboot + dikhne wali kami + kaam achha.
- 8 gap nishaan; kami business ki, insaan ki nahi.
- Priority = Gap + Kaam achha + Mera saboot → top 3.
- Demo chhota, private, "Sample" label; research sirf public business jaankari se.

Next Step — Chapter 41: Outreach, Follow-up aur Client Se Sahi Sawal

3 demo taiyaar hain. Ab unhe bhejna hai — aur yahan Rahul ne pehli baar galti ki: ek copy-paste message 10 logon ko, aur jawab zero. Agle chapter mein personal message, walk-in, izzat bhara follow-up, aur jab client "haan" kahe to kaunse sawal poochhne hain.

41

Outreach, Follow-up aur Client Se Sahi Sawal

Message unke baare mein ho, aapke baare mein nahi.

Chapter 40 mein Rahul ke paas 20 businesses ki list thi aur top 3 ke liye demo taiyaar the. Ab wo pal aata hai jisse sabse zyada beginner darte hain: **kisi anjaan ko pehla message**. "Kya wo naraz honge? Kya main spam kar raha hoon? Kya likhun?" Is chapter mein wo sab — izzat ke saath pahunchna, bina pareshaan kiye follow-up, aur jab koi "haan" kahe, to sahi sawal poochhna.

1 Is Chapter Mein Kya Seekhenge

- 1 Pehla message ka 5-part formula — personal, chhota, demo ke saath
- 2 WhatsApp, Instagram DM, email, walk-in — kab kya
- 3 7-din follow-up plan aur "na" ki izzat
- 4 Client se 12 sahi sawal — "haan" ke baad pehli baat-cheet

2 Simple Explanation

Outreach matlab kisi aise business se khud pehli baar sampark karna jo aapko nahi jaanta. **Follow-up** matlab jawab na aaye to izzat se yaad dilaana. Aur **requirement gathering** (zaroorat samajhna) matlab kaam shuru karne se pehle client se sahi sawal poochh kar pakka karna ki use asal mein kya chahiye.

Achhe outreach ka ek hi raaz hai: message **aapke baare mein nahi, unke business ke baare mein** ho. "Main website banata hoon" — koi parwah nahi karta. "Aapke 120 reviews mein log aapki foam wash ki tareef karte hain, par Google par aapki website nahi hai — maine ek sample banaya hai" — ye padha jaata hai.

DARR KA ILAAJ

Aap bhikh nahi maang rahe, **madad offer** kar rahe ho — research aur demo ke saath. Sabse bura jawab "nahi" hai. Aur "nahi" bhi ek jawab hai, jiske baad aap aage badh sakte ho.

3 Kahani: Copy-Paste Ka Sannata

Fictional kahani — Rahul, Imran bhai aur saare business naam is book ke fictional examples hain.

RAHUL

Demo banane se pehle Rahul ne jaldi mein ek message likha tha aur list ke 10 businesses ko bhej diya: *"Hello sir, main professional website aur social media services deta hoon. Affordable rates. Interested ho to reply karein."* Teen din. Zero jawab. Ek ne block bhi kar diya.

Imran bhai ne message padha. "Ye message 10 ko gaya ya 10,000 ko — koi farq nahi padta. Isme **unka** kya hai?"

Is baar Rahul ne top 3 ko alag-alag likha. Sparkle Car Spa ko: *"Namaste Karan ji, main Rahul — isi sheher mein local businesses ki websites banata hoon. Google par aapke 120 reviews dekhe — log aapki foam wash ki kaafi tareef karte hain. Par jab koi 'car wash near me' search karta hai, aapki website nahi dikhti. Maine aapke liye ek 1-page ka sample banaya hai (photo neeche). Pasand aaye to 10 minute baat kar sakte hain; na zaroorat ho to bhi bilkul theek hai."*

Moti Car Care ke paas wo khud gaya — dopahar 3 baje, jab bheed nahi hoti — haath mein chhapa hua Online Health Check.

Nateeja: Sparkle ne agle din jawab diya — "Kal shaam aa jao." Moti Car Care ke owner ne Health Check rakh liya: "Diwali ke baad baat karte hain." Highway Auto Shine ne kaha, "Mera bhatija dekh leta hai, dhanyavaad." Rahul ne teeno ko dhanyavaad likha — aur Sheet mein status badla.

"10 copy-paste se zero mila," Rahul ne Imran bhai ko bataya. "3 personal se ek client, ek 'baad mein', aur ek izzat wala 'nahi'."

Kahani ka nateeja fictional hai — asli duniya mein jawab ki koi guarantee nahi; aksar zyadatar log jawab nahi dete, aur ye normal hai.

4 Important Concepts

1. Pehla message — 5-part formula

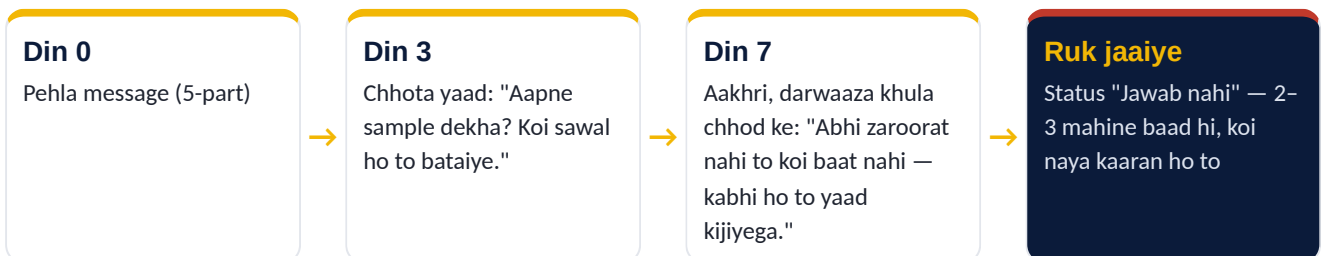

1. Naam + parichay "Namaste Karan ji, main Rahul — isi sheher mein..."	2. Unki khaas baat Sachchi tareef — reviews, kaam, photos	3. Ek kami (narmi se) Sirf ek — sabse badi	4. Demo "Maine aapke liye ek sample banaya hai"	5. Chhota sawal + aasaan exit "10 minute baat? Zaroorat na ho to bhi theek hai."
--	---	--	---	--

60–80 shabd se zyada nahi. Rates, lambi service list, "affordable", "best quality" — pehle message mein nahi.

2. Channel — kab kya

CHANNEL	KAB ACHHA	DHYAN
Walk-in	Local business — sabse zyada bharosa; chhapa hua Health Check/demo saath	Bheed ke samay nahi; 5 minute; owner na ho to card chhod dijiye
WhatsApp	Jab business ne apna WhatsApp number public profile par diya ho	Ek personal message; group ya broadcast mein kabhi mat jodiye
Instagram DM	Jo business Instagram par active hai	Pehle unki 1–2 post dekhiye; message unke content se juda ho
Email	Jahan business email di ho — thoda formal business	Subject saaf: "Aapke Google profile ke liye ek sample"
Phone call	Jaan-pehchaan ke zariye (referral)	Anjaan ko baar-baar call nahi; pehle message

3. 7-din follow-up — aur rukna kab hai

"NAHI" KI IZZAT

"Nahi", "zaroorat nahi", "message mat karo" — iske baad **ek bhi** aur message nahi. Sirf: "Dhanyavaad, samay dene ke liye." Aur Sheet mein "Mana kiya" — unka number kisi list mein nahi. Baar-baar message = spam, block, report — aur aapka naam kharab.

4. Aam jawab — aur aap kya kahein

WO KEHTE HAIN	AAP KEH SAKTE HAIN
"Kitna lagega?"	"Aapki zaroorat pe depend karta hai — 10 minute baat karke main 2-3 saaf options bhej deta hoon." (Pricing Chapter 44)
"Abhi nahi, baad mein"	"Bilkul. Kab yaad dilaau — Diwali ke baad?" → Sheet mein tarikh
"Mera bhatija bana dega"	"Bahut badhiya! Health Check unke kaam aaye to rakh lijiye." — izzat se, bina bahas
"Free mein kar do, naam hoga"	"Sample free tha; poora kaam paid hai. Chhota package bhi hai." — ya, portfolio ke liye soch-samajh kar ek chhota kaam, shartein likh kar
"Instagram se kya hota hai?"	Bahas nahi — unka apna data: "Aapke reviews mein 3 logon ne likha 'pehle pata nahi tha'."

5. "Haan" ke baad — 12 sahi sawal

Pehli meeting/call ko **discovery call** kehte hain — yahan aap bechte nahi, **samajhte** ho. Ye 12 sawal likh kar le jaaiye:

LAKSHYA

1. Is kaam se aap kya badalna chahte hain?
2. Kaamyabi kaise naapenge?

CUSTOMER

3. Aapke customer kaun hain?
4. Wo aapko abhi kaise dhoondhte hain?

ABHI KA HAAL

5. Pehle kya try kiya? Kya kaam nahi aaya?
6. Sabse badi pareshaani kya hai?

SAMAGRI

7. Photos, logo, rates, text — kaun dega, kab?
8. Domain/Google profile/Instagram — access kiske paas?

SAMAY + PAISA

9. Kab tak chahiye?
10. Budget ki ek range man mein hai?

FAISLA + BAAT

11. Faisla kaun lega?
12. Baat kaise karein — WhatsApp, call, kab?

Meeting ke baad usi din ek **summary message** bhejiye: "Jo samjha: ... Kal tak options bhejta hoon." Ye Chapter 30 ka Website Brief ban jaata hai — aur galatfehmi pehle hi pakdi jaati hai.

5

Step-by-Step Mobile Process: Outreach Ka Ek Hafta

1

Top 3 + agle 7

Lead List se 10 — 3 demo wale pehle.

2

Har ek ke liye research note

Ek khaas baat (tareef) + ek kami — Sheet mein.

3

Personal message

Prompt 1 se draft; apne shabdon mein; naam, khaas baat sahi hai — dobara check.

4

Channel chuniye

Paas ke 1-2 ke liye walk-in (Prompt 2), baaki WhatsApp/DM/email.

5

Bhejiye — din mein thode

Ek din mein 3-5; ek saath 50 nahi.

6

Sheet update

Status, tarikh, agla follow-up.

7

Follow-up

Din 3 aur Din 7 (Prompt 3). "Nahi" par ruk jaiye.

8

"Haan" par discovery call

12 sawal; notes; usi din summary (Prompt 5).

6 AI Tool Recommendation

TOOL	KAAM
Aapka Chat AI	Personal message draft, walk-in script, follow-ups, jawab, meeting summary
WhatsApp Business	Message, labels (Chapter 37), quick reply sirf follow-up ke dhaanche ke liye
Instagram / Gmail	DM aur email
Google Sheets	Lead List ka status aur follow-up tarikh

7 Copy-Paste Prompts

PROMPT 1 — PERSONAL PEHLA MESSAGE

Main [naam], [sheher] mein [kya kaam] karta hoon. Business: [naam, owner ka naam agar public ho]. Research: khaas baat – [sachchi tareef]; sabse badi kami – [ek]. Maine demo banaya: [kya]. Channel: [WhatsApp/DM/email].
5-part formula mein message likho: parichay, khaas baat, ek kami narmi se, demo, chhota sawal + aasaan exit. Max 70 shabd, simple Hinglish. Rates, "affordable", "best" jaise shabd nahi. 2 versions.

PROMPT 2 — WALK-IN SCRIPT

Main [business] mein walk-in kar raha hoon, haath mein [Health Check/demo]. 60-second ki baat ka script do: namaste, main kaun, maine kya dekha (tareef + ek kami), ye page aapke liye, "baad mein dekh lijiye" – aur agar owner busy ho to 1 line. Dabav bilkul nahi.

PROMPT 3 — FOLLOW-UPS

Maine [tarikh] ko [business] ko ye message bheja tha: [paste]. Jawab nahi aaya. Din 3 ka chhota follow-up (max 25 shabd) aur Din 7 ka aakhri, darwaaza-khula follow-up (max 30 shabd) likho. Koi guilt, dabav ya "last chance" nahi.

PROMPT 4 — JAWAB KA JAWAB

Client ne kaha: "[unka jawab]". Context: [business, maine kya offer kiya]. 2 izzat bhare, chhote jawab do – bina bahas, bina rate bataye (agar rate poochha ho to call ka sujhaav). Agar unka matlab "nahi" hai to sirf dhanyavaad wala jawab do.

PROMPT 5 — MEETING SUMMARY

Discovery call ke mere notes: [paste]. Client ko bhejne layak WhatsApp summary banao: jo samjha (5–6 points), jo abhi pata nahi, agla kadam aur tarikh. Aur mere liye alag se ek Brief (Chapter 30 ke 10 sawal ke format mein) – khaali jagah "Poochhna hai" likh kar.

8 Prompt Ka Explanation

PROMPT KA HISSA	YE KYUN KAAM KARTA HAI
"Sachchi tareef" (P1)	AI khud tareef bana deta hai ("aapka shandaar business!") — jo khokhli lagti hai. Asli research se asli baat.
"Aasaan exit" (P1)	"Na ho to bhi theek" dabav hatata hai — aur ulta jawab ki sambhavna badhata hai.
"Last chance nahi" (P3)	Jhoothi jaldi se bharosa tootta hai.
"Sirf dhanyavaad" (P4)	AI har "nahi" ko "mauka" samajhta hai — aapko nahi samajhna hai.
"Jo abhi pata nahi" (P5)	Adhoori jaankari par kaam shuru karna = baad mein jhagda.

DHYAN DEIN

AI se likhwaya message bhejne se pehle **naam, business ka naam aur khaas baat** zaroor check kijiye. Galat naam wala message copy-paste se bhi bura lagta hai.

9 Practical Example: Pehle vs Baad Ka Message

PEHLE — 10 KO, 0 JAWAB

"Hello sir, main professional website aur social media services deta hoon. Affordable rates. Interested ho to reply karein."

Kiske liye? Pata nahi • unki koi baat nahi • koi saboot nahi
• "affordable" sab kehte hain

BAAD — PERSONAL, DEMO KE SAATH

"Namaste Karan ji, main Rahul — isi sheher mein local businesses ki websites banata hoon. Google par aapke 120 reviews dekhe — log aapki foam wash ki kaafi tareef karte hain. Par 'car wash near me' par aapki website nahi dikhti. Maine aapke liye ek 1-page sample banaya hai (photo neeche). Pasand aaye to 10 minute baat kar sakte hain; zaroorat na ho to bhi bilkul theek hai."

Naam • asli tareef • ek kami • demo • aasaan exit

10 Practice Task

Task 1: Lead List se 10 businesses; har ek ka research note (tareef + ek kami).

Task 2: Prompt 1 se **10 personal messages** — har ek alag. Kam se kam 1 walk-in (Prompt 2).

Task 3: 7-din follow-up plan Sheet mein (Prompt 3); "nahi" par ruk jaaiye.

Task 4: 12 sawal ki list phone mein save; koi "haan" kahe to discovery call aur Prompt 5 se summary. Asli outreach na karna ho abhi to messages sirf draft rakhiye.

11 Common Mistakes

GALTI	SAHI TAREEKA
Ek message 50 logon ko	Har message personal — research ke saath.
Pehle message mein rates aur lambi list	Unki baat, ek kami, demo, chhota sawal.
Group ya broadcast mein jodna	Sirf 1-to-1, public business contact par.
"Nahi" ke baad bhi message	Dhanyavaad — aur band.
Bheed ke samay walk-in	Khaali samay, 5 minute.
"Haan" ke baad seedha kaam shuru	12 sawal, summary, phir options.

12 Quick Checklist

- ☐ 10 personal messages — 5-part formula, 70 shabd tak
- ☐ Sahi channel; public business contact hi
- ☐ Follow-up Din 3 aur Din 7; "nahi" par ruk gaye
- ☐ Sheet mein har lead ka status
- ☐ 12 sawal taiyaar; meeting ke baad summary

13 Chapter Summary

KEY TAKEAWAYS

- Outreach message unke business ke baare mein ho, aapke nahi.
- 5-part: parichay, asli tareef, ek kami, demo, chhota sawal + aasaan exit.
- Local business ke liye walk-in sabse bharsemand; WhatsApp sirf public business number par, 1-to-1.
- Follow-up Din 3 aur 7 — phir ruk jaiye; "nahi" ki izzat.
- "Haan" ke baad 12 sawal aur summary — bechne se pehle samajhna.

PART VIII COMPLETE

Marketing, Portfolio aur Clients — aapne kya haasil kiya

Ch 36

Customer, problem, offer — One-Page Plan

Ch 37

WhatsApp Business aur Business AI

Ch 38

Project 5: 14-din campaign

Ch 39

Project 6: imaandaar portfolio

Ch 40

20 leads, gaps, 3 demo

Ch 41

Personal outreach, follow-up, 12 sawal

Ab aap sirf kaam banana nahi, **kaam paana** bhi jaante ho — izzat ke saath. Portfolio mein: Project 1–6. Note mein likhiye: *"Part VIII khatam — ab main sahi logon tak personal message aur demo ke saath pahunch sakta/sakti hoon."*

Next Step — Part IX, Chapter 42: Apna Business Model Chunna

Client ne "haan" kaha — aur ab ek bada sawal: aap asal mein kaunsa business chala rahe ho? Service, digital product, freelancing, local services ya ek chhoti agency? Part IX mein business, offer, pricing aur income ki baat — shuru hoti hai Rahul aur Priya ke do alag raaston se.

PART IX

09

Business, Offer, Pricing aur Income

Apna business model chunna, realistic income models, offer aur pricing, delivery aur payment — aur ek baar ke client ko baar-baar ka client banana.

Chapter 42 – 46

42

Apna Business Model Chunna

Business model copy nahi hota — zindagi ke naap se silta hai.

Part VIII ke aakhir mein Sparkle Car Spa ne "haan" kaha. Rahul khush tha — lekin raat ko ek sawal ne use jagaye rakha: "Main asal mein kya bana raha hoon? Freelancer hoon? Agency? Ya bas side ka kaam?" Udhar Priya ki eBook bik rahi thi, aur log poochh rahe the, "Kya aap hamara Instagram bhi sambhal sakti ho?" Uske saamne bhi wahi sawal tha. Part IX — business, offer, pricing aur income — isi sawal se shuru hota hai: **aapka business model kya hai?**

1 Is Chapter Mein Kya Seekhenge

- 1 Business model kya hai — ek line mein
- 2 5 models: service, local services, freelancing, digital product, small agency
- 3 6 sawal se chunna: skill, time, budget, market, mizaaj, paise kab chahiye
- 4 Business Planning Worksheet aur shuruaati kaagazi baatein

2 Simple Explanation

Business model ka simple matlab: **aap kisko, kya dete ho, aur paisa kaise aata hai.** Ek hi hunar — jaise Canva design — alag models mein chal sakta hai: kisi dukaan ka poster banakar (service), har mahine 12 poster ka package (local services), sheher ke bahar ke client ke liye online (freelancing), ya template pack bechkar (digital product).

Koi model "sabse achha" nahi. Sahi model wo hai jo **aapki** zindagi mein fit ho — aapka time, aapka mizaaj, aapki zaroorat.

SACHCHI BAAT

Is chapter mein kisi model ki kamaai ka vaada nahi hai. Har model mein log kamaate bhi hain aur haarte bhi. Faisla aapka hai; ye chapter sirf **sochne ka dhaancha** deta hai.

3 Kahani: Do Raaste, Dono Sahi

Fictional kahani — Rahul, Priya aur Imran bhai is book ke fictional examples hain.

RAHUL AUR PRIYA

Imran bhai ne dono ko ek saath chai par bulaya. "Aaj tum dono ek hi sawal ka jawab likhoge — alag-alag."

Rahul ne likha: "Mujhe logon se milna achha lagta hai. Agle 6 mahine mein college fees ke liye paise chahiye. Din mein 4-5 ghante hain. Budget lagbhag zero." Imran bhai bole, "Tujhe jaldi paisa chahiye aur tu logon mein khush rehta hai — **local service business**. Project se shuru kar, dheere-dheere monthly maintenance jod."

Priya ne likha: "Tiffin subah-dopahar kha jaata hai. Shaam ko 1-2 ghante. Calls aur meetings se ghabrahat hoti hai. Jaldi paisa zaroori nahi — tiffin chal raha hai." Imran bhai muskuraaye, "Tere liye **digital products** — eBook ke baad Planner, phir aur. Instagram sambhalne wali request? Abhi 'nahi' bolna bhi ek faisla hai."

Rahul ne poochha, "Priya ka raasta zyada achha hai na? Ek baar banao, baar-baar becho?" Imran bhai ne kaha, "Uska raasta dheema hai, tera tez par thaka dene wala. Galat raasta wo hai jo tumhari zindagi mein fit na ho."

"Business model copy nahi hota," Imran bhai bole. "Wo tumhari zindagi ka naap lekar silta hai — darzi ke kapde ki tarah."

1. 5 business models — ek nazar mein

MODEL	KYA	PAISA KAB	ACHHA / MUSHKIL
Service (project)	Ek-ek project: website, poster set, campaign	Jaldi — pehle project se	✓ Shuru karna aasaan • ✗ Har mahine naye client dhoondhne padte hain
Local services (monthly)	Har mahine ka package: Google profile, posters, WhatsApp, content	Har mahine, thoda-thoda	✓ Tay kamaai ka mauka • ✗ Roz ki zimmedaari, client ke saath rishta
Freelancing (online)	Sheher ke bahar ke clients, online platforms ya referral se	Portfolio banne ke baad	✓ Bada bazaar • ✗ Bahut competition, platform fees, bharosa banana mushkil
Digital product	eBook, template, planner, prompt pack	Dheere — audience ke saath	✓ Ek baar banao, kai baar bech sakte ho • ✗ Shuru mein aksar kam bikri; audience chahiye
Small agency	2–3 logon ki team; aap client sambhaalo, kaam baato	Tab, jab clients zyada hon	✓ Zyada kaam sambhal sakte ho • ✗ Team, quality, payment ki zimmedaari — beginner ke liye baad ka kadam

2. 6 sawal — model chunne ke liye

1. Skill

Kya achha kar sakte ho *abhi*? (Part IV–VII)

2. Time

Hafta mein kitne ghante, kab?

3. Budget

Shuru mein kitna laga sakte ho? (aksar ₹0–thoda)

4. Market

Aas-paas kaun paise dega? (Chapter 40 ki research)

5. Mizaaj

Logon se milna pasand? Calls? Akele kaam?

6. Paise kab

Agle mahine chahiye ya 6 mahine ruk sakte ho?

3. Decision Matrix — number se sochiye

Har model ko har sawal par 1–5 dijiye (5 = mere liye bahut fit). Sabse zyada total wale 1–2 model aapke shortlist hain.

RAHUL KA MATRIX	SKILL	TIME	BUDGET	MARKET	MIZAAJ	PAISE KAB	TOTAL
Service (project)	4	4	5	5	5	5	28
Local services	4	3	5	4	5	4	25
Freelancing	3	4	5	2	3	2	19
Digital product	3	3	5	2	3	1	17
Small agency	2	2	2	3	4	2	15

Fictional example. Ye numbers Rahul ki zindagi ke hain — aapke alag honge. Matrix faisla nahi karta; bas soch ko saaf karta hai.

4. Hybrid — ek mukhya, ek chhota

Aksar sabse samajhdaar raasta: **ek mukhya model** jo aaj ki zaroorat पूरी kare, aur **ek chhota prayog** jo kal ke liye ho. Jaise Rahul: mukhya — local service; chhota — clients ke baar-baar ke sawalon se ek "Google Profile Checklist" product. Service se paisa bhi aata hai aur **problems ka gyaan** bhi — jo aage product ban sakta hai.

EK SAATH 5 NAHI

Paanchon model ek saath shuru karna = kisi mein bhi achha nahi. 3 mahine ek mukhya model par tikiye, phir dekhiye.

5. Shuruaati kaagazi baatein — basic samajh

CHEEZ	BASIC JAANKARI (21 SEPTEMBER 2026)
PAN aur bank	Payment aapke apne naam ke bank/UPI mein; hisaab ke liye alag account ya kam se kam alag Sheet achha
Udyam registration	MSME ke liye sarkari registration — official portal par free , Aadhaar-based, online. Portal khud chetaavni deta hai ki fees maangne wali naqli websites se bachein; sirf <code>udyamregistration.gov.in</code>
GST	CGST Act ki Section 22 ke mutabik sirf services dene wale ko saalana kul turnover ₹20 lakh (Manipur, Mizoram, Nagaland aur Tripura mein ₹10 lakh) se upar registration zaroori hai. Kul turnover mein doosre rajya ke aur videsh ke clients ki kamaai bhi judti hai. Sirf services dene wala doosre rajya ke clients ke hote hue bhi is seema se neeche registration ke liye majboor nahi hai (sarkari notification ke zariye chhoot). Chahein to seema se pehle bhi apni marzi se registration le sakte hain.
Income tax	Kamaai par income tax ke niyam lagte hain; return bharna aapki zimmedaari

Ye kanooni ya tax salah nahi — sirf shuruaati samajh. Apni sthiti ke liye kisi CA/tax jaankar se baat kijiye. Payment aur invoice Chapter 45 mein.

5 Step-by-Step Mobile Process: Business Planning Worksheet

1 Apni zindagi likhiye

6 sawal ke imaandaar jawab — Google Doc "Business Plan".

2 Apna kaam dekhiye

Project 1–6 mein se kya sabse achha bana, kya sabse zyada pasand aaya.

3 Decision helper

Prompt 1 — AI aapse sawal poochhega; jawab dijiye.

4 Matrix

Google Sheet mein 5×6 matrix (Prompt 2 se format); khud number dijiye.

5 Mukhya + chhota

Top model mukhya; doosra chhota prayog.

6 Khatre aur jawab

Prompt 3 se top 3 khatre aur har ek ka ek bachaav.

7 Worksheet bhariye

Neeche wala format — ek page.

8 90 din ka vaada khud se

"Agle 90 din main [model] par tikunga." Tarikh calendar mein — tab dobara dekhiye.

6 AI Tool Recommendation

Aapka Chat AI — decision helper (aapse sawal poochhe), matrix ka format, khatron ki list. **Google Sheets** — matrix. **Google Docs** — Business Planning Worksheet. AI yahan **salaahkaar** hai, faisla karne wala nahi — number aap dijiye, faisla aap lijiye.

7 Copy-Paste Prompts

PROMPT 1 — DECISION HELPER

Tum ek samajhdaar business mentor ho. Main apna pehla business model chunna chahta/chahti hoon: Service (project), Local services (monthly), Freelancing, Digital product, Small agency.

Mujhse ek-ek karke 8 sawal poochho — skill, time, budget, market, mizaaj, paise kab chahiye, meri zimmedaariyan, aur mujhe kya pasand hai. Har jawab ke baad agla sawal. Aakhir mein 2 model sujhaao, kaaran ke saath, aur har ek ka sabse bada khatra. Koi kamaai ka andaaza mat dena.

PROMPT 2 — MATRIX FORMAT

Google Sheets ke liye ek Decision Matrix ka format do: 5 business models (rows) × 6 sawal (Skill, Time, Budget, Market, Mizaaj, Paise kab) + Total column. Total ka formula bhi do. Number main khud bharunga — tum mat bharna.

PROMPT 3 — KHATRE

Maine [model] chuna hai. Meri sthiti: [time, budget, sheher, skills]. Is model ke mere liye top 3 khatre batao (jaise client na milna, burnout, payment late) aur har ek ka ek chhota, practical bachaav – jo main is hafte shuru kar sakoon.

PROMPT 4 — EK LINE KA BUSINESS

Mera model: [...]. Main kisko: [...], kya deta hoon: [...], paisa kaise: [...]. Ise ek saaf line mein likho jo main logon ko bata sakoon – "Main [kaun] ke liye [kya] karta/karti hoon." 3 options, bina "best/No.1".

8 Prompt Ka Explanation

PROMPT KA HISSA	YE KYUN KAAM KARTA HAI
"Ek-ek karke sawal" (P1)	AI pehle aapko samajhta hai, phir sujhaata hai — generic salah se bachaav.
"Kamaai ka andaaza mat dena" (P1)	AI ke "₹50,000/mahina" jaise andaaze bina aadhaar ke hote hain — aur umeed galat set karte hain.
"Number main bharunga" (P2)	Apni zindagi ke number sirf aap jaante ho.
"Is hafte shuru" (P3)	Khatre ki list tabhi kaam ki jab usse koi kadam nikle.

DHYAN DEIN

Internet par "is model se lakhon kamao" wale videos aur courses se savdhaan — Chapter 49 mein fake income promises ki pehchaan. Kisi ki kamaai ka screenshot aapke business ka plan nahi.

9

Practical Example: Business Planning Worksheet — Rahul vs Priya

KHAANA	RAHUL	PRIYA
Ek line	"Main local businesses ke liye website, Google profile aur WhatsApp marketing karta hoon."	"Main ghar se khaana-business shuru karne walon ke liye aasaan guides aur planners banati hoon."
Mukhya model	Service (project) → local services (monthly)	Digital product
Chhota prayog	"Google Profile Checklist" product	Mahine mein 1 paid "tiffin setup" call — sirf tab jab sahay lage
Time	4–5 ghante/din	1–2 ghante/shaam
Budget	₹0 + phone data	Platform fees (bikri par)
Top khatra → bachaav	Client na milna → har hafte 10 personal outreach (Chapter 41)	Bikri dheemi → har hafte 2 kaam ki posts + 10 logon se baat
90 din baad dekhna	[tarikh]	[tarikh]

Fictional example.

10

Practice Task

Task 1: 6 sawal ke imaandaar jawab likhiye.

Task 2: Prompt 1 ke saath decision-helper baat-cheet; phir Prompt 2 se Sheet mein matrix — number khud.

Task 3: Mukhya + chhota model; Prompt 3 se khatre; Prompt 4 se ek line.

Task 4: Business Planning Worksheet (upar ka format) poora bhariye — Drive → "06 Business Docs". 90 din baad ki tarikh calendar mein.

11 Common Mistakes

GALTI	SAHI TAREEKA
Doosre ka model copy	Apni zindagi ke 6 sawal se chuniye.
Paanchon ek saath	Ek mukhya, ek chhota prayog.
Jaldi paisa chahiye, par sirf product	Pehle service se cash, saath mein product.
Har hafte model badalna	90 din tikiye, phir dekhiye.
Fees wali naqli registration sites	Udyam sirf official portal par, free.
Tax ki baat taalna	Shuru se hisaab; zaroorat par CA.

12 Quick Checklist

- ☐ 6 sawal ke jawab imaandaari se likhe
- ☐ Decision Matrix bhara — number khud diye
- ☐ Ek mukhya model + ek chhota prayog chuna
- ☐ Top 3 khatre aur bachaav likhe
- ☐ Business Planning Worksheet + 90-din ki tarikh

13 Chapter Summary

KEY TAKEAWAYS

- Business model = kisko, kya, aur paisa kaise.
- 5 models: service, local services, freelancing, digital product, small agency — sabke fayde aur mushkilein.
- 6 sawal: skill, time, budget, market, mizaaj, paise kab — matrix se soch saaf.
- Ek mukhya + ek chhota prayog; 90 din tikiye.
- Udyam free, official portal par; GST/tax ke liye CA — ye book kanooni salah nahi deti.

Next Step — Chapter 43: Realistic Income Models

Model chun liya. Ab zyada gehraai se: is book ke hunar se kaunse **14 tarah ke kaam** sach mein ho sakte hain — website services se affiliate aur automation tak. Har ek: kya hai, kaise chalta hai, kya chahiye, kya mushkil hai. Koi income ka vaada nahi — sirf saaf tasveer.

IS CHAPTER KE SOURCES (LAST CHECKED: 21 SEPTEMBER 2026)

Udyam Registration portal (Ministry of MSME) — "Registration Process is totally free", fake sites ki chetaavni • CBIC — CGST Act, 2017, Section 22 (registration threshold) • Notification 10/2017-Integrated Tax (inter-state services ke liye registration chhoot) — tax guides ke summary ke zariye

43

Realistic Income Models

25 bimaariyon ka board nahi — do kaam, saaf pehchaan.

Chapter 42 mein aapne apna mukhya business model chuna — jaise Rahul ne local service, Priya ne digital product. Lekin "service" ya "product" ke andar bhi bahut raaste hain. Website banayein ya posters? Monthly Google profile sambhaalein ya WhatsApp setup karein? Is chapter mein is book ke hunar se bane **14 income models** ek jagah hain — har ek ki saaf tasveer: kya hai, paisa kaise aata hai, kya chahiye, kahan se shuru karein, aur kya mushkil hai. Aakhir mein aap sirf 2 chunenge.

1 Is Chapter Mein Kya Seekhenge

- 1 Income model aur business model ka farq
- 2 14 models — har ek ka 5-line card
- 3 Paise aane ke 4 tareeke: project, monthly, per-sale, commission
- 4 Comparison Sheet aur top 2 shortlist

2 Simple Explanation

Business model (Chapter 42) batata hai *kis tarah* ka business hai. **Income model** batata hai *kaunsa kaam bech rahe ho aur uska paisa kaise aata hai*. Ek local service business ke andar teen income models ho sakte hain: website (project), Google profile (monthly), aur posters (per piece).

Project

Ek kaam, ek baar ka paisa
Website, logo, campaign

Monthly

Har mahine ka tay kaam,
tay fees
Maintenance, social media

Per-sale

Har bikri par
eBook, template, prompt pack

Commission

Kisi aur ki bikri par hissa
Affiliate, lead generation

IS CHAPTER KA VAADA

Kisi bhi model ke saath "itna kamaoge" nahi likha hai — kyunki kamaai aapke sheher, skill, mehnat, rates aur kismat par bhi depend karti hai. Jo aapko kisi model ki pakki kamaai bataye, uspar shak kijiye (Chapter 49).

3

Kahani: "Sab Kuch Karunga"

Fictional kahani — Rahul aur Imran bhai is book ke fictional examples hain.

RAHUL

Rahul ne apna Instagram bio badla: "Website | Posters | Social Media | Reels | SEO | Automation | eBooks | Affiliate | Everything Digital". Usne socha jitni zyada cheezein, utne zyada clients.

Imran bhai ne bio padha. "Agar tujhe dant dard ho, to tu kiske paas jayega — 'dant specialist' ke paas, ya us doctor ke paas jiske board par 25 bimaariyan likhi hain?"

Rahul hansa, phir chup ho gaya. Imran bhai ne ek Sheet banwaayi — 14 models, har ek ke saamne 5 sawal: shuru karna kitna aasaan, paisa kab, dobara kaam ka mauka, competition, aur "kya main isme achha hoon?" Rahul ne imaandaari se bhara.

Top 2 nikle: **Local business website** (project) aur **Google Business Profile management** (monthly). Dono ek-dosre ke saath jude — jise website chahiye, use Google profile bhi chahiye. Bio badla: "Local businesses ke liye website aur Google profile — WhatsApp par baat karein."

"Pehle mera bio sab kuch kehta tha," Rahul bola, "aur koi kuch nahi poochhta tha. Ab do cheezein kehta hai — aur log poochhte hain."

4

Important Concepts: 14 Income Models

Har card: **Kya** · **Paisa** (kaise aata hai) · **Skill** (is book ke chapter) · **Pehla kadam** · **Mushkil**. "Pehla kadam" chhota rakha hai — aaj ya is hafte ho sake.

1. Local Business Website

Kya: 1–3 page ki website, WhatsApp/call/map ke saath

Paisa: Project; saath mein maintenance

Skill: Ch 24–30

Pehla kadam: Project 3 ko case study banaiye

Mushkil: Domain/hosting ka kharcha samjhana; har mahine naye client

2. Poster aur Graphic Design

Kya: Offer, tyohaar, menu, social posts

Paisa: Per piece ya mahine ka pack

Skill: Ch 14–18

Pehla kadam: 5 dukaanon ke liye tyohaar poster demo

Mushkil: Bahut competition; "free app se ban jaata hai" wali soch

3. Social Media Content Management

Kya: Mahine ka plan, posts, captions, posting

Paisa: Monthly

Skill: Ch 19–23, 38

Pehla kadam: Project 2 wala 30-din plan ek client ko dikhaiye

Mushkil: Roz ki zimmedaari; client ke photos/videos ka intezaar

4. Writing (Copy, Captions, Blog)

Kya: Website text, product descriptions, blog, emails

Paisa: Per piece / per project

Skill: Ch 6–11, 20, 23, 32

Pehla kadam: Ek business ki website ka text dobara likh kar before/after

Mushkil: "AI likh deta hai" soch — aapka farq: research + awaaz + fact-check

5. eBooks

Kya: Ek problem ka hal, PDF kitaab

Paisa: Per-sale

Skill: Ch 31–35

Pehla kadam: 10 logon se baat (Ch 31)

Mushkil: Shuru mein kam bikri; audience banana padta hai

6. Templates

Kya: Canva/Sheets ke ready designs

Paisa: Per-sale

Skill: Ch 15, 18, 34

Pehla kadam: Ek niche ke 5 template + 3-Log Test

Mushkil: Canva licence niyam; template link Pro feature (Ch 34)

7. Prompt Packs

Kya: Ek kaam ke tested prompts + examples

Paisa: Per-sale

Skill: Ch 6–11, 34

Pehla kadam: Apni Prompt Library se ek niche ke 20 prompts

Mushkil: Free prompts bahut; value sirf "tested + niche + examples" mein

8. Affiliate Marketing

Kya: Kisi product ka link share, bikri par commission

Paisa: Commission

Skill: Ch 19–23

Pehla kadam: Sirf wo tool/product chuniye jo aap khud use karte ho

Mushkil: Audience ke bina lagbhag kuch nahi; **disclosure zaroori** (neeche)

9. Lead Generation

Kya: Local business ke liye poochhtaachh (enquiries) laana — form, WhatsApp, campaign

Paisa: Monthly ya per-lead (pehle se likh kar tay)

Skill: Ch 36–38, 47

Pehla kadam: Project 5 ki tracking ko ek service ke roop mein likhiye

Mushkil: Nateeje par dabav; logon ka data — privacy (Ch 49)

10. Maintenance

Kya: Website/profile/WhatsApp ko har mahine update aur check

Paisa: Monthly

Skill: Ch 28–30, 46

Pehla kadam: Pichhle website client ko ek maintenance offer

Mushkil: Kaam ki seema saaf na ho to "sab kuch" maang liya jaata hai

11. Automation Services

Kya: Form → Sheet → WhatsApp reminder jaise simple systems

Paisa: Project + maintenance

Skill: Ch 47–48

Pehla kadam: Apne business ke liye ek enquiry form system

Mushkil: Kuch tootne par client aapko yaad karega; testing zaroori

12. Google Business Profile Management

Kya: Profile setup, photos, posts, reviews ke jawab

Paisa: Setup (project) + monthly

Skill: Ch 29

Pehla kadam: 3 businesses ko Online Health Check (Ch 40)

Mushkil: "No.1 ranking" ki maang — jo vaada kabhi nahi karna (Ch 29)

13. Reels / Short Video Editing

Kya: Business ke liye script, shoot guidance, editing

Paisa: Per video ya monthly pack

Skill: Ch 21

Pehla kadam: Ek local business ki 3 Reels ka demo

Mushkil: Shoot ke liye jagah jaana; music/copyright niyam

14. WhatsApp Business Setup

Kya: Profile, catalog, labels, quick replies, Business AI ka setup + training

Paisa: Project (one-time)

Skill: Ch 37

Pehla kadam: Parivaar ke business ka setup, case study

Mushkil: Ek baar ka kaam — aage monthly se jodna padta hai

Affiliate — imaandaari ka niyam

Affiliate link se agar aapko commission milta hai, to ye ek **"material connection"** hai. India mein ASCI (Advertising Standards Council of India) ke influencer guidelines ke mutabik aise rishte ka **saaf disclosure** zaroori hai — ASCI ki list ke labels jaise "Advertisement", "Ad", "Sponsored", "Collaboration", "Partnership", "Employee", "Free gift" ya **"Affiliate"** — ya platform ka apna tag (jaise Instagram ka "Paid partnership"). Label shuru mein, turant dikhne wali jagah par ho — sirf bio mein, post ke aakhir mein, ya hashtags ki bheed mein chhupa kar nahi. Video mein label screen par bhi dikhna chahiye. Har affiliate program ke apne disclosure niyam bhi hote hain.

SIMPLE NIYAM

Sirf wo cheez recommend kijiye jo aapne khud use ki ho, aur post/video mein saaf likhiye: *"Is link se kharidne par mujhe commission mil sakta hai."* Bharosa ek baar toota to affiliate kya, koi kaam nahi chalega.

5 Step-by-Step Mobile Process: 14 Se 2 Tak

1 Comparison Sheet

Google Sheet: 14 models (rows) × 6 columns — neeche ka format (Prompt 1).

2 Chapter 42 ka model yaad

Service chuna hai to 1-4, 9-14 par zyada dhyan; product chuna hai to 5-8.

3 Imaandaar number

Har khaane mein 1-5. "Main isme achha hoon" — apne projects dekh kar, sapno se nahi.

4 Market check

Top 5 ke liye Chapter 40 ki research: aas-paas kisko ye chahiye?

5 Top 2

Aise do chuniye jo **ek-doesre se jude** hon (jaise website + maintenance).

6 Ek line + bio

Prompt 3 — sirf 2 kaam, ek saaf line.

7 Pehla kadam

Dono cards ka "Pehla kadam" is hafte.

6 AI Tool Recommendation

Aapka Chat AI — comparison sheet ka format, har model par sawal-jawab, bio ki line. **Google Sheets** — comparison aur scoring. Yahan bhi AI sirf **jaankari aur dhaancha** de; "kaunsa model kitna kamaata hai" jaise sawal par uske jawab andaaze hain, fact nahi.

7 Copy-Paste Prompts

PROMPT 1 — COMPARISON SHEET

Google Sheets ke liye ek comparison table ka format do: rows mein ye 14 income models — [list]. Columns: Shuru karna aasaan (1-5), Paisa kitni jaldi (1-5), Dobra kaam ka mauka (1-5), Kam competition (1-5), Main isme achha hoon (1-5), Total (formula). Number khaali chhodo — main bharunga.

PROMPT 2 — EK MODEL KI GEHRAAI

Main [sheher] mein hoon, [skills]. "[Model]" ke baare mein batao: (1) local business ise kyun khareedte hain (2) kaam ki seema kya rakhni chahiye (3) pehle 30 din ke 5 kadam (4) 3 aam galtiyan. Kamaai ka koi andaaza mat dena.

PROMPT 3 — BIO AUR EK LINE

Maine ye 2 income models chune: [...]. Mere clients: [kaun]. Instagram/WhatsApp bio ke liye 3 options (max 120 characters) aur ek line jo main milne par bolun. Sirf ye 2 kaam — "everything digital" jaisa nahi.

PROMPT 4 — AFFILIATE DISCLOSURE

Main [product/tool] ka affiliate link share karna chahta hoon — maine ise [kitne samay] use kiya hai. Ek Instagram caption aur ek WhatsApp status likho jisme shuru mein saaf disclosure ho ki link se mujhe commission mil sakta hai; phir meri asli raay — achhi aur kami dono.

8 Prompt Ka Explanation

PROMPT KA HISSA	YE KYUN KAAM KARTA HAI
"Number main bharunga" (P1)	Score aapki sthiti ka hai; AI ka score sabke liye ek jaisa hoga.
"Kaam ki seema" (P2)	Monthly models mein sabse bada jhagda seema na hone se hota hai (Ch 44–45).
"Sirf ye 2 kaam" (P3)	Saaf bio = saaf pehchaan (Chapter 36 ki positioning).
"Kami dono" (P4)	Sirf tareef wala affiliate post bharosa nahi banata.

DHYAN DEIN

AI kabhi-kabhi kisi model ki "average income" bata deta hai. Wo number kahan se aaya, pata nahi — aur aapke sheher par lagu ho, zaroori nahi. Use apne plan mein mat likhiye.

9 Practical Example: Rahul Ki Comparison Sheet (Jhalak)

MODEL	AASAAN	JALDI PAISA	DOBARA KAAM	KAM COMP.	MAIN ACHHA	TOTAL
1. Local website	3	4	3	4	5	19
12. Google profile mgmt	4	4	5	3	4	20
2. Posters	5	4	3	1	4	17
3. Social media mgmt	3	3	5	2	3	16
14. WhatsApp setup	4	4	2	3	3	16
8. Affiliate	3	1	2	1	2	9

Fictional example — Rahul ke apne number. Top 2 (website + Google profile) ek-doesre se jude hain: website ke client ko profile management aur profile ke client ko website — dono taraf raasta.

10 Practice Task

Task 1: Prompt 1 se Comparison Sheet; **14 models** imaandaari se bhariye.

Task 2: Top 5 par Chapter 40 wali market research (aas-paas kisko chahiye).

Task 3: Top 2 chuniye — jude hue; Prompt 2 se dono ki gehraai.

Task 4: Prompt 3 se bio; dono cards ka "Pehla kadam" is hafte. Sheet Drive → "06 Business Docs".

11 Common Mistakes

GALTI	SAHI TAREEKA
Bio mein 10 services	2 jude hue kaam, ek saaf line.
"Sabse zyada kamaai" wala model chunna	Jisme aap achhe ho aur market hai.
Bina audience affiliate	Pehle audience/bharosa; disclosure ke saath.
Monthly kaam bina seema	Kya shaamil hai, kya nahi — likh kar (Ch 44).
AI ki "average income" par plan	Apni research, apne number.
Har hafte naya model	2 model, 90 din.

12 Quick Checklist

- ☐ 14 models ke cards padhe
- ☐ Comparison Sheet imaandaari se bhari
- ☐ Top 2 chune — ek-doesre se jude
- ☐ Bio aur ek line sirf in 2 par
- ☐ Affiliate karein to disclosure ka niyam samjha

13 Chapter Summary

KEY TAKEAWAYS

- Income model = kya bechte ho aur paisa kaise aata hai.
- Paise ke 4 tareeke: project, monthly, per-sale, commission.
- 14 models — har ek ka kya, paisa, skill, pehla kadam, mushkil; koi kamaai ka vaada nahi.
- Top 2 chuniye jo jude hon; bio mein sirf wahi.
- Affiliate/commission = material connection — ASCI ke hisaab se saaf disclosure.

Next Step — Chapter 44: Project 7 — Offer Banana aur Pricing

Do models chun liye. Ab sabse mushkil sawal jo har client poochhta hai: "Kitna lagega?" Agle chapter mein Rahul Chamak Car Wash jaise business ke liye 3 packages banata hai — Basic, Standard, Premium — kharcha, time aur value se, revision ki seema ke saath. Project 7.

IS CHAPTER KE SOURCES (LAST CHECKED: 21 SEPTEMBER 2026)

ASCI — Guidelines for Influencer Advertising in Digital Media (official PDF, ascionline.in) aur ASCI disclosure tool (ascionline.in/social/tools) — material connection, labels (Affiliate sahit), prominent placement

44

Project 7: Offer Banana aur Pricing

Daam darr se nahi, hisaab se.

PROJECT 7 Is chapter mein aap apne kaam ke liye 3 packages — Basic, Standard, Premium — aur ek Pricing Sheet banayenge: kharcha, time aur value ke hisaab se, saaf seema ke saath.

Chapter 43 mein Rahul ne apne 2 kaam chune: website aur Google profile. Aur Chapter 41 mein Sparkle Car Spa ke Karan ji ne wahi sawal poochha tha jo har client poochhta hai: "Kitna lagega?" Rahul ne us din kaha tha, "Kal tak options bhejta hoon." Ab wo kal aa gaya hai. Is chapter mein hum us sawal ka jawab dhoondhenge — andaaze ya darr se nahi, ek **saaf hisaab** se.

1 Is Chapter Mein Kya Seekhenge

- 1 Price ke 4 aadhaar: kharcha, time, skill, value
- 2 "Neeche ki seema" — isse kam mein kaam nahi
- 3 3 packages, revision ki seema aur monthly maintenance
- 4 Offer sheet aur mol-bhaav ka sahi jawab

2 Simple Explanation

Offer matlab client ko exactly kya milega — kaam, seema, samay, aur daam — saaf likha hua. **Pricing** matlab us offer ka daam tay karna. Beginner aksar daam **darr** se tay karta hai ("zyada bola to mana kar dega") ya **nakal** se ("dost ₹1,000 leta hai"). Dono mein nuksaan aapka hai.

Sahi tareeka: pehle apna **kharcha aur time** jodiye — ye aapki neeche ki seema hai. Phir dekhiye client ke liye iski **value** kya hai. Daam in dono ke beech kahin hota hai.

IS CHAPTER KE NUMBERS

Is chapter ke saare rupaye wale numbers **Example calculation hain — ye sirf samajhne ke liye hain, guaranteed income nahi.** Ye bazaar ke asli rates nahi. Aapka daam aapke sheher, kaam aur anubhav se tay hoga.

3

Kahani: "Jitna Aap Theek Samjhein"

Fictional kahani — Rahul, Deepak, Karan ji aur Imran bhai is book ke fictional examples hain.

RAHUL

Chamak Car Wash ki website ke waqt Deepak ne poochha tha, "Kitna?" Rahul ne ghabra kar kaha tha, "Jitna aap theek samjhein." Deepak ne ₹1,000 diye. Baad mein Rahul ne hisaab lagaya — us project mein 3 hafton mein lagbhag 20 ghante lage the, aur 4 baar badlaav hua tha.

Imran bhai ne kaha, "Galti Deepak ki nahi. Tune na apna time bataya, na kaam ki seema. Jab seema nahi hoti, to kaam kabhi khatam nahi hota."

Is baar Rahul ne pehle ek Google Sheet banayi. Har kaam ke ghante likhe — sach mein kitne lagte hain. Ek "ghante ka daam" socha. Kharcha joda. Phir 3 packages banaye: **Basic** (sirf website), **Standard** (website + Google profile), **Premium** (sab kuch + ek mahine ki dekhbhaal). Har ek mein likha: kya shaamil hai, kya nahi, kitne round badlaav, kitne din.

Karan ji ne teeno dekhe aur Standard chuna. Phir poochha, "Thoda kam ho sakta hai?" Rahul ne daam nahi ghataya — **kaam** ghataya: "Google profile ke photos aap khud de dein to ₹500 kam ho jayega." Karan ji maan gaye.

"Pehli baar kisi ne mera daam sun kar mujhe bhaav-taav wala dukaandaar nahi, professional samjha," Rahul ne kaha.

4

Important Concepts

1. Price ke 4 aadhaar

Kharcha

Jo paisa kaam mein lagta hai: print, paid tool ka hissa, travel, data

Time

Kitne ghante — meeting, banana, badlaav, test, handover sab

Skill

Aapka anubhav aur saboot (portfolio) — jaise-jaise badhe, daam bhi

Value

Client ko kya fayda — naye customer, bacha hua time, bharosa

Domain aur hosting jaise kharche **client ke naam par**, **client ke paise se** (Chapter 30 ka handover niyam) — aapke daam mein chhupa kar nahi. Isse sab saaf rehta hai.

2. Neeche ki seema (floor price)

Neeche ki seema = (Kul ghante × Aapka ghante ka daam) + Kharcha + 20% buffer

- **Ghante ka daam** — aap ek ghante ke kaam ke kam se kam kitna lena chahte ho. Shuru mein chhota ho sakta hai; portfolio ke saath badhaiye.
- **20% buffer** — kyunki kaam hamesha socha se thoda zyada lagta hai (calls, intezaar, chhote badlaav).
- Isse **kam** daam = aap ghaate mein kaam kar rahe ho. Kabhi portfolio ke liye jaan-boojh kar karein, to likh kar aur ek hi baar.

3. 3 packages — kyun

Ek hi daam par client ke paas do jawab hote hain: "haan" ya "nahi". Teen packages par sawal badal jaata hai: "**kaunsa?**" Har package mein pichhle se **saaf zyada** kaam ho — sirf naam alag nahi.

BASIC Shuruaat Sabse zaroori kaam, kam badlaav	STANDARD Sabse sahi fit Zyadatar clients ki asli zaroorat	PREMIUM Poora haath Sab kuch + dekhbhaal
--	---	--

4. Seema — sabse zaroori line

SEEMA	KAISE LIKHEIN
Shaamil hai	Har cheez ki list — "1-page website: 5 sections, WhatsApp/call/map buttons, basic SEO"
Shaamil nahi	"Logo design, photo shoot, paid ads, domain/hosting ka kharcha"
Revisions	"2 round badlaav" — ek round = ek baar mein saare sujhaav ek saath
Samay	"Content milne ke 7 din baad" — content ki zimmedaari client ki
Extra	"Isse zyada badlaav: ₹[...] per round" — pehle se bataiye

5. Monthly maintenance

Ek baar ke project ke saath ek chhota monthly package: timing/offer update, Google profile post, reviews ke jawab, button check (Chapter 30 ki maintenance list). Isme bhi seema: "Mahine mein [X]

updates tak."

6. Mol-bhaav — daam nahi, kaam ghataiye

CLIENT KEHTA HAI	AAP KEH SAKTE HAIN
"Thoda kam kar do"	"Daam kam karne ke liye ye hissa hata sakte hain: [..]" — ya Basic package dikhaiye
"Doosra ₹[kam] mein kar raha hai"	"Unka scope dekh lijiye — mere package mein ye-ye shaamil hai." Bahas nahi, tulna
"Pehle kaam karo, pasand aaya to paise"	"Advance ke saath shuru karta hoon — Chapter 45 ke niyam" (sample aap pehle hi de chuke ho)

GST: agar aap GST registered nahi ho, to bill mein GST mat jodiye. Registration aur tax ke liye CA se salah (Chapter 42).

5 Step-by-Step Mobile Process: Pricing Sheet

1

Kaam ke tukde

Apne kaam ko chhote hisson mein todiye: meeting, content, design, SEO, test, handover...

2

Asli ghante

Pichhle projects (Project 3, 6) se imaandaar ghante — "jitna lagna chahiye" nahi, "jitna laga".

3

Ghante ka daam

Ek number tay kijiye; Sheet ke upar ek cell mein — taaki badalna aasaan ho.

4

Formula

Prompt 1 se Sheet: $\text{ghante} \times \text{daam} + \text{kharcha} + 20\% = \text{neechе ki сеma}$.

5

3 packages

Prompt 2 se Basic/Standard/Premium — scope, revisions, samay.

6

Value aur bazaar check

Client ke liye fayda socho; 2–3 logon se poochho ki aise kaam ke liye log kitna dete hain — nakal nahi, samajh.

7 Offer sheet

Canva mein 1 page (Prompt 3) — WhatsApp par bhejne layak.

8 Mol-bhaav ki taiyaari

Har package mein "kya hata sakte hain" ki list (Prompt 4).

6 AI Tool Recommendation

TOOL	KAAM
Google Sheets	Pricing Sheet — ghante, formula, packages
Aapka Chat AI	Formula, package ka scope, offer sheet ka text, mol-bhaav ke jawab
Canva	1-page Offer Sheet — Branding Kit ke saath

7 Copy-Paste Prompts

PROMPT 1 — PRICING SHEET FORMULA

Google Sheets mein Pricing Sheet banana hai. Cell B1 mein mera ghante ka daam hoga, B2 mein buffer % (20). Rows: kaam ke tukde [list], columns: Basic ghante, Standard ghante, Premium ghante, Kharcha. Neeche har package ka total: $(\text{ghante} \times \text{B1}) + \text{kharcha}$, phir buffer ke saath, aur "round figure" ka column. Saare formulas do. Number main bharunga.

PROMPT 2 — 3 PACKAGES

Main [kaam] karta hoon, [client type] ke liye. Kaam ke tukde: [list]. 3 packages banao — Basic, Standard, Premium. Har ek: naam, kiske liye, kya shaamil hai (bullets), kya shaamil nahi, revision rounds, samay (content milne ke baad). Har package mein pichhle se saaf zyada kaam. Daam mat likhna — wo meri sheet se aayega.

PROMPT 3 — OFFER SHEET TEXT

Mere 3 packages: [paste, daam ke saath]. Client ke liye 1-page offer sheet ka text likho: upar ek line (unki problem), 3 packages side-by-side ke liye chhota text, "sabke saath" wale points, payment terms: [advance %], aur contact. Simple Hinglish. "Best", "cheapest", "guaranteed results" nahi.

PROMPT 4 — MOL-BHAAV

Client kehta hai: "[unki baat]". Mera package: [scope, daam]. 2 izzat bhare jawab do jisme daam kam karne ki jagah scope kam karne ka vikalp ho, ya chhota package sujhaaya ho. Bahas ya client ko neecha dikhana nahi.

8 Prompt Ka Explanation

PROMPT KA HISSA	YE KYUN KAAM KARTA HAI
"B1 mein ghante ka daam" (P1)	Ek cell badlo, saare packages apne-aap badal jaate hain.
"Daam mat likhna" (P2)	AI ke daam kisi aur sheher/desh ke andaaze hote hain — aapke hisaab se nahi.
"Kya shaamil nahi" (P2)	Yahi line baad ke 80% jhagde rokti hai.
"Scope kam karne ka vikalp" (P4)	Daam ghataya to agli baar aur ghatega; scope ghataya to aapka mol bacha.

DHYAN DEIN

AI se "India mein website kitne ki banti hai?" poochhne par jo range aaye, wo sirf andaaza hai — aur kisi bhi sheher, kaam ya samay par lagu ho, zaroori nahi. Apna hisaab apni Sheet se.

9 Practical Example: Car Wash Business Ke 3 Packages

EXAMPLE CALCULATION — ye sirf samajhne ke liye hai, guaranteed income nahi • maan lijiye ghante ka daam ₹250, buffer 20%

Basic — 1-page website, WhatsApp/call/map, basic SEO, 1 revision round, 7 din	8 ghante × ₹250 = ₹2,000 → +20% = ₹2,400 → ₹2,500
Standard — Basic + Google profile setup/sudhaar + 10 photos ka edit + 2 revision rounds, 10 din	14 × ₹250 = ₹3,500 → +20% = ₹4,200 → ₹4,200
Premium — Standard + 6 posters + WhatsApp Business setup + 1 mahina maintenance, 14 din	24 × ₹250 = ₹6,000 → +20% = ₹7,200 → ₹7,200
Monthly maintenance — mahine mein 4 updates tak, 2 Google posts, reviews ke jawab, button check	3 × ₹250 = ₹750 → +20% = ₹900 → ₹900/mahina

Domain/hosting: client ke naam par, client ka kharcha — alag. Extra revision: ₹[...] per round. Ye bazaar rates nahi; sirf formula samjhane ke liye.

Fictional example. Karan ji ne Standard chuna aur Google profile ke photos khud dene par ₹500 kam hue — kyunki photo edit ke 2 ghante hat gaye.

10 Practice Task — Project 7

Task 1: Apne 2 kaam (Chapter 43) ke tukde aur asli ghante likhiye.

Task 2: Prompt 1 se Pricing Sheet; apna ghante ka daam aur buffer bhariye.

Task 3: Prompt 2 se 3 packages + ek monthly maintenance — scope, "shaamil nahi", revisions, samay.

Task 4: Prompt 3 se Canva mein 1-page Offer Sheet; Prompt 4 se mol-bhaav ke jawab. Sab "06 Business Docs / Pricing" mein; Offer Sheet portfolio ke saath.

PROJECT 7 POORA TAB MAANIYE JAB

Pricing Sheet formula ke saath • neeche ki seema pata • 3 packages + monthly, har ek mein "shaamil nahi" aur revision ki ginti • 1-page Offer Sheet • mol-bhaav mein "scope kam" ke vikalp taiyaar.

11 Common Mistakes

GALTI	SAHI TAREEKA
"Jitna aap theek samjhein"	Saaf packages, saaf daam.
Dost ka rate copy	Apne ghante + kharcha + buffer.
Revisions ki seema nahi	"2 round" — aur extra ka daam pehle se.
Mol-bhaav par daam girana	Scope ghataiye, daam nahi.
Domain/hosting apne daam mein chhupana	Client ke naam, client ka kharcha, alag.
Bina registration GST jodna	Niyam samjhiye; CA se salah.

12 Quick Checklist

- ☐ Asli ghante aur kharcha likhe
- ☐ Neeche ki seema ka formula Sheet mein
- ☐ 3 packages + monthly — scope, "shaamil nahi", revisions, samay
- ☐ 1-page Offer Sheet taiyaar
- ☐ Mol-bhaav ke jawab — scope ke vikalp ke saath

13 Chapter Summary

KEY TAKEAWAYS

- Price ke 4 aadhaar: kharcha, time, skill, value.
- Neeche ki seema = (ghante × ghante ka daam) + kharcha + buffer.
- 3 packages — sawal "haan/nahi" se "kaunsa" ban jaata hai.
- "Shaamil nahi" aur revision ki ginti jhagde rokti hai.
- Mol-bhaav mein daam nahi, kaam ghataiye. Saare numbers example — guarantee nahi.

Next Step — Chapter 45: Delivery, Revisions, Payment aur Invoice

Karan ji ne Standard chuna. Ab kaam shuru — lekin Rahul ek purani galti yaad karta hai: Chamak wale project mein bina advance kaam kiya tha aur 4 baar badlaav hua tha. Agle chapter mein proposal, advance, UPI, revisions ka tareeka, invoice aur handover — taaki kaam bhi achha ho aur paisa bhi samay par aaye.

45

Delivery, Revisions, Payment aur Invoice

Jo likha nahi, wo tay nahi.

Chapter 44 mein Karan ji ne Standard package chuna. Rahul ke paas ab daam tha, seema thi. Lekin ek purani yaad use pareshaan kar rahi thi — Chamak Car Wash ka pehla project: bina advance ke kaam, 4 baar badlaav, aur aakhri paisa 3 hafte baad, teen yaad dilaane ke baad. Is chapter mein wo system banayenge jo kaam ko samay par khatam kare aur paisa samay par laaye: **proposal**, **advance**, **revisions ka tareeka**, **invoice aur handover**.

1 Is Chapter Mein Kya Seekhenge

- 1 1-page proposal — kaam shuru hone se pehle sab likha hua
- 2 Advance, UPI aur payment ki safety
- 3 Revisions ka tareeka aur "naya kaam" ki pehchaan
- 4 Invoice, delivery checklist aur handover

2 Simple Explanation

Kaam ke teen hisse hote hain: **shuru se pehle** (kya, kab, kitne mein — likh kar), **beech mein** (draft, feedback, badlaav — tay tareeke se), aur **aakhir mein** (payment, invoice, handover). Zyadatar jhagde pehle hisse ki kami se hote hain — jab baatein sirf zubaani hoti hain.

Shuru se pehle

Proposal · client ki "haan" · advance · content list

Beech mein

Draft · ek-saath feedback · 2 round · timeline

Aakhir mein

Final payment · invoice · handover · thank-you

EK LINE MEIN

Jo likha nahi, wo tay nahi. WhatsApp par likhi ek saaf "haan" bhi zubaani vaade se behtar hai.

3

Kahani: "Bas Ek Chhota Sa Badlaav"

Fictional kahani — Rahul, Deepak, Karan ji aur Imran bhai is book ke fictional examples hain.

RAHUL

Chamak Car Wash ke waqt har kuch din mein Deepak ka message aata: "Bas ek chhota sa badlaav — rang thoda aur neela." Phir: "Photo badal do." Phir: "Ek page aur jod do na, offers ka." 4 baar. Kuch paisa pehle tay hi nahi tha, to Rahul "na" bhi nahi keh saka. Aur website live hone ke baad paisa aane mein 3 hafte lage.

Imran bhai ne kaha, "Badlaav maangna client ka haq hai. Badlaav ki **seema** tay karna tera kaam hai."

Sparkle Car Spa ke liye Rahul ne kaam shuru karne se pehle Karan ji ko ek page ka proposal bheja: Standard package ka scope, 10 din, 2 round badlaav, content list, aur payment — 50% advance, 50% website live karne se pehle. Karan ji ne WhatsApp par likha: "Theek hai." Aur advance UPI se bheja. Rahul ne screenshot par nahi, apne bank app mein paisa aane par hi kaam shuru kiya.

Draft ke baad Rahul ne ek hi message mein kaha: "Saare sujhaav ek saath is list mein likh dijiye — ye pehla round hai." Karan ji ne 6 points bheje. Doosre round mein 2. Tabhi Karan ji ne kaha, "Ek booking form bhi jod do, jisme gaadi ka number aaye." Rahul ne izzat se kaha: "Ye naya kaam hai — package mein nahi tha. Iska alag quote bhejta hoon." Karan ji ne kaha, "Theek hai, agle mahine."

"Pehle project mein main kaam ke peeche bhaag raha tha," Rahul bola. "Is baar kaam mere system ke peeche chala."

1. Proposal — 1 page, 8 khaane

KHAANA	KYA LIKHNA HAI
Client ki zaroorat	Discovery call (Chapter 41) ki 2 line
Package + scope	Chapter 44 se — kya shaamil, kya nahi
Client se kya chahiye	Photos, logo, rates, text, access — kab tak
Timeline	"Content milne ke baad: Din 4 draft, Din 7 feedback, Din 10 live"
Revisions	"2 round; extra round ₹[.]"
Payment	Daam, advance %, baaki kab, UPI ID
Handover	Accounts owner ke naam, Website Guide (Chapter 30)
Manzoori	"Theek lage to 'Haan' likh dijiye aur advance bhej dijiye"

Bade ya lambe kaam ke liye likhit agreement behtar — kanooni salah ke liye kisi jaankar se baat kijiye. Chhote local kaam ke liye proposal + WhatsApp "haan" ek achhi shuruaat hai.

2. Advance aur payment ka dhaancha

KAAM	AAM DHAANCHHA (EXAMPLE)
Chhota project	50% advance, 50% live/final files se pehle
Bada project	40% advance • 30% draft ke baad • 30% final se pehle
Monthly	Mahine ki shuruaat mein poora

Advance kaam ka **bharosa** hai — dono taraf se. Jo client chhota advance bhi na de, uske saath bada kaam khatre ka hai.

ACCOUNTS KO "BAND" MAT KIIYE

Final payment se pehle final files ya live karna rok sakte ho — lekin client ka domain, Google profile ya WhatsApp (jo pehle se unke naam par hain, Chapter 30) kabhi "lock" ya band mat kijiye. Ye bharosa todna hai aur kanooni pareshaani bhi ban sakti hai.

3. UPI — payment ki safety

Paise lene ke liye PIN nahi

UPI PIN sirf paise *bhejne* ke liye hota hai. Koi "payment receive karne" ke liye PIN daalne ko kahe — dhokha.

Screenshot par **bharosa nahi**

Naqli payment screenshot aam dhokha hai. Apne bank app/SMS mein credit dekh kar hi kaam shuru.

PIN, OTP kisi ko **nahi**

NPCI ki salah: UPI PIN, OTP, bank details kabhi share mat kijiye — koi bank, sarkari agency ya police ye nahi maangti.

Naam check

Paise bhejne se pehle (refund bhi) naam dekhniye; jaldi karwaane wale dabav se savdhaan.

Shikayat

Fraud ho to turant bank ko aur cybercrime helpline **1930** / cybercrime.gov.in par.

4. Revisions ka tareeka

- **Ek round = ek list.** "Saare sujhaav ek saath is list mein" — 10 alag-alag messages nahi.
- **Feedback ka dhaancha:** kya pasand aaya, kya badalna hai (page/section ke naam se), kya hatana hai.
- **Ginti likhiye:** "Round 1 of 2 poora."
- **Badlaav vs naya kaam:** rang, text, photo badalna = badlaav. Naya page, naya form, naya feature = **naya kaam** → alag quote.

5. Invoice — kya hona chahiye

Invoice ek bill hai jo batata hai kis kaam ke kitne paise, kab tak. Isse aapka aur client ka dono ka hisaab saaf rehta hai.

INVOICE		No. RS-2026-007 · Tarikh: [..]
KISSE	KISKO	
Rahul [surname] · Web & Google Profile Services · [WhatsApp] · [email]	Sparkle Car Spa · Karan [surname] · [area, sheher]	
KAAM	RAKAM	
Standard Package — 1-page website, Google profile setup, 2 revision rounds	₹[..]	
Kam: photos client ne diye	– ₹[..]	
Kul	₹[..]	
Advance mila ([tarikh])	– ₹[..]	
Baaki	₹[..]	
Payment: UPI [UPI ID] · Baaki rakam: live karne se pehle · Dhanyavaad!		

Fictional example. Invoice number ek kram mein rakhiye (RS-2026-001, 002...) aur har invoice Sheet mein darj kijiye. Agar aap GST registered nahi ho to invoice mein GST na jodiye; GST registered hone par invoice ke niyam alag hain — CA se samjhiye (Chapter 42). Ye tax salah nahi.

5

Step-by-Step Mobile Process: Ek Project, Shuru Se Handover Tak

1 Proposal bhejiye

Prompt 1 se 1 page; Canva ya Google Doc → PDF; WhatsApp par.

2 "Haan" + advance

Likhit "haan"; advance bank app mein aane ke baad hi shuru.

3 Content list

Client se kya chahiye — ek checklist message (Prompt 2); timeline content milne se.

4 Draft + Round 1

Preview link/screenshots; "saare sujhaav ek list mein" (Prompt 3).

5 Round 2

"Round 2 of 2"; naya kaam aaye to Prompt 4.

6 Delivery checklist

Chapter 28 ki 20-point checklist + client ki final manzoori.

7 Invoice + baaki payment

Invoice (Prompt 5); payment aane par live/final files.

8 Handover

Website Guide, accounts ki pushti, files ki copy (Chapter 30) — handover message (Prompt 6).

9 Record

"Payments" Sheet: invoice no., client, rakam, advance, baaki, tarikh, status.

6 AI Tool Recommendation

TOOL	KAAM
Aapka Chat AI	Proposal, content checklist, feedback message, "naya kaam" jawab, reminder, invoice text
Google Docs / Canva	Proposal aur invoice template — PDF
Google Sheets	Payments record, invoice numbers
UPI app	Payment lena — aur bank app mein confirm karna

7 Copy-Paste Prompts

PROMPT 1 — PROPOSAL

Client: [naam, business]. Zaroorat: [2 line]. Package: [scope, shaamil nahi]. Client se chahiye: [list]. Timeline: [..]. Revisions: [..]. Daam: ₹[..], advance [%], baaki [kab], UPI: [..]. Handover: [..].
Ek 1-page proposal likho — 8 hisse, simple Hinglish, izzat bhari. Aakhir mein: "Theek lage to 'Haan' likh dijiye aur advance bhej dijiye." Koi naya kaam ya vaada mat jodo.

PROMPT 2 — CONTENT CHECKLIST MESSAGE

Mujhe [client] se website/profile ke liye ye cheezein chahiye: [list]. Ek WhatsApp message likho — numbered checklist, har cheez ka ek example, aur "In sab ke milne ke baad [X] din mein draft" line.

PROMPT 3 — FEEDBACK ROUND

Maine [client] ko draft bheja: [link]. Ek chhota message likho jo kahe: saare sujhaav ek saath ek list mein bhejein — kya pasand aaya, kya badalna hai (section ke naam se), kya hatana hai — aur ye Round [1] of [2] hai.

PROMPT 4 — "NAYA KAAM" KA JAWAB

Client ne maanga: "[request]". Mera package tha: [scope]. Ek izzat bhara jawab likho: ye package mein nahi tha, ise naye kaam ki tarah alag quote ke saath kar sakte hain; abhi ka kaam samay par poora hoga. Mana karne jaisa nahi lagna chahiye.

PROMPT 5 — INVOICE AUR REMINDER

(a) Is jaankari se invoice ka text do: [meri details, client details, kaam, rakam, advance, baaki, UPI, invoice no., tarikh]. GST ka koi line mat jodna. (b) Baaki payment ke liye 3 reminders: Din 1 (garam), Din 5 (seedha), Din 10 (vinamra par saaf) — koi dhamki nahi.

PROMPT 6 — HANDOVER MESSAGE

Project poora: [kya diya]. Ek handover message likho: kya-kya diya (links, Guide), accounts kiske naam par, agle 7 din mein koi chhoti problem ho to free theek karunga (mera niyam), aur monthly maintenance ka ek line ka zikr — dabav ke bina.

8 Prompt Ka Explanation

PROMPT KA HISSA	YE KYUN KAAM KARTA HAI
"Naya kaam ya vaada mat jodo" (P1)	AI proposal ko "impressive" banane ke liye extra cheezein jod deta hai — jo phir aapko free mein karni padti hain.
"Round 1 of 2" (P3)	Ginti likhne se dono ko yaad rehta hai — bina bahas.
"Mana karne jaisa nahi" (P4)	"Nahi" nahi, "haan, alag se" — client bhi khush, aapka kaam bhi bacha.
"Koi dhamki nahi" (P5)	Zyadatar late payment bhoolne se hota hai; izzat se yaad dilaana kaafi hota hai.
"7 din free theek" (P6)	Chhoti suraksha deti hai — aur ye aapka apna niyam hai, likh kar.

DHYAN DEIN

Invoice aur proposal mein naam, rakam aur UPI ID **khud check** kijiye. AI ek ank bhi badal de to galat jagah paisa ja sakta hai.

9

Practical Example: Sparkle Car Spa — Project Timeline

DIN	KYA HUA	PAYMENT
Din 0	Proposal bheja; Karan ji ka "Theek hai"	50% advance — bank app mein confirm
Din 1-2	Content checklist; photos aur rates mile	—
Din 4	Draft preview bheja — Round 1: 6 sujhaav	—
Din 6	Round 2: 2 sujhaav · booking form ki maang → "naya kaam, alag quote"	—
Din 8	20-point checklist · final manzoori · invoice	Baaki 50% — confirm
Din 9	Live · handover message · Website Guide	Payments Sheet update
Din 16	7-din check message · maintenance ka zikr	—

Fictional example.

10

Practice Task

Task 1: Prompt 1 se apne Standard package ka 1-page proposal template.

Task 2: Prompt 5 se invoice template (Canva/Docs) aur "Payments" Sheet.

Task 3: Prompt 2, 3, 4 ke messages quick replies mein save (Chapter 37).

Task 4: Prompt 6 se handover message. Sab "06 Business Docs / Templates" mein — agle client par 10 minute mein taiyaar.

11 Common Mistakes

GALTI	SAHI TAREEKA
Zubaani baat par kaam	1-page proposal + likhit "haan".
Bina advance shuruaat	Advance bank app mein aane ke baad.
Screenshot dekh kar kaam shuru	Bank app/SMS mein credit dekhiye.
10 messages mein feedback	Ek round = ek list; ginti likhiye.
Naya kaam free mein	"Naya kaam — alag quote."
Client ke accounts lock karna	Kabhi nahi; sirf final files/live rok sakte ho.

12 Quick Checklist

- ☐ Proposal template — 8 khaane
- ☐ Advance ka niyam aur UPI safety samjhi
- ☐ Revisions: ek round = ek list; naya kaam = alag quote
- ☐ Invoice template aur Payments Sheet
- ☐ Handover message aur 7-din check

13 Chapter Summary

KEY TAKEAWAYS

- Jo likha nahi, wo tay nahi — 1-page proposal aur likhit "haan".
- Advance bharosa hai; bank app mein confirm karke hi shuru.
- UPI: paise lene ke liye PIN nahi; PIN/OTP kisi ko nahi; fraud par 1930.
- Revisions: ek round = ek list; naya kaam = alag quote.
- Invoice, handover, record — aur client ke accounts kabhi lock nahi.

Next Step — Chapter 46: Repeat Clients, Maintenance aur Referrals

Project poora, paisa samay par, client khush. Kya ab kahani khatam? Nahi — sabse achhi kahani yahin se shuru hoti hai. Swaad Rasoi ke Gupta ji ne ek baar poster banwaya tha, phir kabhi yaad nahi kiya. Agle chapter mein ek baar ke client ko baar-baar ka client banana: monthly offer, feedback, review aur referral.

IS CHAPTER KE SOURCES (LAST CHECKED: 21 SEPTEMBER 2026)

NPCI ki digital payment safety salah (UPI PIN, OTP, bank details share na karein; 1930 / cybercrime helpline) — Business Standard report, 10 July 2025 · UPI safety guides (banks/payment apps): paise lene ke liye UPI PIN ki zaroorat nahi

46

Repeat Clients, Maintenance aur Referrals

Project khatam hota hai, rishta nahi.

Chapter 45 mein Sparkle Car Spa ka project samay par poora hua — paisa bhi, handover bhi. Beginner ko lagta hai kahani yahin khatam. Asal mein yahin se sabse aasaan aur sabse keemti kaam shuru hota hai: **wahi client, dobara**. Naye client ko bharosa dilaana padta hai; purana client aapko pehle se jaanta hai. Is chapter mein ek baar ke kaam ko rishte mein badalna seekhenge — bina pareshaan kiye.

1 Is Chapter Mein Kya Seekhenge

- 1 Client Care Calendar — project ke baad kab, kya message
- 2 Monthly maintenance offer aur 1-page monthly report
- 3 Feedback, testimonial aur review — izzat aur niyam ke saath
- 4 Referral — client khud aapko aage bataye

2 Simple Explanation

Repeat client wo hai jo dobara kaam deta hai. **Maintenance** matlab har mahine ka tay kaam jo client ki cheez (website, profile, posts) ko zinda rakhe. **Referral** matlab jab khush client kisi aur ko aapka naam de.

Teeno ki jadh ek hi hai: **client ko yaad rehna ki aap hain — aur achhe hain**. Iske liye roz message nahi, sahi samay par sahi message chahiye — kaam ki baat ke saath.

EK LINE MEIN

Project khatam hota hai, **rishta nahi**. Lekin rishta dabav se nahi, **kaam ki yaad** se chalta hai.

Fictional kahani — Rahul, Gupta ji, Deepak aur Imran bhai is book ke fictional examples hain.

RAHUL

Holi se ek hafta pehle Rahul Swaad Rasoi ke saamne se guzra. Counter par ek naya poster tha — Holi Thali ka. Achha tha, par Rahul ka banaya nahi. Gupta ji ne muskura kar kaha, "Arre Rahul! Tumhara Weekend Thali wala poster to ab bhi log yaad karte hain. Ye wala mere bhatije ke dost ne banaya."

Rahul ghar laut kar sochta raha. Weekend Thali poster ke baad usne Gupta ji ko **ek bhi message nahi** kiya tha. Na Diwali par, na Navratri par. Gupta ji ne use bhulaaya nahi tha — Rahul ne khud ko bhulwa diya tha.

Imran bhai ne kaha, "Client ko ghumaana nahi, **yaad dilaana** hai. Uske tyohaar tere calendar mein hone chahiye — uske poochhne se pehle."

Rahul ne Sheet kholi: har purane client ke saamne project ki tarikh, aakhri baat, aur agle 3 mahine ke tyohaar/mauke. Gupta ji ko agle hafte message gaya: *"Namaste Gupta ji! Navratri 3 hafte mein hai — pichhli baar Weekend Thali ka poster chala tha. Is baar Navratri Thali ke liye 2 designs banakar dikhaaun?"*

Gupta ji ne sirf poster nahi liya. Unhone poochha, "Har tyohaar ka tension tum hi le lo — kitna loge?" Rahul ne ek chhota **"Festival Pack"** offer kiya — 3 mahine mein 6 posters. Aur Deepak ne, jinki website Rahul ne banayi thi, bina maange apne gym wale dost Vikram ko Rahul ka number diya tha — wahi Vikram jo Chapter 39 mein aaya tha.

"Naya client dhoondhne mein mujhe 3 hafte lage the," Rahul ne kaha. "Purane ko yaad dilaane mein ek message."

1. Client Care Calendar

Din 7

"Sab theek chal raha hai?" — chhoti problem free theek (Chapter 45 ka niyam)

Din 30

Ek kaam ki baat: "Is mahine aapke Google profile par 12 naye reviews aaye — 3 ka jawab baaki hai."

Tyohaar – 3 hafte

Unke business ka mauka — ek idea ya design sample

Din 90

Chhota review: kya kaam aaya, kya naya chahiye

Renewal – 30 din

Domain/plan renewal ki yaad — client ke naam par, client ka kharcha

Saal mein 1 baar

"Ek saal ho gaya!" — pehle/baad, aur agla kadam

Har message mein kuch **kaam ka** ho — khaali "Hi, koi kaam hai?" nahi. Ye WhatsApp labels (Chapter 37) aur ek Sheet se chalta hai.

2. Monthly maintenance offer — seema ke saath

HISSA	EXAMPLE (CHAPTER 44 SE)
Naam	"Website + Google Care" · "Festival Pack"
Shaamil	Mahine mein 4 updates tak, 2 Google posts, reviews ke jawab (owner ki manzoori se), button check
Shaamil nahi	Naya page, naya design system, paid ads
Payment	Mahine ki shuruaat mein
Band karna	"Kabhi bhi, 1 mahina pehle bata kar" — koi zabardasti nahi
Report	Har mahine 1 page — neeche

3. 1-page monthly report

Is mahine kya kiya 4 updates · 2 posts · 9 reviews ke jawab	Kya dekha "Photos" wale post par sabse zyada calls · 2 customers ne timing poochhi	Agle mahine sujhaav Diwali post · naye photos · timing ko highlight
---	--	---

Report mein sirf wo number jo platform (jaise Google profile ki jaankari) ya client ki taraf se **sach mein** dikhe. Andaaza nahi; "pata nahi" bhi theek hai (Chapter 38).

4. Feedback — 3 sawal

- "Kaam mein kya sabse achha laga?"
- "Kya aur behtar ho sakta tha?"
- "Kya aap kisi ko mera kaam recommend karenge? Kyun / kyun nahi?"

Jo seekh mile, uspar kaam kijiye — aur client ko bataiye: "Aapke sujhaav se ab main draft ke saath ek checklist bhejta hoon."

5. Testimonial aur review — niyam

THEEK ✓	GALAT ✗
Client se unke apne shabdon mein 2–3 line; portfolio par lagane ki permission	AI se testimonial likhwa kar client ka naam lagana
Aapka apna Google Business Profile ho (service-area, Chapter 29) to sabhi clients se review ke liye poochhna	Review ke badle discount/free kaam (Google policy ke khilaf)
Chhoti spelling theek karna, matlab bina badle — aur client ko dikha kar	Sirf khush clients se hi poochhna, baaki ko chhod dena

6. Referral — aasaan banaiye

Khush client aksar recommend karna chahta hai — bas use yaad nahi rehta ya kya kahe, pata nahi. Aap uska kaam aasaan kijiye:

- **Sahi samay:** jab client ne khud tareef ki ho, ya achha nateeja dikha ho.
- **Seedha sawal:** "Aapke jaan-pehchaan mein kisi aur business ko aisi zaroorat ho to mera naam de sakte hain?"
- **Forward-ready message:** 3 line jo wo seedha WhatsApp kar sakein (Prompt 5).
- **Dhanyavaad:** referral se kaam mile to zaroor bataiye aur shukriya. Chahein to ek saaf, pehle se bataya hua thank-you (jaise ek mahina maintenance free) — ye referral ke liye hai, review ke liye nahi.

7. Kab chhodna theek hai

HAR CLIENT KO RAKHNA ZAROORI NAHI

Jo client baar-baar payment late kare, bina seema kaam maange, ya bad-tameezi kare — use izzat se alvida kahna bhi business ka hissa hai: "Mujhe lagta hai hum dono ke liye doosra designer behtar rahega. Saari files aur access aapke paas hain." Accounts aur files hamesha unke paas (Chapter 30).

5

Step-by-Step Mobile Process: Client Retention System

1

Clients Sheet

Naam, business, project, tarikh, package, aakhri baat, agla mauka, renewal tarikh, notes (sirf kaam ki baat).

2

Care Calendar

Har client ke liye Din 7, 30, 90 aur agle 3 tyohaar/mauke — phone calendar mein reminder.

3

Messages taiyaar

Prompt 1 se check-in aur tyohaar messages; quick replies mein dhaancha.

4

Maintenance offer

Prompt 2 se ek page; project ke handover ke saath ek line mein zikr.

5

Monthly report template

Prompt 3 — Canva/Docs mein 1 page.

6

Feedback + testimonial

Din 30 par 3 sawal (Prompt 4); permission ke saath portfolio mein.

7

Referral kit

Prompt 5 se forward-ready message; khush client ko sahi samay par.

8

Hafte mein 15 minute

Sheet dekhiye: is hafte kisko, kya message?

6 AI Tool Recommendation

TOOL	KAAM
Google Sheets	Clients Sheet, care calendar, renewal tarikhein
WhatsApp Business	Labels ("Din 30", "Maintenance", "Festival"), quick replies
Aapka Chat AI	Check-in, tyohaar ideas, report, feedback sawal, referral message
Phone calendar	Reminders — taaki yaad rakhna dimaag ka kaam na ho

7 Copy-Paste Prompts

PROMPT 1 — CHECK-IN AUR TYOHAAR MESSAGES

Client: [naam, business]. Maine unke liye [kya kiya, kab]. Ye messages likho, har ek max 50 shabd, simple Hinglish: (1) Din 7 check-in (2) Din 30 — ek kaam ki baat ke saath: [jo dekha] (3) [tyohaar] se 3 hafte pehle — unke business ke liye ek chhota idea. Koi "koi kaam hai?" jaisa khaali message nahi, koi dabav nahi.

PROMPT 2 — MAINTENANCE OFFER

Maine [client type] ke liye [project] kiya hai. Ek monthly maintenance offer ka 1-page text likho: naam, kya shaamil (seema ke saath), kya nahi, mahine ki fees ₹ [...], payment kab, band kaise karein (1 mahina notice), aur monthly report ka zikr. Izzat bhara, koi "guaranteed growth" nahi.

PROMPT 3 — MONTHLY REPORT

Is mahine maine [client] ke liye ye kiya: [list]. Jo dekha (asli jaankari): [...]. 1-page report banao: Is mahine kya kiya, Kya dekha, Agle mahine 3 sujhaav. Sirf di hui jaankari — koi number ya nateeja mat banao.

PROMPT 4 — FEEDBACK + TESTIMONIAL

[Client] ka project [kab] poora hua. Ek WhatsApp message likho jo 3 feedback sawal poochhe, aur aakhir mein vinamrata se poochhe ki kya wo 2–3 line apne shabdon mein likh denge jo main portfolio mein unke naam ke saath (unki permission se) laga sakoon. "Na" bhi theek hai — ye line ho.

PROMPT 5 — REFERRAL KIT

[Client] mere kaam se khush hain. Do cheezein likho: (1) unse referral maangne ka chhota, izzat bhara message (2) ek 3-line forward-ready message jo wo apne jaan-pehchaan ko bhej sakein — mera naam, kaam, number, aur ek line unke apne anubhav ki jagah [CLIENT APNE SHABD] placeholder.

8 Prompt Ka Explanation

PROMPT KA HISSA	YE KYUN KAAM KARTA HAI
"Kaam ki baat ke saath" (P1)	Khaali check-in "bechna" lagta hai; kaam ki baat "khayal" lagti hai.
"Band kaise karein" (P2)	Aasaan exit se client haan jaldi kehta hai — aur bharosa rehta hai.
"Koi number mat banao" (P3)	Ek bhi bana hua number poori report ko jhootha bana deta hai.
"Na bhi theek hai" (P4)	Dabav ke bina maangi raay hi asli raay hoti hai.
[CLIENT APNE SHABD] (P5)	Referral mein client ki awaaz ho, AI ki nahi.

DHYAN DEIN

Clients Sheet mein sirf kaam ki jaankari rakhiye. Unke parivaar, personal baatein ya private data nahi — aur Sheet kisi ke saath share nahi (Chapter 49).

9 Practical Example: Rahul Ki Clients Sheet (Jhalak)

CLIENT	KAAM	PACKAGE	AGLA MAUKA	RENEWAL
Swaad Rasoi	Weekend Thali poster	Festival Pack (3 mahine)	Navratri – 3 hafte: 2 designs	—
Chamak Car Wash	Website + Google profile	—	Din 90 review; maintenance ka zikr	Domain: [tarikh] – 30 din
Glow Salon	Campaign + WhatsApp	Website + Google Care	Monthly report • Diwali campaign idea	Plan: [tarikh]
Sparkle Car Spa	Standard package	—	Din 7 check • booking form ka quote	Domain: [tarikh]

Fictional example. "Referral" column bhi rakhiye: Vikram (FitZone) ← Deepak ne bheja — Deepak ko shukriya ka message gaya.

10 Practice Task

Task 1: Clients Sheet banaiye (asli ya practice clients); har ek ka agla mauka aur renewal tarikh.

Task 2: Prompt 2 se ek monthly maintenance offer; Prompt 3 se report template.

Task 3: Prompt 1 se 3 messages likhiye — Din 7, Din 30, agla tyohaar.

Task 4: Prompt 4 aur 5 se feedback/testimonial message aur referral kit. Sab "06 Business Docs / Clients" mein; reminders phone calendar mein.

11 Common Mistakes

GALTI	SAHI TAREEKA
Project ke baad gayab	Care Calendar — Din 7, 30, 90, tyohaar.
Khaali "koi kaam hai?"	Har message mein ek kaam ki baat.
Maintenance bina seema	Shaamil/nahi, updates ki ginti, band karne ka tareeka.
AI se testimonial	Client ke apne shabd, permission ke saath.
Review ke badle discount	Sabse poochhiye, bina inaaam; thank-you sirf referral ke liye.
Renewal bhool jaana	30 din pehle reminder — client ko.

12 Quick Checklist

- ☐ Clients Sheet aur Care Calendar taiyaar
- ☐ Maintenance offer — seema aur exit ke saath
- ☐ 1-page monthly report template
- ☐ Feedback aur testimonial message — permission ke saath
- ☐ Referral kit aur shukriya ka niyam

13 Chapter Summary

KEY TAKEAWAYS

- Project khatam hota hai, rishta nahi — Client Care Calendar se yaad dilaiye.
- Monthly maintenance: saaf seema, aasaan exit, 1-page report — sirf sachche number.
- Feedback 3 sawal; testimonial client ke shabdon mein, permission se.
- Review ke badle inaam nahi; referral ke liye shukriya theek hai.
- Mushkil client ko izzat se alvida — files aur accounts unke paas.

PART IX COMPLETE

Business, Offer, Pricing aur Income — aapne kya haasil kiya

Ch 42

Business model —
6 sawal, matrix

Ch 43

14 income models
→ top 2

Ch 44

Project 7: 3
packages, pricing
sheet

Ch 45

Proposal, advance,
invoice, handover

Ch 46

Care calendar,
maintenance,
referral

Ab aapke paas sirf hunar nahi, ek **chhote business ka dhaancha** hai: kya bechte ho, kitne mein, kaise dete ho, aur client ko kaise rakhte ho. Portfolio mein: Project 1–7. Note mein likhiye:

"Part IX khatam — ab main saaf offer, saaf daam aur saaf system ke saath kaam kar sakta/sakti hoon."

Next Step — Part X, Chapter 47: Automation Kya Hai — Forms, Sheets aur Workflows

Ab Rahul ke paas 4 clients hain, har ek ke reminders, forms, messages. Haath se sab sambhaalna thaka raha hai. Part X — automation, safety aur aage ka raasta — shuru hota hai ek simple sawal se: kaunsa kaam main roz haath se karta hoon jo apne-aap ho sakta hai?

PART X

10

Automation, Safety aur Aage Ka Raasta

Kaam ko apne-aap chalne dena, chatbot aur AI agent ki simple samajh, business ki safety — aur aakhir mein apna poora Mobile AI Business Blueprint.

Chapter 47 – 50

47

Automation Kya Hai: Forms, Sheets aur Workflows

Register Sheet ho, to dimaag khaali rehta hai.

Part IX ke aakhir mein Rahul ke paas 4 clients the, har ek ke reminders, messages, forms. Udhar Priya ka tiffin badh raha tha — aur orders ka haal ye tha ki kuch WhatsApp par, kuch call par, kuch Instagram DM mein. Part X — automation, safety aur aage ka raasta — isi thakaan se shuru hota hai. Is chapter mein koi mehenga software nahi: sirf **Google Form + Google Sheet + WhatsApp** se ek aisa system jo mobile par chale aur kaam ko ek jagah le aaye.

1 Is Chapter Mein Kya Seekhenge

- 1 Automation, Workflow aur AI Workflow — simple matlab
- 2 Trigger → Action — har automation ka dhaancha
- 3 Enquiry/Order Form → Sheet → WhatsApp follow-up — mobile se
- 4 Automation ki seedhi — kab ruk jaana hai, kab aage badhna

2 Simple Explanation

Workflow ek kaam ko karne ke steps ka kram hai: order aaya → likha → confirm kiya → banaya → pahunchaaya. **Automation** matlab un steps mein se kuch ko **apne-aap** hone dena — jaise order form bharte hi uski row Sheet mein aa jaana. **AI Workflow** matlab workflow ka ek step jisme AI madad kare — jaise din bhar ki enquiries ka saar banana.

TRIGGER

Jab ye ho...

Customer ne form bhara

**ACTION**

...to ye apne-aap ho

Sheet mein nayi row

PEHLA NIYAM

Pehle kaam ko **haath se, ek jaise tareeke se** kijiye. Jo kaam roz ek hi tarah hota hai, wahi automate karne layak hai. Bikhra hua kaam automate karoge to bikhraav tez ho jayega.

3 Kahani: Somvaar Ka Bhoola Hua Order

Fictional kahani — Priya, Rahul aur "Priya Ki Rasoi" is book ke fictional examples hain.

PRIYA

Somvaar subah ek naye customer ka call aaya: "Tiffin kahan hai? Maine Instagram par Shanivaar ko bataya tha ki Somvaar se shuru karna hai." Priya ne DM dekha — sach mein tha. 30 aur messages ke neeche daba hua.

Priya ne Rahul ko phone kiya. "Orders teen jagah aate hain. Kuch mujhe yaad rehte hain, kuch nahi. Main tiffin banaun ya messages dhoondhun?"

Rahul ne ek shaam lagayi. Ek **Google Form** — "Priya Ki Rasoi: Order / Enquiry": naam, phone, area, kitne tiffin, kab se, veg/non-veg, koi khaas baat. Form ke jawab seedhe ek **Google Sheet** mein. Sheet mein Priya ke liye ek "Status" column: Naya → Confirm → Shuru → Band. Aur ek column mein har customer ke liye WhatsApp ka ek link — tap karo, aur confirmation message pehle se likha hua khule.

Form ka link Instagram bio, WhatsApp greeting message aur Google profile par gaya. Call ya DM par koi order de to Priya kehti: "Is link par 1 minute mein bhar dijiye — taaki bhoolun nahi."

"Pehle mera dimaag hi register tha," Priya boli. "Ab register Sheet hai — dimaag khaana banane ke liye khaali hai."

4 Important Concepts

1. Automation ki seedhi

Level 0 Haath se, bina system — yaaddaasht par

Level 1 Templates: quick replies, saved messages (Chapter 37)

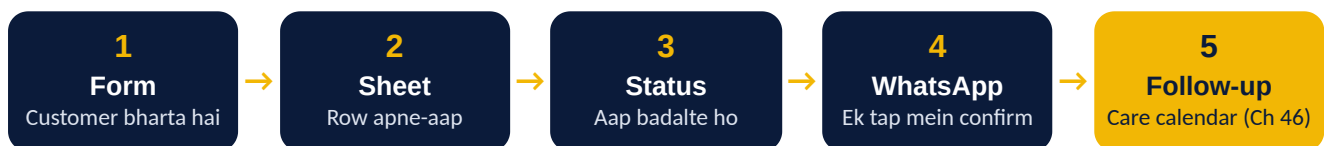

Level 2 Form → Sheet: jaankari apne-aap ek jagah — *is chapter ka lakshya*

Level 3 Apps ko jodne wale tools (jaise Zapier, Make): Sheet mein row aate hi email/message — *baad mein*

Level 4 AI agents jo khud kaam karein (Chapter 48)

Level 3 ke tools mein free plans ki seemaayein aur paid plans hote hain, aur galat setup se galat message kisi ko ja sakta hai. Beginner ke liye Level 2 kaafi kaam ka hai — pehle use pakka kijiye.

2. Enquiry/Order workflow — 5 steps

3. Achha form — 6 niyam

NIYAM	KYUN
6-8 sawal tak	Lamba form adhoora chhoota jaata hai
Zaroori sawal "Required"	Naam aur phone ke bina order bekaar
Vikalp wale sawal	"Kitne tiffin: 1 / 2 / 3+" — likhne se aasaan, Sheet mein saaf
Sirf zaroori jaankari	Aadhaar, janam-tithi jaisi cheezein kabhi nahi (Chapter 28, 49)
Privacy line	"Aapka naam/number sirf order ke liye use hoga."
Dhanyavaad message	"Shukriya! Hum 2 ghante mein WhatsApp par confirm karenge." — umeed saaf

4. Sheet ko "smart" banana — 3 aasaan cheezein

- **Status column** (dropdown): Naya / Confirm / Shuru / Band — Data validation se.
- **Rang** (conditional formatting): "Naya" wali row peeli — ek nazar mein pata chale kya baaki hai.

- **WhatsApp link formula:** har row mein ek link jo customer ke number par pehle-se-likhe message ke saath chat khole (Chapter 28 ka wa.me format). Example formula (phone column C, naam B):

```
= "https://wa.me/91"&C2&"?text="&ENCODEURL("Namaste "&B2&", Priya Ki Rasoi se –  
aapka order mil gaya!")
```

Phone number bina 0, bina +91, 10 ank mein hona chahiye — form mein isi tarah maangiye aur har link pehli baar khud test kijiye. Message bhejna phir bhi **aapka** tap hai — ye spam ke liye nahi, sirf un logon ke liye jinhone khud form bhara.

5. Mobile par Google Forms

Google Forms ka alag official app aam taur par nahi milta. Phone ke browser (Chrome) mein forms.google.com kholiye; menu chhota lage to browser ka "Desktop site" option madad karta hai. Responses → Sheets icon ("Link to Sheets" / "Select destination for responses") se form ko Sheet se jodiye. Naye jawab ki email chahiye to: Responses → ⋮ (More) → "Get email notifications for new responses".

6. AI Workflow — ek step, dhyan se

Din ke aakhir mein Sheet ki nayi rows ka saar AI se: "Aaj kitne naye order, kaunse area, kya khaas maang?" — Prompt 5. Lekin pehle **naam aur phone number hata dijiye**. Customers ki personal jaankari bina zaroorat kisi AI tool mein paste nahi karni (Chapter 49).

5 Step-by-Step Mobile Process: Order Form → Sheet → WhatsApp

1

Workflow likhiye

Abhi order kaise aata hai, kahan atakta hai — Prompt 1 se naksha.

2

Form banaiye

Chrome → forms.google.com → Blank. Prompt 2 ke 6–8 sawal; zaroori ko Required; privacy line; dhanyavaad message (Settings → Presentation).

3

Sheet se jodiye

Responses → Link to Sheets → New spreadsheet.

4

Status + rang

Sheet mein "Status" column, dropdown, "Naya" peela (Prompt 3).

5 WhatsApp link column

Upar wala formula; ek test row se tap karke check.

6 Khud test

Form 3 baar bhariye (galat number ke saath bhi) — Sheet, rang, link sab theek? (Prompt 4)

7 Link failaiye

Form ka chhota link: Instagram bio, WhatsApp greeting, Google profile, website button.

8 Roz ki aadat

Subah aur shaam Sheet — "Naya" wali har row ko confirm; Sheet sirf aapke paas, share nahi.

6 AI Tool Recommendation

TOOL	KAAM
Google Forms (browser)	Order/enquiry form
Google Sheets	Jawab, status, rang, WhatsApp link
WhatsApp Business	Confirmation, labels, greeting mein form link
Aapka Chat AI	Workflow ka naksha, form sawal, formulas, test plan, din ka saar (bina personal data)
Zapier / Make (Level 3 — sirf jaankari)	Apps ko jodna — Level 2 pakka hone ke baad, niyam aur fees dekh kar

7 Copy-Paste Prompts

PROMPT 1 — WORKFLOW KA NAKSHA

Mera business: [kya]. Abhi order/enquiry aise aati hai: [WhatsApp, call, DM...]. Uske baad main ye karta/karti hoon: [steps]. Problems: [kya chhoota hai]. Mera workflow 5–7 steps mein likho, har step ke saath "haath se / apne-aap ho sakta hai / AI madad kar sakta hai". Sirf Google Forms, Sheets aur WhatsApp Business se — koi paid tool nahi.

PROMPT 2 — FORM KE SAWAL

"[business]" ke liye ek Google Form: [order / enquiry / booking]. 6–8 sawal do – har ek ka type (short answer / multiple choice / dropdown / date), Required hai ya nahi, aur vikalp. Phone number 10 ank mein maangna. Ek privacy line aur ek dhanyavaad message bhi. Koi zaroorat se zyada personal jaankari nahi.

PROMPT 3 — SHEET SETUP

Meri Google Sheet mein form ke jawab aate hain: columns [list, letter ke saath]. Mujhe step-by-step batao (mobile par): (1) Status dropdown – Naya/Confirm/Shuru/Band (2) "Naya" wali poori row peeli (conditional formatting, custom formula) (3) WhatsApp link column ka formula – wa.me/91 + phone + ENCODEURL message: "[message]" (4) Aaj ke naye orders ginne ka formula.

PROMPT 4 — TEST PLAN

Mera workflow: [steps]. Ek chhota test plan do – 6 test cases (sahi order, adhoora form, galat phone format, do baar same customer, bahut lamba message, raat ka order) aur har ek mein kya check karna hai.

PROMPT 5 — DIN KA SAAR (bina personal data)

Ye aaj ki orders ki list hai – naam aur phone hata diye hain: [paste: area, kitne tiffin, kab se, khaas baat]. Saar do: kul orders, area ke hisaab se ginti, khaas maangein, kal ke liye kya taiyaari. Sirf is data se.

8 Prompt Ka Explanation

PROMPT KA HISSA	YE KYUN KAAM KARTA HAI
"Koi paid tool nahi" (P1)	AI aksar bade tools sujhaata hai; beginner ko free, samajh aane wala system chahiye.
"10 ank mein" (P2)	Isi se WhatsApp link formula sahi chalega.
"Mobile par step-by-step" (P3)	Desktop ke steps phone par alag dikhte hain.
"Galat format, raat ka order" (P4)	System ki kamzori aksar ajeeb case mein dikhti hai.
"Naam aur phone hata diye" (P5)	AI ko saar ke liye pehchaan ki zaroorat nahi — privacy bachi.

DHYAN DEIN

AI ka formula ek test row par zaroor chalaiye. Ek bracket ya comma ki galti se saare links toot sakte hain — ya galat number par message ja sakta hai.

9 Practical Example: Priya Ki Order Sheet

SAMAY	NAAM	AREA	TIFFIN	KAB SE	STATUS	WHATSAPP
21/09 9:14	Anjali	Sector 4	2	23/09	Naya	► Confirm bhejein
20/09 18:40	Rohit	Station Rd	1	22/09	Confirm	►
20/09 11:02	Meena	Sector 4	3+	21/09	Shuru	►
18/09 20:15	Farhan	Civil Lines	1	—	Band	►

Fictional example — naam aur data kaalpanik. Peeli row = abhi confirm karna baaki. Form ka link: Instagram bio, WhatsApp greeting, Google profile.

10 Practice Task

Task 1: Prompt 1 se apne (ya client ke) business ka workflow naksha.

Task 2: Prompt 2 se Google Form; Sheet se jodiye.

Task 3: Prompt 3 se Status dropdown, peeli row, WhatsApp link formula.

Task 4: Prompt 4 ke 6 test cases chalaiye; form link 2 jagah lagaiye. Screenshot "04 Portfolio" mein — ye bhi ek service ban sakti hai (Chapter 43, model 11).

11 Common Mistakes

GALTI	SAHI TAREEKA
Bikhre kaam ko automate karna	Pehle ek jaisa tareeka, phir automation.
20 sawal wala form	6–8 sawal, zaroori Required.
Zaroorat se zyada personal data	Sirf order ki jaankari + privacy line.
Bina test ke link failaana	6 test cases pehle.
Sheet sabke saath share	Sirf aap (aur zaroori ho to ek saathi).
Seedha Level 3/4	Level 2 pakka, phir aage.

12 Quick Checklist

- ☐ Workflow naksha — kya haath se, kya apne-aap
- ☐ Form: 6–8 sawal, privacy line, dhanyavaad message
- ☐ Sheet: Status, rang, WhatsApp link — test kiya
- ☐ Form link bio/greeting/profile par
- ☐ AI ko data dene se pehle naam/phone hataya

13 Chapter Summary

KEY TAKEAWAYS

- Workflow = steps; Automation = kuch steps apne-aap; AI Workflow = ek step mein AI ki madad.
- Har automation: Trigger → Action.
- Level 2 (Form → Sheet) beginner ke liye sabse kaam ka — free aur mobile se.
- Sheet mein Status, rang aur WhatsApp link — kuch bhi na chhoote.
- Kam data, privacy line, test pehle; AI ko personal data nahi.

Next Step — Chapter 48: Chatbot, AI Agent aur API — Simple Samajh

Deepak ne suna ki "AI bot" booking le sakta hai. "Mujhe bhi chahiye — jo raat ko bhi booking le, payment le, sab kare." Kya ye ho sakta hai? Agle chapter mein chatbot aur AI agent ka farq, API ka "waiter" wala example, aur business chatbot ke niyam — bina jargon ke.

IS CHAPTER KE SOURCES (LAST CHECKED: 21 SEPTEMBER 2026)

Google Docs Editors Help — Choose where to save form responses (Link to Sheets / Select destination for responses) · Google Docs Editors Help — Email notifications for new responses · Google Sheets ENCODEURL function · WhatsApp click-to-chat format (Chapter 28)

48

Chatbot, AI Agent aur API — Simple Samajh

Bot sabse bor kaam le; faisle aapke paas rahein.

Chapter 47 mein Priya ka order system Form aur Sheet se chalne laga. Ab Deepak ko bhi kuch chahiye tha — lekin usne bada socha: "Rahul, maine ek ad dekha — AI bot jo raat ko bhi booking le, payment le, sab sambhaale. Mujhe wahi chahiye." Chatbot, AI Agent, API — ye shabd aajkal har jagah hain, aur aksar bade vaadon ke saath. Is chapter mein inhe bina jargon ke samjhenge — aur ye bhi ki kis business ko sach mein bot chahiye, aur kise nahi.

1 Is Chapter Mein Kya Seekhenge

- 1 Chatbot: menu wala aur AI wala — farq
- 2 AI Agent — jo sirf bolta nahi, kaam bhi karta hai
- 3 API — "waiter" ki kahani se
- 4 Bot Readiness Test aur business chatbot ke 8 niyam

2 Simple Explanation

Chatbot

Jo baat karta hai

Customer ke sawal ka jawab deta hai — menu se ya AI se.

AI Agent

Jo kaam karta hai

Lakshya diya jaaye to khud steps lekar doosre tools mein kaam karta hai — jaise slot dekhna, booking likhna, message bhejna.

API

Jo do software ko jodta hai

Ek software ka doosre software se tay tareeke se baat karne ka raasta.

Teeno mein ek baat common hai: jitni zyada **taakat**, utni zyada **zimmedaari**. Jawab dene wala bot galti kare to ek galat jawab jaata hai. Kaam karne wala agent galti kare to galat booking, galat message, ya galat payment ho sakta hai.

SACHCHI BAAT

"AI agent jo aapka poora business chalaaye" jaise ads se savdhaan. Aaj ke tools madad karte hain — lekin chhote business mein **insaan ki nigraani** abhi bhi zaroori hai.

3 Kahani: Raat 11 Baje Ka Sawal

Fictional kahani — Rahul, Deepak aur "Chamak Car Wash" is book ke fictional examples hain.

RAHUL

Rahul ne Deepak se ek hi cheez maangi: "Pichhle hafte ke WhatsApp messages dikhao." Dono ne milkar gine. Roz lagbhag 25 messages — aur unme se 20 wahi 5 sawal: rate kya hai, SUV ka kitna, kitna time lagega, kal subah slot hai, location kahan hai. Aur zyadatar raat 9 ke baad aate the, jab Deepak so jaata tha. Subah tak aadhe log kahin aur chale jaate.

"To haan," Rahul bola, "tumhe bot chahiye — lekin wo jo **jawab** de, wo nahi jo payment le."

Unhone WhatsApp Business AI (Chapter 37) mein rates, timing, location aur services ka saaf document daala. Booking ke liye bot seedha Chapter 47 jaisa form link deta: "Apna pasand ka slot bhariye — subah 8 baje tak Deepak confirm karenge." Payment? Sirf dukaan par ya official UPI QR se — chat mein nahi.

Test ke dauraan ek galti pakdi gayi: bot ne kaha, "Hum raat 10 baje tak khule hain." Document mein purani timing reh gayi thi. Theek ki. Ek aur test: "Meri gaadi ka dent theek karoge?" Bot ne sahi kaha: "Ye hum nahi karte — Deepak ji se baat karwate hain."

*"Mujhe laga tha bot mera kaam le lega," Deepak ne kaha. "Asal mein usne mera **sabse bor kaam** le liya — wahi 5 sawal. Baaki kaam ab bhi mera hai."*

4 Important Concepts

1. Chatbot ke 2 prakaar

	MENU (RULE-BASED) BOT	AI CHATBOT
Kaise	"1 dabaiye rate ke liye, 2 location ke liye" — pehle se tay raaste	Customer apne shabdon mein poochhta hai; AI aapki di hui jaankari se jawab deta hai
Achha	Galat jawab ka khatra kam; poora control	Natural baat; Hinglish, alag-alag tareeke ke sawal samajh leta hai
Mushkil	Menu se bahar ka sawal nahi samajhta	Kabhi-kabhi galat ya bana hua jawab de sakta hai — test aur nigraani zaroori
Example	Greeting message mein numbered menu + quick replies	WhatsApp Business AI (Chapter 37)

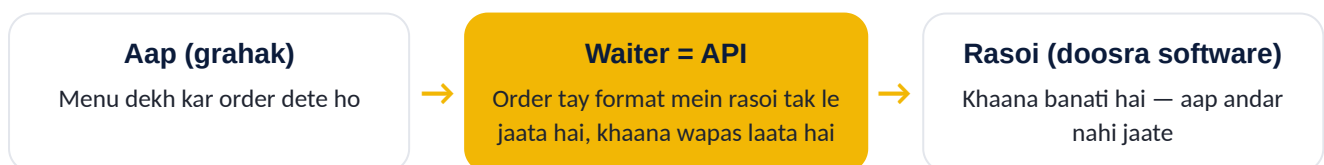

2. AI Agent — jawab se aage

Chatbot kehta hai: "Kal 10 baje slot khaali hai." **Agent** khud calendar dekhta hai, slot book karta hai, customer ko confirmation bhejta hai, aur Sheet mein likhta hai — yaani wo **tools ko chalaata** hai. Isliye agent ko har tool ki **permission** chahiye, aur har permission ek khatra bhi hai.

AGENT KE LIYE 3 SAWAL

(1) Ye kin cheezon ko badal sakta hai? (2) Galti ho to kaun pakdega aur kaise wapas hoga? (3) Kya har zaroori kadam par insaan ki "haan" chahiye? Jab tak teeno ka saaf jawab na ho, chhote business mein agent ko paise, customer data ya public posts ka poora control mat dijiye.

3. API — waiter ki kahani

Jaise aap rasoi mein ghuse bina khaana mangwa lete ho, waise hi ek app API ke zariye doosre app se kaam karwa leti hai — jaise booking website se calendar mein entry, ya payment app se "paisa aaya" ki khabar. Menu = API ke niyam: kya maang sakte ho, kis format mein.

Example: WhatsApp Business **app** (jo aap phone par use karte ho) aur WhatsApp Business **Platform/API** alag cheezein hain. API aam taur par bade systems aur service providers ke zariye use hota hai, apne niyam aur kharche ke saath. Chhote local business ke liye aksar Business app kaafi hai.

4. Bot Readiness Test — kise bot chahiye?

BOT SAHI RAHEGA ✓	ABHI BOT NAHI ✗
Roz 15–20+ messages, zyadatar wahi sawal	Din mein 3–4 messages — khud jawab dijiye
Jawab saaf aur tay: rate, timing, location, services	Har sawal alag, har jawab "depend karta hai"
Raat/busy samay mein enquiries chhoot rahi hain	Kaam rishte par chalta hai — log owner se hi baat karna chahte hain
Booking ke liye form/link jaisa saaf agla kadam	Health, kanoon, paise ki salah jaise sensitive sawal

5. Business chatbot ke 8 niyam

1 Batao ki bot/AI jawab de raha hai	2 Insaan tak jaane ka aasaan raasta	3 Sirf owner-confirmed jaankari	4 Jo pakka nahi, uska vaada nahi
5 Health/kanoon/paise ki salah nahi	6 Chat mein PIN, OTP, card details kabhi nahi maangna	7 Launch se pehle mushkil sawalon se test	8 Har hafte chats padh kar sudhaar

5 Step-by-Step Mobile Process: Business Ke Liye Bot Plan

1 Messages giniye
Pichhle 7 din ke messages: kitne, kab, kaunse sawal baar-baar (naam hata kar).
2 Readiness Test
Upar ki table — bot chahiye ya nahi? (Prompt 1)
3 15 FAQ
Prompt 2 se sawal-jawab; owner har jawab confirm kare.
4 "Insaan ko bhejo" list
Shikayat, refund, health, khaas maang — Prompt 3.
5 Agla kadam
Har jawab ke baad raasta: form link, call button, location.

6 Setup

WhatsApp Business AI (agar available) ya greeting + quick replies ka menu bot (Chapter 37).

7 Test

Prompt 5 — 15 mushkil sawal, galat jawab note, sudhaar.

8 Hafte ka review

Bot ki chats padhiye; FAQ update; timing/rate badle to turant document badliye.

6 AI Tool Recommendation

TOOL	KAAM
WhatsApp Business AI	AI chatbot — aapke document/catalog se jawab (Chapter 37; rollout aur eligibility par depend)
WhatsApp greeting + quick replies	Simple menu bot — bina AI
Aapka Chat AI	FAQ likhna, escalation list, test sawal, greeting text
Google Form + Sheet	Booking/enquiry ka agla kadam (Chapter 47)

7 Copy-Paste Prompts

PROMPT 1 — BOT READINESS TEST

Mere business "[type]" ke pichhle 7 din ke messages ka saar (naam/number hata kar): roz lagbhag [X] messages; baar-baar ke sawal: [list]; kab aate hain: [samay]; kitne sensitive: [..]. Batao: (1) kya mujhe chatbot chahiye — haan/nahi/abhi nahi, kaaran ke saath (2) menu bot ya AI bot (3) bot kya kare aur kya bilkul na kare.

PROMPT 2 — 15 FAQ

Business: [..]. Sachchi jaankari: [rates, timing, location, services, booking tareeka, payment tareeka]. Customers ke asli sawal: [list]. 15 FAQ banao — sawal customers ke shabdon mein (Hinglish), jawab 1–3 line, har jawab ke aakhir mein agla kadam (link/call). Jo jaankari maine nahi di, uska jawab "Owner se confirm karke batayenge" ho.

PROMPT 3 — "INSAAN KO BHEJO" LIST

[Business] ke chatbot ke liye wo sawal/sthitiyan batao jinme bot ko jawab nahi dena chahiye, seedha owner ko bhejna chahiye (jaise shikayat, refund, health, gussa, khaas discount). Har ek ke liye bot ka ek line ka vinamra handoff message.

PROMPT 4 — GREETING WITH DISCLOSURE

[Business] ke WhatsApp ke liye greeting likho jisme: swagat, saaf line ki pehla jawab AI assistant deta hai, owner se baat kaise karein, aur 3 aam kaamon ke shortcuts. Max 60 shabd.

PROMPT 5 — TEST SAWAL

Tum ek mushkil customer ho. [Business] ke bot ko test karne ke liye 15 sawal do: 5 aam, 5 ajeeb/galat spelling wale, 5 aise jinme bot ko owner ko bhejna chahiye (gussa, refund, health, raat ka emergency, "discount do"). Har ke saath "sahi jawab kya hona chahiye" ek line mein.

8 Prompt Ka Explanation

PROMPT KA HISSA	YE KYUN KAAM KARTA HAI
"Abhi nahi" ka vikalp (P1)	AI har business ko bot bechna chahta hai — "nahi" bhi ek sahi jawab hai.
"Owner se confirm karke" (P2)	Bot ki sabse badi galti — bana hua jawab — yahin rukti hai.
Handoff message (P3)	Customer ko lagta hai suna gaya, taala nahi mila.
"Saaf line — AI assistant" (P4)	Imaandaari se bharosa; aur galti hone par customer samajhta hai.
"Sahi jawab kya hona chahiye" (P5)	Test ka matlab tab hai jab pata ho "pass" kya hai.

DHYAN DEIN

Koi app ya "agent" aapse WhatsApp, Google ya bank account ka password/OTP maange to ruk jaiye. Asli tools official login aur permission screens se judte hain — password chat mein nahi maangte (Chapter 49).

9

Practical Example: Chamak Car Wash — Bot Kya Kare, Kya Nahi

Bot karega ✓

- Rate, SUV rate, time, location ke jawab
- Booking form ka link: "subah 8 baje tak confirm"
- Services list aur timing
- Raat ko: "Kal subah Deepak ji jawab denge"

Bot nahi karega ✗

- Pakki booking (asli slot owner dekhta hai)
- Payment lena ya UPI/card details maangna
- Dent, damage, refund, shikayat — owner ko
- Discount ka vaada

Fictional example. Test mein pakdi galti: purani timing — document theek kiya.

10

Practice Task

Task 1: Kisi ek business ke 7 din ke messages giniye (naam hata kar); Prompt 1 se Readiness Test.

Task 2: Prompt 2 se **15 FAQ aur jawab** — owner se confirm.

Task 3: Prompt 3 se "insaan ko bhejo" list; Prompt 4 se greeting.

Task 4: Prompt 5 ke 15 test sawal; "bot karega / nahi karega" table. Sab "03 Clients / [business] / Bot" mein.

11

Common Mistakes

GALTI	SAHI TAREEKA
Har business ko bot	Pehle Readiness Test.
Bot ko chhupana	Saaf batayein — AI assistant.
Insaan tak raasta nahi	Handoff list aur message.
Bot se payment details	Sirf official UPI/QR/payment link.
Agent ko poora control	Seemit permission, har zaroori kadam par insaan.
Setup karke bhool jaana	Har hafte chats + jaankari update.

12 Quick Checklist

- ☐ Chatbot, AI agent aur API ka farq samjha
- ☐ Readiness Test kiya — bot chahiye ya nahi
- ☐ 15 FAQ, owner-confirmed; handoff list
- ☐ Greeting mein AI ki saaf jaankari
- ☐ 15 mushkil sawalon se test; hafte ka review tay

13 Chapter Summary

KEY TAKEAWAYS

- Chatbot baat karta hai; AI agent kaam karta hai; API software ko jodta hai (waiter).
- Jitni taakat, utni zimmedaari — agent ko seemit permission aur insaan ki nigraani.
- Bot tab, jab wahi sawal baar-baar aayein aur jawab saaf hon.
- 8 niyam: batao ki bot hai, insaan tak raasta, sirf sach, sensitive nahi, payment details kabhi nahi, test, review.
- Bot sabse bor kaam le — faisle aur rishte owner ke paas.

Next Step — Chapter 49: Business Safety — Copyright, Privacy aur Scams

Rahul ke phone par ek message aata hai: "Daily ₹2000 kamao — sirf videos like karo!" Pichhle 48 chapters mein humne baar-baar kaha, "Chapter 49 mein." Ab wo chapter aa gaya: AI ki galat jaankari, copyright, client ka data, AI content ka label, password safety, naqli AI tools aur task scams — ek Business Safety Checklist ke saath.

49

Business Safety: Copyright, Privacy aur Scams

Ruk jaana hi sabse badi suraksha hai.

Pichhle 48 chapters mein kai baar ek line aayi: "Iski baat Chapter 49 mein." Copyright, customer ka data, AI content ka label, password, naqli apps, kamaai ke jhoothe vaade — ye sab wo cheezein hain jo business ko **banati** nahi, lekin ek galti mein **gira** sakti hain. Chapter 48 ke aakhir mein Rahul ke phone par ek message aaya tha: "Daily ₹2000 kamao — sirf videos like karo!" Wahin se shuru karte hain.

1 Is Chapter Mein Kya Seekhenge

- 1 AI ki galat jaankari aur copyright ki basic samajh
- 2 Customer aur client ka data — DPDP ki basic samajh
- 3 AI content ka label aur accounts ki suraksha
- 4 Naqli AI tools, task scams aur Business Safety Checklist

2 Simple Explanation

Online business ke **6 bade khatre** hain. Inme se kuch **aapse** galti karwa sakte hain (galat jaankari, copyright, data), aur kuch **aapke saath** dhokha kar sakte hain (account hack, naqli tools, scams). Achhi baat: zyadatar se bachne ke liye koi mehenga tool nahi, sirf **kuch aadatein** chahiye.

- | | | | | | |
|------------------------------|----------------|--------------------------|-----------------------|--------------------------|-------------------------------|
| 1
AI ki galat
jaankari | 2
Copyright | 3
Customer ka
data | 4
AI content label | 5
Account
security | 6
Naqli tools aur
scams |
|------------------------------|----------------|--------------------------|-----------------------|--------------------------|-------------------------------|

ZAROORI

Ye chapter **kanooni salah nahi** hai — sirf basic samajh aur achhi aadatein. Kanoon aur niyam badalte rehte hain; kisi khaas sthiti mein vakeel/CA ya official source se salah lijiye. Saare niyam 21 September 2026 tak ki jaankari par.

3 Kahani: ₹150 Ka Chaara

Fictional kahani — Rahul, Priya aur Imran bhai is book ke fictional examples hain.

RAHUL AUR PRIYA

Anjaan number se WhatsApp aaya: *"Part-time job! Roz ₹2000 kamaiye — bas YouTube videos like karke screenshot bhejiye."* Rahul ne mazaak mein 3 videos like kiye. Sach mein ₹150 aa gaye. Phir ek Telegram group ka link: *"Premium tasks — ₹5000 lagaiye, ₹8000 wapas paaiye."*

Rahul ruk gaya. Chapter 5 ka niyam yaad aaya: *jo sach hone ke liye bahut achha lage, wahan pehle jaanch.* Red flags gine: anjaan number, bina mehnat bada paisa, pehle chhota paisa dekar bharosa, phir "invest karo", aur jaldi ka dabav. Usne kuch nahi bheja. Sanchar Saathi ke **Chakshu** par message report kiya, number block kiya, aur apne dosto ke group mein chetaavni daali.

Usi hafte Priya ko ek link mila: *"Canva Pro FREE — ye APK download karo."* Uska haath lagbhag dab gaya tha. Phir Chapter 4 wali baat yaad aayi: app sirf Play Store se, publisher dekh kar. Link band kiya.

*"Scam wale mujhe bewakoof nahi samajhte," Imran bhai bole. "Wo mujhe **jaldi mein** samajhte hain. Isliye ruk jaana hi sabse badi suraksha hai."*

4 Important Concepts

1. AI ki galat jaankari

- AI poore bharose se galat, purani ya bani hui baat keh sakta hai (Chapter 2, 3). Niyam, fees, tarikh, health/kanoon ki baat — hamesha official source se (Chapter 5, 32).
- Client ki website ya post mein koi "fact" jaaye, to wo aapki zimmedaari hai — AI ki nahi.
- Kisi asli insaan ki awaaz/chehre ki naqal (deepfake) — bina saaf permission ke kabhi nahi.

2. Copyright — basic samajh

STHITI	SAHI AADAT
Google Images se photo	"Google par mili" ka matlab "free" nahi. Apni photo, client ki photo, ya licence wali stock (Chapter 15, 16).
Reels mein film/gaane ka music	Platform ki apni music library ya royalty-free music; niyam platform ke hisaab se (Chapter 21).
Brand logo, cartoon character	Client ke apne logo ke alawa kisi brand/character ka use nahi — "sirf ek chhota sa" bhi nahi.
Templates aur fonts	Unke licence ke hisaab se (Chapter 34 ke Canva niyam).
Kisi ka text/design "rewrite"	Shabd badalne se kaam aapka nahi hota (Chapter 32).

AI se bana content: India ka Copyright Act "computer-generated" kaam ke liye us insaan ko author maanta hai jo kaam banwaata hai. News reports ke mutabik 31 August 2026 ke ek order mein India ke Copyright Office ne kaha ki AI khud author nahi ho sakta, lekin kaam banwaane wala insaan author ho sakta hai. Us maamle mein registration phir bhi mana hua, kyunki aavedak ne khud ko author ke roop mein likhne se inkaar kiya. Ye kshetra abhi badal raha hai — isliye client ke saath **likh kar** tay kijiye ki final files ka upyog kiska hai (jaise: "Poori payment ke baad final designs ka upyog client ka").

3. Customer ka data — DPDP ki basic samajh

India ka **Digital Personal Data Protection (DPDP) Act, 2023** aur uske **Rules, 2025** (14 November 2025 ko notify, PIB ke mutabik 18 mahine ka transition) logon ke personal data ke use par niyam banate hain — naam, phone, email, address jaisi jaankari. Chhote business ke liye iska saar:

Saaf maqsad Data kyun le rahe ho — saaf batao (form ki privacy line, Chapter 47)	Kam se kam Sirf utna jitna zaroori (Aadhaar, janam-tithi nahi)	Suraksha Sheet private, password mazboot, kisi ke saath share nahi
Sirf usi kaam ke liye Order ka number marketing list mein bina poochhe nahi; list bechna kabhi nahi	Hatana Zaroorat khatam ho ya log kahein — data hata dijiye	AI mein nahi Naam/phone hata kar hi AI ko data dijiye (Chapter 47)

DPDP ke niyam phase mein lagu ho rahe hain aur bade/khaas data wale businesses par zyada zimmedaariyan hain. Apni sthiti ke liye official source (MeitY/PIB) ya kisi jaankar se samjhiye.

4. AI content ka label

MeitY ne IT Rules mein badlaav (IT Amendment Rules, 2026) **16 February 2026** ko notify kiye, jo **20 February 2026** se lagu hue. Inme AI se bane/badle hue ("synthetically generated") content ke liye platforms par **label** ki zimmedaari hai, aur bade social media platforms users se **declaration** maangte hain ki content AI-generated hai ya nahi.

- Platform poochhe to **sach bataiye** — AI image/video/awaaz ko chhupaiye mat.
- Asli jaisa dikhne wala AI photo/video ad mein ho to saaf likhiye: "AI-generated image".
- Kisi asli insaan ki AI awaaz/chehra — bina likhit permission kabhi nahi.
- Paid/affiliate promotion ka label alag hai — ASCI (Chapter 43).

5. Account security — 6 aadatein

Alag, mazboot password

Har account ka alag; password manager (jaise Google Password Manager) yaad rakhe

2-Step Verification

Google, Instagram, email par on

WhatsApp two-step PIN

WhatsApp Settings mein on — SIM chori/OTP scam se bachaav

OTP kisi ko nahi

Na "bank wale" ko, na "WhatsApp support" ko

Recovery sahi

Recovery email/phone apne paas, update

Client access

Password maangne ki jagah manager/collaborator access (Chapter 30)

6. Naqli AI tools aur apps

- "Premium FREE", "Pro unlocked", APK files — aksar malware ya data chori.
- App sirf official store se; **publisher ka naam** check (Chapter 4); reviews aur download ginti dekhiye.
- Browser extensions bhi — sirf zaroori aur jaane-maane.
- Koi "AI tool" aapke WhatsApp/Google/bank ka password ya OTP maange — band kijiye (Chapter 48).

7. Task scams aur jhoothe income vaade — red flags

🚩 Anjaan number/group se "job"

🚩 Like/review/rating ke badle paisa

🚩 Pehle chhota paisa dekar bharosa

🚩 Phir "invest"/"deposit"/"registration fee"

🚩 Telegram/WhatsApp group mein dabav

🚩 "Aaj hi, sirf 10 seats"

🚩 "Guaranteed ₹X roz"

🚩 OTP, PIN, screen-share maangna

DHOKHA HO JAAYE TO

Turant **1930** (National Cyber Crime Helpline) par call, ya **cybercrime.gov.in** par shikayat, aur apne bank ko khabar. Sandigdh call/SMS/WhatsApp ko **Sanchar Saathi** portal ki **Chakshu** suvidha par report kar sakte hain. Sharm mat kijiye — jaldi report karne se madad ki sambhavna badhti hai.

Is book ke saare "example calculations" isi liye label ke saath hain: jo koi aapko kisi hunar ya app se **pakki** kamaai bataye, wo ya to bhram mein hai ya aapko bhram mein daal raha hai.

5 Step-by-Step Mobile Process: 30-Minute Safety Check

1 Google account

Google Account → Security: 2-Step Verification on; recovery phone/email check; anjaan devices hataiye.

2 WhatsApp

Settings → Account → Two-step verification on; linked devices check.

3 Instagram aur email

Two-factor authentication on; login activity dekhiye.

4 Passwords

Password manager mein "weak/reused" check; sabse zaroori 3 accounts ke password badliye.

5 Apps

Phone ke apps dekhiye — anjaan/APK wale hataiye; permissions (SMS, contacts) check.

6 Client data

Sheets/Drive ki sharing check — "Anyone with link" jahan zaroori nahi, band. Purana, bekaar data hataiye.

7 Content check

Portfolio/posts mein koi Google Images photo, brand logo, bina permission client screenshot? Hataiye/badliye.

8

Helplines save

Phone mein "Cyber Helpline 1930" save; cybercrime.gov.in aur Sanchar Saathi bookmark.

6

AI Tool Recommendation

TOOL / JAGAH	KAAM
Google Account → Security	2-Step Verification, devices, recovery
Password manager (jaise Google Password Manager)	Mazboot, alag passwords
1930 • cybercrime.gov.in	Cyber fraud ki shikayat
Sanchar Saathi (Chakshu)	Sandigdha call/message report
Aapka Chat AI	Privacy line, checklist, disclosure lines — scam check mein sirf <i>doosri raay</i> , aakhri faisla nahi

7

Copy-Paste Prompts

PROMPT 1 — SCAM CHECK (doosri raay)

Mujhe ye message aaya hai (number hata diya hai): "[message]". Ismein scam ke kaunse red flags hain? Kya ye kisi jaane-maane scam pattern jaisa hai? Mujhe kya nahi karna chahiye aur kahan report kar sakta hoon? Agar pakka nahi pata to saaf kaho.

PROMPT 2 — PRIVACY LINE AUR DATA NIYAM

Mera business: [...]. Main customers se ye jaankari leta hoon: [list], is kaam ke liye: [maqsad]. (1) Form ke liye 2-line simple privacy notice (2) mere liye 6 data niyam — kya rakhna, kitne din, kaun dekh sakta hai, kab hatana. Simple Hinglish. Ye kanooni salah nahi — sirf achhi aadat.

PROMPT 3 — PROJECT COPYRIGHT CHECK

Mere project mein ye cheezein hain: [photos kahan se, music, fonts, logos, templates, AI images]. Har ek ke liye batao: kya poochhna/check karna chahiye (licence, permission, source) aur khatra kam/madhyam/zyada. Jahan pakka nahi, "official source/licence padhiye" likho.

PROMPT 4 — AI DISCLOSURE LINES

Mujhe ye content publish karna hai: [AI image / AI voice / AI-assisted text], platform: [...]. 3 chhoti, saaf disclosure lines do – jaise "AI-generated image" – jo post ya caption mein laga sakoon. Koi line jo ise chhupaaye, wo nahi.

PROMPT 5 — SAFETY CHECKLIST

Main [kaam] karta hoon, [clients] ke liye, in tools se: [list]. Ek 15-point Business Safety Checklist banao – har project ke shuru, beech aur aakhir ke liye: copyright, data, AI label, accounts, payments, scams. Har point ek line, tick karne layak.

8 Prompt Ka Explanation

PROMPT KA HISSA	YE KYUN KAAM KARTA HAI
"Doosri raay" / "pakka nahi to kaho" (P1)	AI naye scam ko "theek" bhi keh sakta hai. Aakhri niyam: paisa, OTP, PIN — kabhi nahi.
"Kitne din, kab hatana" (P2)	Data jitna kam aur jitne kam din, khatra utna kam.
"Kahan se" (P3)	Copyright ka pehla sawal hamesha source hai.
"Chhupaane wali line nahi" (P4)	AI kabhi-kabhi "subtle" label sujhaata hai; label ka matlab hi saaf dikhna hai.

DHYAN DEIN

Scam check ke liye AI ko message dete waqt apna/kisi ka number, bank ya OTP jaisi jaankari mat daaliye. Aur AI ka "safe lagta hai" sunkar bhi paisa, OTP ya PIN kabhi mat dijiye.

9 Practical Example: Business Safety Checklist (Har Project)

SHURU MEIN	BEECH MEIN	AAKHIR MEIN
☐ Proposal mein final files ka upyog kiska — likha ☐ Client ke accounts client ke naam; mujhe sirf access ☐ Form mein privacy line, kam data ☐ Advance bank app mein confirm	☐ Photos/music/fonts ka source aur licence ☐ Koi brand logo/character nahi ☐ Facts official source se, "Last checked" ☐ AI ko personal data nahi ☐ AI image/awaaz par label	☐ Portfolio ke liye permission; private data blur ☐ Handover: passwords client ke paas ☐ Purana/bekaar data hataya ☐ Mahine mein ek baar 30-min Safety Check ☐ 1930 aur cybercrime.gov.in yaad

Ye checklist Bonus mein printable roop mein bhi hogi.

10 Practice Task

Task 1: 30-Minute Safety Check (Section 5) apne phone par — kam se kam Google, WhatsApp aur Instagram.

Task 2: Prompt 2 se apne form ki privacy line aur 6 data niyam.

Task 3: Apne portfolio aur ek project par Prompt 3 ka copyright check; jo galat mile, badliye.

Task 4: Prompt 5 se apni Business Safety Checklist — "06 Business Docs" mein; 1930 phone mein save.

11 Common Mistakes

GALTI	SAHI TAREEKA
"Google par mili" photo use	Apni/client ki/licence wali.
Customer list share ya bechna	Kabhi nahi — sirf usi kaam ke liye.
AI content ko chhupana	Platform poochhe to sach; asli-jaisa AI par label.
Sab jagah ek password	Alag passwords + 2-Step Verification.
"Pro free" APK	Sirf official store, publisher check.
"Chhota paisa aaya to sach hoga"	Yahi chaara hai — paisa/OTP kabhi nahi; 1930.

12 Quick Checklist

- ☐ 30-Minute Safety Check poora
- ☐ Privacy line aur data niyam likhe
- ☐ Portfolio/projects ka copyright check
- ☐ AI content label ki aadat
- ☐ Business Safety Checklist + 1930 save

13 Chapter Summary

KEY TAKEAWAYS

- 6 khatre: galat jaankari, copyright, data, AI label, account security, scams.
- Copyright: source aur licence pehle; AI kaam ke upyog ki baat client se likh kar.
- DPDP ki aadat: saaf maqsad, kam data, suraksha, sirf usi kaam ke liye, hatana, AI mein nahi.
- IT Rules 2026: AI content par label — platform poochhe to sach; asli insaan ki naqaal nahi.
- 2-Step Verification, alag passwords; paisa/OTP/PIN kabhi nahi; fraud par 1930 aur cybercrime.gov.in.

Next Step — Chapter 50: Project 8 — Complete Mobile AI Business Workflow

Aakhri chapter. Ab tak ki har cheez — offer, marketing, client, delivery, payment, repeat, automation aur safety — ek page ke Business Blueprint mein. Rahul aur Priya dono ka "Pehla Business Blueprint": alag raaste, ek jaisa system. Aur aapka agle 90 din ka plan.

IS CHAPTER KE SOURCES (LAST CHECKED: 21 SEPTEMBER 2026)

PIB — DPDP Rules, 2025 notified (14 November 2025; 18-month transition) · MeitY IT (Intermediary Guidelines) Amendment Rules, 2026 — notified 16 Feb 2026, in force 20 Feb 2026 (Khaitan & Co summary) · India Copyright Office order on AI-generated work, 31 August 2026 — Business Standard report (1 Sep 2026) · PIB — Chakshu facility of Sanchar Saathi · National Cyber Crime Helpline 1930 / cybercrime.gov.in

50

Project 8: Complete Mobile AI Business Workflow

Raaste alag, system ek — roz thoda, imaandaari se.

PROJECT 8 Book ka aakhri project: ab tak ki har cheez ko jod kar aapka apna 1-page Business Blueprint aur agle 90 din ka plan — mobile se chalne wala, imaandaar, aur aapki zindagi ke naap ka.

Chapter 49 mein humne business ko surakshit karna seekha. Ab aakhri kaam: sab kuch **ek jagah**. Pichhle 49 chapters mein aapne alag-alag hunar seekhe — prompt likhna, poster, content, website, product, marketing, client, pricing, delivery, automation, safety. Ye sab ek-ek eent the. Is chapter mein un eenton se **ek chalta hua system** banega — ek page par — aur uske saath agle 90 din ka raasta.

1 Is Chapter Mein Kya Seekhenge

- 1 Business ka poora chakra — Offer se Repeat tak
- 2 Core Mobile Stack — har step ka tool, ek table mein
- 3 1-page Business Blueprint — 12 khaane
- 4 90-din plan, hafte ki dincharya aur weekly review

2 Simple Explanation

Ek chhota business ek **chakra** hai: aap kuch **offer** karte ho, logon tak **pahunchte** ho, koi **client** banta hai, aap kaam **deliver** karte ho, **paisa** aata hai, aur achha kaam **dobara** kaam laata hai. Is chakre ke neeche do neenv hain — **automation** (taaki thakaan kam ho) aur **safety** (taaki sab surakshit rahe).

SACHCHI BAAT — AAKHRI BAAR

Ye book aapko **hunar aur system** deti hai, kamaai ki guarantee nahi. Nateeja aapki mehnat, sheher, bazaar aur samay par depend karega. Lekin ek baat pakki hai: jo system ke saath roz thoda kaam karta hai, wo andaaze se kaam karne wale se aage nikalta hai.

3 Kahani: Ek Saal Baad

Fictional kahani — Rahul, Priya aur Imran bhai is book ke fictional examples hain.

RAHUL, PRIYA AUR IMRAN BHAI

Lagbhag ek saal pehle Rahul ek Instagram video dekh kar confuse tha — *"AI se ek mahine mein lakhon kamao!"* Tab Imran bhai ne kaha tha, "Pehle likh ki tere paas kya hai — time, skill, paisa." Aaj uske phone mein ek Google Sheet thi — 6 clients, 2 monthly packages, ek lead list, aur ek Client Care Calendar. Lakhon ka vaada nahi; ek chalta hua kaam.

Priya — jisne pehli baar behen ke phone par voice se poochha tha ki tiffin kaise shuru karein — ne apna phone dikhaya: eBook, Tiffin Menu Planner, aur ek order form jo roz subah Sheet bhar deta tha. "Tiffin bhi chal raha hai, kitaab bhi," usne kaha, "aur main ab bhi shaam 7 baje ke baad kaam nahi karti."

Imran bhai ne dono se ek aakhri kaam karwaaya: "Ek page par likho — tumhara poora business. Kisko, kya, kaise, kitne mein, kaun sa tool, aur agle 90 din mein kya." Rahul ka page Priya se bilkul alag tha. Ek service business, doosra product business. Ek logon se milne wala, doosra shaam ko chupchaap kaam karne wali.

Lekin jab Imran bhai ne dono page saath rakhe, to dhaancha ek hi tha: offer, pahunch, client, kaam, paisa, dobara — aur neeche automation aur safety.

"Raaste alag hain," Imran bhai bole, "system ek hai. Aur system ka sabse zaroori hissa na AI hai, na phone — roz thoda, imaandaari se. Wo tum dono ne seekh liya."

4 Important Concepts

1. Core Mobile Stack — ek table mein

STEP	TOOLS	CHAPTERS
Sochna, likhna	Chat AI (Prompt formula, Prompt Library), research AI	4–11, 13
Design	Canva (Branding Kit, templates, PDF, QR)	14–18, 33
Content	Chat AI, Canva, video editing app, Google Sheets (calendar)	19–23
Online presence	Website builder, Google Business Profile, WhatsApp Business	24–30, 37
Products	Google Docs, Canva, Sheets, selling platform	31–35
Clients	Google Maps, Sheets (Lead List), WhatsApp, Instagram, Gmail	36–41
Business	Sheets (pricing, payments, clients), Docs (proposal, invoice), UPI	42–46
Automation	Google Forms + Sheets, WhatsApp Business AI	47–48
Safety	2-Step Verification, password manager, 1930, cybercrime.gov.in	49
Sab kuch rakhna	Google Drive — "AI Business" folders	13

Tools ke naam, features aur free/paid niyam badalte rehte hain — book ke aakhir mein "Tool Update Page" aur har chapter ka "Last checked" dekhiye.

2. 1-page Business Blueprint — 12 khaane

1. Main kaun (ek line) "Main [kaun] ke liye [kya] karta/karti hoon."	2. Business model Mukhya + chhota prayog (Ch 42)	3. 2 income models Jude hue (Ch 43)
4. Ideal client Card ka saar (Ch 40)	5. Offer + daam 3 packages + monthly (Ch 44)	6. Pahunch 2–3 channels (Ch 36–38)
7. Outreach ki lay Har hafte kitne personal messages (Ch 41)	8. Delivery system Proposal → advance → 2 rounds → invoice → handover (Ch 45)	9. Repeat system Care calendar, maintenance, referral (Ch 46)
10. Automation Kaunsa form/Sheet/bot (Ch 47–48)	11. Safety Checklist + monthly check (Ch 49)	
12. Agle 90 din ke 3 lakshya Kaam ke lakshya — jaise "10 personal outreach/hafta" (neeche)		

3. Lakshya: kaam ke, nateeje ke nahi

"90 din mein ₹50,000" — ye aapke haath mein poora nahi. "Har hafte 10 personal messages, 2 demo, 1 portfolio post" — ye poora aapke haath mein hai. **Input lakshya** rakhiye; nateeje unka pichha karte hain. Kamaai ka hisaab rakhiye zaroor — lekin use lakshya ki jagah **seekh** ki tarah dekhiye.

NATEEJE KA LAKSHYA (HAATH MEIN NAHI)	KAAM KA LAKSHYA (HAATH MEIN)
"10 clients"	"Har hafte 10 personal outreach + 2 demo"
"1,000 followers"	"Hafte mein 3 kaam ki posts, 1 Reel"
"eBook ki 100 copies"	"Hafte mein 10 logon se baat, 2 value posts"

4. 90 din — 3 hisse

DIN 1–30 Neenv - Blueprint + portfolio (Project 6) - Offer sheet (Project 7) 20 leads, 3 demo - Safety check	DIN 31–60 Lay - Har hafte outreach ki tay ginti - Pehla/agla client — proposal se invoice tak - Order/enquiry form - Ek monthly offer	DIN 61–90 Sudhaar - Kya kaam kiya — data se - Offer/daam sudhaar - Chhota prayog (product/naya service) - Agle 90 din ka plan
--	---	---

5. Hafte ki dincharya — example

DIN	KAAM (1–3 GHANTE, AAPKE SAMAY KE HISAAB SE)
Somvaar	Research — 5 naye leads, 1 demo
Mangal	Outreach — personal messages, walk-in
Budh–Guru	Client ka kaam (delivery)
Shukra	Follow-ups · apna content/portfolio post
Shani	Seekhna (ek naya prompt/tool) · 20-min weekly review
Ravi	Aaraam — ye bhi plan ka hissa hai

6. 20-minute weekly review — 5 sawal

1 Is hafte ke kaam ke lakshya — kitne poore?	2 Kya kaam kiya? (Sheet ke data se)	3 Kahan atka? Kyun?	4 Agle hafte ek cheez badlunga/badlungi:	5 Kya main thak raha/rahi hoon? Kya chhod sakta/sakti hoon?
--	---	-------------------------------	--	---

5 Step-by-Step Mobile Process: Apna Blueprint Aur 90-Din Plan

1	Sab ikattha Drive se: Business Plan (Ch 42), Comparison Sheet (Ch 43), Pricing (Ch 44), portfolio (Ch 39), templates (Ch 45–46).
2	Blueprint draft Prompt 1 — AI khaane bharne mein madad kare; har khaana aapke apne faislon se.
3	1 page Canva/Docs mein 12 khaane — phone ki wallpaper ya pinned note bana sakte ho.
4	3 kaam ke lakshya Input lakshya, number ke saath, har hafte naapne layak.

5 90-din plan

Prompt 2 — 3 hisse, har hafte ke 3–5 kaam.

6 Tracker Sheet

Hafta · lakshya · kiya · seekh — Prompt 3 ka format.

7 Calendar

Har Shanivaar weekly review; Din 30, 60, 90 par bada review — reminders.

8 Shuru — aaj

Plan ka pehla kaam aaj hi, chahe 15 minute ka ho.

6 AI Tool Recommendation

Saara **Core Mobile Stack** (upar ki table). Is chapter ke liye khaas: **Aapka Chat AI** (blueprint, 90-din plan, weekly review, atakne par salah), **Google Sheets** (tracker), **Canva/Docs** (1-page blueprint), **phone calendar** (reviews). AI aapka **salaahkaar aur sahaayak** hai — plan aur faisle aapke.

7 Copy-Paste Prompts

PROMPT 1 — BUSINESS BLUEPRINT

Tum ek samajhdaar business mentor ho. Meri jaankari: [ek line, model, income models, ideal client, packages aur daam, channels, time/hafta, tools, jo kaam kar chuka hoon].

Ise 12 khaanon ke 1-page Business Blueprint mein likho: Main kaun, Model, 2 income models, Ideal client, Offer+daam, Pahunch, Outreach ki lay, Delivery system, Repeat system, Automation, Safety, Agle 90 din ke 3 lakshya. Lakshya sirf "kaam ke" (input) hon, kamaai ke nahi. Jo jaankari maine nahi di, wahan "[TAY KARNA HAI]" likho.

PROMPT 2 — 90-DIN PLAN

Mera Blueprint: [paste]. Main hafte mein [X] ghante de sakta/sakti hoon, [din] ko aaraam. 90-din ka plan banao — 3 hisse (Neenv, Lay, Sudhaar), har hafte ke 3–5 chhote, naapne layak kaam, aur har 30 din par ek review sawal-list. Realistic raho — overload nahi. Koi kamaai ka andaaza nahi.

PROMPT 3 — WEEKLY REVIEW

Is hafte ka mera data: lakshya [...], jo kiya [...], nateeje [...], kahan atka [...], mera mood/energy [...]. 5 sawalon ke hisaab se chhota review do: kya achha raha, kya nahi, ek cheez agle hafte badlo, aur ek cheez jo chhod sakta hoon. Tareef ya daant nahi — seedhi, dayalu baat.

PROMPT 4 — ATAK GAYA HOON

Main [X] hafton se [kya] kar raha/rahi hoon, par [kya nahi ho raha]. Maine try kiya: [...]. Mere Blueprint ka saar: [...]. 3 sambhavit kaaran do aur har ek ke liye is hafte ka ek chhota prayog. Mujhe naya course ya tool kharidne ki salah tabhi dena jab zaroori ho.

PROMPT 5 — AGLA HUNAR

Mera kaam: [...]. Clients baar-baar ye poochhte/maangte hain: [...]. Mujhe agle 90 din mein kaunsa ek naya hunar seekhna chahiye jo mere 2 income models ko mazboot kare? 3 vikalp, har ek ke liye free shuruaat kaise karein.

8 Prompt Ka Explanation

PROMPT KA HISSA	YE KYUN KAAM KARTA HAI
"Sirf kaam ke lakshya" (P1)	Jo aapke haath mein hai, wahi plan mein — nirasha kam, lay zyada.
"[TAY KARNA HAI]" (P1)	AI aapke faisle khud na bhar de.
"Overload nahi" (P2)	AI plans aksar itne bhare hote hain ki pehle hafte mein hi toot jaate hain.
"Mood/energy" (P3)	Thaka hua insaan system ko chhod deta hai — pehle se pakdiye.
"Course kharidne ki salah tabhi" (P4)	Atakne par naya course aksar hal nahi — chhota prayog hota hai.

DHYAN DEIN

90-din plan ek naksha hai, zanjeer nahi. Beech mein zindagi badle — pariksha, bimaari, tyohaar — to plan badliye, khud ko mat kosiye. Bas weekly review mat chhodiye.

9 Practical Example: Do Blueprints — Alag Raaste, Ek System

KHAANA	RAHUL	PRIYA
Main kaun	Local businesses ke liye website aur Google profile	Ghar se khaana-business shuru karne walon ke liye guides aur planners
Model	Service → monthly; chhota prayog: checklist product	Digital product; chhota prayog: mahine mein 1 setup call
Offer	Basic/Standard/Premium + "Website + Google Care"	eBook + Menu Planner; bundle
Pahunch	Walk-in, personal WhatsApp, Google profile	Instagram value posts, WhatsApp status, 10 logon se baat
Automation	Lead List Sheet, enquiry form, Business AI FAQ	Order form → Sheet, product platform ki delivery
Safety	Monthly check, client accounts client ke naam	Customer data kam, form privacy line
90-din lakshya	10 outreach/hafta · 2 demo/hafta · 1 case study/mahina	3 value posts/hafta · 10 baat-cheet/mahina · 1 naya mini product
Aaraam	Ravivaar	Roz shaam 7 ke baad

Fictional example.

10 Practice Task — Project 8

Task 1: Prompt 1 se apna 12-khaanon ka Business Blueprint; Canva/Docs mein 1 page.

Task 2: 3 kaam ke lakshya — number ke saath.

Task 3: Prompt 2 se 90-din plan; Prompt 3 ke format mein tracker Sheet.

Task 4: Calendar mein har Shanivaar review aur Din 30/60/90 reminders. Plan ka pehla kaam aaj. Blueprint "04 Portfolio / Project 8" aur "06 Business Docs" dono mein.

PROJECT 8 POORA TAB MAANIYE JAB

1-page Blueprint ke 12 khaane • 3 kaam ke lakshya • 90-din plan (3 hisse) • tracker Sheet • calendar mein reviews • aur plan ka pehla kaam ho chuka hai.

11 Common Mistakes

GALTI	SAHI TAREEKA
Plan itna bhara ki pehle hafte toote	Hafte ke 3-5 chhote kaam.
Sirf kamaai ka lakshya	Kaam ke (input) lakshya; kamaai seekh ke liye.
Har hafte naya plan	90 din, weekly review se chhote sudhaar.
Aaraam ka din nahi	Aaraam plan ka hissa.
AI ka plan bina soche	Har khaana apne faisle se; [TAY KARNA HAI].
Blueprint banakar bhoool jaana	Phone par pinned; har review mein dekhiye.

12 Quick Checklist

- ☐ Business ka chakra aur 2 neenv samjhe
- ☐ 1-page Blueprint — 12 khaane
- ☐ 3 kaam ke lakshya, number ke saath
- ☐ 90-din plan + tracker + weekly review
- ☐ Pehla kaam aaj shuru

13 Chapter Summary

KEY TAKEAWAYS

- Business ek chakra hai: Offer → Marketing → Client → Delivery → Payment → Repeat; neenv: Automation + Safety.
- 1-page Blueprint ke 12 khaane — poora business ek nazar mein.
- Lakshya kaam ke rakhiye; nateeje unka pichha karte hain.
- 90 din: Neenv → Lay → Sudhaar; har hafte 20-min review.
- Raaste alag ho sakte hain — system ek; aur sabse zaroori: roz thoda, imaandaari se.

PART X COMPLETE

Automation, Safety aur Aage Ka Raasta — aapne kya haasil kiya

Ch 50

Project 8: Blueprint + 90-
din plan

50 CHAPTERS · 10 PARTS · 8 PROJECTS

Aapne ye kitaab poori ki.

Aapne shuruat ki thi ek sawal se — "AI kya hai?" Aur ab aapke paas hai: prompt likhne ka hunar, poster aur content, website aur Google profile, apna digital product, marketing aur clients tak pahunchne ka imaandaar tareeka, saaf daam, delivery ka system, automation, safety — aur ek 1-page Blueprint jo in sab ko jodta hai.

P1 Poster

P2 Content Plan

P3 Website

P4 eBook/Product

P5 Campaign

P6 Portfolio

P7 Pricing

P8 Blueprint

Yaad rakhiye: **AI aapka auzaar hai, aapki jagah nahi.** Har jawab check kijiye. Har vaada sach rakhiye. Har client ki izzat kijiye. Aur roz thoda kijiye.

"Mobile tumhari dukaan hai, AI tumhara sahaayak — aur imaandaari tumhari sabse badi poonji."

— Imran bhai

Aage — 30-Day Action Plan aur Bonuses

Kitaab ke agle pages mein aapka **30-Day Action Plan** hai — har din ka lakshya, seekhne ki cheez, kaam, AI prompt aur checklist — aur saath mein Bonuses: 100+ prompts, 50 business ideas, outreach templates, worksheets, checklists, Tool Cheat Sheet, Glossary aur Sources. Kal nahi — **Din 1 aaj** se.

AAPKA TOOLKIT

30-Day Plan, Bonuses aur Reference

Padhne ke baad karne ka waqt. Yahan se aage har page kaam ke liye hai — plan, ready prompts, templates, worksheets, checklists, aur mushkil shabdon ka matlab.

ACTION PLAN

30-Day Action Plan

Har din: aaj ka lakshya, kya seekhna hai, kya karna hai, ek AI prompt, ek task aur checklist.

KAISE USE KAREIN

Roz lagbhag **45–90 minute**. Din chhoot jaaye to agle din wahi se shuru kijiye — ye race nahi hai. Time kam ho to har din ko 2 din mein baantiye; 30 din 60 din ban jaayein to bhi theek. Har din ke aakhir mein Bonus 13 ka tracker bhariye. Kisi bhi din ka nateeja kamaai ki guarantee nahi — ye **hunar aur aadat** ka plan hai.

HAFTA 1 Neenv: AI aur prompt ki aadat

Din 1–7

DIN

01

Apna Starting Point aur pehla AI app

Seekhna: Chapter 1–4

Karna:

- "Meri AI Business Journey" note banaiye — skills, time, budget, 30-din ka skill goal
- Ek Chat AI app official store se, publisher check karke install kijiye

AI Prompt

Main [kaam/padhai] karta/karti hoon, roz [X] minute de sakta/sakti hoon. Mere hunar: [...]. Mere liye 3 aise chhote kaam batao jo main AI ki madad se mobile par seekh sakoon. Kamaai ka koi vaada nahi.

Task: Starting Point note pin kijiye.

☐ Note bana ☐ App install + login ☐ Pehli chat ki

DIN

02

AI ka jawab check karne ki aadat

Seekhna: Chapter 5

Karna:

- 4-step AI Answer Check yaad kijiye: Source, Date, Cross-check, Common sense
- AI se ek fact poochh kar official source se milaiye

AI Prompt

[Sawal] ka jawab do, aur saaf batao ki kaunsi baat pakki hai, kaunsi andaaza, aur kahan check karun.

Task: Ek galat ya purani AI jaankari pakdiye aur note mein likhiye.

☐ 4 steps yaad ☐ Ek jawab verify kiya

DIN

03

Prompt formula

Seekhna: Chapter 6–7

Karna:

- Ek simple aur ek detailed prompt ka farq dekhiye
- R-C-T-G-A-F-C formula se ek prompt likhiye

AI Prompt

Tum [role] ho. Context: [...]. Task: [...]. Goal: [...]. Audience: [...]. Format: [...]. Constraints: [...].

Task: Formula template note mein save kijiye.

☐ Simple vs detailed test ☐ Formula template save

DIN

04

Prompt Library

Seekhna: Chapter 8–11

Karna:

- Examples, tone aur format dena seekhiye
- Follow-up aur correction prompts try kijiye
- Google Docs mein Prompt Library banaiye — 15 prompts

AI Prompt

Ye mera prompt hai: [...]. Ise behtar banao — kya missing hai, aur 2 behtar versions do.

Task: Library mein 5 categories: Design, Content, Business, Client, Check.

☐ 15 prompts save ☐ Categories banayi

DIN

05

Mobile toolkit aur Drive system

Seekhna: Chapter 12–13

Karna:

- Core Mobile Stack ke 5 apps set kijiye
- Drive mein "AI Business" folder aur 6 sub-folders

AI Prompt

Mere kaam ke liye [task] ke 3 free-first tools batao — har ek ki seema aur official website. Price mat batana, main khud check karunga.

Task: Google account mein 2-Step Verification on kijiye.

☐ 5 apps ready ☐ Drive folders ☐ 2-Step on

DIN

06

Design ki basic samajh + pehla Canva design

Seekhna: Chapter 14–15

Karna:

- 3-Second Rule, hierarchy, 2 fonts, 2–3 rang
- Canva template se ek post banaiye — content poora apna

AI Prompt

[Business] ke [offer] ke liye poster ka text do: headline max 5 shabd, ek sub-line, ek CTA. Koi price ya offer apne se mat jodna.

Task: Design ko Drive → 01 Designs mein saaf naam se save.

☐ 1 design bana ☐ 3-Second test pass

DIN

07

Hafte ka review

Seekhna: Pichhle 6 din

Karna:

- 20 minute: kya seekha, kahan atka, kya chhod sakte hain
- Aaraam — ye bhi plan ka hissa hai

AI Prompt

Is hafte maine ye kiya: [...]. Kahan atka: [...]. Agle hafte ke liye ek chhota sudhaar sujhaao.

Task: Journey note update kijiye.

☐ Review hua ☐ Aaraam kiya

HAFTA 2 Design aur content

Din 8–14

DIN

08

AI visual + Project 1 poster

Seekhna: Chapter 16–17

Karna:

- Brief ke 8 sawal, AI visual concept, Canva editing
- Poster 3 size: post, story, print

AI Prompt

Ek [business] ke [offer] poster ke liye 3 visual concepts do aur har ek ka image prompt — koi logo, asli insaan ya brand nahi.

Task: Project 1 poster portfolio folder mein.

☐ Brief likha ☐ 3 size ready ☐ 10-point review

DIN

09

Branding Kit

Seekhna: Chapter 18

Karna:

- Naam, rang, fonts, tone — ek page
- Kit se 5 creatives

AI Prompt

[Business] ke liye brand tone ke 3 examples do — ek offer, ek tip, ek thank-you message, [tone] mein.

Task: Branding Kit page save.

☐ Kit page bana ☐ 5 creatives

DIN

10

Content pillars + 20 ideas

Seekhna: Chapter 19

Karna:

- 3–4 pillars chuniye; 80/20 value vs offer
- 20 content ideas Sheet mein

AI Prompt

[Business] ke customers ke liye 4 content pillars aur har pillar ke 5 ideas do. Health/paise ke dawe mat karna.

Task: Ideas Sheet → 02 Content.

☐ Pillars tay ☐ 20 ideas

DIN

11

Hooks, captions, CTA

Seekhna: Chapter 20

Karna:

- Hook → Value → CTA
- 5 captions likhiye, "kya main aisa bolta?" test

AI Prompt

Is post ke liye 5 hooks aur ek caption do (Hook → Value → CTA): [topic]. Max 4 line, hashtags 3–5.

Task: 5 captions save.

☐ Formula samjha ☐ 5 captions

DIN

12

Pehli Reel

Seekhna: Chapter 21

Karna:

- 30-second script, roshni, sthir haath, captions
- Edit karke draft save

AI Prompt

[Topic] par 30-second Reel script do: 3-second hook, 3 shots, screen text, CTA.

Task: Reel → 02 Content.

☐ Script ☐ Shoot ☐ Edit

DIN

13

30-din content calendar

Seekhna: Chapter 22

Karna:

- 8 columns wali Sheet
- Pehle hafte ki batching

AI Prompt

[Business] ke liye [mahina] ka 30-din calendar: Date, Pillar, Format, Topic, Hook, CTA. Hafte mein [X] posts. Tyohaar ki dates main khud check karunga.

Task: Pehle hafte ke 3-4 posts ready.

☐ Calendar Sheet ☐ Batching

DIN

14

Ek baat, 4 platform + hafte ka review

Seekhna: Chapter 23

Karna:

- Ek message ko WhatsApp, email, blog, product description mein badaliye
- Weekly review

AI Prompt

Ye core message hai: [...]. Iske WhatsApp (STOP line ke saath), email, blog aur product description versions do.

Task: Review + journey note.

☐ 4 versions ☐ Review hua

HAFTA 3 Website, Google aur product

Din 15-21

DIN

15

Website ki samajh + plan

Seekhna: Chapter 24-25

Karna:

- Domain, hosting, landing page
- Sections plan + mobile wireframe + content Doc

AI Prompt

[Business] ki 1-page website ke sections, har section ka text aur main button do. Jo jaankari nahi, wahan [OWNER SE CONFIRM] likho.

Task: Content Doc taiyaar.

☐ Plan ☐ Wireframe ☐ Content Doc

DIN

16

Draft website

Seekhna: Chapter 26–27

Karna:

- No-code builder mein draft (optional: AI coding)
- Mobile preview

AI Prompt

Meri website ka mobile screenshot dekh kar 5 sudhaar batao – customer ki nazar se.

Task: Draft save — abhi publish nahi.

☐ Draft bana ☐ Mobile preview

DIN

17

Buttons, SEO, publish

Seekhna: Chapter 28

Karna:

- WhatsApp/Call/Map buttons test
- Title, description, alt text; 20-point checklist

AI Prompt

Homepage ke liye 3 SEO titles (60 characters) aur 3 descriptions (155 characters) do. Keyword stuffing nahi.

Task: Checklist पूरी; manzoori ke baad publish.

☐ Buttons test ☐ SEO ☐ 20-point

DIN

18

Google Business Profile

Seekhna: Chapter 29

Karna:

- Profile ka Health Check: naam, category, timing, photos
- 3 reviews ke jawab draft

AI Prompt

Ye 3 reviews hain: [...]. Har ek ka chhota, alag, insaani jawab do – customer ki khaas baat ke saath.

Task: Profile ki 3 sudhaar-list.

☐ Health check ☐ 3 reply drafts

DIN

19

Project 3 handover kit

Seekhna: Chapter 30

Karna:

- Accounts owner ke naam, Website Guide
- Case study draft

AI Prompt

Mere client ke liye 1-page Website Guide likho: timing badalna, photo badalna, offer update – simple Roman Hindi, [SCREENSHOT] jagah ke saath.

Task: Case study → 04 Portfolio.

☐ Guide ☐ Case study

DIN

20

Digital product idea

Seekhna: Chapter 31–33

Karna:

- Problem → Solution line, Reader Card
- 5 logon se baat (aaj 2, baaki hafte mein)

AI Prompt

Mere anubhav [...] se 5 eBook/product ideas do – har ek ek line mein: kiske liye, kya problem, kya nateeja.

Task: Idea Score nikaaliye.

☐ Idea line ☐ Reader Card ☐ 2 baat-cheet

DIN

21

Mini product + hafte ka review

Seekhna: Chapter 34–35

Karna:

- Checklist ya Planner ka pehla draft
- Weekly review

AI Prompt

[Target customer] ke liye ek 15-point checklist banao jo [kaam] aasaan kare – mere ye apne points shaamil karo: [...].

Task: 3-Log Test ki list banaiye.

☐ Draft product ☐ Review

DIN

22

One-Page Marketing Plan

Seekhna: Chapter 36

Karna:

- Reviews + 5 logon se problems
- Offer (bina discount bhi), positioning line

AI Prompt

Ye reviews aur notes hain (naam hata kar): [...]. Top 3 problems ginti ke saath, aur 5 offer ideas – kam se kam 3 bina discount ke.

Task: Plan owner ko dikhaiye.

☐ Problems ☐ Offer ☐ Plan

DIN

23

WhatsApp Business setup

Seekhna: Chapter 37

Karna:

- Profile, catalog, labels, quick replies, greeting/away
- Broadcast ke niyam

AI Prompt

[Business] ke liye 8 quick replies (/rate, /slot, /map...) – har ek chhota, agla kadam saaf.

Task: Labels aur quick replies on.

☐ Profile ☐ Labels ☐ Quick replies

DIN

24

Portfolio

Seekhna: Chapter 39

Karna:

- 3–5 projects, sahi label (Client/Demo/Practice)
- 7-page PDF + ek link

AI Prompt

Project: [...]. 7 hisson mein case study likho – koi number ya testimonial nahi jo maine nahi diya.

Task: Portfolio PDF phone par test.

☐ Labels ☐ 1 case study ☐ PDF + link

DIN

25

20 leads + 3 demo

Seekhna: Chapter 40

Karna:

- Google Maps se sirf public business jaankari
- Gap score; top 3 ke demo

AI Prompt

Is business ke screenshots se 8 gaps check karo: [...]. Har ek: theek / kami / pata nahi.

Task: Lead List Sheet mein 20 rows.

☐ 20 leads ☐ 3 demo

DIN

26

Personal outreach

Seekhna: Chapter 41

Karna:

- 5-part message formula
- 5 personal messages (ya draft); follow-up tarikh

AI Prompt

Business: [...]. Asli tareef: [...]. Ek kami: [...]. Demo: [...]. 70 shabd ka personal message – aasaan exit ke saath.

Task: Follow-up Din 3 aur 7 calendar mein.

☐ 5 messages ☐ Follow-up plan

DIN

27

Packages aur pricing

Seekhna: Chapter 42–44

Karna:

- Business model + 2 income models
- Pricing Sheet: $\text{ghante} \times \text{daam} + \text{kharcha} + \text{buffer}$; 3 packages

AI Prompt

Mere kaam ke tukde: [...]. 3 packages banao – kya shaamil, kya nahi, revisions, samay. Daam mat likhna.

Task: 1-page Offer Sheet.

☐ Model chuna ☐ Pricing Sheet ☐ Offer Sheet

DIN

28

Proposal, invoice, repeat system

Seekhna: Chapter 45–46

Karna:

- 1-page proposal + invoice template
- Client Care Calendar

AI Prompt

Is jaankari se 1-page proposal likho – 8 hisse, advance [%], 2 revision rounds: [...].

Task: Templates → 06 Business Docs.

☐ Proposal ☐ Invoice ☐ Care Calendar

DIN

29

Automation + safety

Seekhna: Chapter 47–49

Karna:

- Order/enquiry Form → Sheet → WhatsApp link
- 30-minute Safety Check

AI Prompt

Mere business ke liye 6–8 sawal ka Google Form do – privacy line ke saath, koi zaroorat se zyada personal data nahi.

Task: Form link bio/greeting mein; 1930 phone mein save.

☐ Form + Sheet ☐ Safety Check

DIN

30

Business Blueprint + 90-din plan

Seekhna: Chapter 50

Karna:

- 12 khaanon ka Blueprint
- 3 kaam ke lakshya; 90-din plan; weekly review calendar mein

AI Prompt

Meri jaankari: [...]. 1-page Business Blueprint aur 90-din plan do – sirf kaam ke lakshya, koi kamaai ka andaaza nahi.

Task: Plan ka pehla kaam aaj hi.

☐ Blueprint ☐ 3 lakshya ☐ 90-din plan

BONUS 1

110 Copy-Paste AI Prompts

11 categories, har ek mein 10 prompts. [Brackets] mein apni jaankari bhariye. Poore, detailed prompts har chapter ke section 7 mein hain.

HAR PROMPT KE BAAD

AI ka jawab **draft** hai. Naam, number, daam, tarikh aur niyam khud check kijiye (Chapter 5). Customers ki personal jaankari prompt mein mat daaliye (Chapter 49).

Shuruaat aur Research

Ch 1-5, 9, 13

- 1 Main [shehar] mein [kaam] seekh raha/rahi hoon. Mere liye 30 din ka chhota learning plan do — roz 45 minute, mobile par.
- 2 [Topic] ko 5 simple bullet points mein samjhao, jaise kisi 12 saal ke bachche ko — koi mushkil shabd nahi.
- 3 [Sawal] ka jawab do; phir saaf batao kaunsi baat pakki hai, kaunsi andaaza, aur kahan official source par check karun.
- 4 Is jawab mein kaunsi baatein purani ho sakti hain? Har ek ke saamne 'Last checked' ki zaroorat likho: [jawab paste].
- 5 [Tool] ke free aur paid plan ka farq batao — price mat likhna; sirf ye batao ki official page par kya check karun.
- 6 Mere 3 hunar hain: [...]. Inse local businesses ki kaunsi 5 problems hal ho sakti hain?
- 7 Is lambi baat ka 5-line saar do, aur 3 kaam ki baatein alag se: [text paste].
- 8 Main [kaam] mein naya/nayi hoon. Is kaam ki 10 aam galtiyen aur har ek se bachne ka tareeka batao.
- 9 [Do tools/tareeke] ki tulna table mein karo: kiske liye achha, seema, seekhne mein kitna aasaan. Koi 'best' faisla mat do.
- 10 Mujhe [topic] par research karni hai. 8 sawal banao jo mujhe poochhne chahiye, aur har ek ke liye official source ka type.

Prompt Sudhaar

Ch 6-11

- 11 Ye mera prompt hai: [...]. Isme kya missing hai? R-C-T-G-A-F-C formula se behtar version do.
- 12 Pehle mujhse 5 sawal poochho, phir [task] ka jawab do — sawalon ke jawab aane tak kuch mat likhna.
- 13 Isi jawab ko aur chhota karo — max [X] shabd — lekin koi zaroori baat mat hatana.
- 14 Ye jawab bahut formal hai. Ise simple Hinglish, dost jaisi tone mein badlo.
- 15 Is example ke andaaz mein 3 aur versions do: [example paste].
- 16 Jawab ko table mein do: columns [...].

- 17 Is jawab mein jo galti hai use theek karo: [galti]. Baaki sab waisa hi rakho.
- 18 Is prompt ko ek reusable template banao, jisme badalne wali cheezein [brackets] mein hon: [prompt].
- 19 Mere Prompt Library ke liye is chat ke 3 sabse kaam ke prompts nikaalo, har ek ke saath 1 line mein kab use karein.
- 20 Tum ek sakht editor ho. Is text mein 5 kamzoriyan batao — tareef nahi: [text].

Design aur Poster

Ch 14–18

- 21 [Business] ke [offer] poster ka text: headline max 5 shabd, sub-line, CTA. Koi price/offer apne se nahi.
- 22 Is poster ka design review karo (screenshot): 3-Second Rule, hierarchy, rang, fonts — 3 sudhaar.
- 23 [Business type] ke liye 3 rang combinations (hex code ke saath) aur har ek ka mood batao.
- 24 [Business] ke liye 2 fonts ki jodi sujhaao — ek heading, ek body — Canva mein milne wale.
- 25 Poster ke liye AI image prompt do: [scene], saaf background, text ke liye upar khaali jagah, koi logo/insaan/brand nahi.
- 26 Ek poster ke 3 size (post, story, print A4) ke liye layout badlaav batao.
- 27 [Tyohaar] ke liye [business] ke 5 poster ideas — har ek ki headline aur visual idea.
- 28 Mera brief ye hai: [..]. Isme kya missing hai? Client se poochhne ke liye 5 sawal do.
- 29 [Business] ki Branding Kit ka 1-page draft: naam, tagline options, rang, fonts, tone examples.
- 30 Is menu/rate card ka text saaf karo — chhote naam, ek jaisa format: [list].

Content aur Caption

Ch 19–23

- 31 [Business] ke 4 content pillars aur har pillar ke 5 ideas do. 80% value, 20% offer.
- 32 [Topic] par 7 hooks do — sawal, number, galti, pehle/baad, kahani wale.
- 33 Is post ka caption: Hook → Value → CTA, max 4 line, 3–5 hashtags: [topic].
- 34 Is caption ko aur insaani banao — jaise owner khud bol raha ho: [caption].
- 35 [Business] ka 30-din content calendar: Date, Pillar, Format, Topic, Hook, CTA. Hafte mein [X] posts.
- 36 Is ek baat ke 4 roop do — WhatsApp (STOP line ke saath), email, blog intro, product description: [message].
- 37 [Product] ka description: 3 fayde, 3 details, ek CTA — sirf di hui jaankari se: [details].
- 38 Pichhle hafte ki posts ka data ye hai: [..]. Kya chala, kya nahi, agle hafte 3 sujhaav.
- 39 [Business] ke customers ke 10 aam sawal, aur har ek se ek post idea.
- 40 Is blog ko 5 slide ke carousel mein todo — har slide ek line: [blog].

Reels aur Video

Ch 21

- 41 [Topic] par 30-second Reel script: 3-second hook, 3 shots, screen text, CTA.

42	Bina chehra dikhaye [business] ki 5 Reel ideas — sirf haath, product, process.
43	Is Reel ke liye 3 cover text options (max 4 shabd): [topic].
44	Is script ko 15 second mein chhota karo, hook waisa hi rakho: [script].
45	[Business] ke 'pehle aur baad' Reel ka shot list — kya, kahan se, kitne second.
46	Mobile se shoot ke liye 8-point checklist: roshni, awaaz, sthir haath, frame.
47	Is Reel ke captions (screen text) ko chhote tukdon mein todo, har tukda max 6 shabd: [script].
48	YouTube Short ke liye title aur description: [topic] — clickbait nahi.
49	Customer ki ek asli kahani (permission ke saath) ko 30-second script mein badlo: [kahani].
50	Is hafte ki 3 Reels ke liye ek shoot plan — ek hi din mein shoot karne layak.

Website		Ch 24-30
51	[Business] ki 1-page website ke sections aur har section ka text — jo nahi pata wahan [OWNER SE CONFIRM].	
52	Homepage ke liye 3 headlines (3-6 shabd) aur 3 sub-lines — customer ko kya milega.	
53	3 SEO titles (60 characters tak) aur 3 meta descriptions (155 characters tak) do — naam aur jagah ke saath.	
54	In photos ka alt text likho, max 12 shabd: [photo descriptions].	
55	Mera WhatsApp number [...] hai. Click-to-chat link aur pehle-se-likhe message wala version do.	
56	Meri website ke mobile screenshots dekh kar customer ki nazar se problems batao — sirf problems.	
57	Is website ke FAQ section ke liye 6 sawal-jawab — sirf di hui jaankari se: [jaankari].	
58	Client ke liye 1-page Website Guide: timing, photo, offer badalna — [SCREENSHOT] jagah ke saath.	
59	Website Brief ke 10 sawal ek WhatsApp message mein — client ke liye aasaan bhasha.	
60	Is page ka text chhota aur mobile-friendly banao — har paragraph max 3 line: [text].	

Google Profile aur Local		Ch 29, 40
61	[Business] ke Google profile ke liye description — max 700 characters, koi phone/link/'No.1' nahi.	
62	In 5 reviews ke alag-alag, chhote jawab — customer ki khaas baat ka zikr: [reviews].	
63	Is negative review ka shaant jawab — sach: [kya hua] — maafi jahan banti ho, aage ka raasta.	
64	[Business] ke liye is hafte ka Google post — Update/Offer/Event — asli tarikh ke saath: [jaankari].	
65	Is Google profile ke screenshots se 8-point Health Check — theek / kami / pata nahi.	
66	Owner ke liye 1-page 'Online Health Check': pehle 2 achhi baatein, phir 3 sudhaar aur unka fayda.	
67	Google profile ke liye 10 photo ideas — bahar, andar, kaam, team (permission ke saath).	
68	Customers se review maangne ka izzat bhara WhatsApp message — koi inaam nahi, sabse poochhna.	

69 [Area] mein [business type] ke customers kya search karte honge? 10 aam search phrases.

70 Service-area business ke liye profile setup ke 6 steps — ghar ka address chhupa kar.

WhatsApp aur Customer

Ch 37, 47–48

71 [Business] ke WhatsApp Business profile ka description — 3 options, simple Hinglish.

72 8 quick replies: shortcut + poora message — rate, slot, location, payment, thanks...

73 Greeting message: swagat, AI assistant ka saaf zikr, owner se baat kaise karein, 3 shortcuts.

74 Away message: band samay, kab jawab milega, zaroori ho to kya karein.

75 Broadcast message: pehle value, phir offer, aakhir mein 'STOP likhiye' line: [jaankari].

76 Business AI ke liye FAQ document — sawal-jawab, aur 'owner ko bhejo' wali list: [jaankari].

77 Mere bot ko test karne ke liye 15 mushkil sawal — aur har ek ka sahi jawab kya hona chahiye.

78 Order/enquiry Google Form ke 6–8 sawal — privacy line aur dhanyavaad message ke saath.

79 Aaj ke orders ka saar (naam/phone hata kar): kul, area-wise ginti, khaas maang: [data].

80 Naraaz customer ke message ka shaant jawab — bahas nahi, hal ka raasta: [message].

eBook aur Digital Products

Ch 31–35

81 Mere anubhav [...] se 5 eBook ideas — har ek: kiske liye, kya problem, kya nateeja.

82 Mere idea ka Target Reader Card — jahan andaaza ho wahan '(confirm karna hai)' likho.

83 10 logon se baat ke liye 6 sawal — unke pichhle anubhav ke baare mein, 'kharidoge?' nahi.

84 In interview notes ka pattern (naam hata kar): top problems ginti ke saath: [notes].

85 8–12 chapter ka outline: Shuru → Beech → Nateeja, har chapter ek kaam/nateeja.

86 Is chapter ke draft mein 'khaali' generic lines dikhao aur har ek ke liye mujhse ek sawal poochho: [draft].

87 Is chapter ki fact list: line | fact ka type | kahan check karna hai. Khud sahi mat batana.

88 eBook ke 10 title aur subtitle options — reader ke shabdon mein, 'guaranteed/secret' nahi.

89 Product page ke 8 hisse — koi review, testimonial, kamaai ka vaada ya jhoothi jaldi nahi.

90 Launch ka personal WhatsApp message — unka pichhla sawal yaad dilaate hue, dabav nahi.

Clients aur Outreach

Ch 36, 38–41

91 Mere Ideal Client Card ka draft: business type, jagah, size, dikhne wali kami, mera saboot.

92 Ye reviews/notes hain: [...]. Top 3 problems aur 5 offer ideas — 3 bina discount ke.

93 Positioning line ke 5 options: 'Hum [kaun] ke liye [kya], aur [farq]' — 'best/No.1' nahi.

94	14-din campaign brief: goal (owner ka), audience, offer, main message, channels, tracking.
95	Ek hi message ke 8 roop: poster text, caption, Reel script, broadcast, personal message, Google post, website banner, follow-up.
96	Personal outreach message — 5-part formula, max 70 shabd: [research note].
97	Walk-in ke liye 60-second script — dabav bilkul nahi.
98	Din 3 aur Din 7 ke follow-up — chhote, bina guilt ke: [pehla message].
99	Client ke jawab '[jawab]' ke 2 izzat bhare jawab — agar 'nahi' hai to sirf dhanyavaad.
100	Discovery call notes se client ke liye summary aur mere liye Website Brief: [notes].

Business, Pricing aur Delivery

Ch 42–46, 50

101	Mujhse ek-ek karke 8 sawal poochh kar mere liye 2 business models sujhaao — kamaai ka andaaza nahi.
102	Google Sheets Pricing Sheet ke formulas: $\text{ghante} \times \text{daam (B1)} + \text{kharcha} + \text{buffer (B2)}$.
103	3 packages (Basic/Standard/Premium): shaamil, shaamil nahi, revisions, samay — daam mat likhna.
104	Mol-bhaav par 2 jawab — daam ki jagah scope kam karne ka vikalp: [client ki baat].
105	1-page proposal — 8 hisse, advance [%], 2 revision rounds: [jaankari].
106	Invoice ka text aur baaki payment ke 3 vinamra reminders — koi dhamki nahi.
107	'Ye naya kaam hai — alag quote' wala izzat bhara jawab: [request].
108	Client Care messages: Din 7, Din 30, tyohaar se 3 hafte pehle — har ek mein kaam ki baat.
109	Monthly report (1 page) — sirf di hui jaankari: kya kiya, kya dekha, agle mahine 3 sujhaav.
110	Mera 12-khaanon ka Business Blueprint aur 90-din plan — sirf kaam ke lakshya: [jaankari].

BONUS 2

50 AI Business Ideas

Har idea: kya hai, kiske liye, aur kaunse tools/chapters. Koi kamaai ka vaada nahi — sirf shuruaat ke raaste.

#	IDEA	KISKE LIYE	TOOLS (CHAPTER)

32	Proposal + invoice template pack	Freelancers	Docs, Canva (Ch 45)
33	Pricing sheet setup	Freelancers, chhote service business	Sheets (Ch 44)
34	Client onboarding kit	Service business	Docs, Forms (Ch 41, 45)
35	Website maintenance (monthly)	Pichhle website clients	Builder, Sheets (Ch 30, 46)
36	Domain/Google/WhatsApp consistency audit	Jinki jaankari har jagah alag	Maps, website, WhatsApp (Ch 29, 40)
37	Wedding/event invitation design	Parivaar, event planners	Canva (Ch 15)

38	School/coaching poster aur admission post	Coaching centres	Canva, Chat AI (Ch 17, 20)
39	Resume aur LinkedIn text help	Students, job seekers	Chat AI, Docs (Ch 8, 10)
40	Presentation (slides) design	Students, small offices	Canva (Ch 15)
41	Restaurant 'Aaj ka special' daily post	Dhaba, tiffin, cafe	Canva templates (Ch 18, 22)
42	Gym/fitness challenge content	Local gyms	Canva, Reels (Ch 19–21)
43	Real estate property post template	Local agents	Canva (Ch 15, 18)
44	Car wash/repair before-after posts	Auto services	Phone camera, Canva (Ch 21)
45	Salon service menu + offer posts	Salons, parlours	Canva, WhatsApp (Ch 17, 37)
46	Home bakery order system	Home bakers	Forms, Sheets, WhatsApp (Ch 47)
47	Tuition teacher digital notice + form	Tutors	Canva, Forms (Ch 15, 47)
48	Translation/Hinglish rewriting (fact-checked)	Local brands	Chat AI (Ch 8, 32)
49	AI safety workshop for shopkeepers	Market associations	Chapter 49 content, Canva
50	Mobile AI basics training (1-on-1)	Parents, shopkeepers	Chat AI, Book ke Part I–II

Idea chunne ke liye Chapter 42 ke 6 sawal aur Chapter 43 ki Comparison Sheet use kijiye. Har idea ke liye pehle 3–5 logon se baat (Chapter 31, 36).

BONUS 3-5

Outreach Templates

WhatsApp, Instagram DM aur Email — izzat ke saath, personal banane ke liye [brackets] ke saath.

NIYAM (CHAPTER 41)

Har message mein **unki** baat — asli research se. Sirf public business contact par, 1-to-1. Groups/broadcast mein anjaan log nahi. "Nahi" ke baad koi message nahi.

Bonus 3 — WhatsApp Templates

Pehla message (demo ke saath)

Namaste [naam] ji, main [aapka naam] — isi sheher mein local businesses ki [website/Google profile/posters] banata/banati hoon. Google par aapke [X] reviews dekhe — log aapki [khaas baat] ki tareef karte hain. Ek cheez dikhi: [ek kami]. Maine aapke liye ek chhota sample banaya hai (neeche). Pasand aaye to 10 minute baat kar sakte hain; zaroorat na ho to bhi bilkul theek hai.

Din 3 follow-up

Namaste [naam] ji, aapne sample dekha? Koi sawal ho to bataiye — main madad kar dunga/dungi.

Din 7 aakhri follow-up

Namaste [naam] ji, abhi zaroorat nahi to koi baat nahi. Kabhi [kaam] ki zaroorat ho to yaad kijiye. Aapke business ke liye shubhkaamnayein!

Referral maangna (khush client se)

[Naam] ji, aapke saath kaam karke achha laga. Aapke jaan-pehchaan mein kisi business ko [kaam] ki zaroorat ho to kya mera naam de sakte hain? Unke liye ye message forward kar sakte hain: '[3-line forward message]'. Dhanyavaad!

Bonus 4 — Instagram DM Templates

Pehla DM (unke content ke baad)

Namaste! Aapki [post ka topic] wali post bahut kaam ki lagi. Main [aapka kaam] karta/karti hoon. Aapke profile ke liye ek chhota idea tha — [idea, 1 line]. Dekhna chahenge to sample bhej doon?

Collaboration/sample poochhna

Hi [naam]! Main [aapka kaam] karta/karti hoon aur aapke [product/service] ke liye 3 post ideas banaye hain. Aapki permission ho to yahin share karoon? Na ho to bhi koi baat nahi 😊

Jawab ke baad agla kadam

Shukriya jawab ke liye! Aapki zaroorat samajhne ke liye 3 chhote sawal: (1) sabse zaroori kaam kya hai (2) kab tak chahiye (3) aapke customers kaun hain? Phir main 2-3 options bhej dunga/dungi.

Bonus 5 — Email Templates

Pehla email

Subject: [Business] ke Google profile ke liye ek chhota sample

Namaste [naam] ji,

Main [aapka naam], [sheher] mein local businesses ke liye [kaam] karta/karti hoon. Aapke [X] Google reviews mein log [khaas baat] ki tareef karte hain. Ek cheez dikhi jo customers ke liye aasaan ho sakti hai: [ek kami].

Maine ek 1-page sample banaya hai (attach). Pasand aaye to 10 minute ki call kar sakte hain.

Dhanyavaad,

[Naam] · [WhatsApp] · [portfolio link]

Proposal bhejna

Subject: [Business] — [kaam] ka proposal

Namaste [naam] ji,

Hamari baat ke hisaab se proposal attach hai: scope, samay ([X] din), 2 revision rounds, aur payment ([advance]% advance). Theek lage to is email par 'Haan' likh dijiye aur advance bhej dijiye — main [tarikh] se kaam shuru kar dunga/dungi.

Koi sawal ho to zaroor poochhiye.

[Naam]

Kaam poora — handover

Subject: [Business] — kaam poora + aapki Website Guide

Namaste [naam] ji,

[Kaam] live hai: [link]. Saath mein 1-page Website Guide attach hai. Saare accounts aapke naam aur email par hain. Agle 7 din mein koi chhoti problem ho to main free theek kar dunga/dungi.

Aapke saath kaam karke achha laga!

[Naam]

BONUS 6-7

Worksheets

Pricing Worksheet (Chapter 44) aur Business Planning Worksheet (Chapter 42, 50) — print ya Google Sheets mein copy kijiye.

Bonus 6 — Pricing Worksheet

Mera ghante ka daam ₹ _____

Buffer _____ % (jaise 20%)

KAAM KA TUKDA	BASIC (GHANTE)	STANDARD (GHANTE)	PREMIUM (GHANTE)
Client se baat / brief

Service (project)							
Local services (monthly)							

Freelancing
Digital product
Small agency

BONUS 8-11

Checklists

Website, eBook, Marketing Campaign aur Portfolio — plus Business Safety Checklist. Har project mein tick kijiye.

Bonus 8: Website Checklist (Chapter 28)

- | | |
|---|---|
| ☐ WhatsApp button sahi number par, test message pahuncha | ☐ Call button phone ka dialer kholta hai |
| ☐ Map sahi business par khulta hai | ☐ Timing, address sahi — Google profile se match |
| ☐ Koi placeholder ([..], Lorem) nahi | ☐ Spelling check |
| ☐ Rates owner ke confirm kiye | ☐ Koi naqli review ya jhootha dawa nahi |
| ☐ Sirf asli photos (ya licence wali) | ☐ Mobile par text padha jaata hai |
| ☐ Buttons bade aur dabane layak | ☐ Photos kat nahi rahi |
| ☐ Mobile data par jaldi khulti hai | ☐ 3-Second Rule pass |
| ☐ Page title + meta description | ☐ Photos ka alt text |
| ☐ https (taala) dikhta hai | ☐ Form (agar hai) test kiya, privacy line hai |
| ☐ Client ki likhit manzoori | ☐ Publish ke baad 2 phones par dobara test |

Bonus 9: eBook Checklist (Chapter 31–35)

- | | |
|---|---|
| ☐ Idea ek Problem → Solution line mein | ☐ Target Reader Card |
| ☐ Kam se kam 5–10 logon se baat | ☐ 8–12 chapter outline |
| ☐ Har chapter ka 5-line brief | ☐ Draft ka 40%+ apne shabdon/anubhav se |
| ☐ 3-pass editing | ☐ Har fact official source se, 'Last checked' ke saath |
| ☐ Originality check (anokhi lines search) | ☐ Koi [...] tag baaki nahi |
| ☐ Style Page ke hisaab se ek jaisa layout | ☐ Cover: Thumbnail Test pass |
| ☐ Title, copyright/disclaimer, contents, author page | ☐ PDF phone par test |
| ☐ Test purchase kiya | ☐ Product page mein koi naqli review/vaada nahi |
| ☐ KDP par ho to AI disclosure imaandaari se | |

Bonus 10: Marketing Campaign Checklist (Chapter 36–38)

- | | |
|---|--|
| ☐ Reviews + 5 logon se problem nikali | ☐ Target audience ek group |
| ☐ Offer problem hal karta hai (sirf discount nahi) | ☐ Positioning line — 'best/No.1' nahi |
| ☐ Campaign Brief — owner ki manzoori | ☐ Ek main message |
| ☐ Poster 3 size + QR test | ☐ Caption/Reel ready |
| ☐ WhatsApp broadcast — sirf permission wale, STOP line | ☐ Google 'Offer' post, sahi tarikh |
| ☐ Website/Google/WhatsApp par timing-daam ek jaisa | ☐ 'Kahan se pata chala?' tracking + Sheet |
| ☐ Koi jhootha 'sirf aaj' nahi | ☐ Follow-up + review request (bina inaam) |
| ☐ Imaandaar campaign report | |

Bonus 11: Portfolio Checklist (Chapter 39)

- | | |
|---|--|
| ☐ 3–5 best projects | ☐ Har project par label: Client / Family-Friend / Demo / Practice |
| ☐ Kam se kam 1 poori case study (7 hisse) | ☐ Pehle/baad screenshots ek jaise size mein |
| ☐ Asli business ke liye permission | ☐ Customer ke naam/number/chats blur |
| ☐ Koi bade brand ka logo ya naqli testimonial nahi | ☐ 'Main kaun' — sirf sach |
| ☐ 3 services saaf | ☐ Process (4 step) aur contact page |
| ☐ PDF phone par test, file chhoti | ☐ Ek link (Canva website / apni site) |

Extra: Business Safety Checklist (Chapter 49)

- | | |
|---|--|
| ☐ Proposal mein final files ka upyog kiska — likha | ☐ Client accounts client ke naam; mujhe sirf access |
| ☐ Form mein privacy line, kam data | ☐ Advance bank app mein confirm |
| ☐ Photos/music/fonts ka source aur licence | ☐ Koi brand logo/character nahi |
| ☐ Facts official source se | ☐ AI ko personal data nahi |
| ☐ AI image/awaaz par label | ☐ Portfolio mein private data blur |
| ☐ Passwords client ke paas | ☐ Purana data hataya |
| ☐ Mahine mein ek baar 30-min Safety Check | ☐ 2-Step Verification on |
| ☐ 1930 aur cybercrime.gov.in yaad | |

BONUS 12

AI Tool Selection Cheat Sheet

Kaam → Tool → Free/Paid → Chapter. Last checked: 21 September 2026.

KAAM	TOOL	FREE / PAID (21 SEP 2026)	CHAPTER
Likhna, sochna, planning	Chat AI (ChatGPT, Gemini, Claude jaise)	Free plans maujood; paid plans mein zyada limits/features	4, 13
Research, source links	Perplexity (optional) / Chat AI web search	Free plan; paid vikalp	5, 13
Design, poster, PDF	Canva	Free plan; AI tools ke mahine mein 20 tak uses (free); Brand Kit, Resize, Template link — paid plans	14–18, 33–34
AI image	Gemini app	Free plan (seema ke saath); visible watermark aur SynthID niyam	16
Short video edit	Edits (Meta) / koi video editing app	Edits free; 'Edits Plus' paid tier ki ghoshna	21
Website (no-code)	Website builder (jaise Hostinger AI builder), Google Sites	Builders aksar paid (domain/hosting); Google Sites free	24–28
Local presence	Google Business Profile	Free	29
Customer chat	WhatsApp Business app	App free; Business AI India mein rollout (May 2026 se); paid 'business broadcasts'	37, 48
Forms aur data	Google Forms + Sheets + Drive	Free (Google account ki storage seema)	13, 47
Digital product bechna	Creator platforms (Topmate, Instamojo jaise), Amazon KDP	Commission/fees per sale — official pricing page dekhain	35
Payment	UPI app	Aam taur par free; PIN sirf bhejne ke liye	45
QR code	Canva QR code app	Free	38
Security	Google 2-Step Verification, password manager	Free	49

TOOL CHUNNE KA NIYAM

(1) Pehle free plan se kaam (2) app official store se, publisher check (3) price/plan official page par khud dekhiye (4) ek kaam ke liye ek tool — 10 apps nahi (Chapter 12–13).

BONUS 13

30-Day Action Sheet

Printable tracker — roz ek line. Print kijiye ya Google Sheets mein copy kijiye.

DIN	LAKSHYA	HUA	SAMAY	AAJ KI SEEKH / ATKA KAHAN
1	Apna Starting Point aur pehla AI app	☐

TOOL UPDATE PAGE

Tools Ki Current Sthiti

Is edition ki jaankari: 21 September 2026. Tools badalte hain — ye page har naye edition mein update hoga.

TOOL	STHITI (IS EDITION MEIN)	CHAPTER	LAST CHECKED
Chat AI (ChatGPT, Gemini, Claude jaise)	Free plans maujood; paid plans mein zyada limits/features	4, 13	21 Sep 2026
Perplexity (optional) / Chat AI web search	Free plan; paid vikalp	5, 13	21 Sep 2026
Canva	Free plan; AI tools ke mahine mein 20 tak uses (free); Brand Kit, Resize, Template link — paid plans	14–18, 33–34	21 Sep 2026
Gemini app	Free plan (seema ke saath); visible watermark aur SynthID niyam	16	21 Sep 2026
Edits (Meta) / koi video editing app	Edits free; 'Edits Plus' paid tier ki ghoshna	21	21 Sep 2026
Website builder (jaise Hostinger AI builder), Google Sites	Builders aksar paid (domain/hosting); Google Sites free	24–28	21 Sep 2026
Google Business Profile	Free	29	21 Sep 2026
WhatsApp Business app	App free; Business AI India mein rollout (May 2026 se); paid 'business broadcasts'	37, 48	21 Sep 2026
Google Forms + Sheets + Drive	Free (Google account ki storage seema)	13, 47	21 Sep 2026
Creator platforms (Topmate, Instamojo jaise), Amazon KDP	Commission/fees per sale — official pricing page dekhein	35	21 Sep 2026
UPI app	Aam taur par free; PIN sirf bhejne ke liye	45	21 Sep 2026
Canva QR code app	Free	38	21 Sep 2026

Google 2-Step Verification, password manager	Free	49	21 Sep 2026
1930 • cybercrime.gov.in • Sanchar Saathi (Chakshu)	Sarkari, free	49	21 Sep 2026

Khud update kaise check karein

- Tool ki **official** website/help page par "pricing" ya "plans" dekhiye — blog ya video par nahi.
- App store mein publisher ka naam aur "What's new" padhiye.
- Book mein jahan "Last checked" likha hai, wahan tarikh ke baad badlaav ho sakta hai — naya fact apni Prompt Library/notes mein tarikh ke saath likhiye.
- Niyam (GST, FSSAI, DPDP, IT Rules, ASCI) ke liye hamesha sarkari/official source — aur zaroorat par CA/vakeel.

GLOSSARY

Shabdkosh

Book ke English/technical shabd — simple Roman Hindi matlab ke saath, aur kis chapter mein detail hai.

A

Advance	Kaam shuru hone se pehle liya gaya hissa-paisa — dono taraf ka bharosa.	Ch 45
Affiliate	Kisi aur ka product recommend karke bikri par commission; disclosure zaroori.	Ch 43
AI (Artificial Intelligence)	Computer program jo patterns seekh kar likhne, samajhne, banane mein madad karta hai.	Ch 2
AI Agent	AI jo sirf jawab nahi deta, tools chala kar kaam bhi karta hai — seemit permission ke saath.	Ch 48
AI-assisted	Content aapne banaya, AI se sirf edit/sudhaar karwaya.	Ch 35
AI-generated	Content (text/image) AI tool ne banaya — chahe baad mein edit kiya ho.	Ch 35
Alt text	Photo ka chhota likhit description — Google aur screen-reader ke liye.	Ch 28
API	Do software ke beech tay tareeke se baat ka raasta — 'waiter' jaisa.	Ch 48
App publisher	App banane wali company ka naam — naqli apps se bachne ke liye check kijiye.	Ch 4
Automation	Kaam ke kuch steps ko apne-aap hone dena.	Ch 47

B

Batching	Ek jaise kaam ek saath karna — jaise hafte ke posts ek din mein.	Ch 22
Branding Kit	Naam, rang, fonts, tone — business ki pehchaan ka 1-page niyam.	Ch 18
Brief	Kaam shuru karne se pehle client se tay baatein — kya, kab, kiske liye.	Ch 17, 30
Broadcast (WhatsApp)	Ek message kai logon ko, alag-alag chat mein; sirf number save karne walon tak.	Ch 23, 37

Buffer	Hisaab mein joda gaya extra hissa (jaise 20%) kyunki kaam aksar soch se zyada lagta hai.	Ch 44
Business model	Aap kisko, kya dete ho, aur paisa kaise aata hai.	Ch 42
C		
Carousel	Ek post mein kai slides/photos.	Ch 20, 23
Case study	Ek project ki kahani: problem → kaam → nateeja.	Ch 30, 39
Catalog	WhatsApp Business mein products/services ki list.	Ch 37
Chat AI	Baat-cheet wala AI app — likhne, sochne, planning ke liye.	Ch 4
Chatbot	Customer ke sawal ka jawab dene wala program — menu wala ya AI wala.	Ch 48
Click-to-chat (wa.me)	Link jo dabate hi WhatsApp chat kholta hai.	Ch 28
Commission	Kisi bikri par milne wala hissa.	Ch 35, 43
Consent	Kisi ki jaankari use karne se pehle unki saaf 'haan'.	Ch 49
Consistency	Har jagah ek jaisa — design, naam, number, timing.	Ch 18, 33
Content calendar	Kis din kya post hoga — pehle se likhi table.	Ch 22
Content pillar	Content ke 3–4 mukhya vishay jin par baar-baar post hoti hai.	Ch 19
Conversion	Dekhne wala jab sach mein grahak ban jaaye (order/booking).	Ch 36, 38
Copyright	Kisi rachna (photo, text, music) par uske banane wale ka haq.	Ch 49
CRM	Customers ka hisaab rakhne ka system — shuru mein labels/Sheet kaafi.	Ch 37
CTA (Call To Action)	Post ke aakhir mein agla kadam — 'WhatsApp kijiye'.	Ch 20
D		
Deepfake	Kisi asli insaan ki naqli AI awaaz/video.	Ch 49
Demo	Client ke liye chhota sample — private, 'Sample' label ke saath.	Ch 40
Digital product	File ya link ke roop mein bikne wali cheez — eBook, template, checklist.	Ch 31, 34
Disclosure	Saaf batana — jaise 'Ad', 'Affiliate', 'AI-generated'.	Ch 35, 43, 49

Discovery call	'Haan' ke baad pehli baat-cheet — bechna nahi, samajhna.	Ch 41
Domain	Website ka pata — jaise sharmastore.in.	Ch 24
DPDP	Digital Personal Data Protection — India ka personal data kanoon.	Ch 49
Draft	Pehla kachcha roop — abhi final nahi.	Ch 26, 32
F		
Fact-check	Kisi baat ko official source se milana.	Ch 5, 32
Floor price	Neeche ki seema — isse kam mein kaam ghaate ka.	Ch 44
Follow-up	Jawab na aaye to izzat se yaad dilana.	Ch 41
Freelancing	Alag-alag clients ke liye project par kaam.	Ch 42
Funnel / Customer ka safar	Jaane → Bharosa → Kharide → Wapas aaye → Bataye.	Ch 36
G		
Google Business Profile	Google Search/Maps par business ka card — naam, timing, reviews.	Ch 29
GST	Goods and Services Tax — registration turnover seema par depend.	Ch 42
H		
Handover	Kaam ki chaabi (accounts, files, guide) client ko saunpna.	Ch 30
Hashtag	# wala shabd jo post ko vishay se jodta hai.	Ch 20
Hook	Post/Reel ki pehli line jo rokti hai.	Ch 20
Hosting	Website ki 'zameen' — jahan uski files rehti hain.	Ch 24
I		
Ideal Client	Aapke liye sabse sahi client ka khaka.	Ch 40
Income model	Kya bechte ho aur uska paisa kaise aata hai.	Ch 43
Invoice	Bill jo batata hai kis kaam ke kitne paise, kab tak.	Ch 45
L		
Landing page	Ek hi page ki website, ek kaam ke liye.	Ch 24

Lead	Aisa business/insaan jo shayad client ban sake.	Ch 40
Licence	Kisi cheez ko use karne ki shartein.	Ch 15, 34
M		
Maintenance	Har mahine ka tay kaam jo website/profile ko zinda rakhe.	Ch 30, 46
Meta description	Google result mein title ke neeche dikhne wala chhota text.	Ch 28
N		
Niche	Ek chhota, khaas bazaar ya group.	Ch 43
No-code	Bina coding ke banane wale tools.	Ch 26
O		
Offer	Client ko kya milega — kaam, seema, samay, daam.	Ch 36, 44
OTP	One-Time Password — kabhi kisi ko nahi batana.	Ch 45, 49
P		
Placeholder	[..] jaisi khaali jagah jo baad mein asli jaankari se bharni hai.	Ch 11
Portfolio	Chuna hua kaam, kahani ke saath — 'showroom'.	Ch 39
Positioning	Customer ke mann mein aapki jagah — 'wo wala jo...'	Ch 36
Prompt	AI ko diya gaya sandesh — sawal ya instruction.	Ch 6
Prompt Library	Kaam ke prompts ka apna collection.	Ch 11
Proposal	Kaam shuru se pehle 1-page likhit plan — scope, samay, payment.	Ch 45
Q		
QR code	Scan karne wala code jo link kholta hai.	Ch 38
Quick reply	WhatsApp Business ka '/' shortcut wala pehle-se-likha jawab.	Ch 37
R		
Referral	Khush client ka kisi aur ko aapka naam dena.	Ch 46
Revision	Badlaav ka ek round — saare sujhaav ek list mein.	Ch 44, 45
S		

Scope	Kaam ki seema — kya shaamil, kya nahi.	Ch 44
SEO	Website ko aisa banana ki Google samjhe aur sahi logon ko dikhaye.	Ch 28
Service-area business	Jo customer ke paas jaata hai — address chhupa kar profile.	Ch 29
Sitemap	Website ke pages ka naksha.	Ch 25
2-Step Verification	Password ke saath doosra check — account ki suraksha.	Ch 49
Synthetically generated	AI se bana ya badla hua content (IT Rules 2026 ka shabd).	Ch 49
T		
Target audience	Jinse aap is baar khaas taur par baat kar rahe ho.	Ch 36
Template	Ready design/format jisme sirf apni jaankari badalni hai.	Ch 15, 34
Testimonial	Client ki apne shabdon mein raay — permission ke saath.	Ch 39, 46
Thumbnail Test	Cover/design ko chhote size mein dekh kar check karna.	Ch 33
Tracking	Kaunse channel se customer aaya — naapna.	Ch 38
Trigger	Automation mein 'jab ye ho' wala hissa.	Ch 47
U		
UPI	Mobile se paise bhejne/lene ka system; PIN sirf bhejne ke liye.	Ch 45
V		
Validation	Likhne/banane se pehle check karna ki problem asli hai.	Ch 31
Value	Customer ko kya fayda — jo daam se zyada lage.	Ch 36
W		
Watermark	Image par nishaan — kaun sa tool/licence.	Ch 15, 16
Wireframe	Website ka simple khaka, bina rang-roop ke.	Ch 25
Workflow	Kaam karne ke steps ka kram.	Ch 47

CONCLUSION

Aakhri Baat aur Aage Ka Raasta

Kitaab khatam hoti hai — aapka kaam yahin se shuru hota hai.

Aapne is kitaab mein ek sawal se shuruaat ki thi — *"Kya main sirf ek mobile phone aur AI se apna pehla business shuru kar sakta/sakti hoon?"* Iska imaandaar jawab hai: **haan, shuruaat ho sakti hai — lekin jaadu se nahi, aadat se.** AI likhne, sochne, banane mein madad karta hai; bharosa, izzat aur mehnat aapki taraf se aati hai.

Yaad rakhne ki 7 baatein

- ☐ AI aapka sahaayak hai, aapki jagah nahi — har jawab check kijiye.
- ☐ Customer se shuru kijiye, product se nahi.
- ☐ Chhota, saaf offer; likhit seema; imaandaar daam.
- ☐ Kaam ke lakshya rakhiye — kamaai ka vaada kisi se na lijiye, na kisi ko dijiye.
- ☐ Har vaada sach, har label saaf — "Fictional", "Example", "AI-generated", "Ad".
- ☐ Client ki chaabi client ke haath mein — accounts, files, data.
- ☐ Roz thoda — aur har hafte 20 minute ka review.

Aage kya seekhein

AGAR AAP...	AGLA HUNAR
Service business chala rahe ho	Ek niche mein gehraai (jaise salons ya restaurants), client communication, chhoti team ke saath kaam
Digital products bana rahe ho	Audience banana (value content), email list, product ka doosra version feedback se
Website mein maza aata hai	AI-assisted coding (Chapter 27) ko gehraai se, speed aur accessibility
Content mein maza aata hai	Video storytelling, Reels ka data samajhna, brand voice
Systems pasand hain	Level 3 automation tools, Sheets formulas, client dashboards

Kaise badhein — 3 kadam

1. **90 din tikiye** (Chapter 50 ka plan) — phir data dekh kar badliye.
2. **Ek cheez mein pehchaan** — "wo wala jo salons ki Google profile theek karta hai".
3. **Doosron ko sikhaiye** — jo seekha, 10 logon ko sikhaiye; aapka hunar aur bharosa dono badhenge.

"Mobile tumhari dukaan hai, AI tumhara sahaayak — aur imaandaari tumhari sabse badi poonji."

— Imran bhai

REFERENCES

Sources aur References

Har chapter ke sources — official pehle. Saari jaankari 21 September 2026 tak check ki gayi; iske baad badlaav ho sakte hain.

Note: Kuch official pages automated access block karte hain; wahan search result ya bharosemand secondary source use kiya gaya aur chapter mein saaf likha gaya.

LEKHAK

Lekhak Ke Baare Mein

Sohail Dev ek freelance web developer aur content creator hain. Wo local businesses ke liye websites banate hain aur Hindi-first, India ke hisaab se digital products aur content par kaam karte hain.

Ye kitaab un logon ke liye likhi gayi hai jinke paas laptop nahi, bada budget nahi, lekin ek phone aur seekhne ki ichha hai — bina jhoothe vaadon ke, practical tareeke se.

FEEDBACK

Kitaab mein koi galti, purani jaankari ya sujhaav ho to lekhak ko bataiye — agle edition mein sudhaar hoga. Sujhaav us platform ke zariye bhejiye jahan se aapne ye kitaab li.
